FRIDAY MORNING, OCTOBER 7, 1857.

In consequence of the pressure of advertisements we are compelled to omit the leading article prepared for this morning's paper.

☞ Mr. T. N. Jacobs, clerk of the steamer Wm. R. Dudgeon, will accept our thanks for a late Shreveport paper.

THE ELECTIONS.—So far as the telegraph has vouchsafed any information, it is clear that Mississippi and Georgia have gone for the Democratic party. This is just what we expected and predicted. But, if a "*National* Democrat" has been elected, we are very much mistaken. So far as our knowledge extends, all of the successful candidates for Congress or high State offices took bold and unqualified ground against the Walker-Kansas perfidy; and if Mr. Buchanan does not make some satisfactory excuse that will clear his skirts of all complicity, or suspicion of complicity, with that perfidy, he will obtain neither aid nor comfort from a nominal victory, and will find, on the contrary, a powerful and uncompromising array staging war upon his administration. At least, such are the deliberate convictions of our judgment. However, we shall see; and, as Old Father Ritchie would say, *nous verrons*.

THE HARVEY HOUSE, BATON ROUGE.—The many friends of this popular establishment throughout the State, says the West Baton Rouge Sugar Planter, will be pleased to learn that it has passed into the hands of W. J. Rhodus, Esq., the former polite and attentive superintendent. The house will undergo a thorough repair, the rooms will all be overhauled and put in the most comfortable condition. The two stores forming the corner of Maine and Lafayette streets, in the basement of the building, are to be converted into a magnificent billiard room, and the bar-room is also to undergo considerable change. Other improvements, tending to increase the comforts of its patrons, are in contemplation. These changes, with the well-known skill and taste of Mr. Rhodus in catering to the wants of his customers, is sufficient evidence that the old Harvey House will rank second to no hotel in the Union. Mr. William Markham, the former proprietor, in consequence of the fast increasing patronage of the Baton Rouge Foundry, has been compelled to turn his entire attention to that portion of his business. All success to the Harvey House under its new proprietor. We hope Major Rhodus may realize a fortune in the business; he deserves it, if any man ever did.

THE AMPHITHEATER.—The weather was bad last night, but the Amphitheater was jammed, notwithstanding. Matt Peel and his men were received with an ovation, and gave the most unlimited satisfaction. The new members of the band justified the report which had preceded them; Abecco, Winchell, Moore and Burton being particularly good, each in his way. Ferrenbarg and young Adams were melodious as ever, and were heartily welcomed. The troupe give another performance to-night, and there will, of course, be another jam.

PIANOS, ORGANS, ETC.—Mr. M. Schneider, No. 89 Royal street, opposite the Louisiana Bank, has received from Floyd, in Paris, some of the most magnificent pianos ever imported into this city; together with organs, accordeons and other instruments, the accordeons being of new and improved styles, not as yet seen in this country. Mr. Schneider tunes and repairs pianos, and also has pianos for hire. We refer to his advertisement, in another column.

BAYOU ARAMBEL.—A citizen of Philadelphia became alarmed the other day, and drew $20,000 in gold from the bank. At night he was afraid to go to bed, and he sat up all night guarding his treasure, with a loaded pistol. He fears the panic will be the death of him, as he cannot keep his money, and he is afraid to part with it.

COTTON SAMPLING PAPER, CHECK BOOKS, ETC.—Check books on the Crescent City Bank and the Bank of America are to be had at Messrs. D. Felt & Stetson's, No. 54 Camp street. They are to be had either engraved or printed, and of different sizes. Messrs. F. & S. are also supplied with the favorite kinds of writing ink, and a full stock of cotton sampling paper, made to order. Merchants, cotton brokers and others would do well to go and inspect. We refer to the advertisement, in a neighboring column.

BONE BLACK.—Mr. Alfred Kearny, No. 72 Magazine street, is largely supplied with this article. See advertisement.

NEW BLANK BOOK MANUFACTORY.—Our next door neighbors, Messrs. Wm. H. Slack & Co., are now fully prepared to make to order blank books of every description—their printing office and bindery being now and complete in their appointments, and their stock of material large and well-assorted. They are prepared, also, to do all kinds of printing, independent of that required for blank books. And, besides being thus well prepared to execute all orders in their line, they have in store a large stock of blank books and stationery, well worthy the attention of the business community. Read their card in this morning's Crescent.

FRUIT AND ORNAMENTAL TREES.—Messrs. G. D. Metcalf & Co., No. 34 Poydras street, are agents in this city for the sale of plants from the celebrated Lagrange nurseries and orchard of Col. John Hebron, both of Vicksburg, and are prepared to supply all orders for the different fruit and ornamental trees there raised. Gardeners wishing to raise fruit, and gentlemen wishing to embellish their residences, should call at the agency. See advertisement.

SMOKING TOBACCO AND SNUFF.—Mr. A. Delpit, the famous snuff maker, at No. 16 St. Louis street, has added the manufacture of cut tobacco for smoking to his other business, and is now prepared to supply the smoking and snuff-taking public with as fine specimens of tobacco and snuff as are to be had anywhere. See his advertisement.

FOR MEMPHIS.—The Memphis and New Orleans packet line steamer Ingomar, Capt. J. W. Gaslee, leaves to-day at 5 o'clock. All the boats of this line connect at Memphis with the Packets for St. Louis and Louisville. Passengers for up the river cannot have a better conveyance than the Ingomar.—J. H. Freligh, agent, under the St. Charles Hotel.

A RATHER COOL PROPOSITION.

The Vicksburg Whig, of the 3d inst., contains a rather cool proposition, all things considered. Speaking of the financial embarrassments in this city, the decline in the price of cotton, and the necessity of protecting the planting interest, it suggests:

Our suggestion is, that the merchants of New Orleans—the strong as well as the weak—unanimously resolve *that they will sell no cotton below certain prices to be determined on by them in general meeting*. We are not unaware of the probable consequences of such a resolution, faithfully made and adhered to. It would, perhaps, be the suspension of payment by the merchants of all acceptances, and predicated on the receipts and anticipated sales of cotton; and it would thus far be a dishonoring of the credit of the different commercial houses. But the public would see and understand the motive of this general action of the cotton factors of New Orleans, and would know that it was but a temporary thing, intended to protect themselves and their shippers against an unexpected derangement of the monetary exchanges, growing out of distant and dangerous pecuniary embarrassments. It would not impair the substantial confidence of the country in the solvency of those who had thus, by concerted action, suspended payments; and it would certainly redound greatly to the advantage of the entire planting interest. But it may well be doubted whether such a determination, by the New Orleans merchants, would be followed by any suspension of payments by them.

Cotton buyers must have the cotton, and if they cannot get it at one price they will have it at another; and concert of action on the part of our merchants may save the planter and themselves both, without serious loss to either. But we are too far removed from the field of action and have sought too slight a knowledge of the actual state of things to do more than throw out an idea on the subject, to have what weight it may. It is certainly a question worth considering whether *a voluntary suspension by all for a given purpose and a limited period*, is not better than a *forced suspension* of many, and fearful sacrifices of the few that may manage still to lift up their heads above the waves, let the storm howl ever so dismally.

Without questioning the motives that prompted the foregoing proposition, we must be permitted to express the opinion that its entertainment by those to whom it is addressed would be injurious, and its adoption disgraceful. There is no emergency upon the community that would justify such a gross violation of mercantile faith, honor and integrity, were it even justifiable under any circumstances. Our cotton factors will repudiate all such unwise counsel; and will successfully weather the storm that has prevailed, but which is now passing away.

SALE OF DRY GOODS, BOOTS, SHOES AND BROGANS.—We call the attention of the trade to the sale of dry goods and shoes, to take place this day, at 10 o'clock A. M., at Blanchi & Lesumont's auction rooms, No. 77 Chartres street. Terms, cash.

DIED:

On Tuesday morning, the 6th inst., at 3 o'clock, of consumption, Miss JOSEPHINE N. FOSTER, aged 16 years.

Her funeral will take place this afternoon, at 4 o'clock, from the residence of her uncle, Wm. H. Foster, Washington street, corner of Apollo. The friends of the family are invited to attend without further notice.

☞ **Editors Crescent: Please announce Dr. A. S. FOX as the regular nominee of the American party of Algiers, for the State Legislature.** se19 2pte

☞ **Caution to Travelers—Travelers at this season of the year should always be careful to procure a supply of Dr. J. Hostetter's Stomach Bitters, as it is now conceded by all who have tried this invaluable medicine that nature can be assisted, and when a traveler is subject to the various changes of water and diet, as he is compelled to be, these Bitters are the only reliable medicine now in market; that they are what we represent, we can only refer to the people generally, who have tried them, and speak volumes in favor of this great regulator of the stomach. For sale by druggists and dealers generally.** o6 2p|4tW

☞ **White Teeth, Perfumed Breath and beautiful complexion, can be acquired by using the BALM OF A THOUSAND FLOWERS. What lady or gentleman would remain under the curse of a disagreeable breath, when by using the "Balm of a Thousand Flowers" as a dentrifice, would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate their friends will never mention it. Beware of counterfeits. Be sure each bottle is signed "Everidge & Co., N. Y." For sale, by SICKLES & CO., Agents; MORISON, and all Druggists.** a10 2pecedeo

☞ **Dr. Jamas has returned from his Northern tour, and can be found at his old established Dispensary, 82 Customhouse street, between Royal and Bourbon streets, New Orleans. All that are unfortunately afflicted, should apply to him immediately and save themselves from the awful and terrible consequences of fearful maladies.**

Mortality among Southern Children.

It is estimated that in the Southern States more children are carried off by worms, and the diseases arising from them, than by all other maladies combined. Post mortem examinations of the young too frequently reveal the terrible ravages of these insidious enemies of health and life. It is, therefore, only an act of common philanthropy to recommend, with all earnestness, a preparation like
WINER'S CANADIAN VERMIFUGE,
which has proved in many thousands of cases, an immediate, safe and radical cure for every kind of vermicular disease.

☞ Be particular and remember the name, "Winer's Canadian Vermifuge." This is the only article that can be depended on. Remember this. For sale in New Orleans, wholesale and retail, by

"A good Sewing Machine lightens the labor and promotes the health and happiness of those at home."

The particular attention of Ladies is called to the
FAMILY SEWING MACHINE
Manufactured by the
GROVER & BAKER
SEWING MACHINE COMPANY,

Which possesses the following decided and unmistakable advantages:

1. It is contained and operated in a handsome Rosewood Box, which can be closed and locked when not in use, thereby affording the owner the satisfaction of knowing that it is not used or tampered with in her absence, and which is an effectual safeguard against dust and dampness.
2. It occupies less than a square foot in space, is light and portable, and can be transported or carried from one room to another with the greatest facility.
3. Cotton is used on these machines as it is purchased—on spools—without re-winding; saving a great deal of time, trouble and waste.
4. The trouble and perplexity of filling and attending to a shuttle (as in other machines) is, in this, avoided—no shuttle is employed—the under thread being used from a large spool.
5. It can be used by hand or foot at pleasure; convenience for the latter power always accompany the machine, without extra cost.
6. It is very simple, yet strong in construction—easily learned and kept in order—can be run at great speed, and does not require to be taken apart to be oiled.
7. The stitch is always distinct, even and regular—and for general beauty, strength, and elasticity, excels the very best hand-sewing.

3. This machine embroiders beautifully.

Family Machines also arranged in Tables, Cabinets, etc., etc., with drawers and every convenience for work and speed, at prices varying from eighty-five to one hundred and thirty dollars. Machines for manufacturing purposes from ninety dollars upwards.

The extensive patronage and popularity enjoyed by these machines is the best evidence of their superiority. Their novel style—ornamental, yet highly useful; their almost noiseless operation; the simplicity of their construction and beauty of their work—together with the advantages enumerated above—recommend this, without any qualification whatever, the best, cheapest, and most reliable SEWING MACHINE ever brought before the public. Ladies, and all others interested in the saving of labor, are invited to call at any of our Sales Rooms and examine for themselves. These machines are freely shown, and samples of the work given, at all times; and twenty distinct patterns, all our make, suited to the different varieties of manufacturing, always on view.
