RIVER INTELLIGENCE.

FRIDAY MORNING, Jan. 15, 1858.

The weather yesterday was clear, but unusually warm for the season, and we think there must be a change soon. It is most likely we shall have more rain ere it turns colder.

Business continues to be very dull on the levee; the complaint is universal with all the boatmen. Up freights are still very scarce, the arrivals are very few, and the departures not much more numerous; it is to be hoped there will be an improvement soon, and that the many boats now idle, may be employed and profitably so.

Of the rivers we hear nothing of special interest. We have no up-river papers, as no boats have arrived, and, of course, no news. Several boats were due last evening—doubtless they have been detained by the dense fog that has prevailed on the river for two or three nights past—among them is the Louisville packet Antelope, she will be at the landing this morning and should leave to-day, at 5 P. M.; also, the Arkansas river packet Tennessee Belle, the Cumberland river packet Josephine Savage, the Cincinnati packet David Gibson, the Yazoo river packet Lewis Whiteman, the Vicksburg packets Natchez and R. W. Adams, will be in port by this morning.

ARRIVALS.—The Bayou Lafourche packet Dr. Batey, Capt. A. Dugas, arrived with 460 hhds. sugar and 331 bbls. molasses, and leaves again to-day as usual at 9 A. M.

The Red river packet Caddo Belle, Capt. A. Barnes, arrived from Jefferson with 608 bales cotton, and will leave again on Saturday at 5 P. M.

The Fox, Holden from Jefferson with 474 bales cotton; the Capitol from Bayou Sara, with 96 bales cotton, 611 hhds. sugar and 584 bbls molasses; the C. D. Jr. from Plaquemine, with 388 hhds. sugar, 80 bbls and 100 half bbls. molasses.

New Orleans Money Market.

CRESCENT OFFICE, No. 70 Camp street, Thursday Evening, Jan. 14, 1858.

The European letters by the Atlantic were received to-day. They read more cheerfully (as expected) than we have received for a long time—in fact, they are considered by some parties more satisfactory than the telegraphic dispatches. There was a disposition evinced to-day to await the expected advices, one day later than that of the Atlantic.

The calls for money to-day were light compared to what they have been; so little paper is making that we should not be surprised to see capitalists turning their attention to our State and City Bonds for investment. Our State Bonds are quoted in New York at 95@96, and our Consolidated Bonds are held here at 105@77. We can hardly conceive why our City Bonds should not command as much in our city as securities of New York city do in New York, which is nearly par. New York State five per cent. Bonds command 95@100. Our City Council has imposed the tax for the payment of interest on the City Bonds for the present year. There will be no default in the payment. The sale this year is 5c. per $100 against 90c. last year, and 22c. on each $100 for the interest on bonds issued for the benefit of railroads. It is to be hoped there will be some action after paying the interest, to reduce the bonded debt, or at least the City Bonds. If capitalists do not meet with paper, they can resort to bonds, though if we mistake not, they will become scarce after a short time.

There is some inquiry for mortgage securities, and first class can be negotiated at the rate of 12 per cent. per annum—good short date commercial paper is also becoming scarce.

Considerable excitement was evinced to-day at the discovery of some cunningly devised counterfeits of Sterling paper being in the hands of four of the banks, and some private parties. The perpetrator of the forgery has left the city. The heretofore high standing of the party, his connections with some of our most respectable affiliations, has caused much wonderment and more astonishment. The causes which induced the declension from rectitude and integrity are only conjectured—suffice to say they are traced to the same sources as thousands of cases in other parts of the world, the fascinations for the gaming table and other dissipations incident to a city.

The Exchange market was freely supplied to-day. Sight on New York was sold at ¼ per cent. discount. The general range was from par@¼ discount. The banks were selling at ¼ prem., though the Chinese reduced to par, while two banks held at ¼ premium. Short sight firm; street rates from ⅛@¼ discount; thirty days sight from 1⅛@1½ per cent. discount; sixty sight from 2 for 4 to 2½; ninety sight 2½ per cent. discount for good to fair. Sterling with bills of lading were sold at 108@109, though some drawers held at higher rates, say 109@110; clear bills 109@109¼ and 108. Southern Bank drafts 108½. Francs improved a little. We quote them 5.37½@5.42½ for fair to good bills.

We did not learn of any sale of stocks to-day. Messrs. Palfrey & Co. hold their usual weekly sale of Stocks, Bonds, Scrip and other securities on Saturday, the 16th inst.

[From the London Times City Article, Dec. 19.]

A week ago an estimate was made in Parliament that the liabilities of the houses which have failed during the present crisis made up a total of £60,000,000 of sterling—but this was at least double the total outlined in 1847. It may be doubted if the figures for 1847 would not be found to have amounted to more than half a million, but this cannot be asserted of 1857, when the most occasion made magnitude is much beyond anything attained at any previous period. Subjoined is a list of the principal suspensions announced in London since the beginning of the year, when the pressure first decidedly commenced. Only a fough conjecture can be formed as to the total they represent, since, in most instances, the balance sheets remain to be made up, but the list of 18 or 16 millions may be taken as the lowest sum. The failures of the previous half century cannot be estimated with an approach to precision, but as the debts of five hundred years amount in about twenty three millions the Western of Scotland £8,000,000, the Royal Bank of Scotland £6,000,000, the Leopold £6,000,000, the Liverpool Borough about £4,000,000, the Wolverhampton and Staffordshire £1,000, and the City of Glasgow £6,000,000, it is apparent that the aggregate of the present list will compare favorably with that of former periods, but this is not the question. The great climax is thus raised to £60,000,000, and with this before them Parliament and the public are bound to use every effort to probe the causes of the evil.

The New York Times, of the 7th inst., says:

The European accounts from Europe by the steamer Atlantic to Wednesday, have had a very depressing influence upon the prices of the market. A brief summary was telegraphed from Halifax, and it is to be feared that the accounts of the Bank of Brothers, of the decided improvement in other courts, are not earlier than looked for, and the further considerable advance in the funds to 93¾ per cent. was scarcely looked for. The former is very acceptable to this side, and will do more to turn the exchanges immediately in our favor than any other market event in Europe. It is much to be regretted that the turn at Liverpool comes a few days too late to save to our three of the large cotton factors at New Orleans, whose suspension on the heavy payment of the 4th January was announced yesterday by telegraph. The sales at Liverpool for the three business days succeeding the departure of the previous packet were 23,000 bales, of which speculators took 1,000 bales, and an advance of ¼d @ ⅛d. on the lowest depression of the week before. At better rates the goods and yarn is reported from Manchester. In grain the market was heavy and the prices of Wheat in good request. Flour continued dull. The ship to Cronos is 1 ¼d cost, from the sailing of the packet of the 19th December. Discounts were at 3 per cent. in the open market, and to this rate the Bank of England would probably reduce its terms on the Court of Directors on Thursday. The easy condition of money in Paris, which continues to the much surprise as well as satisfaction, may influence even a larger reduction in the value of money in London. Business is assuming shape again at Hamburg, and the recovery from a panic appears to be as rapid as the mischief itself was sudden.

Review of the Markets.

FRIDAY MORNING, January 15, 1858.

COTTON....There was a fair demand yesterday, with sales of about 6500 bales at a further improvement, showing an advance of about ⅛ within the last two days. We now quote:

ADVERTISEMENTS.

ANDERSON D. DIETER, COMMISSION MERCHANT, AND AGENT FOR JEFFERY'S DOUBLE-ACTING SUCTION AND FORCE PUMP WITH INDIA RUBBER BALL VALVES.

NOTICE.

Jeffery's Double-Acting Suction and Force Pump, with India Rubber Ball Valves,

Suitable for Sugar and Cotton Plantations, Draining Excavations, Dry Docks, Ships, Ocean and River Steamers, Dwellings, Mines, etc., etc.

The subscriber having been appointed Agent for this State for the sale of Jeffery's Improved Double-Acting Pump, with India Rubber Ball Valves, is now prepared to receive orders and furnish same. This valuable invention was patented June 9th, 1855, and was awarded the FIRST PREMIUM at the New York State Fair, held at Elmira, in that year. In introducing this new Pump to this community, the undersigned feels a confidence that his efforts to bring it into general use will be responded by all who see its operation. Send descriptive circulars.

The perfect adaptation of solid Balls of India Rubber for Pump Valves, will at once be apparent to every thinking mind. Their imperviousness to water and their yielding surface secures a certainty of operation and a perfection of action which cannot be attained by the use of any other Valves. The simplicity of arrangement, the facility with which the parts can be removed and replaced, the compact form, renders this the most perfect and desirable Pump in use. Every Planter, Ship or Steamboat Captain should possess one or more of these valuable Pumps, as apart from their general purposes, they can in a moment be transformed into an efficient Fire Engine.

Size No 2 possesses a capacity of forcing 30 gallons per minute. Price $25.

Size No. 3 possesses a capacity of forcing 40 gallons per minute. Price $35.

Size No. 4 possesses a capacity of forcing 75 gallons per minute. Price $50.

And larger sizes, suitable for Dry Docks or heavy Drainage, up to a capacity of 500 gallons per minute, are now in course of construction and may soon be expected. Nos. 2 and 3 are admirably adapted to Sugar Houses for forcing the cane-juice, molasses and the ordinary uses to which a Pump is generally applied, while for redeeming Swampy Lands, the No. 4's are indispensable.

The subscriber feels convinced that when these Pumps are seen they will speak for themselves, and that sooner or later they will be introduced into use.

Samples of Size No. 2 can be seen in operation at C. C. Bier & Co.'s, No. 98 Tchoupitoulas street, Messrs. Cochran's, No. 107 Front street, or at the office of the undersigned, where persons are invited to call and examine same before purchasing.

DOCTOR HOUFLAND'S CELEBRATED GERMAN BITTERS, Prepared by Dr. C. M. JACKSON, PHILADELPHIA, PA., Are effectually Cure

Liver Complaint, Dyspepsia, Jaundice, Chronic or Nervous Debility, Diseases of the Kidneys, and all Diseases arising from a disordered Liver or Stomach.

—Such as—

Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture; Dim sness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc.; Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor in calling the attention of the public to the preparation, does so without the slight fear of the most confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by an similar preparations extant. The testimony in its favor given by the most prominent and well known physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietors, and given to the people gratis, if by its agents, cannot but satisfy the most skeptical that the remedy is really deserving the great celebrity it has obtained.

RURAL RESIDENCES—MANUFACTURING SITES! RARE OPPORTUNITY!! LONG CREDIT!!! FOR SALE—150 SQUARES OR ABOUT 2500 LOTS IN THE TOWN OF KENILWORTH.

This property is situated on the line of the N. O., Jackson and G. N. Railroad, ten miles from the city. The ground, forming a part of the Kenilworth Estate, is known as the place where forty-five miles, and will drain itself rapidly, without any artificial means.

The scenery, healthy and agreeable neighborhoods, as rural retreats for the families of the business men of the city, certain sections of the higher grounds have been set apart for private residences, and have been laid out in spacious lots. The avenues, all the streets of which it is designed shall be lined with shade and ornamental trees. To meet their wants, grounds have been set apart for the erection of Manufacturing Sites for schools, churches, colleges and public squares. Here taste and wealth may combine to make a place unsurpassed for rural beauty.

Other sections are set apart for business purposes. This locality presents more decided advantages for a manufacturing town than any point to be found within 100 miles up from the Mississippi river of more than a mile and a half, and a river upon the navigable waters of Lake Pontchartrain, only about four miles distant. It is the only place where the N. O., Jackson and G. N. Railroad connects directly with the river, and offers at the same time easy access to the piney woods and lumber districts. For the establishment of steam saw mills, of all descriptions, dry docks and steamboat building, it has not a superior, and for the encouragement of artisans and the mechanic arts, as a home for them in our midst, liberal inducements will be offered.

Lumber by the daily trains, and brick made on the spot, can be delivered here at less than half the cost. The Railroad Company will render the necessary facilities to the traveling community, and will run an accommodation train to and from the town at hours to suit the convenience of the citizens of New Orleans, the city, as soon as a sufficiency of travel may require it. Mr. Tyler will also run his line of omnibuses to the depot at the requisite hours, thus making the journey between the Capital and the Kenilworth of five per cent. in cash, balance five years credit with interest at six per cent. per annum.

For further particulars, apply to MINOR KENNER, at the town of Kenilworth, or W. P. DUBOSCAT, 45 St. Charles street, or J. R. YORK, 145 Magazine street. se29 1y
