Those wishing to take lessons are invited to call at their residence, west of the public square—those who prefer it, can be woited on at their own residence.
Holly Springs, Sept. 15th, 1838—7-tf

A Certain Cure for Sick

HEADACHE,

WHICH has been used in families, every number of which has had sick headache from infancy, as a constitutional complaint, and has cured effectually in every instance yet known, amounting to many hundreds. It is not unpleasant to the taste, and does not prevent the daily avocations of one using it; it must be perseverred in, and the cure is gradual, but certain and permanent. Instances are constantly multiplying where this distressing complaint is completely relieved and cured, although of years standing, by the use of Dr. Sphon's celebrated remedy. One decided preference is its pleasantness, having none of the nauseating effect of common drugs.

It is so perfectly satisfactory, that the proprietor has given directions for his agents to refund the price to any one who is not pleased with, and even cured by it. He hopes also that this may secure its great benefits to the distressed sufferers who are laboring under headache. E. Sphon, M. D. inventor and proprietor. For sale at
MALONE & FARRELL'S
Sept. 22-8-1y Drug store.

Clayton and ilson,

S. T. TONCRAY.
June 22, 1838.—tf

South-Wetern Journal.

THE extensive and growing interest of the Southwest, its moral and social improvement, and its increasing literary and scientific demands, have awakened attention to the fact that in this highly important portion of our country there is no journal or paper exclusively devoted to literature and science, advocating the doctrines of no party.

Feeling the necessity of such a paper, the Jefferson College and Washington Lyceum have commenced the publication of a periodical entitled "The South-Western Journal," to be devoted to literature and science, and all subjects interesting to the general reader.

It is published semi-monthly, in the city of Natchez, and contains sixteen small quarto pages, similar in form to the Penny Magazine, on fine paper, and is protected by a good envelope, so that it may be conveyed to any distance without injury.

It will be remembered that we have no work in the Soutewest similar to this; and every one who feels a pride in any enterprise calculated to enhance the social and moral character of our country, should come forward and assist in this worthy enterprise.

Pecuniary emolument constitutes no part of the object of this publication. It is not intended to benefit any individual or the Lyceum in a pecuniary point of view. The sole object is to advance knowledge and diffuse a taste for the refined enjoyments of literature and science.

Nothing is now wanting to the accomplishment of the wishes of the Lyceum but the patronage of the community, and it is expected that this patronage will be promptly and cheerfully extended.

All communications in reference to the periodical should be addressed, post paid, to Professor J. A. Van Hoesen, the Secretary of the Lyceum, Natchez, Miss. The subscription price is $5 00, in all cases in advance.

The first number of this paper is dated December 15, 1837, and it will be continued semi-monthly from that date.
