## New Orleans Daily Crescent.

THE COMMERCIAL DEPARTMENT.

## New Orleans Money Market.

OFFICE OF THE CRESCENT, No. 78 Camp street,
Tuesday Evening, Nov. 17, 1857.

The position of affairs to-day was cheering. Though the banks did not expand their line of discounts, nor purchase largely of exchange, the general feature was encouraging.

There were some negotiations of paper at rates ranging from 2@3¾ to 5 per cent. per month, and a sale was reported at the rate of 4 per cent. This must not be considered as a criterion.

The most important item of the day is the general and full resumption of payments by the Union Bank, the Mechanics' and Traders' Bank having resumed yesterday, as expected. The Bank of New Orleans will be in full operation to-day. No community in the world occupies a higher position at this time than the city of New Orleans, financially and commercially. As regards her social and moral attitude, it will compare with the best.

The exchange market to-day was, in most respects, exceedingly quiet. The banks were selling checks on New York at ¼ per cent. discount; outside the rates ranged from 2@2¼ discount; one days sight at 2½@2¾ discount. Sterling clear bills ranged from 9@9½. Bills with shipping documents at from 9@9⅛ to 9⅜, and some small sums at 100@101. Francs are in very limited demand, and are only taken at 6.00@6.80—possibly the extreme range of the market may be placed at 6.00@5.70.

The stock market is quiet—nothing doing more than the transfer of sales made by Fairly & Co., on Saturday last. We note the sales in New York of some 80,000 Louisiana State bonds at 78@79½, which is a great improvement.

We welcome the return of our old citizen, Mr. Montgomery, the President of the Bank of Louisiana. It is hardly necessary to remark that he will find the Ajax not only in a tolerable strong position, but in an all-powerful position, and it is expected that good exchange will be absorbed freely. Though if the venerable President brings back anything of doubtful import regarding the position of financial affairs on the other side, it will be manifested in the course the bank will follow.

The following resolution, adopted by the Board of Currency, has been served on the several banks of this city:

"Neither bank notes nor bank balances will be counted as forming any portion of the specie which each bank is required by law to hold. They will be considered as cash assets or liabilities, and returned to the Board of Currency as such."

This movement by the Board of Currency will, of course, be more or less inconvenient. The toting of balances from one bank to another in bags and boxes every morning will form no inconsiderable part of the inconvenience. We look on the resolution as altogether unnecessary. It is manifest that our banks have proved to be impregnable and have met all their obligations faithfully. The suspension of the three banks can be considered as a mere nominal affair. Another panic cannot be expected to occur again for years. So long, however, as the banks hold one-third of their actual cash liabilities in coin the balances to which the resolution applies may be considered as coin or anything else. The Board cannot go beyond the requirement of one-third actual specie. Six months ago the action of the Board might have checked expansion of loans. At present there is no necessity for it, but it may in active business cause the free banks to feel its effects, from the fact that they have their securities locked up in the Auditor's hands, which have cost just as much cash.

Our dates from New York to-day are to the 11th. The $200,000 loan for account of the New York State being to supply deficiencies was taken at from 108@108. Most of it was taken by E. Whitehouse, Son & Morrison; say $200,000; G. S. Robins & Son, $175,000; E. W. Dunham, $80,000; sundries, better price. The amount of bids proposed was $1,220,000.
