CONGRESSIONAL.

Epitome of the Proceedings of Both Houses the Past Week.

WHEN the senate met on the 16th the credentials of Senator Sherman for his new term (the sixth) were presented and filed. Mr. Vance reported adversely the bill to provide an income tax to pay pensions. The urgency deficiency bill was then taken up and after some debate passed. The bills were then passed appropriating $50,000 for constructing a military store house at Omaha, and $500,000 for a public building at Salt Lake City. Pending consideration of the Idaho contested case the senate went into executive session and soon adjourned.... In the house Mr. Brown (Ind.) submitted a report on the Craig-Stewart election case from Pennsylvania. The committee reported in favor of the contestant. After filibustering for five hours by the opponents of free coinage in order to side-track the free coinage bill, the house finally reached a vote on the senate resolution to furnish free transportation to a cargo of relief goods to Russian sufferers, defeated it and adjourned.

WHEN the senate met on the 17th Mr. Sherman reported the resolution for the return to Mexico of twenty-one battle flags captured during the war with that country and it was passed. After passing a number of public building bills, among them the bill increasing the appropriation for the Omaha building to $500,000, the senate took up the Idaho contested election case but adjourned before disposing of it. ...After the introduction of bills in the house the Indian appropriation bill was taken up in committee of the whole. Pending consideration a lively tilt took place between Messrs. Watson (Ga.) and Funston (Kan.) in regard to the government loaning its credit to national banks and not farmers. Without disposing of the bill the committee rose and the house adjourned.

WHEN the senate disposed of routine business on the 19th Mr. Palmer addressed the senate in favor of his resolution for the election of United States senators by the people. At the close of Senator Palmer's remarks Senator Peffer offered resolutions upon the death of Senator Plumb and spoke at some length in eulogy of his late colleague. Senators Perkins, Cockrell, Morrill, Allison, Hale, Daniel, Dolph and Turpie also delivered eulogies and the senate adjourned.... In the house Speaker Crisp called Mr. Richardson (Tenn.) to the chair and a message was received from the president relating to the Chickasaw and Choctaw claims. The message was ordered printed. Several protests against free coinage were presented. A bill from the foreign affairs committee for the exclusion of the Chinese was reported and referred. The house then considered the Indian appropriation bill in committee of the whole until adjournment.

WHEN the senate met on the 19th there was a light attendance owing to the fact that the congressional excursion to Chicago was to start at an early hour. A motion was carried that at adjournment it be to Tuesday, the 23d. On motion of Mr. Dolph the bill to continue in force ten years all existing laws prohibiting and regulating the coming into this country of Chinese was taken up and passed. Several bills on the calendar were passed and a lengthy discussion indulged in on the District of Columbia bill in regard to bicycle ways and the issue of bonds. Adjourned until Tuesday.... The house was called to order by the chief clerk who read a note from the speaker designating Mr. McMillin as speaker pro tem. for the day. On motion of Mr. Funston (Kan.) a resolution was adopted setting aside Saturday, March 19, for the delivery of eulogies upon the late Senator Plumb. A resolution was presented by Mr. Bland providing for printing 5,000 additional copies of the majority and minority report on the silver bill. Mr. Tracy (N. Y.) suggested that the number be increased to 10,000, and, so amended, the resolution was adopted. The house then went into committee of the whole on the private calendar. The first bill was that for the relief of A. J. Dunnan, which gave rise to a long debate, mainly upon free silver and the tariff, which only had the effect of creating merriment and consuming time. Without action the committee rose and the house adjourned until Tuesday.

TORN BY A VICIOUS DOG.

A Woman Terribly Torn and Mangled By the Savage Brute.

NEWARK, N. J., Feb. 23.—Mrs. Annie S. Kent, whose husband, Robert Kent, keeps a saloon at No. 557 South Tenth street, had a frightful experience with a vicious bulldog while attempting to defend herself from Frank Habig, the owner of the dog. She was terribly torn and mangled by the savage brute. Habig remained in the saloon, Mr. Kent having retired, and late in the evening tried to kiss Mrs. Kent. She repulsed him and he grabbed her about the waist. As he did so the dog sprang at her and bit her again and again, tearing the flesh from her arms and shoulders. The disturbance aroused Mr. Kent, and when he arrived on the scene the enraged dog jumped at him. He threw a pillow at it, however, and he and his wife escaped. Habig has been arrested and held in $1,000 bail. Mrs. Kent is very badly hurt.

HELPLESS RUSSIAN PEASANTS

Are Being Taken Advantage Of, So It is Said.

ST. PETERSBURG, Feb. 23.—Strong complaints continue to be made of the action of the administrative authorities in dealing with the famine. It is asserted that at several places the committees charged with the distribution of food take advantage of the utterly helpless condition of the peasants to compel them to give way in matters concerning which they have formerly been in conflict with the authorities. With this object the poor people are refused all help until a promise has been obtained from them that they will pay in future the money for the land purchased, in regard to which they denied their liability, and, deprived of all resources, the peasants see no other course open to them than to undertake to make these payments in order to secure a share in the corn and flour distributed by the relief committee.

"Buzzard Gas" For Propelling Air Ships.

MOUNT CARMEL, Ill., Feb. 23.—E. J. Pennington, the airship inventor, has opened his airship factory in this city. He is now experimenting with buzzard gas. He claims that he took a buzzard, and clipping both wings off at the first joint, tied a string around its neck and hung it up for eight days. By putting a paper cap on each wing he got one cubic foot of gas. He is now looking up the properties of this gas and as soon as he discovers it he will make the ship fly.

ALL SORTS.

AMONG the most extraordinary pieces of symbolism known to have been used by the early Asiatics was a figure of a donkey's head used as a representative of the Deity.

THE flat pieces of iron shaped like a letter S and frequently seen on the walls of old brick buildings, serving as girders, are said to have been old-time symbols of the sun.

THE oldest piece of cloth in any American collection is that possessed by the Brooklyn institute. It is a piece of coarse Egyptian linen, not unlike the mumie cloth of the present day, and is supposed to be some six thousand years old.

THE opal was once looked upon as a thunder stone, and although many women now appear to have strong superstitious prejudice against wearing one, it was in by-gone days held in the highest estimation, for it was supposed to combine the virtues of several other gems.

BIG MONEY FIGURES.

COLORADO'S "pay dirt" last year in gold, silver, copper and lead amounted to $38,548,934. Her smelter's product amounted to $44,919,193.

IT is said that three-quarters of the entire manufacturing capital of the United States, or $9,000,000,000 is directly or indirectly based upon patents.

THE total foreign commerce of the port of New York for the year 1891, according to the annual report of the New York chamber of commerce, amounted to $1,040,607,425.

THE exports of gold from New York last year were $70,221,000, and the imports $31,563,000, making the excess of exports $38,658,000. The production of gold in the United States was $30,000,000, of which it is estimated about one-third has been used in the arts.

WHERE THEY ARE ALL GOING.

Northwestward ho! seems to be the cry now humming over the country. The vacant places in Minnesota, or at least those fit for farming, having been taken up the stream from the south is likely to join that from the east and pour into Manitoba and the fertile provinces adjoining it, particularly, it appears, the Saskatchewan. The construction of railways, the free gift of land to settlers (160 acres to each) coupled with the recent splendid harvest, is drawing all men's attention to those provinces, so long a mere hunting ground, with the result that the farming world and his wife are casting longing eyes towards Manitoba, and farmers crowded or unprosperous where they now are, are making preparations to be off in the spring. They can secure a homestead free, and they want to secure it before the choicest locations are gone. The liberality of the railways there, and the care for the immigrants displayed by the government is bearing fruit. Farmers are no longer content to scrape while they may gather by the armful. Those solid fields of wheat in Manitoba and beyond it which mean gold, are prizes too valuable to be neglected, and they are within the reach of all who will go and possess them. And people are going. It is almost becoming a question of who will get there first, and in all directions are preparations being made for a start. The demand in Europe for the fat cattle of the west, which cost little but the care of raising them, and for the cheese and butter of Alberta and Assiniboia, is becoming a factor in North American commerce, and the wise ones are packing to be amongst the early birds.

The S-it of the Earth.

Outside the gate.

First Shade—Do you expect to get inside?

Second Shade (a journalist on earth)—Yes; come on. I've got a pass for two.—Judge.

The use of electricity as a means of illumination in churches in England has been found to increase the attendance in the evenings to a marked degree.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c.

WE have noticed that the cheaper the trousers a young man has on, the more far he puts on the collar and cuffs of his overcoat.—Arkansaw Traveller.

A Grand Endowment.

To invigorate is to endow with health. This is conferred upon the feeble, the nervous and the dyspeptic by Hostetter's Stomach Bitters, the great enabling medicine. It recreates, as it were, the ability to digest and to sleep. It augments the appetite, and, since it increases the power of the system to incorporate food as part of its substance, it tends to remedy leanness. Malaria, kidney complaint, la grippe and liver complaint are cured by the Bitters.

WHAT is the difference between a man at the mast-head of a ship and the ship itself? The ship sails over the seas, and the man sees over the sails.—Once a Week.

The Only One Ever Printed—Can You Find the Word?

There is a 3 inch display advertisement in this paper, this week, which has no two words alike except one word. The same is true of each new one appearing each week, from The Dr. Harter Medicine Co. This house places a "Crescent" on everything they make and publish. Look for it, send them the name of the word and they will return you book, beautiful lithographs or samples free.

THE following question is now being discussed before the Bungtown Debating society: "Can a big man ache harder than a little one?"

NO SAFER REMEDY can be had for Coughs and Colds, or any trouble of the Throat, than "*Brown's Bronchial Troches.*" Price 25 cts. *Sold only in boxes.*

FOGG is inclined to think that a cocktail is not an unmixed evil.—Boston Transcript.

AT all times, in all places, on all occasions, under all circumstances, for all headaches, use Bradycrotine only.

WITH a politician the check is mightier than his word.—Texas Siftings.

BOHEMIAN Hops and Minn. Barley is what "The A. B. C. Bohemian Bottled Beer" of St. Louis is made of. Nothing healthier.

THE course of true love may never run smooth, but it generally gets there just the same.—N. Y. World.

There's nothing left of Catarrh, when you use Dr. Sage's Catarrh Remedy. With the poisonous, irritating snuffs and strong, caustic solutions, a good deal *is* left. They may, perhaps, stop it for a time, but there's danger of driving it to the lungs. They work on false principles.

But Dr. Sage's Remedy *cures* it, no matter how bad the case, or of how long standing. Not only Catarrh itself, but Catarrhal Headache, Cold in the Head—everything catarrhal in its nature. The worst cases yield to its mild, soothing, cleansing and healing properties. So will yours. You may not believe it, but the proprietors of Dr. Sage's Remedy *do*.

And to prove it they make you this offer:

If they can't cure you, they'll pay you $500 in cash. It's a business proposition from a responsible house.

But do you think they'd make it if they, and *you*, couldn't depend upon their medicine?

SYRUP of FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and $1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

"German Syrup"

Mr. Albert Hartley of Hudson, N. C., was taken with Pneumonia. His brother had just died from it. When he found his doctor could not rally him he took one bottle of German Syrup and came out sound and well. Mr. S. B. Gardiner, Clerk with Druggist J. E. Barr, Aurora, Texas, prevented a bad attack of pneumonia by taking German Syrup in time. He was in the business and knew the danger. He used the great remedy—Boschee's German Syrup—for lung diseases.

TUTT'S Tiny Liver Pills

as an anti-bilious and anti-malarial remedy are wonderful in their effects in freeing the system of biliousness and malaria. No one living in

Malarial Regions

should be without them. Their use prevents attacks of chills and fever, dumb ague, bilious colic, and gives the system strength to resist all the evils of an unhealthy and impure atmosphere. Elegantly sugar-coated. Price, 25c. Office, 39 Park Place, N. Y.

In Chicago.

St. Jacobs Oil

AFTER 22 YEARS.

Newton, Ill., May 23, 1888.

From 1863 to 1885—about 22 years—I suffered with rheumatism of the hip. I was cured by the use of St. Jacobs Oil. T. C. DODD.

HE HAD THE GRIP.

MR. E. SCHLICHTING, living at No. 2049 Third Ave., New York City, wrote the following under date of Dec. 29th, 1891. Two weeks ago I was taken with severe pains in my back, head, chest and throat, in fact my whole body ached and I considered it must be the grip. I used two bottles of Dr. Bull's Cough Syrup and found relief, the third bottle cured me. Two of my children were taken the same way and two bottles cured them. Dr. Bull's Cough Syrup is worth its weight in gold.
