STATE OF LOUISIANA,
Parish of Orleans, City of New Orleans.

Be it remembered, that on the 25th day of July, 1857, before the undersigned, a Justice of the Peace, in and for the city aforesaid, personally appeared Charles J. Manning, Secretary of the Crescent Mutual Insurance Company of New Orleans, who, being duly sworn, according to law, does depose and say, the foregoing statement is in all respects true, and a correct transcript from the books of said Company.

Sworn to and subscribed before me, this 25th July, 1857.

[Signed] C. J. MANNING, Secretary.
[Signed] CHAS. M. BRADFORD,
Second Justice of the Peace for the parish of Orleans.

The Board of Trustees have resolved to pay an interest of six per cent., in cash, on the outstanding certificates of profits, to the holders thereof, or to their legal representatives, on and after the 3d Monday of August next, and after the 3d Monday of August next; and resolved further, that after reserving One Million Dollars of profits, that all the outstanding certificates of the company of the issue of 1853 and 1854, and seventy-five per cent of the issue of 1855 be redeemed, and paid to the holders thereof, or their legal representatives, as follows:

Those of the issue of 1853 on and after the 12th of August next.

Those of the issue of 1854 on and after the 12th of September next.

And 75 per cent. of 1855 on and after 12th of October next, from which date all interest upon said certificates will cease. The certificates to be produced at the time of payment and cancelled to the extent paid.

Goods delivered to families free of drayage. 1y

IMPORTANT TO COTTON PLANTERS—If a which their interest must be DOubled—The undersigned has invented and patented a new process, which is the basis for the arrangement and combination of machinery for converting Seed Cotton into Yarns by one continuous process, from the Gin through the preparation and spinning machinery, and it is ready for shipment or weaving. The saving of COTTON WASTE will be at least Ten Per Cent.; and as I include in my process the use of machinery to prepare the cotton into bales, as handling it at all, and then to open and, disentangle it, which are very destructive in their operations on the fibre, but are indispensable to those who have to deal with spinning machinery. Hence my YARNS are made of unbroken fibre, and hence is the fifty per cent. stronger, will command advanced prices, and they will distance all competition in any market.

The undersigned is prepared to dispose of privileges to use his patent in Texas and Tennessee, and will be informed as to terms, with complete instructions how to use it, by calling on the undersigned machinery, and all other necessary particulars, on application addressed to me at home, or through the mail, or in my rooms, corner Front and Dauphin streets, up stairs.

Not 1y AW GEORGE C. HENRY, Mobile, Ala.

DOUBLING THE INCOME OF COTTON PLANTERS.

PATENTED IMPROVEMENT IN THE MANUFACTURE OF YARNS.

Employing to Spin the Crop up but about one-fourth the number required in the usual mode, and a number consisting of children of six years of age and above, are found to be sufficient for picking cotton.

I am now prepared to furnish Planters with this NEW COMBINATION OF MACHINERY, inclusive of the STEAM ENGINE, if necessary—namely: The Gin with Last Appendage in one Machine, and the Steam Machinery of the Spinning Series, and to have all arranged in the Spinning Room on the plantation, complete, with great dispatch. Also, competent Spinners.

ONE-HALF OF THE NEW PORTION OF THE INCOME the very first year, will MORE THAN PAY for the whole Machinery, inclusive of the Steam Engine and the Spinner's Wages.

MY IMPROVEMENT, in its results to the Planter, is equivalent to his having purchased a Cotton Plantation, more productive than those he now works; and while his spinning interest will prove his divarsion, it will be exempt from the cares and anxieties incident to Planting, Gathering and Baling up a crop.

MY TERMS

MACHINERY is a CASH ARTICLE, but for good acceptance I can grant reasonable facilities; and for the RIGHT OF THE PATENT, one-fourth to be paid to me each of the first five years of the same, with Ten Per Cent. Interest on the Notes, with a contract insuring payment should the plantation change proprietors.

Propositions from Planters may now be made, and to know cost of Machinery in their particular case, they must not omit to state what has been the number of pounds of their crops—or how many pounds of Yarn I shall have to spin.

GEO. G. HENRY, Mobile, Ala.

BREWSTER & ZACHARIE—No. 38 FRONT STREET, AND NO. 33 FULTON STREET.—We would respectively call attention to our establishment, No. 38 Front street, where we are prepared at all times to furnish to the shortest notice, and on most liberal terms, all kinds of COPPER, TIN AND SHEET IRON WORK, BRASS CASTINGS, BLACKSMITHING, etc. Each member of the firm giving his personal attention to each department, we can offer superior inducements to parties dealing with us.

IMPORTANT TO COTTON PLANTERS—If which their interest must be DOubled—The undersigned has invented and patented a new process, which is the basis for the arrangement and combination of machinery for converting Seed Cotton into Yarns by one continuous process, from the Gin through the preparation and spinning machinery, and it is ready for shipment or weaving. The saving of COTTON WASTE will be at least Ten Per Cent.; and as I include in my process the use of machinery to prepare the cotton into bales, as handling it at all, and then to open and, disentangle it, which are very destructive in their operations on the fibre, but are indispensable to those who have to deal with spinning machinery. Hence my YARNS are made of unbroken fibre, and hence is the fifty per cent. stronger, will command advanced prices, and they will distance all competition in any market.

The undersigned is prepared to dispose of privileges to use his patent in Texas and Tennessee, and will be informed as to terms, with complete instructions how to use it, by calling on the undersigned machinery, and all other necessary particulars, on application addressed to me at home, or through the mail, or in my rooms, corner Front and Dauphin streets, up stairs.

Not 1y AW GEORGE C. HENRY, Mobile, Ala.

DOUBLING THE INCOME OF COTTON PLANTERS.

PATENTED IMPROVEMENT IN THE MANUFACTURE OF YARNS.

Employing to Spin the Crop up but about one-fourth the number required in the usual mode, and a number consisting of children of six years of age and above, are found to be sufficient for picking cotton.

I am now prepared to furnish Planters with this NEW COMBINATION OF MACHINERY, inclusive of the STEAM ENGINE, if necessary—namely: The Gin with Last Appendage in one Machine, and the Steam Machinery of the Spinning Series, and to have all arranged in the Spinning Room on the plantation, complete, with great dispatch. Also, competent Spinners.

ONE-HALF OF THE NEW PORTION OF THE INCOME the very first year, will MORE THAN PAY for the whole Machinery, inclusive of the Steam Engine and the Spinner's Wages.

MY IMPROVEMENT, in its results to the Planter, is equivalent to his having purchased a Cotton Plantation, more productive than those he now works; and while his spinning interest will prove his diversion, it will be exempt from the cares and anxieties incident to Planting, Gathering and Baling up a crop.

MY TERMS

MACHINERY is a CASH ARTICLE, but for good acceptance I can grant reasonable facilities; and for the RIGHT OF THE PATENT, one-fourth to be paid to me each of the first five years of the same, with Ten Per Cent. Interest on the Notes, with a contract insuring payment should the plantation change proprietors.

Propositions from Planters may now be made, and to know cost of Machinery in their particular case, they must not omit to state what has been the number of pounds of their crops—or how many pounds of Yarn I shall have to spin.

GEO. G. HENRY, Mobile, Ala.

BREWSTER & ZACHARIE—No. 38 FRONT STREET, AND NO. 33 FULTON STREET.—We would respectively call attention to our establishment, No. 38 Front street, where we are prepared at all times to furnish to the shortest notice, and on most liberal terms, all kinds of COPPER, TIN AND SHEET IRON WORK, BRASS CASTINGS, BLACKSMITHING, etc. Each member of the firm giving his personal attention to each department, we can offer superior inducements to parties dealing with us.
