OFFICIAL JOURNAL.

THE COMMON COUNCIL.

BOARD OF ASSISTANT ALDERMEN.

TUESDAY, September 18, 1855.

The Board met pursuant to adjournment.

Present: the Hon. G. Stith, Messrs. Banister, Benit, Bonny, Bridge, Chambers, Chiapella, Eager, Guyol, Hebrard, Long, Rushs, Thayer and Wiltz—14 members.

The reading of the journal was dispensed with.

The following communication from the Mayor was read, the first part of which was referred to the Commissioner of Police, and the second to the Committee on Finance:

MAYORALTY OF NEW ORLEANS,
City Hall, 18th Sept., 1855.

To the President and Members of the Common Council:

Gentlemen—I have received official notice from the Department of State of the United States, and the United States Consul at Bremen, that the emigration agents had caused circulars to be issued for the interior of Germany, cautioning a certain class of emigrants not to take passage by way of New York, on account of pauperism in that place, but at the same time advising them to direct their course either to New Orleans or Baltimore, where no such restrictions are stated to exist.

On referring to the law of this State of the 16th March, 1855, being satisfied that I was fully justified in taking the summary steps to prevent this contemplated outrage upon our community—on the 10th inst. I issued a circular to masters of vessels, which I herewith send you, for the purpose of cautioning all persons interested from carrying out, or participating in a measure which would be productive of such injurious consequences to the interests and morals of our city.

This circular I have caused to be promulgated with as much publicity as possible, and have given notice thereof to the Secretary of State of the United States, and our Consul at Bremen.

I have, since receiving official information from the United States Consul at Vera Cruz, to the effect that we are threatened from that quarter with an exodus of numbers of disreputable characters, bankrupts in reputation and purse, paupers and criminals, who, taking advantage of the unsettled condition of Mexico, and having led, whilst there, turbulent and disreputable lives, will swarm our shores, under pretence of being exiles for opinion's sake or possessions, &c.

In view of such flattering acquisitions to the morals of our city, I deem it absolutely necessary that stringent measures be adopted, and so far as depends upon my power, all legal means to prevent shall be used; and hereafter that notice be published to the world, I would request of you authority to cause to be printed sufficient number of extracts of the laws of the subject, together with the circular in question, for distribution.

I have also taken steps, by giving instructions to the police in the premises, and informing them of the prohibitment of such persons who have been mentioned—but by the Consul at Vera Cruz.

In obedience to the 5th and 8th articles of an ordinance of the Common Council, No. 1787, declaratory of the views of the Council as to the best disposition to be made of the Molbonough estate, approved 31st July, 1854, I herewith transmit the information thereof to the authorities and agents of Baltimore; and I have with pleasure yes the answer of the Baltimore agents, being the only response yet received by me.

Very respectfully,
JNO. L. LEWIS, Mayor.

Mr. Eager offered the following resolution, which was adopted by the following vote, the rules being suspended:

Yeas—Messrs. Banister, Benit, Bonny, Bridge, Chambers, Chiapella, Eager, Guyol, Hebrard, Long, Rushs, Thayer and Wiltz—13.

Resolved, That the Mayor be hereby authorized to have published a circular containing such extracts of laws and ordinances of Louisiana concerning the importation of paupers and vagrants to this country as he may think proper.

Mr. Giffen took his seat.

The following communication from the Comptroller was read and, on motion, referred to the Finance Committee, together with the documents accompanying the same:

New Orleans, September 18th, 1855.

The following communication from the Street Commissioner was read, and, on motion, referred to the Committee on Streets and Landings:

STREET COMMISSIONER'S OFFICE,
NEW ORLEANS, Sept. 15, 1855.

To the Honorable the Common Council:

Gentlemen—The contract with J. B. Fitch for cleaning all the streets, and keeping in repair the unpaved streets of the Tenth Ward, will expire on the last day of November next.

If it is the intention of the Council to re-sell said contract, it is time the preliminary steps should be taken, by the passage of a resolution authorizing the Comptroller to sell it.

You are also respectfully reminded, that in the Third District, there is no contract in force for the same service. Your obedient servant,

ALB. S. PHELPS,
Street Commissioner.

PETITIONS.

The following petitions were referred to the Committee on Finance:

Patrick Mahan, praying for reduction of taxes.

E. Pistchard, Keeper Police Jail, asking payment of bill.

Lanauche, asking payment of bill.

The petition of S. E. Schlunns, Clerk Third Justice's Court, asking payment of bill, was referred to the Judiciary Committee.

The petition of Charles F. Fisher, asking permission to exhibit his painting of the Battle of New Orleans free of license, was, on motion, laid on the table.

The petition of John Cheneville, Commissary of the Louisa Street Market, offering D. Benedict as his security, was read by its title.

Mr. Wiltz offered the following resolution, which was read and adopted unanimously, the rules being suspended:

Resolved, That D. Benedict be and is hereby accepted as the security of J. Cheneville, Commissary of the Washington Market, Third District.

On motion of Mr. Wiltz, the above resolution was sent to the Board of Aldermen for concurrence.

Mr. Bartlette took his seat.

RESOLUTIONS.

Mr. Bartlette offered the following resolution, which was read twice and unanimously adopted, the rules being suspended:

Resolved, That section 4th of an ordinance, No. 2100, approved April 5th, 1855, entitled "An ordinance to reorganize the Department of Police in and for the city of New Orleans," be and the same is hereby amended by striking out the word "Mayor" and inserting in lieu thereof the words "Common Council."

The same member offered the following resolution, which was read, and, on motion, referred to the Committee on Streets and Landings:

Resolved, That hereafter when contracts are to be sold for the cleaning and repairing of streets, that each street be sold separately.

FINANCE COMMITTEE.

Mr. Eager offered the following report, which was read and adopted:

The Committee on Finance have the honor to report upon the several matters referred to them as follows:

Upon the petition of P. A. Lenarze asking payment of bill for tools, etc., furnished to Police Jail in 1854, adversely, as Mr. Beauregard had no authority to make said purchases.

Upon a resolution repealing so much of ordinance No. 132 as allows one clerk in the Treasurer's Department at a salary of $600 per annum, adopted by Board of Aldermen August 6, 1855, favorably.

Upon a resolution repealing so much of ordinance No. 132 as allows one clerk in Comptroller's Department at a salary of $900 per annum, adopted by Board of Aldermen August 6, 1855, with committee recommend to concur in the same.

Upon a communication from O. DeBuys, Comptroller, advising of the adjudication for furnishing stationery to the city offices for one year to J. B. Cusset, we, your committee think the prices allowed in said adjudication are too high, and would recommend that said contract be re-sold.

Your committee offer a resolution for the payment of sundry bills.

Respectfully,
J. EAGER, Chairman,
B. W. HEBRARD,
ADAM GIFFEN,
A. CHIAPELLA,
I. BRIDGE.

The following resolution accompanying the above report was read and adopted by the following vote, the rules being suspended:

STREETS AND LANDINGS.

Mr. Thayer offered the following report, which was read and unanimously adopted:

The Committee on Streets and Landings have the honor to report on the various subjects referred to them, as follows:

1. Your committee recommend the adoption of the resolution of this Board, instructing the Comptroller to call in all outstanding bills in the hands of contractors, for paving, etc., and transmit the same to the Treasurer, when he shall have overdue bills thirty days, and if not then paid, the City Attorney to deposit the same in the mortgage office.

2. On the resolution of the Board of Aldermen "repealing so much of Ordinance No. 3[illegible] as authorizes the appointment of Deputy Surveyor, Draughtsman; also repealing sections 6th, 7th and 8th of said ordinance, and abolishing the office of Superintendent of Works under Contract"—your committee report and recommend concurrence in the same, except the abolishment of the offices of Deputy Surveyors, deeming the services of said officers indispensably necessary to the public convenience, and no expense to the City Treasury.

3. Regarding the resolution of the Board of Aldermen, reducing the salaries of Deputy Street Commissioners, abolishing various offices in the Street Commissioner's Department, and amending Ordinance No. 2293, your committee report adversely to concurring therein, for the reason that the duties of the Street Commissioner's Department are being daily increased by the curtailment of the same in the Department of the Surveyor. Therefore, your committee consider any diminution in such offices inexpedient.

4. Your committee report adversely to concurring in a resolution adopted by the Board of Aldermen, "regulating the paving of streets and banquettes," deeming the same illegal.

ISAAC LEVER,
P. HOWELL,
P. S. WILTZ.

Nays—Messrs. Banister, Eager and Thayer—3.

On motion, the Chair appointed on the special committee to enquire into the expediency of fastening out the revenues of the city Workhouse, and all other revenues of the city, Messrs. Wiltz, Banister and Giffen.

On motion of Mr. Bartlette, the Chair appointed the original committee called for by ordinance No. 2292, entitled "An ordinance to revise and codify the general ordinances now in force and governing the city of New Orleans, together with all existing acts of the State Legislature touching upon the city government."

Mr. Chambers begged to be excused from acting on said committee; granted. The Chair then appointed Mr. Wiltz in his place, and said committee is now composed of Messrs. McKnight, Stith and Wiltz.

On motion, the Board adjourned until Friday next, the 21st instant, at 6 o'clock, P. M.

JAS. A. HOPKINS, Secretary.

St. Louis
OIL MANUFACTURING COMPANY,
Depot and Office, No. 38 North Third street,
ST. LOUIS, MO.

STEPHEN RIDGLEY, President. ..... WILLIAM C. LOGAN, Treasurer.

The Company manufacture Refined Oil, Crude or Cordage Oil, Paint Oil, Tanners' Oil, Lamp or Burning Oil, Machine Oil, Neat's-foot Oil, and other compounds adapted to dealers and consumers, for the purpose herein mentioned.

REFINED OIL—Is recommended as a substitute for any of the above, for all purposes for which Sperm Oil is generally used.

CRUDE, or CORDAGE OIL—Will be found equal to any Machinery, or Lard Oil, for lubricating Mill Work, etc., and for preparing Manilla and Hemp for Cordage, either alone or in combination with Whale or other Oils; also for making Printers' Ink, and for oiling Wood for its preservation.

PAINT OIL—A substitute for Linseed Oil; dries well in about twelve hours in the open air, and is fully equal to the oil it supersedes.

TANNERS' OIL—Is a substitute for Neat's-foot Oil, generally—equal to the best oils commonly use, and decidedly better than Whale Oil.

LAMP, or BURNING OIL—The Oil contains a large per centage of camphene, consequently it cannot be used in ordinary lamps. A simple invention, patented by the undersigned in the fall of 1854, fits the lamps with a burner unsurpassed by any other light.

SAPTHA—For manufacturing Varnishes, Coating Plates, etc.

PICKLING—Is all prepared for work with Pitch-it uses, being a very superior article.

☞ FOR LUBRICATING MACHINERY—The Oils recommended for that purpose should be applied three times in the same period that other oils would be applied twice, but in a diminished quantity, so that the expenditure would be less. It is useful to clean the machinery before applying the Oil, or at least, cleanse after its first application, as it tends to free Machinery from the impurities of other Rosen Oils.

The Company is now prepared to fill all orders, and at rates that compare favorably with any selection.

☞ All orders forwarded to the Treasurer will be promptly returned to. jul 17.

BLADON SPRINGS, ALA.—The property of these celebrated Mineral Springs, situated in a healthy region of the South, four miles west of Tombigbee river, and sixty miles north of Mobile, now beg to call the attention of those leaving the city for health or pleasure during the coming season, that they have added to their already extensive and accommodations contemplated and are now prepared to receive visitors in a style of superior comfort. They also begin to hear that their spirit is wanting on their part to make a summer resort as these Springs the most agreeable.

"Dwelling the subject," says Dr. Riddell, "of those waters which may be said to be yet sub judice, we may safely attribute to these waters, some, if not all, of the properties, which are said to be possessed by the presence and action of inherently gold secretions, the alkaline base of the Bicarbonate of soda, unless with acid neutralize substances, and the Iodine, which is said to be present in all a portion of carbonic acid which is more combined in the acid effects than the other portions of the acid, the effective, tonic and nervous systems, relaxing tissues, stimulating, refreshing and invigorating—diminishing the irritability of the stomach. In gout, lumbago, sciatica, rheumatism, and in the cases of those who are in danger of gravel, where the calculus arises from the lithic acid deposited in a form of a Bicarbonate, in an actual volume, by means of the soda, as an alternative, which is the most effective, and which by lessen the habitual capable and reduced, these waters must prove to be of great value. For the other ailments, which are specified in the Bladon Springs Spring is preferred, amount to Kent is the bicarbonate of soda.

"Carbonate of soda is a medicine recommended in cases of hooping cough, scrofula, bronchocele, etc. And it is evident that the use of the Bladon water would be a mild substitute for the official alkaline carbonate.

"Sulphuretted waters are invaluable in many diseases, and are well known and employed in skin diseases; I suppose the medicinal power will prove, prurigo, scabies, pityriasis, herpes, etc., and cutaneous affections, which are the result of the disorganization of the secretive functions, tuberculous and chlorosis, I recipe discussions and gout." For those purposes the Alkaline Sulphur Spring could be prescribed, taking care not to exceed the quantity.

"Be extremely known as the cases where at the present time, that it is almost impossible to be able to give an alkaline sulphur water they should unsuspected in all the Southern section of country, and though excelled in amount of mineral matter, they barely yield to any in a possession of a medicinal, healing virtue.

This opinion is confirmed by the extraordinary cures which have been effected by the use of these valuable waters.

Carriages and horses are in attendance at all times to convey passengers to and from the river, and for the use of visitors during their stay.

CONNER & WOOTEN, Proprietors.

N. B.—The undersigned beg to append the following recommendation of these waters, that they copied from the Mobile Daily Tribune of that value:

We, the undersigned, from personal experience with the qualities of the waters known as the "BLADON SPRINGS," Alabama, thought it only a giving our opinion in favor of the valuable mineral properties, due notoriety to the public and the beneficial effects resulting the use of them, especially in chronic inflammations of the alimentary canal, in the skin, mucous and arterial tissues, in cases of hepatic and diversale cases, in peculiar cutaneous affections of the skin in biliary complaints in certain forms of diseases of the urinary organs, and in neuralgia, depending on rheumatic affections.

LAUDERDALE WHITE SULPHUR SPRINGS, Lauderdale County, Miss.—These celebrated popular Watering Place, the valuable mineral properties of which have long been generally known to the medical faculty and the public, is now in a condition to accomplish by its use of the Mobile and Ohio railroad, and thus of six, four hours from New Orleans, Mobile and Ohio, and Ala. and Miss. was proposed for the reception of visitors on the 15th May.

Now, convenient to the depot of buildings have been erected, new improvements have been made, and the entire premises since last season, have undergone a thorough renovation. The new lodges are fitted up and very neat, constructed and furnished with a view to the luxurious comfort of guests.

The proprietors, and the public generally, as well as the old patrons of the Springs, are invited to visit the Springs, and to make their sojourn at the Springs at each agreeable, delightful and comfortable to health.

The Ohio and Mobile Railroad passes within one mile of the Springs. The cars are already running within thirty miles, and a line of stages that the horse and coaches connect regularly with them, conveying passengers from Mobile to the Springs in some twenty two hours time. The time will be reducing to twenty in the early road nearness, and it is confidently expected that by the 1st August the cars will be running within eight miles of the Springs. This line of coaches is arranged at Livingston with the Demopolis and Macon line of coaches, passing over the counties, and the Gainesville, Clinton and Columbus line, thus affording to many the certain means to one of the most valuable and desirable watering places in the South.

The proprietors, grateful for past patronage, will avail himself of every facility for contributing to the comfort of his guests, and to short, intense pleasure, to the patronage of invalids and pleasure seekers at a comfortable establishment.

ELECTROPATHY.—Dr. J. S. A. FORD, of Philadelphia, pupil of Drs. Pi[illegible] and Sheridt, of New York, announced by eminent Physicians and Scientists of many years practice in this city, claim his services as operator in ELECTRICITY. Office, 90 Carondelet street.

The great medical Agent operates by its vital-strong force in restoring power and vigor to the nervous system, and shall at whatever the other cause of disease. That electricity exists in all animals and in animate life, proves that it is the attractive and repulsive principle of vital motion, as proposed still doubt. It therefore follows that all diseases arise from a disturbance of the equilibrium and weakening of the electrical currents governing the body, and in no other way, can a diseased organ or part of a medicine be restored, as a healthy action of its functions applied to the vital electricity. Consultation free to a selected number of patients, at the Electrical Medical Institute will be resorted to.

Office hours from 9 to 12 A. M. and 2 to 5 P. M.
