THE NEW-YORK DISINFECTING COMPANY, OFFICE NO. 35 PINE-ST. LABORATORY Nos. 298, 300 and 302 HENRY-ST.

The above Company being newly organized on a permanent basis, and having erected an extensive Laboratory, with Dr. D. E. Courtaret, the celebrated French chemist, as its scientific manager, is now prepared to furnish the public, in large or small quantities, Doctor Courtaret's patent DISINFECTING FLUIDS, for use in sick rooms, water closets, urinals, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter houses, offal, fat-melting and bone-boiling establishments, all kinds of manures, swampy grounds, infected ships, streets and places; in fact, for every place and for all conditions of things where putrescence and offensive gases are generated. These disinfecting agents are not only DEODORIZERS, but ANTI-SEPTICS, ANTI-PUTRESCENTS and DISINFECTANTS in the largest and most scientific meaning of the words. They do not remove disagreeable and noxious odors and gases by substituting other and pleasanter ones instead; but by a thorough, true chemical principles, rendering the gases, fluids and solids with which they come in contact harmless, and causing many of them to become of immense value to every farmer and agriculturist. They simply and effectually destroy ALL offensive odors and health-destroying gases, leaving in their places *pure, healthful air.* Nor are there fluids injurious to the utensils, plumbing or sewers in which they are used. The low prices at which they can be furnished will place them within the reach of ALL who desire cleanliness and health. The attention of MEDICAL MEN is particularly called to this subject; and all persons interested in sanitary measures are invited to give these disinfectants a trial. As there are SEVEN different disinfecting compounds prepared to meet all the evils found in the locations and materials enumerated above, the purchaser will plainly describe the premises or articles he wishes to disinfect, when the proper fluid or fluids will be furnished to meet each case. Attached are a few of the testimonials lately given in favor of this GREAT DISCOVERY, which, with hundreds of others, can be seen at the Company's office, No. 35 Pine-st.

When requested, persons in the Company's employment will be sent to any portion of the city to perform the operation of disinfection at a reasonable charge.

DELAVAN HOUSE, ALBANY, March 30, 1866.

To the President of the New-York Disinfecting Company:

Dear Sir: Having made a thorough trial of the Disinfecting Fluid lately introduced to us by Mr. Wm. T. Black, we are prepared to testify to the public that it is all that it is represented to be, and most peculiarly adapted to the purposes for which it is prepared, and do hereby recommend its use as a perfect disinfectant. We can the more readily do so, inasmuch as we have made many trials of disinfectants generally, but now consider that we have found an article which surpasses all others, both as regards price as well as proving an effectual remedy against all bad odors.

We are, Sir, yours, &c., T. ROESSLE & Co.
NEW-YORK, April 9, 1866.

To the President of the New-York Disinfecting Company.

Dear Sir: We have used Dr. Courtaret's Patent Disinfectant, and have thoroughly tested the same in every particular, and can pronounce it without exception to be the best we have ever known. Its effect upon any and every matter is complete and instantaneous. C. A. STETSON, Astor House.
