PETITIONS--OFFICIAL.

TO THE HONORABLE PRESIDENT AND Members of the Board of Assistant Aldermen of the City of New Orleans:

Gentlemen—We, undersigned owners as residents of that section of Miro street, from Columbus street down, beg leave to submit respectfully to your honorable body the propriety and urgency to open said Miro street from Columbus street to the Bayou Road, a distance of two squares. Our communication with the city in raining weather, from the nature of Columbus street which is neither paved nor shelled, becomes impossible; for we have to go down said street to the junction with the Bayou Road, a distance of some five or six squares.

The opening of said street would not only confer a great facility upon us in our communications with the city, but would also give a direct impetus to owners to build and improve their property, thereby benefiting the State and the city in the taxes to be levied thereon.

We have deemed proper to annex to our humble petition, a small sketch or plan exhibiting to you the distance to be opened, the nature of the several streets and their junctions, and we confidently hope that this our petition will receive at your hands the consideration the subject deserves.

Very respectfully,

New Orleans, December 17th, 1857.

AUX HONORABLES PRESIDENT ET membres du Conseil des Assistant Aldermen de la ville de la Nouvelle-Orléans:

Messieurs—Les soussignés propriétaires et résidents de cette partie de la rue Miro à partir de la rue Columbus, soumettons à nécessité d'ouvrire la dite rue Miro de la rue Columbus au chemin du Bayou, une longeur de deux lieis.

Notre communication avec la ville, les jours de pluies devient impossible en temps, de la rue Columbus ainsi si parée, et coupée, et qu'il faut descendre par la dite rue jusqu'à sa jonction avec le chemin du Bayou, une distance de cinq ou six lieis.

L'ouverture de cette rue serait, non seulement un grand avantage à notre communication avec la ville, mais encore encouragerait les propriétaires à bâtir et améliorer leur propriété ce qui ofrirait à la ville et à l'Etat un revenue de plus.

Nous avons juger convenable d'annexer à notre pétition un devis des lieux qui permet de virer la partie de la rue à ouvrire les pons des divers rues et leur junction, et nous espérons que vous fera droit à notre pétition.

Respectueusement,

THE PETITIONERS, RESIDENTS IN First and Fourth Districts, respectfully represent that, being aware that in accordance with a late law, the plank road on their street, now almost worn out, must be replaced with a ballast road, propose to pay their proportion of the cost of repairing that portion between Magnolia and Prytania streets with square granite blocks, laid like those on Dorsier street, provided the Council is willing to distribute them the amount which the city would have to expend to construct the ballast road.

They suggest that, after legal publication, sealed proposals be solicited within thirty days to have the work commenced on 1st February next; and finished on its of April following.

LES PETITIONAIRES, RESIDANT DANS le Premier et Quatrième District, representent respectueusement, ayant connaissance qu'en accordance avec la dernière loi, le chemin planché sur leur rue, maintenant presque usé, doit être repaire avec un chemin de ballast, (with a ballast road,) proposent de payer leur cote part, de refaire cette portion entre les rues des Magnolia et Prytania avec des pierres rectangulaires, posées comme celles de la rue Dorsière; pourvu que le Conseil est consentant de leur rembourser le montant que la ville aurait à dépenser pour construire le chemin de ballast (ballast road.)

Ils proposent, qu'après une publication légale, les lettres cachetées seront sollicitées durant trente jours, d'avoir l'ouvrage commencée le 1er février prochain et fini le 1er avril suivant.

A NEW DISCOVERY—THE GREATEST AND MOST WONDERFUL IN THE WORLD.

SARSAPARILLA LOZENGES,
Simple and Compound.

Prepared by N. HEREU, Druggist and Physician.

Superior to all Essences, Syrups and Extracts so named, and to all specifics before known.

I have for a long time thoroughly investigated the idea of a general therapeutic agent, susceptible of being applied to all diseases, the development of which is the result of impurities from an internal cause, either in the blood or any of the organs.

A careful and uninterrupted analysis of the animal, vegetable and mineral kingdoms had induced the hope that I could bring about such a result; and, thanks to my indefatigable research, it is now obtained.

I have found in some vegetables the necessary means for this grand idea, which is based upon an oleaginous principle of Sarsaparilla partly known to the faculty. Such is the discovery which I have the honor this day of advertising. The form of Lozenges has been given to it, because its nature precluded the possibility of doing otherwise, and I have divided it into simple and compound Lozenges, in order that they might be given to children as well as adults.

My first experiments were made privately, and remained unknown until wonderful results had satisfied me that I had succeeded, and that the charge of quackery could not be brought against me.

The attention of physicians and of the public is called to these Lozenges, in order that every one may witness the admirable results of the same.

GENERAL EFFECTS,

Testified to by upwards of a thousand persons.

The stomach is cleansed, the blood is purified and renovated by removing all impurities from this precious organ and fluid.

1. SPECIAL EFFECTS.

1. Prompt and radical cure of all diseases generally.

2. Persons who have used these Lozenges have never had the cholera nor the yellow fever.

3. Venereal, syphilitic, hepatic, scorbutical, gouty, rheumatic and nervous and bilious diseases, are completely cured a few days after the remedy is resorted to.

4. All diseases of the lungs, throat, eyes, stomach, bowels and other internal and external complaints disappear entirely, provided the Lozenges are resorted to.

For sale by the box, with a prospectus, showing how they must be used.

IMPORTANT TO COTTON PLANTERS—BY which their Incomes must be Doubled—The undersigned has invented and obtained letters patent from the United States for the arrangement and combination of machinery for cleaning Seed Cotton into Yarns by one continuous process, from the Gin through the preparation and spinning machinery, until it is ready for shipment or weaving. The saving of COTTON WASTE will be at least Ten Per Cent.; and as I exclude in my process the use of machinery to press the cotton into bales, or its baggage, and all other expensive and disadvantageous, which are very destructive in their operations on the fibre, but are indispensable to those of ginning and spinning as separate manufactures, my YARNS are made of unbroken fibre, and hence will be fifty per cent. stronger, will command advanced prices, and they will distance all competition in any market.

The undersigned has obtained the license of patentees to use his patent; and Planters will be informed as to terms, with complete instructions how to use it, how to obtain the best machinery, and all other necessary particulars, on application addressed to me here, or on consultation with me at my rooms, corner Freret and Dauphin streets, up stairs.
