CITY ITEMS.

SHORT OF SPACE.—Several miscellaneous items that we had prepared for this morning's paper, are crowded out by more important matter. The Man of the Moon will be attended to in due season.

THE WEATHER.—Jack Frost, Esq., officially announced his arrival at an early hour yesterday morning. He pitched about our levees and house tops quite extensively, until Dan Phœbus got his eye upon him. Of course, Yellow Jack is now among the missing. He took Kenoch leave either on Thursday night, or a few nights previously. Yesterday the temperature was considerably warmer than on the previous day, and the weather is now as pleasant and beautiful as it need be.

CHARITY HOSPITAL.—The following is a report of this institution for the week ending last evening, the 26th inst., at 6 o'clock:

Admitted	202
Discharged	113
Died (3 of yellow fever)	3
Remaining under treatment	991

FIRES.—The drug store of Mr. Ferro, at the corner of Orleans and Dauphine streets, the entire block—was totally destroyed by fire, with its contents, between six and seven o'clock last evening. The fire originated from the explosion of a camphene lamp in the hands of a clerk in the store, who had his hand and arm badly burned. The loss of Mr. Ferro we did not ascertain. The building was insured in the Orleans office for $6000.

Another fire occurred in a house on St. Jane street, between Common and Gravier, which did no damage to speak of.

THE BOLIVAR STREET MURDER.—The body of Margaret Leonard, by whom death, or supposed murder by her brothers Thomas and Joseph Fitzgerald, is alleged in yesterday's paper, was yesterday morning exhumed from its resting place in the Cypress Grove Cemetery. Dr. Schaffer examined it, and unhesitatingly pronounced death to have been caused by brutal beating, or violence of Harshes, as was stated in the fictious burial certificate handed to the sexton by the brothers of the deceased. In the evening the coroner investigated the case. Numerous witnesses were called, and from their testimony it appeared that the deceased and her brothers were very poor Irish people, and lived on the corner of Bolivar and Gravier streets, were much addicted to strong drink; that the brothers were in the habit of severely maltreating their sister; and that on the night of her death, after they had beat her in such a manner with their fists, a stick of wood and a chair, that she died on Thursday. Dr. Schaffer found externally the marks of different violent blows upon interior examination he found the lungs ruptured by concussion of the brain, congestion of the lungs, and extravasation of blood to the intestines. Upon this with the testimony adduced, the jury of inquest gave a verdict that the deceased had been murdered by her brothers. Joseph Fitzgerald, who was arrested on Thursday night, was yesterday sent to the Parish Prison by Recorder Bright, before whom Jane Hickerson made an affidavit of the murder. The other brother, Thomas, has not yet been arrested.

INCENDIARY ATTEMPT.—Another attempt was made on Thursday morning to burn the residence of Mr. Louis Cotten, on Ursulines street, between Dauphine and St. Claude. The flames were extinguished before they did much damage, and a quantity of light wood and outside, found in a combustible place, evidenced it to be the work of an incendiary who has not yet been detected. The same house was fired by probably the same incendiary only a few days previous.

HARBORING A RUNAWAY.—Recorder Ramos yesterday issued his warrant for the arrest of a certain person, name not given, on Dauphine street, between Ursulines and Bienville, charged by Octave Andry with harboring and concealing his sister's runaway slave woman Mary.

ASSAULT, ETC.—Henry Marie was yesterday up before Recorder Ramos on a charge of assaulting and choking J. B. Fleche, at the corner of Chartres and St. Peter streets. He gave bail to appear when notified.

A warrant was sent out after Bill Clark, charged with incitement Christian Rickerson to desert the Marine Hospital and Revenue Cutter service.

VIOLATION OF THE PAUPER ACT.—Lieut. Freemantle, of the Second District police, yesterday made affidavit before Recorder Bright, charging Capt. Quackenbush, of the ship Shakspeare, with a violation of the law prohibiting the importation of paupers and vagabonds. A man named William Rickel, who landed from the Shakspeare a few days ago, having applied at the police office for lodgings, being without money or any means of support. A warrant was issued for the Captain's arrest. Lieut. F. is entitled to much credit for the sharp lookout he has kept upon this foreign arrival since the Mayor's promulgation of the law in question. He is the only police officer, we believe, who has yet made any arrests under the law.

BREACH OF TRUST.—A man named O. Bloom, was yesterday arraigned before Recorder Ramos, on a charge of having gone to the house of Charles Reese, at the corner of Burgundy and Toulouse streets, about three weeks ago, and obtained from Mrs. Reese a silver watch and a gold chain, upon representations that he was a jeweler, and would mend the same; since which time Reese has not been able to get them back, although he has repeatedly visited Bloom at the residence, No. 29 Crepe street, for the purpose. In default of bail to appear when notified, Bloom was sent to jade in prison.

DOING THE FOUND-KEEPER.—Jeremiah O'Keefe was yesterday arraigned before Recorder Bright, on a charge of having diddled Uriah Sadler, keeper of the First District Pound, out of $2 50, on Sunday last. Sadler swore that he did so by coming to the pound to redeem two goats, and persuading him to give his receipt for the money before getting it, in consequence of which he did not get it all. The accused gave bail to appear on the 31st.

WORK-HOUSE.—Henry Kelly and Tim Dwyre, drunken vags, were yesterday sent out for a month each by Recorder Bright; and Apollonia Stewart, of St. Thomas street, was sent out for fifteen days.

FIRST DISTRICT COURT.—The Grand Jury yesterday dismissed Henry Weside, charged by Philip Beyer with perjury. There were no trials.

YOUR MONEY OR YOUR HAT.—Auguste Grandjean, keeper of a grocery at the corner of St. Anthony and Love streets, in the Second District, is to be examined in a few days by Recorder Summons, on a charge of assault and battery upon George E. Coolidge. It seems that Coolidge owed Grandjean a trifle for groceries, and couldn't "pay up" when Grandjean called for it, upon which Grandjean snatched his hat, which was Coolidge's a time worth five dollars; thereby subjecting him to the disgraceful alternative of shelling out money when he was as innocent of the article as a brickbat is of cider, or lacerating the feelings of his family by going home bareheaded.

DISCHARGED.—John Craig, the young man arrested on suspicion of having been concerned in robbing J. W. Zachariè & Co. of $2500 in May last, was yesterday discharged by Recorder Bright, no one appearing to prosecute him. Mary Ann Dougherty, f. w. c., accused of vilifying Catherine Hennessy, of No. 107½ Carondelet street, was also discharged. Philip Ryan, accused by Catherine Miller of perjury, was also discharged.

COMMITTED FOR TRIAL.—*Carrying a Weapon.*—John Hart, arrested by Lieut. Kearney for interfering with him in the discharge of his duty on St. Charles street, at Thursday midnight, was yesterday sent before the First District Court by Recorder Bright, for carrying a dirk-knife concealed on his person. He gave bail to appear.

COMMERCIAL MATTERS.

New Orleans Money Market.

CRESCENT OFFICE, No. 76 Camp street.
Friday Evening, October 26, 1855.

The cold weather which we have been favored with for the past few days is declining, and the good autumnal atmosphere of the sunny South, and which has no controlling influence on the feelings of our resident population, was observable to-day in all our great thoroughfares. The North Pole blast which operated so strongly in commercial circles yesterday is fast passing off, and the commencement of the next week will present the usual uniformity, in fact, we suppose, till another manifesto issues from the Bank of England, designed to raise and designate the value of money; nevertheless a good feeling was perceptible to-day in financial and commercial circles. The Western produce merchants are in the best of humor, not only with themselves, but with the apparent condition of the European continent as regards Breadstuffs, yet we cannot discern where the margin for profit is, on Flour at $7 75 to $8 00 per barrel, and freight 6s to 7d (Sterling) per barrel, Exchange from 6½ to 7 per c., and the quotations in Liverpool 40 to 45s 6d. It will be observed the British Government only purchase for the use of Her troops and does not pretend to feed the people, à la Napoleon.

The mails from New York arrived at a late hour to-day. The letters by the Atlantic were received, but their contents are not of any great interest, being rendered nugatory by the advices per Africa. The specie in the Bank of England was reduced below £10,000,000. The changes in the last statement in the Bank of England were of a very unfavorable nature. In the week in which this return embraced, the rate of interest was increased to five per c., and the subscription week is was enhanced to 3½%.

The London Morning Chronicle, of the 5th Oct., says:

"There has been increased tightness in the money market and the currently rumored "crisis" has been even. The demand for gold is fitful of Christmas, and the lighters appears desirous to be much more severely experienced. The recent extensive shipments of gold to the Continent, to which we have to allude, and of which we have reflected, will be felt more and more, and will, we have good reason to know, still be felt for some time to come a source of anxiety and to some persons perplexity. These expectations, as we have before mentioned, are actually anticipated with trade. Had they referred to commercial speculations they would have shown it in the exchanges but they have not done so. It has been said that the gold thus sent abroad will shortly come back again. The states to be full of bullion, and we remarked yesterday, that the most attention cannot be given to it, and knowing its importance we have devoted considerable time to its consideration. After further endeavors to investigate these operations, and to trace them from their origin to their end, we have come to the conclusion, negotiating for further exportations of gold under necessary similar circumstances, have been opened, and that the shipments will continue. We have every reason to believe that they will be of very large amounts, and extend over some period of time. The negotiations are serious, and the transmissions of the gold, indeed every thing relating to the matter, are conducted with great circumspection and secrecy. That the wants of France have by these means been supplied, there can be little doubt; but the shipments are not confined to that country. They are destined for Russia. Not only do circumstances, which have unavoidably transpired, denote this, but the nature of the gold, which makes this not merely a probability but a certainty."

The Money Market remains in the same early position we have daily noticed for the week, though the feelings in Bank circles are to the effect that does not signify there is any greater demand for money than the Banks can supply on all good to medium commercial paper which comes within 60 and 90 days, though in special cases longer dated will pass in limited amounts.

The Stock Market is quiet; there were negotiations going on for 150 shares Bank of New Orleans at 92. We did not learn they had reached a contract or transfer. Opelousas Railroad is advancing, and a few shares can be obtained now and then at ten dollars. The road is progressing finely, and ere long the earnings, as well as the bullocks, will have a telling effect on its rates.

The negotiation on the part of the city authorities with the Bank of Louisiana has put all those really interested in our city's credit to the best of humor, and a feeling of congratulation is observable in all circles. Let it not be said hereafter that the Ajax has no sympathy in common with the multitude, though unquestionably the action of the Citizens' Bank on a former occasion might have been an incentive for the Ajax to show itself.

The Exchange Market was steadier to-day. For Sterling there was more inquiry at our quotations. Time bills on New York have advanced, some of the Banks were taking factory bills at 60 days at ¾ per ct., and Bankers and Exchange dealers advanced to 1¼ discount. The sale quoted in our last at 1¼ dis. for thirty days, should read 1½, a difference made by the types.

The Bank was selling at ⅛ per ct., and private drawers from ⅜ to ½ and ⅝, and buying sight and short sight from ⅜ to 1¼ dis. We quote this evening:

Sterling on London, long bills	7¾ @ 8	Cuba, Havana	¼ @ ⅜

There are reported frequently sundry sums to Adams & Co.'s Express, which, often instead of being Coin are Bank Notes. These amounts we do not enter in our statistics, nor have we entered the sums transferred to the Sub-Treasurer. Those sums will be entered in due season, and amount now, that is, the orders of transfer, to $900,000 since the 1st of September. All has not yet been received.

The editor of the Economist, in speaking of business prospects, says: "The operations of war upon the finances of Western Europe, accompanied, as it is, by short harvests, is well calculated to promote caution among our importing merchants. The importations of 1853 were very large, and towards the close of that year the harvests having proved short, symptoms of distress were manifest abroad causing large consignments of goods that were sold at ruinously low prices, and considerable stocks were required to be held over. The moderate importations of the present season, involving the scarcity of many descriptions of goods at a time when bountiful harvests have restored the power of consumption, have given great profits to holders of goods, who nevertheless are disposed to reduce stocks to a very low figure to close the season in anticipation of large imports for the spring. These anticipations are likely to be realized, not only through orders, but through a revival of consignments of goods, of which the short harvests and war taxes may diminish the consumption in England and Western Europe. Food is there to be dear and money also, and those who order goods may find them competing here once more with goods consigned for a market at any price."

REVIEW OF THE MARKETS.

SATURDAY MORNING, Oct. 27, 1855.

Our general market has not presented a very active appearance during the past week, though for several articles a fair demand has prevailed. Cotton has been unsettled by the recent unfavorable advices from Europe, while an advancing freight market has intensified the depression, and prices have further declined ¼@⅜ ⅌ lb. Tobacco has improved; Sugar has been firm, and Molasses dull. Flour has met with a fair export demand, and the market has latterly worn a very firm appearance. Wheat has slightly declined, while Corn has been dull, and Oats have advanced. Provisions have continued quiet. Freights have advanced, and Exchanges have met with an improved demand.

On Thursday morning we published the Africa's accounts, embracing Liverpool dates to the 13th inst.—one week later than those brought by the Atlantic. They reported a further decline of ⅛@¼d in the Cotton market at Liverpool, with sales for the week preceding the steamer's departure of barely 31,000 bales. Fair Orleans was quoted at 6¼d, Middling Orleans at 5¾d, Fair Uplands at 5⅞d, the greatest decline being on Mobile and Uplands and on the lower grades of all descriptions. Breadstuffs had advanced. The Money market was more stringent, but Consols at the close were quoted at 87¼—which would be an advance.

COTTON.—The Cotton market wore a heavy appearance in the early part of the week, and up to Tuesday evening prices declined fully ¼c on all qualities, the sales of the three days running up about 14,500 bales, viz: On Saturday 5000, on Monday 5000, and on Tuesday 4500 bales. On Wednesday about 5000 bales found purchasers, although factors were willing sellers at the reduced rates. On Thursday morning operations had the Africa's accounts before them, and factors showed a willingness to make liberal concessions, with the result, however, of selling barely 1000 bales. The prices paid were very irregular, showing generally a further decline of ¼d and in some instances ⅛@⅜c ⅌ lb. Yesterday the market was very dull, and only about 2000 bales were sold, making the total business of the week 27,500 bales. We now quote:

TOBACCO.—There has been some movement in the Tobacco market during the past week, and on Saturday and Monday 591 hhds were sold in a single day, the rates being suppressed except for a lot of 48 hhds Admitted and Refused at 7¾c ⅌ lb. In addition to those we have heard of a few sales, including 5 Admitted at 8¼@8½; 4 at 7½; 4 at 8¼, and 10 at 10½ ⅌ lb.

The stock on sale has thus been reduced to the height bottomed of 1500 hhds, which have been held at an average of 8¼@8½c ⅌ lb. We raise our quotations as follows:

SUGAR.—The receipts of Sugar have been light, and the market has wore a very firm appearance during the greater part of the week. The sales sum up about 600 hhds of the Old crop, the rates closing at the range of our quotations below. Of New crop about 40 hhds have been sold at 6¾@8¼c for Inferior to Fully Fair, and 7¼@7¾c for Prime and Choice, made by the centrifugal process. We quote:

Week's receipts, 1,327 hhds—Exports, 696 hhds.

FLOUR.—There was a good export demand for Flour in the early part of the week, but the market rather quietly assumed a heavy appearance, without, however, any material change in prices. The sales up to Wednesday evening embraced 11,000 bbls, at a range of $6 12½@$8 37½ for Superfine Ohio and St. Louis, $8 50@$8 62½ for Fancy, and $7 25@$7 75 ⅌ bbl for Fine and Superfine, with a few lots of Extra at $8
