DR. BILLINGS' CARMINATIVE AND ASTRINGENT SYRUP has proved infallible in curing for CHOLERA INFANTUM OR SUMMER COMPLAINT OF CHILDREN, CHOLERA MORBUS, DIARRHEA, or ANY IRREGULARITIES OF THE BOWELS.—The long and successful experience in the use of this remedy by the inventor, in the treatment of all the diseases for which it is recommended, leaves no doubt of its superiority over any other medicine now in use for the cure of the Bowel affections of Children, such as Cholera Infantum and Dysentery, it has proved itself so far superior to all other remedies, that it were a waste of the ordinary language of eulogy of the day, which pretends to perform miracles in terms of hyperbole. Its success has been so fearfully established in the hands of thousands of the parents of Louisiana, that the following letter from a gentleman now in the Mayor's Office of New Orleans, will show:

NEW ORLEANS, Dear Doctor—Yours of the 1st inst. Mar., May 31, 1847.

G. D. Tooley, Esq., Dear Sir—I have not been a very few of the medicines offered to the public to which I would feel no hesitation in recommending of my name, however humble it may be, either in the shape of letters or medicine. Observation is a great teacher, however, have forced upon me the conviction, that Billings' Carminative and Astringent Syrup is a very valuable compound, possessing upon scientific principles the peculiar property of harmony with the laws of organic life—and, therefore, deserves both merit and encouragement to a reputation higher than the ordinary medical agents of a similar character. It affords me pleasure to be able to offer at the time of successful cure, some testimonial of my confidence in Billings' Carminative, as a remedy for cholera infantum, and the forms of bowel complaint for which it is recommended. I have found it myself to avoid very in the cases of Cholera Morbus or Diarrhoea, or Dysentery, and recommend it in every instance, where such a preparation was indicated, I prescribed it.

Respectfully yours,
D. M. POWER, M. D.

Hartford, Conn., April 22, 1856.

Dr. O. O. Woodman, New Orleans:

My Dear Sir—In reply to your inquiries I have to say that after a long and severe cough, which I had for a long time, I was induced to try your valuable cough remedy—your Cherry Pectorant—and have found, on using it, that it has not failed to give me relief. In the fall of 1854, I also took Cholera, which I attribute to your Cholera Infantum Cordial, which I used in my family, and which I have found to be a valuable medicine.
