ST. CHARLES INSTITUTE,
Situated at Greenville, Lake Pontchartrain, Jefferson Parish, La., conducted by Madame C. MACE.

THIS INSTITUTION, already favorably known to the public, having attained as great a degree of prosperity, Madame MACE has found it necessary, in order to extend the accommodation and comfort of her pupils, to commence the erection of a establishment of this order, to purchase the beautiful premises which she has now occupied for two years. In purchasing of Madame Lafontaine, she secured rooms, large, lofty, and well ventilated, and in the new establishment, which will be ready for the reception of pupils on the first of November next, she has spared no pains to render it in all respects, a home for young ladies, combining the advantages of the country with those of the city, in the facility of access to the best masters, and the ease with which pupils can be sent to and from their homes. The course of instruction embraces all the various branches required for a complete English and French Education, and is pursued under the immediate care of Madame and Mr. Mace, aided by most able and competent Teachers, ladies from France and the North, who reside permanently in the institution.

The English department is under the experienced and talented direction of Professor MELIN, who is so extensively known. To facilitate the acquirement of both languages in equal perfection, the exercises are performed every day in English and French, and the speaking should be always AUDIBLE as these are the French pupils, they intuitively learn by constant association, to converse in each other's language. For the department of Music, distinguished Professors are engaged, and every effort is made to secure success in this accomplishment.

Information respecting terms and other particulars may be obtained from the prospectus to be procured at the office of this Paper, or at the Institution. Parents and guardians are invited to visit the establishment on Saturdays and Sundays, in order to satisfy themselves as to the internal arrangements. s25 2m

Billiard Table Manufactory.

THE undersigned informs property-holders and the public that he has added to his Manufactory of Billiard Tables a new planing, cross-cutting, mortising and sawing machine, by which he is able to produce superior work of all kinds, such as laying of floors, carpenter's works, posts, turning of all descriptions, cane work, posts, building frame houses for the city or country, and all works in a cabinetmaker's and turner's line.

Having constantly on hand a large assortment of Walnut, Mahogany and Walnut, suitable those in need of the same, the qualities suitable to the works ordered.

The undersigned avails himself of this opportunity to assure those persons who may fear explosions from steam, as to the safety of his machine, that he has taken proper measures to prevent explosion, a new patent French regulator is attached, by means of which any one can see at once the quantity of water in the boiler, and should he forget to look, a whistle connected with the machine warns him that water is wanting in the boiler.

The above addition having been made to his establishment for the purpose of facilitating the manufacture of Billiard Tables, the undersigned reminds his customers that he keeps, as formerly, tables, new and second-hand Billiard Tables, and every article in his line.

TO MECHANICS, MANUFACTURERS, FOUNDRYMEN, ETC.

MEMPHIS
Navy Yard Grounds
TO BE LEASED!

ON THE FOURTH MONDAY, being the 26th day of November, 1857, will be offered to the public, on a lease of

TWENTY-FIVE YEARS,

the grounds formerly owned by the Government of the United States, known as the Navy Yard in the city of Memphis, and containing about 50 acres.

These grounds have a front on the Mississippi and Wolfe rivers of three thousand feet on the latter, and a front of nearly twelve hundred feet on Chickasaw street on the East, and are divided into three equal parts by Poplar avenue and Navy Yard street, running through from North to South.

The division which fronts upon Chickasaw and Promenade streets, will be subdivided into lots of 100 feet front by 200 feet deep, containing some of the most eligible residence lots in the city.

The grounds West of Promenade street, and fronting the river, have seven large and substantially constructed buildings, with docks and stations, and covered with slips, among them the Hope Walk, engine and boiler houses, machine shops, about sixteen hundred feet in length, and supplied in all respects with the most collection of machinery in the Union. All the buildings are finely adapted to Foundries, Machine Shops, and Manufactories of every description, and the extensive front upon the river is regarded as the most favorable of any upon the Mississippi, or its tributaries for the establishment of a boat-building and repairing yard.

The superabundance of fine timber in our vicinity, convenience to iron, copper, coal, and all the material necessary to the purposes, the demand for locomotives and cars for the twelve hundred miles of railroad now progressing, the contiguous forests for engines, furniture, timber, hoops, and rope, and cordage—and the metropolitan position of our city, render this, in the judgment of all, most eminently fitted in the great, populous and wealthy Memphis is situated above the navigable latitude, if at the head of uninterrupted navigation, and may be regarded as the proper point of the great Mississippi Valley. Improvements are now offered in capitalists, mechanics, manufacturers, and such as have never before been presented, for sale and profitable investments.

Proposals for leases upon the property will be received and acted upon at any time before the 26th day of November, at which time the whole will be publicly leased, unless otherwise disposed of before that time.

For further information, address the undersigned.
