NEW PUBLICATIONS.

1. THE GOSPEL ACCORDING TO LUKE. By JOHN PETER LANGE, D. D. Revised from the Edinburgh Translation with Additions. By William G. T. SHEDD, D. D. 8vo. pp. 409. Charles Scribner & Co.
2. THE GOSPEL ACCORDING TO LUKE. By J. J. VAN OOSTERZEE. Translated from the German, by PHILIP SCHAFF, D. D., and the Rev. CHARLES C. STARBUCK. 8vo. pp. 405. The Same.

The second installment of Lange's "Commentary on the Holy Scriptures," of which the American edition is under the charge of the Rev. Dr. Schaff, is presented in these volumes. The name of Professor Shedd is an ample guarantee that the Edinburgh translation of the Gospel according to Mark has been revised in a thorough and scholarlike manner, giving an improved work both in respect of the accuracy of the version and the clearness of the style. The author of the second volume named above is a learned theologian of the University of Utrecht. He is considered the ablest divine and pulpit orator of the "evangelical school" in Holland now living. According to Dr. Schaff "he combines genius, learning and piety. He is orthodox and conservative, yet liberal and progressive. To his attainments in scientific theology he adds a general literary culture and fine poetical taste, and seems to be as fully at home in the modern theology of Germany as in that of his native country." The present volumes, in their fullness of detail, sound and exact scholarship, and popular tone, will increase the remarkable favor with which the work has been received in this country, and help to fulfill the aim of the author to produce the best commentary for practical use that can be effected by the combined learning and piety of Europe and America.

Publish this Day
NOTES ON THE HISTORY OF SLAVERY IN MASSACHUSETTS.
BY GEORGE H. MOORE,
Librarian of the New-York Historical Society, and Corresponding Member of the Massachusetts Historical Society.
1 Vol. Large 8vo., Beautifully printed on Tinted Paper. Cloth. Price $3.

This book, as we judge from our own knowledge of the subject and from the merited reputation of Mr. Moore as a historical writer, will be not only very readable but will give some startling facts for the consideration of the whole country. . . . . Mr. Moore is a gentleman of great experience, patient research, and trusty accuracy, and in a volume on the subject will give us some light, and doubtless reveal many strange facts.—[Journal of Commerce.

THE FIELD AND GARDEN
OF
VEGETABLES OF AMERICA.
BY FEARING BURR, JR.
BEAUTIFULLY ILLUSTRATED
WITH PORTRAITS OF THE VEGETABLES DESCRIBED.
Second and Enlarged Edition.
WITH MANY NEW ILLUSTRATIONS, AND RE-WRITTEN.
700 Pages.

"The primary object is to give full descriptions of the vegetables common to the gardens of this country. The system of classification is clear and simple; and, after remarks upon the general characteristics of each species, the soil and fertilizers best suited to it, its propagation, culture, harvesting, obtaining seed for future use, and the purposes for which the plant is grown, we have the most complete and carefully prepared descriptions of all the chief varieties, domestic or foreign, with the peculiar merits or requirements of each at length. The programme of the work is thus more comprehensive than any other that has yet made its appearance in this country, or, as far as we are aware, in Great Britain."—[Country Gentleman.
PRICE.....$6.
Sent by mail on receipt of price.

STATIONARY AND PORTABLE STEAM Engines and Boilers, Flax, Hemp, Tow, Oakum and Rope Machinery, Mechanics' Tools, &c. TODD & SHAFFERTY, Warehouse No. 4 Dey-st., N. Y. Works, Paterson, N. J.

THE HARRISON BOILER a safe Steam Boiler.—This new Steam Generator combines essential advantages IN ABSOLUTE SAFETY FROM EXPLOSION, in first cost and cost of repairs, durability, economy and facility of cleaning and transportation, not possessed by any other boiler.
It is formed of a combination of cast-iron hollow spheres, each eight inches in external diameter and three-eighths of an inch thick. These spheres are held together by wrought-iron bolts with caps at the ends. The form is the strongest known; has strength to resist internal pressure very great—unwrought as it is by pounding or riveting; which lessens the expense of the material from boiler plate about forty per cent. Every boiler is tested by hydraulic pressure at 400 pounds to the square inch. IT CANNOT BE BURST UNDER ANY PRACTICABLE STEAM PRESSURE.
Under pressure which might cause rupture in ordinary boilers, every joint in this becomes a safety valve. No other steam generator possesses this property of relief under extreme pressure without injury to itself, and thus preventing disaster.
It is not affected by corrosion, which soon destroys the wrought-iron boiler. Most explosions occur from this cause. It has economy in fuel equal to the best boilers, arising from the large extent and nearness to the fire of its heating surface, as also from the waved line of the surface, which, thoroughly mixing the gases, induces better combustion, and, breaking the flame, causes the heat to be more effectually absorbed than in the ordinary tubular or cylinder boiler.
It gets up steam quickly and with little fuel. It produces superheated steam without separate apparatus, and is not liable to priming or foaming. It is easily transported, and may be taken apart so that no piece need weigh more than 400 pounds. In difficult places of access, the largest boiler may be put through an opening one foot square. It is readily cleaned inside and out. Under ordinary circumstances it is kept free from permanent deposit by blowing the water entirely out, under full pressure, once a week. It requires no special skill in its management. Injured parts can be renewed with great facility, as they are uniform in shape and size. When renewed the entire boiler remains as good as new. The greater part of the boiler will never need renewal unless unfairly used.
A boiler can be increased to any extent by simply adding to its width, and, being the multiplication of a single form, its strength remains the same for all sizes. It has less weight and takes less than one-half the ground area of the ordinary cylinder boiler without being increased in hight. Any kind of fuel may be used, from the most expensive to refuse coal dust. There are over 100 of these boilers now in use, some of them in the best establishments in England and in this country. Drawings and specifications free of charge. For circulars or prices address JOSEPH HARRISON, JR., Harrison Boiler Works, Gray's Ferry Road, adjoining United States Arsenal, Philadelphia, Pa.

THE ADAMANTINE BRICK PRESS
Is the ONLY BRICK PRESS that uses the PERFORATORS, or EXTRACTS THE AIR FROM THE CLAY while in the process of pressing.
It is the ONLY PRESS IN USE that is capable of making pressed Brick THAT WILL NEITHER CRACK, CHECK, or WARP IN BURNING. All others that profess to do so are imitators, and we caution the public against their impositions. L. C. WOODRUFF, President, No. 175 Broadway.

ANNULAR (diamond) DRILL.
THE ANNULAR DRILL COMPANY of NEW-YORK are now prepared to furnish their machines, built in the most thorough manner and unequaled for rapidity, economy and precision of work. The simplicity, durability and cheapness of the machine renders it superior to anything in use for all purposes of mining, tunneling, quarrying and rock blasting. The machines can be used by steam or hand-power, are easily handled, and can be operated at all angles. For further particulars inquire at the office or address J. WALES, Treasurer, No. 10 Pine-st., N. Y.

Marble Mantels.

MARBLE MANTELS.—The best place in the city to purchase MARBLE MANTELS of the latest designs, at very low prices, is at A. KLABER'S Marble Works, No. 109 East Eighteenth-st., near Third-ave., N. Y. Mantels put up in the country. Cut this out.

MARBLE MANTELS, Floor Tiling, Monuments, Head-Stones, &c., can be purchased at wholesale prices from a large and well assorted Stock. FISHER & BIRD'S STEAM MARBLE WORKS, Nos. 97 to 103 East Houston-st.

MARBLEIZED SLATE MANTELS—Superior in appearance; more durable and at half the price of marble. T. B. STEWART, No. 605 Sixth-ave. and No. 1,310 Broadway, between 35th and 36th-sts., N. Y.

Printing.

WM. EVERDELL'S SONS, No. 104 Fulton-st.—STEAM JOB PRINTERS and LABEL MANUFACTURERS.
