[illegible] arrival at this [illegible] of the clipper ship [illegible] Hong-Kong [illegible] of [illegible] to the 10th of October was received, [illegible]

[illegible]

[illegible] 300 war junks for [illegible]

[illegible]

[illegible] 1857 [illegible] Mr. Wilson [illegible]

[illegible]

[illegible] President, [illegible] the Democratic Senators [illegible]

[illegible] the Nebraska [illegible] the Cincinnati platform [illegible]

[illegible]

[illegible] Mr. Foster, presented a petition of citizens of Berlin, Connecticut, [illegible] the adoption of measures for the peaceful [illegible] slavery by a fair and ample compensation [illegible] of slaves for their emancipation, [illegible] on the table.

Mr. [illegible] gave notice of his intention to introduce a bill for the purpose of extending the amount [illegible] the silver coinage of the United States [illegible] a legal tender in payment of debts.

Mr. Simmons gave notice of his intention to introduce a bill to provide a uniform mode of ascertaining [illegible] of foreign imports in the legal currency of the United States, and to prevent frauds upon the [illegible] by under-valuation of merchandise subject to [illegible]

The President of the Senate laid before that body [illegible] message from the President of the United States [illegible] in answer to a resolution calling for documents in [illegible] to the affairs of Kansas; and the other communicating copies of correspondence between the Department of State and the British and French ministers on the subject of claims for losses alleged to have been sustained by subjects of Great Britain and France at the bombardment of Greytown; which were severally ordered to lie on the table and to be printed.

On motion by Mr. Seward, a resolution was adopted requesting the Secretary of War to communicate to the Senate the estimates which have at any time been [illegible] for the improvement of rivers and harbors within the State of New York.

Mr. Davis, in pursuance of notice, asked and obtained leave to introduce a bill authorizing the establishment of a navy yard and depot at the harbor of Ship Island, in the Gulf of Mexico; which was read [illegible] and referred to the Committee on Naval Affairs.

The Senate resumed the consideration of the President's message, and adjourned after a lengthy debate upon the Kansas question.

House.—Mr. Warren, of Arkansas, submitted the following resolution, remarking that he regarded it a question of privilege, as it affected the right of the delegate from the Territory of Utah to a seat on the floor of the House on an equal footing with other delegates:

Whereas, It appears from the proclamation of Brigham Young, late Governor of the Territory of Utah, from the President's message, and from later developments, that the said Territory is now in open rebellion against the government of the United States; therefore,

Resolved, That the Committee on Territories be instructed to report the fact, and inquire into the expediency of the immediate exclusion from this floor of the delegate from that Territory.

After much debate, this preamble and resolution were adopted, and the House soon after adjourned.

Lamas.—The recent arrival in New York of quite a number of lamas, makes a description of the animal interesting, and accordingly the Mirror furnishes the following:

The lama belongs to the group Ruminantia, which is divided into four families—the camel, giraffe, deer and antelope, and oxen. The genus Auchenia differs from the camel in being destitute of the hump on the back. The legs are shorter than in the camel. The neck is long—more vertical. The ears and hoofs are long. The toes are separated, or not united, as in the camel, by a callous sole. The actual species of this genus belong to this continent exclusively, where they represent the camel of the eastern. They are confined to the mountainous regions of South America. The lama, the most common of the species, is as large as a stag, and was known at the time of the conquest of Peru, by Pizarro, in 1534, and indeed was the only domesticated animal, being to the inhabitants of that country what the reindeer is to the Laplanders. The importation is a speculation, the design being to introduce them where sheep and alpacas flourish. This animal is extremely hardy, and is said to breed rapidly. They will be valuable only for their wool.

Lake Disasters During 1857.—The Chicago Press publishes a list of the marine disasters on the lakes for the past season. The footings amount to $1,170,315, to which its compiler adds $750,000 for losses not recorded, which is undoubtedly a gross exaggeration. The amount of losses stated is also overrated in a majority of instances. It would be safe to say that three quarters of a million would cover all the enumerated casualties, and one million the total of marine losses on the lakes for 1857.

The same authority gives the following as the losses of property on the lakes during the past ten years:

1848	$[illegible]	1853	$814,350
1849	[illegible]	1854	2,187,825
1850	[illegible]	1855	2,793,838
1851	[illegible]	1856	3,008,814
1852	[illegible]	1857	1,070,315

Total loss in ten years $13,821,328

Let the estimates be divided by two and the result will approximate much closer to the truth.

The loss of life during the present year is stated at 221 lives. In 1854, the loss of life was 119; in 1855, 119; and in 1856, 407—making a total in four years of 866 lives.

Amenities of the Press.—The Richmond South and the Philadelphia Press, Forney's paper, are not very friendly. This is the way in which Col. Pryor speaks of his editorial brother:

Mr. John W. Forney, of the Philadelphia Press, exhibits an anxiety to provoke a discussion with this paper in regard to the issues of the Kansas controversy; and with that view he chooses to reply to our criticism of Senator Douglas' position with decided warmth of temper and severity of epithet. With the positive conviction that a triumph over Mr. Forney would neither secure us any personal credit nor result in the least advantage to the interests of the South, we must decline to return the gentleman's salutation. We have abundant opportunity for discussion with editors of respectable character, and have no need to descend to the level of an individual who has been convicted of an attempt to extort false testimony against a woman by a liberal supply of liquor to a drunken play-actor. If we could not find a worthy champion we should not accept one whose name is the synonym of personal dishonor.

Fort Smith and the Overland Mail Route.

A recent number of the Fort Smith (Ark.) Herald says:

The day is not far distant when we shall see Fort Smith one of the most prominent business cities in the West. The prospect for a railroad from Little Rock is now considered flattering. The land in this and the adjoining counties is being taken up by industrious and persevering settlers, yet, as a writer in another column says, there are 350,000 acres in this county alone, not yet located, but the attention of the emigrants is being attracted by the healthy and fine climate, and we expect, ere many years, to have a population here that will far exceed any other point in the West. The lands are as good as any in the West for raising corn, cotton, etc., and a full river affords means for steamers to touch at the different points contiguous to the products of the country, and there have a large amount will be consumed by the citizens—thus affording a rare inducement to the settler to come in and secure land before it is all taken up by speculators.

Every article that may be manufactured or raised in this country for export can be shipped almost any time during any year. And the natural advantages surrounding us is sufficient to satisfy us that our city will, ere long, grow to be one of the great commercial marts of the West. And as an evidence of the progress that is being effected to our interest, we will here turn our attention to the Overland Mail route to California, which is very encouraging to the people of the West, and more particularly those on the 35th parallel route, as they know it to be the route.

It is now almost a settled point that the junction of the Overland Mail route will be formed at this place. We understand that the contractors, and more particularly the President of the company, are decidedly in favor of the 35th parallel route, or more familiarly known as Lieut. Whipple's route.

We are informed that a portion of the contractors will be here from St. Louis, in a few days, on their way to meet a portion of the company that is coming across from California. We learn that it is the intention of that portion of the company leaving here to travel via Preston, Texas, and from thence along Capt. Marcy's route to some place on or near the Rio Grande, where it is understood that the two divisions of the company will meet and from thence up the country to Albuquerque and thence along Whipple's route to Fort Smith. The grand object of these interested, is to select the most feasible route, and as a proper means of ascertaining, have adopted the above plans.

The country along Whipple's route, for 250 miles distant from Fort Smith, is settled sufficiently for the company to select their stations and provide the necessary subsistence for their animals. The country along this route will, when the mail line is once put in operation, attract the attention of the hardy pioneers of the West, as a country for farming purposes, the soil being very superior, and the situation of country not surpassed; therefore it would not be but a very short time before the settlers along the line would be a sufficient protection to the stations and the line generally.

Nature, as we understand it, intended the 35th parallel route to be the route over which the overland mail to California should be carried, and we shall ever believe, should it not be done, that the people of this portion of our State, and those West of us, have have not received that which is justly and unequivocally theirs.

Overloading a Senate Bill.—In the Tennessee Senate, on the 4th inst., the House bill to incorporate the "Lynnwood Landing Company" was taken up, when Mr. McConnico moved to amend a pending amendment as follows:

"And provided further, that they shall gnaw a file and flee unto the mountains of Hepsidam where the lion roareth and the whang-doodle mourneth for its first-born."

This was too heavy a load for the first amendment to bear, and both went down together.

HOWARD ASSOCIATION, PHILADELPHIA.—A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic Diseases.

To all persons afflicted with SEXUAL DISEASES, such as Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or Self-Abuse, etc., etc.

The "Howard Association," in view of the awful destruction of human life, caused by Sexual Diseases, and the deceptions practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, (age, occupation, habits of life, etc.,) and, in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves with renewed zeal to this very important but much despised cause.

Just published by the Association, a Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail, (in a sealed letter, envelop,) FREE OF CHARGE, on the receipt of TWO STAMPS for postage.

Address, for Report or treatment, Dr. GEORGE R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa.

B. A. FAHNESTOCK'S VERMIFUGE IN ALABAMA.

Greensboro, Ala., April 18th, 1854.

Messrs. B. A. Fahnestock & Co:

I have been selling your Vermifuge in this place for five years, and take pleasure in stating, for the information of the trade and of the public, that it has been, so far as I know, one of the most satisfactory remedies in the market, and one of the most saleable medicines we have. I have also personal knowledge of its good effects in numerous cases under the treatment of our physicians, all of whom use it regularly, and always found it to be safe and reliable as a worm specific. I can recommend it as one of the safest and best in the market.

A NEW DISCOVERY—THE GREATEST AND MOST WONDERFUL IN THE WORLD.

SARSAPARILLA LOZENGES,
Simple and Compound.

Prepared by N. HEREU, Druggist and Physician.

Superior to all Essences, Syrups and Extracts so named, and to all specialities heretofore known.

I have for a long time thoroughly investigated the idea of a general therapeutic agent, susceptible of being applied to all diseases, the development or morbid principle of which proceeds from an internal cause, either in the blood or any of the organs.

A careful and uninterrupted analysis of the animal, vegetable and mineral kingdoms had induced the hope that I could bring about such a result, and, thanks to my indefatigable researches, it is now obtained.

I have found in some vegetables the necessary means for this grand idea, which is based upon an oleaginous principle of Sarsaparilla partly known to the public. Such is the discovery which I have the honor this day of advertising. The form of Lozenges has been given to it, because its nature precluded the possibility of doing otherwise; and I have divided it into simple and compound Lozenges, in order that they might be given to children as well as adults.

My first experiments were made privately, and remained unknown until wonderful results had satisfied me that I had succeeded, and that the charge of quackery could not be brought against me.

The attention of physicians and of the public is called to these Lozenges, in order that every one may witness the admirable results of the same.

GENERAL EFFECTS.

Testified to by upwards of a thousand persons.

The stomach is cleansed, the blood is purified and renovated by removing all impurities from this precious organ and fluid.

SPECIAL EFFECTS.

1. Prompt and radical cure of all diseases generally.
2. Persons who have used these Lozenges have never had the cholera nor the yellow fever.
3. Venereal, syphilitic, hepatic, scorbutical, gouty, rheumatic and nervous and bilious diseases, are completely cured a few days after the remedy is resorted to.
4. All diseases of the lungs, head, eyes, stomach, bowels and other internal and external complaints disappear entirely, provided the Lozenges are resorted to.

For sale by the box, with a prospectus, showing how they must be used.

INSURANCE.

STATE OF LOUISIANA, CITY OF NEW ORLEANS.—Be it known, that on this eighth day of April, in the year of our Lord one thousand eight hundred and fifty-seven and of the independence of these United States of America, the eighty-first, before me, EDWARD BARNETT, a Notary Public in and for the parish of Orleans, State of Louisiana, aforesaid, duly commissioned and sworn, personally came and appeared the parties whose names are hereunto subscribed, who declared that, availing themselves of the provisions of the statutes of the State of Louisiana, relative to the organization of corporations in this State, they have covenanted and agreed, and do by these presents covenant, agree and bind themselves, and those whom they represent, to form themselves into and constitute a corporation for the objects and purposes, and under the stipulations and regulations following, that is to say:

ARTICLE FIRST.

The name and title of the said corporation shall be "HOPE INSURANCE COMPANY OF NEW ORLEANS," and its domicil is hereby established in the city of New Orleans. It shall commence its business so soon as the sum of one hundred thousand dollars shall have been subscribed for, and it shall exist for twenty-five years from the date thereof. It shall have a corporate seal, having for a device the coat of arms of the State of Louisiana, and for an inscription the name of the Company and the date of this act.

ARTICLE SECOND.

The objects and purposes of the Company are hereby declared to be:

1st. To make insurances upon dwelling houses, stores, cotton presses, and every other description of buildings, household furniture, goods, wares, merchandise, machinery, and other property, against loss or damage by fire.

2d. To make insurances upon ships and other sea vessels, steamboats and other vessels, freights, goods, wares, merchandise, gold, silver, bank notes, bills of exchange, and other evidences of debt, commissions, profits, bullion or money, and against all maritime or inland transportation, risks, and upon lives, bottomry, and respondentia interests; in other words, to effect fire, marine, river and life insurance of any kind whatsoever.

The Company may cause itself to be reinsured against any risk upon which it shall have made insurance; and all citations, notices and other legal process wherein the Company may be interested, shall be served on the President, to be appointed in the manner hereinafter provided for.

ARTICLE THIRD.

The capital stock of said Company shall be two hundred and fifty thousand dollars, divided into twenty five hundred shares, of one hundred dollars each, to be paid for at the time and in the manner following, to-wit:

The subscribers to the said Company shall pay into the hands of the President, upon the organization of the Company for business, the sum of twenty dollars in cash on each and every share subscribed by them, and furnish their notes, to the order of the Company, for the remaining eighty dollars on each share, payable on demand, at the office of said Company, at such time and in such manner as the Board of Directors may determine, provided that the same shall be made by installments of not more than twenty dollars on each share, in such periods as may be agreed upon by the said Board of Directors; and forty days' notice, in French and English, in at least two of the daily papers published in the city, shall be given of payment or payments to be made; which said capital stock of two hundred and fifty thousand dollars may be increased to the sum of five hundred thousand dollars, as hereinafter provided for.

ARTICLE FOURTH.

All the corporate powers of the Company shall be exercised by a Board of Directors composed of nine persons, to be elected on the second Monday of July in each year, at the office of the Company; notices of such election shall be given in at least two daily newspapers published in this city, and continued for ten days immediately preceding said election, in the French and English languages. The Board shall appoint three stockholders Inspectors to preside at such elections, and if any of said Inspectors decline or fail to attend, the President shall appoint others to act in their stead. The Board thus elected are to take their seats on the fourth Monday of the said month of July, and to hold the same one year therefrom, or until their successors are elected and qualified. The first election shall take place within twenty days from the date hereof, and after due notice as above provided for. Messrs. Thos. N. Blake, Eugene F. Micou and Francis Moreno, Jr., all of this city, are hereby appointed Inspectors to preside at said first election, and the persons then chosen shall be the first Directors of said Company, and shall remain in office until the fourth Monday in July, eighteen hundred and fifty-eight, or until their successors are elected and qualified.

In all elections the votes shall be by ballot, and those persons receiving a plurality of votes of the stockholders present shall be considered duly elected; and in the event of no election taking place on the day aforesaid, the President shall cause another election to take place within ten days thereafter, and give notice of the same as aforesaid.

Each and every stockholder shall be entitled, either in person or by proxy, to a vote for such and every share which he, she or they may respectively hold; provided that no individual, corporation or company shall be entitled to a greater number of votes than twenty, nor to vote after the first election on any shares transferred to him or them within ninety days prior to said election.

ARTICLE FIFTH.

At the time of the expiration of the charter of the aforesaid Company, or sooner, if ordered by a vote of the stockholders as hereinafter provided for, the affairs of said company shall be liquidated, its debts paid under the charge and superintendence of three Commissioners, to be appointed by the Board of Directors, and who shall remain in office until the final liquidation of the affairs of the Company.

ARTICLE SIXTH.

The Board of Directors shall, at their first meeting in every year, elect from among themselves a President and Vice President, who shall hold their office until their successors shall be elected.

ARTICLE SEVENTH.

No person shall be capable of being elected a Director of said Company who does not, at the time of his election, and during his continuance in office, hold in his own name, or in that of the commercial house of which he may be a partner, at least ten shares of the stock of said company.

ARTICLE EIGHTH.

The Board of Directors shall have the power to appoint such officers, clerks and employees as shall be necessary for the conducting of the business of said Company, and to ordain such by-laws, rules and regulations as they may deem necessary for the government of said Company; provided the same shall not conflict with the laws of this State, or the true intent and meaning of this act.

They shall fix the compensation of the officers, clerks and employees elected or employed by them in the service of the Company, and shall also have power to fill all vacancies which may occur in their number or in the Presidency.

ARTICLE NINTH.

The President shall sign all policies, and preside at all meetings of the Board; he shall conduct and manage the business of the Company generally, under the supervision of the Board of Directors; in case of his absence, the Vice President shall preside at such meetings.

ARTICLE TENTH.

The Board of Directors shall have power to invest, from time to time, the money and capital of the Company in bonds and mortgages, on unencumbered and improved real estate, situated in the parish of Orleans, which, in every case, shall be deemed worth at least double the amount loaned thereon. They may also invest the profits of the Company in any bonds, or stock created by or under the laws of the United States, of this State, or of the corporations of this State, or make loans on pledge of any of the aforesaid securities bonds or stock. They shall have power to dispose of mortgages obtained by way of security, or of stock pledged for security, or of property conveyed to them in satisfaction of debts previously contracted, or purchased at public sale upon judgments or orders of seizure obtained by said Company, or of any property movable or immovable, which may have been abandoned to said Company for or concerning the operations of its business; but nothing herein contained shall be so construed as to authorize the said Company to discount negotiable paper, or to do any other banking operation, nor either directly or indirectly to deal or trade in buying or selling movable or immovable property, goods, wares or merchandise.

ARTICLE ELEVENTH.

Yearly dividends shall be made of so much of the profits of the Company as shall appear advisable; but the proportion of premiums received on risks, which shall not be terminated at the time of making such dividends, shall not be considered as forming parts of the profits of the Company; and in case of any loss or losses, whereby the capital stock of said Company shall be lessened, no subsequent dividend shall be made until such diminution shall have been covered and made up by the profits.

ARTICLE TWELFTH.

In the yearly dividends to be declared, as aforesaid, the amount to be paid to the stockholders shall not exceed ten per cent. on the amount paid in, and the balance shall be placed to the credit of unpaid stock account, until the same is paid in full, when it shall be the duty of the President and Board of Directors to issue certificates to the stockholders for full paid shares.

ARTICLE THIRTEENTH.

After the whole capital stock of said Company shall have been paid in, the Board of Directors shall have the right to deduct from each yearly dividend and lay by such part of the said dividends as they may deem proper, until a surplus fund of not more than two hundred and fifty thousand dollars shall have been formed and realized, to be added to the capital stock of said Company.

ARTICLE FOURTEENTH.

It shall be the duty of the President and Board of Directors, within one month from the close or expiration of each year of the Company, to cause to be published, in French and English, in at least two daily newspapers published in this city, and for the term of at least one month, a full statement, under oath, of the business of the Company, which statement shall contain, first the amount of premium received during the previous year, specifying what amount was received for life insurance, for insurance against fire, what on marine policies and what on river policies; second, the amount of losses incurred during the year, specifying and designating what amount of losses have been incurred by the different kinds of policies as aforesaid; third, the amount of capital, stating the portion of the same invested in securities, and the nature of the securities.

ARTICLE FIFTEENTH.

The stockholders shall not be responsible for losses or damage incurred by said company beyond the amount of capital stock held or owned by him or them respectively.

ARTICLE SIXTEENTH.

Any stockholder who shall fail or neglect to pay any installment when ordered by the Board of Directors, as provided for in article third, shall forfeit to the Company all previous payments, and cease to be a stockholder in said Company.

ARTICLE SEVENTEENTH.

No stock shall be transferred, unless such transfer be made on the books of the Company. Should any stockholder desire to transfer stock previous to full payment of the same having been made, he shall be permitted to do so by a substitute of the obligations of the party purchasing, provided the substituted obligations are satisfactory to the Board of Directors.

ARTICLE EIGHTEENTH.

This act of incorporation may be modified, altered or amended, or the said Company dissolved, at a general meeting to be convened for that purpose, after thirty days' notice, in French and English, in two of the newspapers published in this city, and with the assent of three-fourths of the stock represented at such meeting; and any and all such modifications, alterations, amendments or dissolution shall be recorded and published according to law.

Thus done and passed at the city of New Orleans, the day, month and year aforesaid, in the presence of James N. Telfer and Edward S. Audler, witnesses, who hereunto sign their names with said parties and we notaries.

JAMES N. TELFER,
EDWARD S. AUDLER,
EDWARD BARNETT, Notary Public.

I certify the foregoing to be a true copy of the original act on record in my office. In faith whereof, I grant these presents under my signature and the impress of my seal of office, at the City of New Orleans, this 14th day of April, 1857.

EDWARD BARNETT, Notary Public.

The undersigned, Recorder of Mortgages for the parish and city of New Orleans, State of Louisiana, certifies that the foregoing charter was recorded this day, in his office, in the Book of Society No. 8, folios 534 to 580 inclusive. P. PAJAUD, a29 Dep'y Rec'd'r.

McGOWAN'S CELEBRATED PLANTATION PUMPS.—DOUBLE-ACTING SUCTION AND FORCE COAST PUMPS AND PUMPING ENGINES, DISCHARGING FROM TWENTY-FIVE HUNDRED TO ONE HUNDRED AND TWENTY THOUSAND GALLONS PER HOUR; SUGAR-HOUSE PUMPS; FIRE ENGINES; PUMPS FOR CISTERNS AND DEEP WELLS; COPPER-LINED JUICE AND MOLASSES WITH BRASS BALL VALVES; HOT WATER PUMPS FOR FORCING INTO BOILERS AGAINST STEAM.

McGowan's Portable Plantation Steam Pumping Engines for lifting and forcing a large volume of water from the river overflowing rice lands, supplying sugar houses, etc.; Draining Engines; small Sugar House Engines, with copper lined Metal Valve Pumps for juice, molasses, and forcing hot water into steam boilers; Steamboat Doctors and Wrecking Engines; Portable Copper Lined Fire Engine Pumps, worked by brake, capable of throwing from 50 to 75 gallons per minute, through a nozzle, a distance of from 100 to 120 feet.

The engines are each furnished with a band wheel for driving circular saw, corn mill, gin stands, etc., and can be furnished without pumps for printing houses, ware houses, etc., where compact and simple vertical engines are desirable.

No brick work or erection of any kind is necessary in putting these engines to work, as both engines and boilers are vertical and all connections are made.

Cincinnati, December 1, 1856.

Messrs. Geo. D. Winchell, Bro. & Co:

Gents—The Pumping Engine purchased of you for use of a small shop on the line of the Cincinnati and Chicago Railroad, has been in use some time and given perfect satisfaction. I consider it the best pumping apparatus within my knowledge. The engine drives, besides the pumps, a 30-inch circular saw, three lathes and a drill press, and there is power to spare, with 85 pound pressure on the square inch of the boiler. I therefore cordially recommend it to the notice of railroad managers and others. Yours truly,

S. B. MORSE, Supt. C. and C. R. R.

New Orleans, November 1, 1855.
Office N. O., Op. and G. W. Railroad Co.

Mr. I. Bridge: Sir—In answer to your inquiry relative to the performance of the McGowan Pumps now in use upon this road, I can only say that they are quite equal to your representation, and that among the variety of pumps we have in use, they are decidedly the best.

Yours, respectfully, A. B. SEGER, Vice President.

The above Pumps and Engines are constantly for sale by the subscriber, sole agent here for the manufacturers.

COTTON SEED OIL vs. LARD OIL—PERSONS that cannot use Lard Oil for burning in Lamps this cold weather, will find a much better and cheaper Oil by using FISK'S REFINED COTTON SEED OIL. This Oil will stand cold weather, burn much better, and lasts longer in Lamps than Lard Oil, and is guaranteed to be much superior to Lard or Fish Oil in all cases. This Oil is guaranteed to give satisfaction. Apply at the Factory, No. 74 New Levee street.

WANTED—200 Oil Barrels. d19

AMERICAN AROMATIC BITTER CORDIAL—This Cordial, whose delicate flavor and aroma are unsurpassed, is the most successful tonic and restorative known in cases of general debility and nervous complaints; it restores the appetite, invigorates the action and functions of the stomach, and thereby prevents dyspepsia, so often brought on by continued attacks of indigestion, the prevalent complaint of hot and humid climates. Said Cordial may be administered with equal efficiency to the infant and the aged, by following the directions printed on the label of each bottle; and its agreeable taste is not the least of its recommendations.

This Cordial has been introduced into general use in the principal coffeehouses of this city, such as Sazerac, Gem, Ruby, the Age, etc., as far superior to Boker's Stomach Bitters, so celebrated throughout the United States of America; and there can be no doubt that all who have tasted the American Bitter Cordial give it the preference over all other Bitters hitherto in use.
