LETTER OF GEN. WALKER TO GEN. CASS.

[BY THE NATIONAL LINE.]

WASHINGTON, Nov. 12.—The following letter has been received by the Secretary of State from Gen. Walker.

NEW ORLEANS, Oct. —, 1857.

To Hon. Lewis Cass, Secretary of State, U. S. A.: [illegible]

[illegible]

I have the honor to be your obedient servant,
WILLIAM WALKER.

Walker's Movements—Destination Settled.

MOBILE, Nov. 12.—The New Orleans and Mobile mail boat California has arrived, and Walker and his fellow-passengers are not on board.

The whole party was transferred from the California to the steamer Dick Keys, which was waiting in the lower harbor for the California.

The Dick Keys had on board a considerable quantity of arms and ammunition and probably some men.

A very few of the men became faint hearted on seeing the implements of war on board the Keys, and were readily allowed to come on to this city.

As soon as Walker and his men were placed aboard the Keys, she hastily steamed down the bay.

MOBILE, Nov. 12.—The steamer Dick Keys, which carried down fifty men, besides a large quantity of arms and ammunition, into the lower harbor, about midnight, has returned. She took from the steamer California Gen. Walker, his staff, and over three hundred men, and steamed outside Mobile bar, where she met the steamer Fashion, Capt. Caughlin, with the artillery brigade, the medical staff, some of the privates, and a large quantity of arms, munitions and provisions on board.

The Dick Keys transferred all on board of her to the Fashion, and Capt. Caughlin immediately turned the prow of his fate-freighted vessel towards the shores of Nicaragua.

Reinforcement for Walker.

MOBILE, Nov. 12.—Last night about midnight some fifty or more men went aboard the Dick Keys, which immediately left for the lower harbor, where she took Gen. Walker on board to-day. They all joined Walker, making in all a force on the Fashion of over four hundred well-armed and well-provisioned men.

National Chess Congress.

The agent of the Associated Press is indebted to Mr. Pandelly for the following private dispatch:

NEW YORK, Nov. 12.—The grand tournament is finished. Mr. Paul Morphy, of New Orleans, has won the prize, and Mr. Louis Paulsen, of Iowa, takes the second.

Constitution of Kansas.

ST. LOUIS, Nov. 12.—The Kansas Constitution endorses the Dred Scott decision and the Fugitive Slave law.

The slavery clause alone will be submitted to the people about the 20th of December.

Loss of the Howadji.

NEW YORK, Nov. 12.—The ship Howadji from Boston for Liverpool was struck by lightning, on the 3d, off Cape Sable, and was entirely consumed with her cargo of cotton, hemp and tallow. Her crew has arrived here.

Hunger Meetings.

PHILADELPHIA, Nov. 12.—The meeting of the unemployed working men to-day, passed off in an orderly manner. Over 5,000 were present.

NEW YORK, Nov. 12.—The working men met in Tompkins Square yesterday. Several speeches were made. The crowd attacked a couple of bakers, and demolished their bread baskets.

Bands of music were compelled to amuse the crowd, and mischief rather than the spirit of destruction seemed to be rampant.

The excitement is subsiding. The U. S. troops have been withdrawn from the Sub-Treasury.

Specie Shipments.

NEW YORK, Nov. 12.—The New York Herald says, that the steamer Persia is taking but little over $600,000 specie out. This announcement caused improvement in stocks, and quieted the apprehensions of future large shipments of coin.

Domestic Markets.

NEW YORK, Nov. 12.—Cotton quiet. Flour, wheat and pork are firm. Whisky 22½. Molasses 37½ to 50c. Rice 3¼c.

[BY THE BALIZE LINE.]

The Granada Quarantied.

QUARANTINE, Nov. 12.—The Granada is detained at Quarantine on account of sickness on board, subject to Dr. Thorpe's orders. The mails will be allowed to come up on the first opportunity.

Specie by the Granada.

Local Intelligence.

CORONER'S INQUEST.—The Coroner yesterday held an inquest on the body of John Campbell, an Irishman, thirty-five years of age, found dead at the corner of Moreau and St. Ferdinand streets. Verdict, died from the effects of intemperance.

DIED OF HIS WOUND.—We heard last night that John Hogan, who was shot on the levee a few evenings since by some one on board the National, just as that steamer was backing out, had died of his wound at the Charity Hospital. The fact had not been reported to the Coroner when we last saw him. Mr. Napoleon White, who was landed in the Fourth District as the man who did the shooting, was confronted with Hogan yesterday morning. Hogan, after looking at him, declared that he never saw him before, and knew nothing about him; nor had he the remotest idea who shot him. We hear, also, that there is abundant testimony among the passengers on the National that White was not the man who did the shooting.

U. S. CIRCUIT COURT.—The case of Benjamin Screws vs. Wm. A. Whitfield, in which the former claims $5300 damages of the latter, was proceeded with yesterday before Judge McCaleb; Messrs. A. G. Semmes & Hill and M. M. Reynolds appearing for the prosecution, and Messrs. Mott and Fraser for the defense.

The circumstances of the case are that Screws, in his capacity of negro broker, sold to Mr. Hardee, of Clinton, La., a negro whom Whitfield, who resided in Mississippi, had left him for sale. Whilst Screws still held the money derived from the sale, Hardee telegraphed to him not to pay it over to Whitfield, as the negro had died on his hands, and from defects which existed in him at the time of purchase. When Whitfield demanded the money, Screws refused to surrender it, his design being to secure himself from responsibility in any litigation which might ensue. For this, Whitfield went before Recorder Stith and accused him of a breach of trust, and had him arrested, etc.; and, by this action of Whitfield's, Screws claims that he has suffered damages to the extent of $5,300—$5,000 for damages done to his business and his reputation, and $300 for an equal amount which he had to pay legal counsel for defending him before the Recorder.

The case, being partially argued yesterday, was continued till to-day.

FIRST DISTRICT COURT.—This Court met yesterday, as usual. Present—all the officers, a crowded dock of prisoners and a slim panel of jurors—the Judge having excused twelve for their hard work in hanging Justus Merthe the day before, and a number having excused themselves.

Mr. Foute opens business by shelling out a bundle of informations, which the Judge tells the clerk to file; and the clerk files away. Mr. Foute next recommends the dismissal of Arnold Rhode, accused of obtaining money under false pretenses, and Anthony B. Coal, accused of administering laudanum to his wife, there being no cause for their further detention. The Judge acquiesces, and the prisoners once more breathe the air of freedom.

Arraignments next in order. Several parties, notwithstanding their declarations that they are not guilty, are remanded to await trial; one, however, James Mayland, acknowledges that he is guilty of stealing, and is on that account dismissed from the charge of entering a vessel in the night-time, etc., and remanded to await sentence.

Trials next in order. First case: George Wald, stout young Dutchman; charge—assault and battery. Testimony—F. Mauberit, an elderly Frenchman, went out on the banquette in front of his residence, to talk to Wald (who was driver of a scavenger cart) for not allowing his servant to empty a plate of artichoke leavings in his cart, and scolding her for throwing them in the street, she having done so by and with the advice and consent of her master, as she had appealed to him after her repulse from the cart. Witness could'nt understand Wald, he being French and Wald Dutch; but as the Dutchman talked very loud and was unmistakably ugly, witness ordered him off. Wald then, as he judged, commenced giving him fits in Dutch. Witness's youngest son hearing the fuss, came out, and witness ordered him to arrest Wald. The youth advanced for the purpose, but Wald up with his shovel and made at him; the youth ran; Wald followed, and felled him as he ran by striking him over the head with his shovel; witness then rushed to his son's rescue, when Wald gave him a lick over the head with his shovel; witness however closed in and got the shovel from him, but Wald afterward pitched in and polished him off with his fists. Finally, the arrival of witness's eldest son closed the battle, and Wald was taken by the combined forces and handed over to the police. No other testimony. The jury—of which this writer is one—retire, deliberate, and bring in a verdict of acquittal.

Second case: P. Wagner, Dutchman, charged with assault and battery upon J. Carlin, Irishman. Testimony: Carlin owed Wagner ten dollars and three quarters for room rent, and Wagner owed Carlin ten dollars for carting furniture. One evening Carlin, wishing a settlement, went to Wagner's door, offered him the six bits difference, and asked for his receipt. Wagner said, "I'll give you a receipt, you d—d Irish son of a b—h, as I do to all such!" with which he "handed him one" between the eyes, knocking him down and wedging him tightly between two tubs of water, on the slippery bricks by the hydrant, and jumping down on him with his hands and knees, and punishing his face and stomach till he became senseless. This, Carlin's testimony. Mrs. Carlin testified precisely the same, with the addition that Wagner held in his fist an unopened pocket-knife, the end of which protruding between his knuckles did such bloody execution that she feared Carlin was being murdered; that whilst Wagner was hammering away he shouted to his wife, "Fetch me a knife till I kill the son of a b—h, I'll never have a better chance than now!" that she, witness, ran to the door to scream for the watch, and that Mrs. Wagner, instead of going for her husband's knife, followed her.

She further stated that she roomed in Wagner's house, but was so afraid of him on account of his quarrelsome disposition, that when she wanted to move, she got Carlin to settle with him for her; and it appeared to be this, or something in connection with it, that roused Wagner's wrath. Questions by Wagner's counsel, as to whether Carlin was not keeping a legitimate family in another part of town, at the same time that he was extending his protection to Mrs. Curtis (who took in washing) in Wagner's house, are flatly refused replies by Carlin. The jury—of which the Crescent Local is not one—retire, and bring in a verdict of guilty.

Third case: Ernest Potter, alias Homer, a good-looking free, colored youth, almost white. Charge, larceny. Testimony—Mr. F. A. Hovel, jeweler, in the latter part of July, was quietly throwing away in his private workshop, in the third story of a building on Camp street; heard a footstep behind him; turned, and saw a stranger in the room, approaching him from the direction of his desk. Stranger wanted a diamond ring made; witness told him he worked only for the trade; and stranger left. A short time afterward, witness missed from his desk a memorandum book, containing a diamond worth $11, which he had left lying there before the stranger came in. Was certain no one else was in the room, except the stranger, from the time he left the book on the desk till he missed it.

Some two weeks afterward, when Ernest Potter was arrested at the instance of somebody else on a charge of larceny, witness saw him, and recognized him as the strange youth who visited him the day he missed his book and diamond, and as he found he had the character of a notorious thief, witness at once suspected him, and made his complaint against him. Neither the memorandum-book nor the diamond was ever afterward heard of. The jury—of which the Crescent Local is one—retire, and after a long deliberation return with a verdict of acquittal.

Fourth case: Ernest Potter, the above. Charge: entering a house in the day time with intent to steal. Testimony: Ernest went into Mrs. Mina Summer's furniture store, somewhere up town, one day, and proceeded to inspect the furniture, with the pretended view of purchasing. In the course of his inspections, he got out of the store, and up-stairs into Mrs. S.'s private apartments, where he was found looking at the inside of the different articles of furniture in which Mrs. S. commonly kept her valuables. This case is tried, and the jury go out and return with a verdict of guilty, whilst the jury in the Hovel larceny case are still out, thus offering the unusual spectacle of an accused party being in the hands of two separate juries at the same time. Potter has yet to stand two more trials for larceny.

Fifth case: John Travis, a stupid, dirty-looking young man, a native of nowhere in-particular. Charge, stabbing with intent to kill. Counsellor A. A. Randolph, finding that the young fellow is not accused of stealing, and that he is friendless and lawyerless, and hasn't even enough money to hire a picayune pettifogger to help him through, volunteers to be his counsel, and stands up in court, the noblest rum'un of them all—his eagle eye flashing around upon the admiring and cowering multitude. The case proceeds; and the manner in which the counsellor overhauls the State witnesses, keeps up a cachinnatory excitement in court, which the Sheriff, with all his hammering and shouting, cannot keep down. Testimony—F. Walhauser, mate, or something of the sort, on a steamboat, dragged a deck-hand out of his bunk by the heels, and afterwards kicked him. Travis, standing by, said, "If you were to serve me that way, I would kill you." Walhauser went at him with a stick of wood, and Travis let him have his knife in a manner which very nearly finished his business in the world. Walhauser lingered at the hospital for weeks before getting well. Meantime, Travis, who escaped after the stabbing, was arrested as a dangerous and suspicious vagrant, and by Recorder Stith sent for six months to the Work-House.

Officers Seguin and Kelty, taking him out to that institution, took a notion to stop at the hospital on the way, where Walhauser identified him as the man who had stabbed him; upon which he was transferred to prison. Some discrepancies in the testimony. Counsellor Randolph, addressing the jury, splurges splendiferously; gives the miserable picayune pettifoggers of the Recorders' Courts, the Recorders, the police, and the silk-stocking rascals, unmitigated scissors, by the eternal; shows that many men taken up as vagrants are a thousand times more honest than scores of rich and proud men who walk the streets free; rebukes the ignoramuses in court for laughing at his remarks, and the District Attorney for going to sleep; invokes God and liberty with Demosthenian grandeur—makes a decided sensation generally—and so effectually mesmerizes the jury, that when they retire, they instantly return with a verdict of guilty.

Edward Banker, charged with stabbing with intent to murder, and Margaret Dailey, charged with larceny, are dismissed by nolle prosequi, and the Court adjourns.

RECORDER STITH'S COURT.—Philip Brady was yesterday sent before the First District Court for beating and kicking Margaret Holmes in her room on Dryades street, all because she would not let him have more whisky money.

John Heise was sent before the First District Court for a breach of trust, in running away with $48 out of a $50 bill which John Weber, Farmer of Poydras market, entrusted to him to get changed, one day in January last.

Christian Moihre was sent before the First District Court, for beating Henry Caffrey on Poydras street.

Alice Crehan was fined $25 for threatening to murder Margaret Eagan on St. John the Baptist street, and making herself ugly and frightful generally. Robert Soloway and Thomas Gill, were fined $10 each for indulging in a social set-to on Poydras street.

James Lynch and John Timbin, Michael Bowen and Thomas Morrissey, charged with assaults and batteries, were all dismissed for want of prosecutors.

The following accused parties were arraigned and booked for future examination:

Michael Burns, suspected of being dangerous and suspicious arrested on St. Charles street, with a carving knife, a silver spoon, and two keys, in his possession. Bail of $1000 required. Michael did'nt give it. He could have furnished one thousand millions just as easy.

John Williams, also suspected of being suspicious, and in danger of becoming dangerous—arrested on Liberty street. Bail of $1,000 required—but not given.

George Jennings, charged with throttling Mary Gallagher at No. 222 Camp street. Case fixed for the 20th.

Stephen Dondaro, charged with getting beneath the wood work at the steamboat landing, and cutting wheat-sacks through the cracks. Fixed for the 17th.

Wm. Whalen, charged with firing a pistol at John Trumpeter, on Tchoupitoulas street, on Wednesday night, with intent to kill. Bail of $1000 required to appear on the 18th.

The Recorder, being summoned away to the U. S. District Court, had to continue a number of cases that were fixed for examination.

RECORDER FABRE'S COURT.—T. Languest was yesterday made to give bail of $500 to let H. Harrison alone hereafter.

Joseph Duslondes was dismissed from the charge of stealing $22 worth of shoes from C. Esslie's shop on Royal street.

John Shandrock, charged with beating Josephine Abrahams on Wednesday night, at her house, No. 314 Royal street; Nanal Rosevich, charged with beating Henri W. Monastes, on the levee; and Louis, slave of Puscal, f. m. c., charged with stealing a pair of shoes from C. Esslie's shop on Conti street, all gave bail to appear for examination.

RECORDER SOLOMON'S COURT.—John Schneider, charged with stabbing Matt Carl with intent to kill, was yesterday admitted to bail of $500 to appear for examination.

D. B. Dubois, arrested as a fugitive from the Parish Prison, admitted the soft impeachment, and was sent back.

No other business worth reporting.

COMMON COUNCIL.

BOARD OF ASSISTANT ALDERMEN.

TUESDAY, Nov. 10, 1857.

[*Concluded from Yesterday.*]

POLICE.

Mr. Fleming, on behalf of the above committee, offered the following report, which was read and adopted.

The Police Committee beg respectfully to report as follows:

On the petition of S. L. N. Jerrellerman, asking permission to erect a small portable steam engine on his property, No. 8 Julia street landing, favorably. A resolution is therefore respectfully presented to the purpose.

On the petition of the petition of the proprietors of the Christian Advocate, asking to erect a small steam engine on the property No. 112 Camp street, favorably; the necessary resolution is submitted.

Your committee also beg leave to present for your approval an ordinance, having for its object the regulation of the sale of wood and coal in and for the city of New Orleans. It is a well known fact, that under the present system the greatest frauds are constantly practised upon the community in the sale of these two great necessities—in a very few instances are the purchasers furnished with what they purchase. The present system of selling coal by the barrel is a fraud upon the public—the barrels being about two-thirds the size of the barrel required by law; besides, they are seldom or ever more than two-thirds full. In no other city in the Union is coal sold or purchased except by the bushel—each bushel weighing 72 lbs. It is sometimes sold by the ton in very large quantities. The same complaint is made, with great propriety, concerning the sale of fire wood. Scarcely is ever more than two-thirds of a cord of wood given to the purchasers. Complaints are made not only by the resident population, but by the owners and captains of the steamboats, the effect of which is, they are compelled to leave the city and procure their supplies elsewhere. In addition to the foregoing, nearly all the respectable dealers in both wood and coal are strongly in favor of such an ordinance as will more effectually protect them. There is no doubt of the legality of the law or of the power of the Council to pass such a law, it being nothing more than a police regulation, based upon the same principles as the ordinance regulating the assize and weight of bread, which was declared by the Supreme Court to be legal in all respects. In view of these facts, your committee ask for the adoption. All of which is respectfully submitted.

(Signed) WM. H. FLEMING,
CHAS. H. WALDO,
N. WHITNEY.

The following resolutions, mentioned in the above report, were read and adopted, the rules being suspended:

Resolved, That permission be and the same is hereby given to S. L. N. Jerrellerman, to erect a small portable engine on his property, No. 8 Julia street landing, provided the same be erected in accordance with city ordinances, the same to remain during the pleasure of the Common Council.

Resolved, That permission be and the same is hereby given to the proprietors of the Christian Advocate, to erect a small steam engine for the purpose of printing their paper on the property No. 112 Camp street, provided the same be placed in a fire-proof building, and to remain during the pleasure of the Common Council.

The following ordinance, mentioned in the above report, was read, the rules being suspended, and on motion, laid on the table till next meeting:

SEC. 7. *Be it further ordained, etc.*, That the Common Council shall, as soon as the passage and promulgation of this ordinance, proceed to elect a proper officer, whose duty it shall be to discharge the duties of inspector of fire wood, whose term of office shall expire at the same time that all other city officers expire, and the Council shall then proceed to elect a suitable person who shall hold the office for the term of one year.

SEC. 8. *Be it further ordained*, That the Inspector appointed to carry into effect the foregoing ordinance, shall be entitled to receive a fee of five cents for a proper certificate that the quantity of wood offered for sale in each load or cord of wood, or any cargo of wood that may be sold or offered for sale, the said fee to be paid by the vendor; and further, he shall have full power to appoint such number of assistant inspectors as he may deem necessary to enforce the aforesaid ordinance. The said Inspector shall enter in good and solvent security for the faithful performance of his and his assistants' duties in the sum of two thousand dollars.

Be it further ordained, That all laws or parts of laws contrary to the provisions of the foregoing be, and the same are hereby repealed.

The following preamble and resolution was read and adopted, the rules being suspended:

Whereas, The constant and repeated false alarms of fire occurring, proceeding from the neglect of owners and occupants to have their chimneys swept and kept clean, and whereas, great loss and destruction is caused to the streets and the engines and fire apparatus of the city, the same having frequently occurred; therefore, be it—

Resolved, That the Street Commissioner be, and he is hereby requested, to enforce ordinance No. 1871.

EDUCATION.

Mr. Reid, on behalf of the above committee, offered the following report, which was read and adopted:

To the honorable Board of Assistant Aldermen:

The Committee on Education, to whom was referred that portion of the general message of the Hon. Mayor which relates to public schools, after having maturely considered the same, beg leave to report as follows:

Article 135, of the State Constitution, provides that all moneys so raised—by general taxation or otherwise—shall be distributed to each parish in proportion to the number of free white children between such ages as shall be fixed by the General Assembly.

The first section of the act of the Legislature, approved ——— 1858, fixes the educable ages at from six to sixteen years. Section second, of the same act, provides that for this purpose (the purpose of supporting free public schools) there shall be annually levied upon the ad valorem amount of taxable property in each parish, one mill on the dollar, which shall be collected by the collectors of State taxes in the same manner as other State taxes are levied and collected. Section third of the same act provides for the quarterly distribution of the moneys thus raised among the different parishes in the State, upon the principle and rule of distribution by article 136 of the Constitution above recited.

Under the operation of these constitutional and legal provisions, the citizens of New Orleans contribute annually to the State Treasury for the support of free public schools a much larger amount than is returned to the city treasury as their distributive share. According to the Annual Report of the Auditor of Public Accounts, made to the last Legislature, the contributions of the citizens of New Orleans to the State treasury for the support of free public schools amount to $98,085 49 for the preceding year, as your committee understands it, while they received from the State treasury only $86,200 for the same time, showing an excess of $11,885 49, paid by our citizens over the amount received from the treasury of the State. [See Mayor's Message, pages 29 and 30.]

From this mere statement of facts and figures, the inequality and injustice referred to by the Hon. Mayor, is so manifest as not to require either argument or illustration. It speaks for itself, and forcibly demands a prompt, full and efficient remedy at the hands of the Legislature of the State of Louisiana. This remedy, however, should not be sought by introducing any measure which would initiate, suggest or encourage a retrograde movement in the cause of popular education.

The virtue and intelligence of the people, or in other words, a morally and intellectually educated democracy is, figuratively speaking, the everlasting rock upon which the great Republican Church of the United States and the world is to be reared and sustained. It is the prominent idea and the foundation principle of our whole scheme of self-government throughout the United States. As such it has been enunciated and urged in all the varied forms of eloquent expression and convincing logic by our great and illustrious public characters, from the time of Washington to the present day. It has been in the most solemn manner sanctioned and consecrated by the people of Louisiana as a great constitutional principle, which is not to be disturbed or rendered nugatory or inefficient, either by indifference, neglect or injudicious legislation.

It is almost universally regarded by enlightened men, not only as our chief protection against the terrible evils of anarchy and mob-law, and of unbridled licentiousness, brute force and piratical agrarianism on the one hand, but also on the other against the unhallowed ambition of wily and audaciously daring demagogues who may hereafter be able to occupy important points of political power and influence, and to the energetic language of Mr. Jefferson, would, at any time when in their power, be found mounted, booted and spurred, ready to ride rough-shod over the plundered plowmen and beggared yeomanry of the country.

If we would protect ourselves against these and other prospective dangers to our republicanism, and to the peace, prosperity and happiness of the people, and, if we would still continue to cherish the hope of advancing with a constantly accelerated ratio of progression towards that highest point of perfection in the scale of intellectual, social and moral being which God in his beneficent providence may permit any of the most highly favored portion of the human race to attain, we must necessarily maintain unimpaired, and as far as may be, strengthened and improved, the only solid and reliable basis of that pleasing and consolatory hope.

A judicious system of public schools is then a necessity in the State of Louisiana as it is in the other States of the American Union. In New Orleans especially, every consideration of private interest and public duty requires that we should permanently support, as we now do, a system of public schools upon a comprehensive and liberal scale, for the gratuitous education of the entire free white youth of the city. This will continue to be annually a heavy pecuniary burden which must be borne by the tax-payers of the city of New Orleans.

The country parishes, without exception, are, it is believed, abundantly able to support their own public schools, without any assistance from the citizens of New Orleans, and it is unreasonable to suppose that their just, enlightened and liberal-minded Senators and Representatives in the Legislature would refuse their sanction to a bill refunding to the city of New Orleans, out of the common treasury of the State, the aforesaid sum of $11,885 49, and all other similar sums paid by New Orleans in excess of the amount heretofore received from the treasury of the State. Your committee therefore recommend the preparation and adoption of a suitable memorial to the Legislature of the State of Louisiana on that important and interesting subject. All of which is respectfully submitted.

J. M. REID, Chairman.
JOHN DOLHONDE,
J. MAGIONI.

The following resolution, mentioned in the above report, was read and adopted, the rules being suspended:

Resolved, That the Committee on Education be and they are hereby instructed to prepare and report to the Board a suitable memorial to the Legislature of the State of Louisiana, in accordance with the suggestions contained in their report just read.

Mr. Hall moved that Mr. Kearny be placed on the Committee on Work-Houses and Prisons, in place of Mr. Reid, resigned. Carried unanimously.

On motion, the Board adjourned till Tuesday next, the 17th, at 6 o'clock, P. M.

JAMES A. HOPKINS, Sec'y.

BOARD OF ALDERMEN.

TUESDAY, Nov. 10, 1857.

The Board met this day, pursuant to adjournment. Members present: Hon. H. M. Summers, President; Messrs. DeLabarre, Dupre, Harrison, Landry and Vennard—6.

DOUBLING THE INCOME OF COTTON PLANTERS.

PATENTED IMPROVEMENT IN THE MANUFACTURE OF YARNS.

Employing to Spin the Crop up but about one-fourth the number required to raise it—this number consisting of children of six years of age and above, and women unfit for plowing or picking cotton.

I am now prepared to furnish Planters with this NEW COMBINATION OF MACHINERY, inclusive of the STEAM ENGINE, if necessary—namely: The Gin with Lap Appendage in one Machine, and the Sequent Machines of the Spinning Series, and to have all arranged in the Spinning Room on the plantation, complete, with great dispatch. Also, competent Spinners.

ONE-HALF OF THE NEW PORTION OF THE INCOME the very first year, will MORE THAN PAY for the whole Machinery, inclusive of the Steam Engine and the Spinner's Wages.

My IMPROVEMENT, in its results to the Planter, is equivalent to his having purchased of me a plantation, negroes, etc., more productive than those he now works; and while his Spinning interest will prove his diversion, it will be exempt from the cares and anxieties inherent to Planting, Gathering and Baling up a crop.

MY TERMS.

MACHINERY is a CASH ARTICLE, but for good acceptances I can grant reasonable facilities; and for the RIGHT OF THE PATENT, one-fourth to be paid to me each of the first five years of the excess the Yarns bring over Ginned Cotton, with a contract insuring payment should the plantation change proprietors.

Propositions from Planters may now be made, and to know cost of Machinery in their particular case, they must not omit to state what has been the number of pounds of their crops—or how many pounds of Yarn a day they must Spin.
s21 tf GEO. G. HENRY, Mobile, Ala.

GILMAN'S PNEUMATIC STEAM GRANULATOR is now in use on seven plantations, comprising the largest and smallest classes; on some of which it has taken off three crops, with a combination of the following advantages over any other known application of steam to a steam Granulator or an entire steam train:
1. It requires but a pressure of 30 pounds of steam to "strike a Battery."
2. It requires no additional water for the boilers.
3. Its pipes never "scale" or require cleaning.
4. Its heating surface is equally distributed throughout the body of juice, so that an even and hard grained sugar is made.
5. The steam being all condensed and returned to the boilers direct, no additional boilers are required where the sugar-mill boilers are large and Gilman's Bagasse Furnace is used—one pair of cylinder boilers 30 inches in diameter and 34 feet long, with Gilman's Bagasse Furnace, now furnish steam to grind the cane and run the Pneumatic Battery, making 10 hhds. sugar per day.
6. The Pneumatic Battery or Granulator is put in operation at much less expense to the planter than any other steam battery or application of steam to making sugar, in part or entirely by steam.
For further information, a pamphlet with full specifications and drawings will be furnished on application to the subscriber, who is now prepared to make contracts for the Battery, Evaporators or Clarifiers, to be used with direct or exhaust steam.

RURAL RESIDENCES—
MANUFACTURING SITES!
RARE OPPORTUNITY!!
LONG CREDIT!!!
FOR SALE—150 SQUARES OR ABOUT 3400 LOTS IN THE TOWN OF KENNER.
This property is situated on the line of the N. O., Jackson and G. N. Railroad, ten miles from the city. The ground, forming a part of the Metairie Ridge, is higher than any other place within forty-five miles, and will drain itself rapidly, without any artificial means.
To secure airy, healthy and agreeable neighborhoods, as rural retreats for the families of the business men of the city, certain sections of the higher grounds have been set apart for private residences, with ample space and under uniform regulations, all the streets of which it is designed shall be lined with shade and ornamental trees. To meet their wants, grounds have been set apart and will be donated to the proper parties for schools, churches, colleges and public squares. Here taste and wealth may combine to make a place unsurpassed for rustic beauty.
Other sections are set apart for business purposes. This locality presents more decided advantages for a manufacturing town than any other point in our State. It has a front on the Mississippi river of more than a mile and a half, and a rear upon the navigable waters of Lake Pontchartrain, only about four miles distant. It is the only place where the N. O., Jackson and G. N. Railroad connects directly with the river, and offers at the same time easy access to the piney woods and lumber districts. For the establishment of manufactories of all descriptions, dry docks and steamboat building, it has not a superior; and for the encouragement of artizans and the mechanic arts, so much needed in our midst, liberal inducements will be offered.
Lumber by the daily trains, and brick made on the spot, can be delivered here at less than city rates. The Railroad Company will render the necessary facilities to the traveling community, and will run an accommodation train to and from the town at hours to suit the convenience of those doing business in the city, as soon as a sufficiency of travel may require it. Mr. P. Irwin will also run his lines of omnibusses to the depot at the requisite hours, thus making the connection with Canal street.
A portion of this property will be sold at low prices, for the small payment of five per cent. in cash, balance five years credit with interest at six per cent. per annum.
For further particulars, apply to MINOR KENNER, at the town of Kenner; W. P. COLEMAN, 85 St. Charles street; or J. K. VOSE, 145 Magazine street. au20 1y

A NEW DISCOVERY—THE GREATEST AND MOST WONDERFUL IN THE WORLD.

SARSAPARILLA LOZENGES,

Simple and Compound.

Prepared by N. HEREU, Druggist and Physician.
Superior to all Essences, Syrups and Extracts so named, and to all specialities heretofore known.
I have for a long time thoroughly investigated the idea of a general therapeutic agent, susceptible of being applied to all diseases, the development or morbid principle of which proceeds from an internal cause, either in the blood or any of the organs.
A careful and uninterrupted analysis of the animal, vegetable and mineral kingdoms had induced the hope that I could bring about such a result, and, thanks to my indefatigable researches, it is now obtained.
I have found in some vegetables the necessary means for this grand idea, which is based upon an oleaginous principle of Sarsaparilla partly known to the public. Such is the discovery which I have the honor this day of advertising. The form of Lozenges has been given to it, because its nature precluded the possibility of doing otherwise; and I have divided it into simple and compound Lozenges, in order that they might be given to children as well as adults.
My first experiments were made privately, and remained unknown until wonderful results had satisfied me that I had succeeded, and that the charge of quackery could not be brought against me.
The attention of physicians and of the public is called to these Lozenges, in order that every one may witness the admirable results of the same.
GENERAL EFFECTS.
Testified to by upwards of a thousand persons.
The stomach is cleansed, the blood is purified and renovated by removing all impurities from this precious organ and fluid.
SPECIAL EFFECTS.
1. Prompt and radical cure of all diseases generally.
2. Persons who have used these Lozenges have never had the cholera nor the yellow fever.
3. Venereal, syphilitic, hepatic, scorbutical, gouty, rheumatic and nervous and bilious diseases, are completely cured a few days after the remedy is resorted to.
4. All diseases of the lungs, head, eyes, stomach, bowels and other internal and external complaints disappear entirely, provided the Lozenges are resorted to.
For sale by the box, with a prospectus, showing how they must be used.

MEDICAL HOUSE, No. 82 Customhouse street, near Royal street—For the Cure of Old Chronic, Mercurial, Syphilitic and all Private Diseases, without Mercury, hindrance from business, or exposure to friends, and a cure guaranteed in all cases.
The unparalleled success which has attended Dr. James' practice in all parts of the United States and Europe—the many remarkable cures he has effected, which were pronounced incurable by the most eminent physicians, justifies him in offering his services to the confidence of the unfortunate. The following are some of the diseases termed "Private," and of which, in conjunction with newly discovered Remedies, Dr. James permanently eradicates, namely: Syphilis, primary, secondary and tertiary, Strictures, Urethral Discharges, Gleet, Gonorrhea, Nocturnal Emissions, Periodical Affections of females, however complicated they may be, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, Rheumatism, Hydrocele, Cancers, Ulcers, Tumors and all Diseases of the Skin.
Dr. James would also call the attention especially of those who have privately and improperly injured themselves in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society, viz: Constitutional Debility or Impotency. The following are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of Back and Limbs, Pain in the Head, Dimness of Vision, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervousness, Irritability, Symptoms of Consumption, etc. Mentally, the fearful effects on the mind are more to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, etc., are some of the evils produced.
All persons afflicted with any of the above symptoms should not fail to call on Dr. James and be at once restored to perfect health; let no false delicacy prevent you, but apply at once and save yourself from the awful and dreadful consequences of this terrible malady.
Weakness of the organs immediately cured, and full vigor restored.
Remember, "The Medical House of Dr. James" is 82 Customhouse street.
Private and separate rooms reserved. Hours of attendance from 8 A. M. to 8 P. M.
Consultations strictly confidential.
P. S.—Recent cases of Gonorrhea cured in twenty-four hours, or no pay.

DENTISTRY.

DENTAL NOTICE.—DR. J. WEST, Practical Dentist, No. 112 St. Charles street, near Poydras street.
J. W. would call particular attention to his method of constructing ARTIFICIAL TEETH. They are made perfectly natural in form and shape, set with false gums. The original form and expression of the mouth and face is restored, with a clear and distinct articulation of speech. This is effected by having the inside of the teeth and gum of a natural form, to which the tongue is readily adapted. This prevents that hissing sound so often observed in persons wearing artificial teeth. The Doctor has been practicing in this city fifteen years, and feels confident that he will give satisfaction to those who may honor him with their patronage. All persons desirous of obtaining his services, would do well to call and examine his specimens.
