Honolulu, January 8, 1890.

A Senseless Hoax.

On Saturday last some parties took on themselves to telephone to the central office and the news depots, that the mail steamer Mariposa would not sail until 4 P. M., although she had been advertised by the agents, Messrs. W. G. Irwin & Co., to leave at 2 P. M. The result of this was, that many letters were left behind and much inconvenience given to passengers. If this piece of officiousness was intended as a joke by the party perpetrating it, it was certainly a very silly one, and one which might have been the cause of much mischief. It would be the safest course in future for the central offices and the news depots to make sure of their information, by application to the agents before distributing it. An effort is been made to find out who telephoned the wrong information.

For quick raising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. H. A. Mott, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.
