New Orleans Daily Crescent.

OFFICIAL JOURNAL OF NEW ORLEANS.

JAMES O. NIXON. WILLIAM B. ADAMS.

BY NIXON & ADAMS.

OFFICE, No. 70 CAMP STREET.

TERMS:

The Crescent will be regularly served to subscribers in the city at ten cents each morning, Sundays excepted, for $10 a year, in advance; half-yearly and quarterly at the same rate, or 20 cents a week, payable to the carriers.

Advertisements, per square—$1 for insertion, in all cases $1 for every subsequent insertion, 50 cents.

Advertisements on the second page are charged $1 for every insertion.

Advertisements published at intervals, will be charged $1 per square for every insertion.

Advertisements not marked, will be published one month, or longer, not charged accordingly; no advertisement or subscription will be stopped until all arrearages are paid, at the option of the proprietors.

A Liberal Discount will be made to regular advertisers.

THE DAILY CRESCENT

as a medium for advertisers, affords a desirable medium for advertisers. AS A FAMILY PAPER it circulates largely, reaching every hundreds of homes at an early hour, and being read before the approach of business hours, consequently articles for family use may be advantageously published in its columns.

THE WEEKLY CRESCENT

is published every Monday morning at $5 year, invariably in advance. Having an extensive circulation throughout Louisiana, Mississippi, Arkansas, Alabama, Texas, and other states, it presents a favorable mode to advertisers of making their wares and commodities known. Advertisements inserted for $1 per square, each insertion.

THURSDAY MORNING, FEBRUARY 4, 1858.

THE COMMON COUNCIL.—The official proceedings of both Boards of the Common Council, had at their meeting on Tuesday evening last, will appear in the Double Sheet Crescent to-morrow morning.

LIST OF LETTERS.—The uncalled for letters remaining in the Post-Office, will appear in to-morrow morning's Crescent.

THE PURE STUFF.—We are under obligations to Mr. Sewell T. Taylor, No. 17 Royal street, for samples of his choice old Sazerac, dating back as far as 1805, 1802, 1798 and 1795. We have tasted, and are satisfied. It is all the "pure stuff"—a magnificent article to quaff to the healths—or the memories—of our grandfathers—who were "alive and kicking" when it was first hooped up.

MR. HYDE'S LECTURE TO-NIGHT.—Mr. Hyde is to deliver his second lecture on Mormonism at Lyceum Hall to-night. The particular theme of this lecture is to be "Mormonism, its Leaders and Designs." All who take any interest in the Utah question should go and hear Mr. Hyde.

POSTPONEMENT OF DR. BOYNTON'S LECTURE.—The great surplus of water in the streets, last evening, compelled Dr. Boynton to postpone his lecture about the fire and other interior matters of the globe on which we live. Bad as the weather was, however, he would have had a very fair attendance had he lectured; but justice to those who had purchased tickets for his whole course, many of whom had ladies to bring, and could not bring them in such weather, required the postponement. The lecture was postponed till to-morrow night.

ORLEANS THEATRE.—To-night is to be brought out at the Orleans, for the first time this season, Adam's beautiful opera, "Si J'etais Roi." M'me Colson and M.M. Ranch, Debrinay, Vila, and Holtzem, are in the cast. The opera is a very beautiful, spirited, and sweetly musical one.

YOUNG MEN'S SOCIETY BALL TO-NIGHT.—The fourth and last but one of the Young Men's Society mask and fancy dress balls is to come off at Odd Fellows' Hall to-night. Gentlemen who have not yet procured their tickets, can do so to-day by calling at the office of the hall-room. The attendance will be large, brilliant and fashionable; and a delightful night is in reserve for all who go.

ST. CHARLES THEATRE.—The Wallacks had a good house last night, considering the weather, and in "Macbeth" acquitted themselves in their usual satisfactory manner.

To-night, Mr. Hackett appears once more in his great character of *Jack Falstaff*—fighting Jack, in "Henry the Fourth." It will have to "rain cats and dogs" to prevent the St. Charles from being crowded, after this announcement.

It should not be overlooked that Mr. Charley Chesley, the little consumptive-looking man who hands out the tickets at the box office, is up for a benefit on Saturday night.

GAIETY THEATRE.—This establishment is temporarily closed, for reasons which the Acting Manager sets forth in his card, in the amusement column.

THE AMPHITHEATRE.—The Keller troupe and the Young America ballet corps appear to-night in another brilliant programme, including the best of the tableaux and the most charming of the dances and ballet-spectacles. The dancing of M'lle Christine alone is worth more than the price of admission, not to speak of the host of other attractive performances given during the evening.

DISPOSITIONS FOR THE MORMON CAMPAIGN.—It is reported in Washington that General Persifer F. Smith will have command of the eastern division of the army in Utah in the next campaign, if Scott goes to California.

Capt. Van Vliet, whose mission to Utah last summer has been so much talked and written about, is to be stationed at Leavenworth in the spring, where he will be charged with the duty of fitting out the troops for their long march across the plains.

HEAVY DAMAGES.—On the 26th ult. a Cincinnati jury mulcted a young man of that city named Wm. Mather in the sum of $10,000, for seduction and breach of the marriage contract. The fortunate victim, Miss Mary Jane Cribbets, aged 19, was very comely, and her child was nearly a year old.

"MURDER WILL OUT."—Recently a prisoner was sent to the Nashville penitentiary from East Tennessee for counterfeiting. He gave his name as Henry Ford. It was afterwards ascertained that his true name was Thomas Wayne, and that about eight or ten years ago he enticed a man into the woods near Clarksville, Tenn., where he cut his throat, robbed him, and beat him with a pistol until he supposed him dead. The poor victim, however, revived, and managed to reach the bank of the river, where he was seen by persons on a steamboat passing, taken on board, and lived long enough at least to tell the particulars of the deed. Wayne was arrested, and after an examination held to bail in ten or twenty thousand dollars. His mother, an estimable lady, became security for his appearance, and he fled. Mrs. W. was peuniarily ruined by the payment of the bond-money. Wayne is in the penitentiary for three years. After his time expires, he will be held to bail for the crime of which we have spoken.

MR. FILLMORE TO BE MARRIED.—The lady who is expected to make Mr. Fillmore "the happiest of men" on the 11th of the present month, is a Mrs. McIntosh, a woman distinguished for a great variety of charms, solid as well as transitory. Her former husband made a fortune in the crockery business in Albany, and was President of the Albany and Schenectady Railroad during the last three years preceding the consolidation.

ALL FOR LOVE.—John Smithson, of Drew county, Ark., hung himself with a bed-cord a few days ago because the young lady of his affections married a rival.

INDEMNITY.—The Government of Peru has paid $40,000 to this Government for the benefit of the sufferers by the outrage at the Chincha Islands, when several American captains were pushed with bayonet over the side of a Peruvian frigate into the sea. The adjustment would have been more satisfactory had a broadside been poured into the frigate by way of preface to the discussion.

THE VIRGINIA FOR MOBILE.—The fine iron steamer Virginia leaves for Mobile and all the above towns to-day, on the arrival of the Jackson cars at Mhnehaig. The Virginia is a splendid, safe and speedy boat—is capitally officered and accommodate vieta.ded—charges only four dollars for the trip through—and is therefore eminently worthy the patronage of the traveling public. Mr. Edward Taby, No. 3 Camp street, is the agent.

SPLENDID FURNITURE.—Mr. Wm. H. Stewart, Nos. 171 and 173 Canal street, has his warerooms crammed with a stock of furniture which comprises everything that is splendid and fashionable in that line, as well as plain and substantial. As he drives a cushing business, he is enabled to offer his goods at very low prices. Those in want of anything in that line should not fail to call upon Mr. Stewart. If his furniture and prices will not suit, nobody's else will. See his advertisement.

A SOUTHERN CONFEDERACY.

The opinion that the refusal to admit Kansas into the Union, because of the Lecompton Constitution, would lead directly and perhaps immediately to a disruption of the confederacy, has been freely expressed by a large portion of the Southern press, and by many of the most reliable and patriotic Southern statesmen. Any allusion to that contingency as a probability arouses the virtuous wrath of the Black Republican agitators, whose machinations have brought things to this pass, and they revile and threaten in the most absurd manner. The valorous Major J. Watson Webb, of the New York Courier and Enquirer, recently talked of "whipping the South into submission," should she become rebellious upon the Kansas question, as a pedagogue might correct a fractious schoolboy; Mr. Wilson, of Massachusetts, said in Congress, a few days ago, that the slaveholders might take themselves out of the Union as soon as they pleased, but they would not be permitted to take any of the federal territory with them; and the New York Times in a recent issue presents its readers with a whole column of such trash and unmitigated nonsense as the following:

Now, when the Southern Confederacy is formed, it will unfortunately want the first requisite of all confederacies or empires—a people. In the Southern Republic all will be aristocrats, and none commoners. What is to be done with a nation of gentlemen of men of leisure, who descend to no sort of labor save the labor of legislation? The Polish aristocracy had at least serfs to tiord it over, and furnish their furs, and sabres, and lances, and horses, and forage, but in the South there are not even serfs. The Russian aristocracy make fine soldiers, but their value in a military point of view lies wholly in the fact that they lead half a million of hardy and indomitable vassals to battle. Our fire-eaters are all lords, and there are no vassals at all. In the great Southern republic there will be absolutely nobody to form the rank and file of an army.

* * * *

The military objections to the proposed organization are after all surpassed by the financial ones. When people propose, as Jefferson Davis does, a general warring for liberty all the world over, as one of their first duties, they should remember that those holy aspirations cannot be gratified without money, and where is the Southern Confederacy to get the money for its first crusade? Foreign capitalists will not advance money on slaves, for the simple reason that slaves are chattels, and yet slaves are the only property of the South. Their lands are daily depreciating in value for want of labor, and their buildings and fixtures are ridiculously scanty, and ridiculously worthless.

The editor of the Times, or the person who penned the above, has about as correct an idea of the resources of the South and the components of her population as the London cockney who proposed to hunt buffaloes in the immediate vicinity of New York had of America generally. A confederation of Southern States impossible because of a lack of men, money and credit! Unquestionably the most sensible way to treat a proposition and statements of this sort, is to have a laugh over their ineffable absurdity and stupidity; and while we do so, we have not the conscience to keep the fun all to ourselves, knowing that our readers appreciate a good thing. No money nor credit wherewith to support the respectability and strengthen the sinews of a Southern Republic! Spectre of the departed Panic, which exercised thee most potently, New York or New Orleans? Great wrecks and fragments of exploded Banks and shattered Firms, floating amidst the lesser debris of financial and commercial ruin, down to the Gulf of Bankruptcy, whence come you, from the great emporium of the North or of the South? No men to fill up the rank and file of a Southern regiment! Where are the heroes of the Mexican war? Evanished within little more than the brief period of a fleeting decade? Where the brave Palmettoes, the undaunted and chivalrous Mississippians, the terrible Texan Rangers? before whose strength and valor the foe fled or went down, and over whose standards the bird of victory delighted to hover. And, to proceed, where, oh, where, are the 2d Indianians, who figured so conspicuously and astoundingly in the rear of grim-visaged war at the bloody struggle of Buena Vista? And where are the 2d Pennsylvanians, who, if they were remarkably brave in battle, were still more remarkable for insubordination, rowdyism, thieving, filth, and all other possible unsoldierly qualities?

Why will the Times provoke comparisons, which are odious?

Talk on 'Change.

We should like to know what talk could be raised on such a day as yesterday. There was a free disposition to move in commercial circles, but the weather laid an embargo on all out of door movements.

There were no congregations at the prominent corners yesterday, and the talk was infinitesimal small.

The most important feature of the day was the arrival of the steamer packet Gen. Rusk from Brazos St. Iago, bringing 143,000 Mexican dollars and bullion. It is not supposed the value of these were depreciated by the heavy rain pouring down about the time of landing.

There were not so many arrivals yesterday as on the previous days of the week. A delay of a day or two will enable the consignees of produce to clear the landing. The obstructions from the bad conditions of the streets are becoming extremely injurious to general trade.

The streets of our city have, however, been frequently in a worse condition than at present. Many of our old citizens recollect very well when it cost one dollar and over in the way of drayage to remove a bale of cotton from the press on Camp street, located where this office now stands, to the shipping opposite the Second District market house, or thereabouts. Though the streets are now in bad condition, and great complaint can justly be made, yet they are no worse than they have been in many years before.

The Northern mail failed yesterday. It would really be a miracle for us to receive a mail regular for a week. We are well satisfied with favors of the week, three mails in succession, and Mr. Postmaster-General Brown can compliment his contractors on our endorsement.

The Canada's mails will be due to-morrow. The Arabia of the 23d is now about due. The next steamer by which letters can be forwarded for Europe is the Atlantic, of the Collins line, from New York on the 13th inst.

From the Rio Grande.

The steamship Gen. Rusk, Capt. Smith, arrived yesterday from Brazos Santiago, 31st ult. She brings the following passengers and specie.

Messrs. S. Powers, E. Basse, A. Gravecke, P. Hines, R. J. Foster, J. Beach, S. Gray, and two on deck.

J. Bernaldez & Co., $29,500; W. H. Leatherbord & Co., $27,152; Cabellero & Bassadre, $24,980; Cramer & Co., $22,700; Stormessinger & Kiernert, $9,088; Perdreauville & Nos., $8,900; Lesser, $9,000; Power, Kilcomerie, $3,150; O. H. Graham, $6,340; O. Lehmann & Co., $2,000; R. Neal & Co., $1,900; Mersing & Foster, $1,250; A. D. Geiff & Co., $1,200; H. A. Holbrand & Co., $740; A. Powers, $520; Lamata Bros., $600; Grant, Lewis & Co., $325; to order, $1,100. Total, $148,005.

From the Brownsville Flag, of the 27th ult., we extract the following intelligence:

We are informed by the purser of the Ranchero that a body of Indians, numbering over fifteen, made a foray upon the citizens residing on both sides of the river, a short distance above Roma, during the last trip of the steamer to that place. The depredations mostly committed were between Mier and Guerrero, a little town about thirty miles from Roma and Mier. They came down on the Mexican side to within twelve miles of Mier and crossed over the river, killing a shepherd and two other persons on this side of the river, and carrying off all the property that was of any value to them. While making their way down on the Mexican side of the river, we learn they killed four persons, and took a number of horses and cattle. They are supposed to belong to the Comanche tribe of Indians. This is the first time they have made such a bold attempt since settlements have been formed between those places, and as they have met with such a good success in this attempt, it is probable they will renew their visits very soon. The number of depredations committed above Laredo are numerous, and, we are told, of so frequent occurrence that the inhabitants take no particular account of them.

We learn that some of the remains of the Opelousas have been found in the Brazos harbor. A number of pieces of planks, doors, etc., were picked up; also a plank having the name of Opelousas on it. Some of her remains, by this data, have been over two months drifting round to the Brazos harbor.

The Aurora, of the 24th ult., says that Gov. Garza and Gov. Vidaurri, of Nuevo-Leon and Coahuila, have mutually settled all their differences. The States of Tamaulipas and Nuevo-Leon and Coahuila will now act in unison with all other States in raising forces for the coming conflict.

CAPT. BYNDERS IN DANGER.—We find the following paragraph appended as a postscript to a recent Washington letter in a New York paper:

Tell Capt. Byndees to hurry on here at once, or he will find his head in his lap before he knows it. A dead set is to be made on him in the Senate, I hear. His offence, I suppose are, first, that he did not wear mourning quite long enough on account of Wood's defeat; and, secondly, that he was so *gauche* as not to know better than bring Walker to Washington to bother the President, who would as soon have seen his father's skeleton coming into his office with a note under a black seal in his hand, conveying an invitation to his Hopeful "to follow."

MARRIED:

On Monday, February 1, at St. Paul's Church, by the Rev. Charles Goodrich, Mr. THOMAS K. PEARSON to Miss JOSEPHINE MARKS, both of this city.

☞ Philadelphia papers please copy.

On Tuesday the 5th ult., by the Rev. J. S. Byrne, at St. James' Church, Piccadilly, London, Dr. GEO. THOS. BROWNING, of St. Stephen's Crescent, Westbourne Park, late of this city, to ELEANOR ARABELLA, widow of the late William Bartrom, Esq., of Brookwell, near Guildford, Surrey.

DIED:

On Wednesday, 3d inst., at half-past 3 o'clock P. M., MARIE LOUISE FELICITE, daughter of Placide J. Spear and Marie Louise Felicite d'Hebecourt.

The friends and acquaintances of both families are respectfully invited to attend the funeral, this afternoon, at 4 o'clock, from the corner of Kerr and Esplanade streets.

☞ If you are sick, the probability is that the root of your suffering is in the stomach. From a weak stomach proceed dyspepsia, languor, oppression in the diaphragm, jaundice, headache, nausea, bodily weakness, dimness of sight, heartburn, costiveness, dysentery, and a legion of other tormenting diseases. Indigestion produces thin blood, and therefore destroys the strength and vigor of the system. To restore the tone of the stomach, and enable it to throw off and dismiss forever all these tormenting and dangerous complaints, nothing is necessary but a persevering use of Hoofland's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia. There is no mistake, no failure to their sanative effects. For sale by druggists and storekeepers in every town and village in the United States, Canadas, West Indies and South America, at 75 cents per bottle.

Sold in New Orleans, wholesale and retail, by J. WRIGHT & CO., Nos. 21 and 152 Chartres street. fel 2plmAW

☞ That remarkable remedy for Coughs, Croup, Colds, etc., etc., and every pulmonary affection, we are constrained, from the benefit derived in our own case, to recommend to those who are similarly afflicted to give it a fair trial, and, like us, must admit its superiority above all others, in immediately giving the most marked relief, and by its continued use a permanent cure.

It is seldom we can give our meed of praise to Patent Medicines, but this remedy called Woodman's Cherry Expectorant is all it professes to be, and must of necessity become the only reliable medicine for these affections. See advertisement.

fel 2p6AW

☞ Hostetter's celebrated Stomach Bitters, for Jaundice, Dyspepsia, Nervous or Chronic Debility, are very pleasant in taste and smell, and can be taken under any circumstances. In cases of Dyspepsia it acts like magic, strengthening the tone of the stomach, stimulating the digestive powers, and giving ruddy health to the cheek, and brightness to the eye. In all cases of disease of the stomach, whether acute or chronic, it may be recommended for its soothing, cordial and renovating influence. Dyspepsia, heartburn, loss of appetite, nausea, nervous tremors, relaxation, debility, etc., are relieved by the Bitters in a very short space of time, and a perseverance in their use never fails to work a final cure. Kept by all the popular saloons and principal drug stores. fel 2p6AW

OFFICE MOBILE DAILY TRIBUNE, January 27, 1858.

☞ Mr. Frank A. Bartlett is our duly authorized Agent for New Orleans for collecting and soliciting advertisements, subscriptions, etc.

ja28 2p1m H. BALLENTYNE & CO.

☞ To the Public—The undersigned most respectfully submits his name to the voters of the city of New Orleans as a candidate for the office of Mayor—election to come off on the 24 day of June next.

ja28 2p6m BENJ. S. HARRISSON.

Sewing Machines.

All who want to buy a good SEWING MACHINE, capable of doing ten times the amount of work done by an ordinary hand sewer, and in a much superior and more durable manner, working as well on the finest as the coarsest fabrics, and thoroughly guaranteed to perform all that is promised for it, can be supplied at short notice by the undersigned, at the lowest manufacturing price, with one of the

GROVER & BAKER COMPANY'S MACHINES,

which have never yet in this community failed to give perfect satisfaction.

Those who prefer the lock or shuttle stitch, are informed that the Grover & Baker Company furnish a Machine for

Seventy-Five Dollars,

which makes the SAME STITCH as the WHEELER & WILSON and SINGER MACHINES, and which, with a late improvement regulating with precision the tension of the threads, is equal if not superior to any Shuttle Machine made.

WILLIAM L. CUSHING,
Proprietor of
THE GROVER & BAKER SEWING MACHINE CO.
Southern Depot,
No. 11 CAMP STREET,
New Orleans, La.

N. B.—No charge is made for teaching, and when not convenient for purchasers to learn the use of the Machines at our office, they will be waited upon at their residences.

All Machines kept in repair FREE OF CHARGE. fe3 2p6f

Singer's Sewing Machines.

The public, and especially the Ladies, are respectfully invited to call at

No. 93 CAMP STREET,

and see SINGER'S SEWING MACHINES, which are now beautifully ornamented and improved in many respects, especially in adapting them to sew beautifully the finest cambric or linen on the Plantacia Machines.

Recent trials have been made of all the Sewing Machines sold in this city, and in every instance SINGER'S have been preferred, and I have not sold one in this city that has been returned.

Those who will take the trouble to inquire, will find that nine-tenths of the Clothing and Shoes sold in this city are made on SINGER'S MACHINES; and notwithstanding they have been sold perfectly plain, more of them are used than of any other kind, and probably more work is done by them than by all others put together, and there is little doubt that hereafter they will be as much preferred above others for fine work as they have been heretofore in making clothing.

Certificates have been published of the universal success, for several years, of Singer's Machines in the parishes of Lafourche and Terrebonne, and also in this city.

Singer's new and beautiful FAMILY SEWING MACHINE has been thoroughly tried, and has given universal satisfaction.

WALTER BENNETT, Agent,
fe3 2p6f No. 93 Camp street.

Pantascopic Glasses,

MADE OF GENUINE PEBBLES.

50 Camp street.....50 Camp street.

These Glasses, which are introduced by Dr. F. A. VON MOSCHZISKER, the well known Oculist, are the only true Glasses which have hitherto been constructed, and are founded on the most scientific principle, and in accordance with the philosophy of nature in the peculiar form of an Ellipsis, and most admirably adapted to the Organ of Sight, and perfectly natural to the Eye, affording altogether the best artificial HELP to the human vision. The material, too, out of which the Glasses are ground, is like size superior to any commonly called Scotch or other Pebbles; it has the shine and hardness of all these, and is yet purer and perfectly colorless.

In consequence of Dr. Von M.'s professional engagements, Mr. GRAEFE has been obliged, from the great demand for these Glasses, to transfer the Optical Department, both for his own and the convenience of purchasers, from the St. Louis Hotel to No. 50 CAMP STREET, in the Store of Mr. J. RAFEL, where he will be in attendance from 9 A. M. until 6 P. M.

Accurate examinations made of both Eyes by the OPTOMETER and VISIOMETER, by which means Glasses are suited to the exact focus, by A. GRAEFE, Optician, from the Royal Optical Institute of Berlin.

Lea & Perrins'

WORCESTERSHIRE SAUCE.

The attention of Hotel Keepers, Proprietors of Eating Houses, Caterers for Clubs, Mess-rooms, and Private Families, is commended to a trial of Lea & Perrins' famous Worcestershire Sauce. This condiment by its own merits has attained the highest rank as a pleasant, palatable, and wholesome Sauce, applicable in soup, fish, hot and cold meats, game, etc., etc., is extensively used in all quarters of the globe.

The numerous "imitations" on both sides of the Atlantic speak loudly of its merits; and the fact that it received the only Medal awarded to foreign Sauce at the New York Exhibition attests the estimation in which it is held by those selected with special reference to their ability to judge of the quality of similar articles of table use. And being the most popular Sauce in the market, unprincipled parties are offering for sale spurious Sauce by slightly varying the spelling of "LEA & PERRINS," only Proprietors of the Genuine Sauce.

A stock always in store. Absentees received for direct shipment from England.

JOHN DUNCAN & SONS,
405 Broadway, New York,
3y24 2ply Sole Agents in the United States for Lea & Perrins.

LADIES' AUCTION.

Having rented that fine Store, No. 135 CAMP STREET, I will continue to hold Ladies' Auctions for the sale of DRY GOODS, etc., every TUESDAY and SATURDAY. Consignments solicited.

☞ Parties having Goods to close will find this a good opportunity.

☞ Strict attention given to on-door Sales, as usual.

L. A. LEVY, Jr., Auctioneer,
fe2 2p6t Office, 75 Common street.

Montgomery's Excavator.

This Machine, adapted to the digging of Canals, Plantation Drains, and Drains for cities by steam, is now on exhibition at

No. 33 CARONDELET STREET,

up stairs, where orders are solicited. It will excavate two and a half tons with every revolution of the cylinder, and with the use of three and a half tons of coal, will do the work of six or seven hundred negroes. ja29 2p6t

Perfect Protection

FROM THE ELEMENTS!!

W. E. CHILDS & CO.'S

PATENT ELASTIC FIRE AND WATER PROOF

CEMENT ROOFING.

A Roof that will stand extreme cold and intense heat—contract and expand with every variation of climate—resist any external exposure to fire—IS PERFECTLY WATER-PROOF, AND WILL NEITHER EVAPORATE, CRACK OR ROT, AND FOR DURABILITY AND CHEAPNESS ITS EQUAL IS NOT AT PRESENT KNOWN.

CAUTION:

Since the unparalleled success which has attended the introduction of CHILDS & CO.'S CEMENT, several worthless imitations and infringements have appeared, against which the public are cautioned. Remember Childs' Patent, in regard to which hundreds of testimonials and certificates from the largest Builders, Presidents of Railroads, Insurance Companies and Planters, can be shown.

M. D. CHRISTIE, Builder, No. 366 Magazine street, has the sole right to operate this Cement in this city. All orders left with him, or at the office of the Proprietors, No. 104 Magazine street, will be promptly attended to.

Application may be made to the undersigned for the purchase of rights to use the above Roofing in parishes, towns or territory, in the States of Louisiana and Mississippi.

To builders and others this would be a most excellent investment.

J. R. POINIER & CO.,
Office at I. S. Holden & Co.'s, No. 104 Magazine street.

New Orleans, Jan. 4, 1858.

This is to certify that I have witnessed experiments made upon Childs's Patent Elastic Cement, which proved to my satisfaction its impenetrability under any circumstances of exposure to which the roof of a house is liable, and so convinced am I of its perfect imperviousness to water that I have had some flat roofing covered with it which was previously leaky, but is now thoroughly tight.

CHAS. BRIGGS.

New Orleans, Dec. 10, 1857.

This is to certify that in June last, I had the veranda of my house, corner of Poydras and Carondelet streets, covered with Childs & Co.'s Patent Elastic Fire and Water Proof Cement Roofing. So far, it remains perfectly water tight, and has fully met with my expectations. As to its durability, I cannot say more than that it now appears as perfect and sound as the day it was put on; the vicissitudes of heat and cold not appearing to affect it in the least.

GEO. W. ROPER.

New Orleans, Dec. 10, 1857.

This is to certify that in May last, I had my forty-foot covered with Childs & Co.'s Patent Elastic Fire and Water Proof Cement. It has stood the intense heat of the summer well, and up to this time has not leaked a drop. It now appears just as firm and perfect as the day it was put on, and to every way meets my expectations. I should not hesitate to recommend it to all who want good fire and water-proof roofs.

T. KIMBALL,
Proprietor Fourth District Ferry.

Pointe Celeste, Parish of Plaquemines, Nov. 30, 1857.

In May last, I had a large part of my sugar house covered with W. E. Childs & Co.'s Patent Elastic Fire and Water Proof Cement Roofing. So far, it has stood the vicissitudes of heat and cold well. Since then, I have used it on several other buildings.

T. H. McMANUS.

Depot N. O., O. & O. W. R. R.,
Avalon, Jan. 2, 1858.

J. R. Poinier, Esq.: Sir—In answer to your inquiry as to my opinion of "Childs & Co.'s Patent Roofing," I have to say that the covering which you put upon our cars last July, answers the purpose admirably, and from its present appearance, I am led to believe that it will prove more durable than any other paint or composition heretofore in use for such purposes.

Yours, respectfully,

A. B. SEGER,
Vice President and Superintendent.

Office of the New Orleans, Jackson & G. N. Railroad,
New Orleans, Jan. 14, 1858.

Mr. J. R. Poinier: Sir—In answer to your inquiry, it gives me pleasure to state that the passenger and freight cars which you covered for us last June with Childs & Co.'s Patent Cement, have thus far given perfect satisfaction; they have been in constant use about seven months, have not leaked a drop, and appear now as perfect and sound as when first put on, and I take pleasure in recommending the Cement as a preparation admirably adapted for car and roofing purposes.

Yours, respectfully,

S. I. VAN LOON,
Master Machinist.

Cloaks, Mantillas,

MILLINERY AND DRESS MAKING,

Laces, Embroideries, etc., etc.

107.....AND.....109

CANAL STREET.

Finding that her increasing business required additional store accommodation,

MRS. TURNER

begs to inform her lady friends and customers generally, that she has leased the spacious store No. 107 Canal street, adjoining her present stand, which has been fitted up expressly as a SHOW ROOM, for CLOAKS, MANTILLAS AND BONNETS. A desirable and choice stock of those goods have been received direct from the first houses in Paris, and are now being opened, to which she respectfully solicits the attention and continued patronage of the Ladies of New Orleans, and strangers visiting the city.

The Embroidery Department

In No. 109 is considerably increased, and will be found to contain a select assortment of the newest novelties and styles.

FRENCH EMBROIDERIES, REAL LACES,
of every variety and entirely new designs.
JOUVIN'S AND ALEXANDER'S
KID AND SILK GLOVES.

DRESS-MAKING conducted, (under the direct superintendence of Mrs. Turner, as heretofore,) by a lady of considerable experience and acknowledged capacity.

The Millinery Branch of the business is attended to by a French lady of decided talent and taste.

Ladies and Families residing in the country, who may find it inconvenient to visit New Orleans, can rely upon the strict and punctual execution of their orders, by addressing MRS. TURNER, 109 Canal street.

Merchants confiding their orders to Mrs. Turner, will find them promptly and accurately executed.
