New Orleans Daily Crescent.

Later from California.

By the arrival of the steamship Philadelphia, we have files of San Francisco papers to the 5th of February. From the summary of the Alta California we extract the following intelligence:

The main topics of news for the past fortnight have been the proceedings of the Legislature, a multitude of suicides and bloody affrays, and a severe storm.

The Legislature had done very little work as yet; in fact, there is not much work for it to do. No important bill has yet been passed, though more than a month has elapsed since the commencement of the session.

The Joint Committee appointed to examine into the condition of the State Prison, has reported that that institution is managed in the most reprehensible manner.

They say that the present issue does not feed them in a manner proper for human beings, nor does he provide medical attendance for them when ill. Many of them are not even allowed to rest on Sunday. The prison is full of vermin, and the clothing and bedding of the prisoners is of such quality as to be far worse than that of beggars in Eastern cities.

Ninety-four prisoners have escaped during the last two years.

There are 504 convicts now in the prison.

Seven of the convicts are allowed to live as servants at houses away from the prison.

The committee recommend that a new prison be built, and that the State feed and clothe the prisoners.

A memorial praying the State to relinquish to the State the title to mining lands, has been offered in the Assembly, but has been laid on the table.

A committee of the Legislature has been in this city, making investigations about the Pacific Mail Steamship Company. No report has yet been published, and the result of the investigation is unknown.

A large amount of land has been taken up near the Catholic Church. There are the old mission buildings, with their lofts, gardens, and cemeteries, at San Diego and San Luis Rey, San Fernando, San Juan Capistrano, San Gabriel, San Buenaventura, Santa Barbara, Santa Inez, La Purissima, San Luis Obispo, San Miguel, San Antonio, La Soledad, Carmel, San Juan Baptista, Santa Clara, San Jose, San Francisco, San Rafael, and Sonoma. Besides these church houses and lots, there is a ranch of 20,000 acres in Santa Barbara county, and another of 4,438 in San Luis Obispo county.

A violent storm visited the State about ten days ago and lasted three days. Along the coast, and in the valleys, a large amount of rain fell; in the mountains there was snow, hail and frost. In Tuolumne county much damage was done by violent gusts of wind, which blew down several aqueducts and unroofed various houses.

There have been so many deeds of blood during the past fortnight that there seems to be a murder-epidemic prevailing.

Two brothers named Robert and Francis Brubaker, were shot on the 25th ult., near Stockton, by J. C. Green. Robert was killed outright, and Francis was mortally wounded.

A shooting affray occurred in Oroville on the 27th ult., and resulted in the wounding of five persons, viz: Constable McLaughlin, Justice Berry, Jack Hunter, Albert Clark and Mr. Brooks. The affair occurred in the office of Berry, Justice of the Peace.

An attempt was made on the night of the 20th ult. to assassinate Mr. Folger, local reporter of the Sacramento Union, by striking him with a slung-shot. Though severely cut on the head, he managed to escape.

An actor named S. P. Everett was arrested in Yreka, while trying to set fire to the town.

An Italian named Gentil was killed on the 28th ult., near Georgetown, by Jesse Keefer, a boy 15 years of age.

A man named James McQuade was murdered by strangling in Stockton on the 20th ult.

There was a bloody fight at Snelling's Ranch on the 23d ult., in which Dr. J. W. Goodin, E. G. Barber and Wm. Stevens were shot and killed.

A man named Hans Andreas Bing, who is insane on the subject of religion, went to the Plaza Hotel on Thursday, the 26th ult., and hired a room for a week. He was not seen to pass in or out of the room for several days, and on Tuesday, the 20th ult., the proprietor of the hotel forced open the door and found Bing lying on the bed, nearly dead from the loss of blood and debility. He had severed the veins of both his wrists, with the intention of taking his own life, but the wounds closed up before his life was extinct. He had tasted no food for five days. He was removed to the County Hospital, and will probably recover.

An inquest was held on the 21st ult. on the body of Adolph F. Brands, who committed suicide near Lone Mountain Cemetery, on the 20th ult. The jury returned a verdict that deceased was a native of Norfolk, Va., aged 33, and that he came to his death from an overdose of strychnine, administered by his own hand, for the purpose of destroying his own life.

Capt. Joseph Adams, aged about 55 years, attempted suicide on the evening of the 19th ult., by jumping off Pacific-street wharf. He was laboring under temporary aberration of mind.

An English sailor named John Monlebrun, aged 40 years, was found dead in the rear of a Chinese house on Bartlett alley, on the morning of the 30th ult. A bottle of strychnine was found in his pocket, and the appearance of his body indicated death by poison. The stomach is now undergoing an analysis.

Mrs. Ann Tuns, a native of England, aged 40 years, died very suddenly at her boarding house, in this city, on the 31st ult., under circumstances which induce the belief that she had taken some narcotic poison. The stomach and contents are being analyzed.

A young man named Charles L. Voorhees, a native of Cincinnati, who came to this city from Salt Lake a few weeks ago, died very suddenly on the 1st inst., at the Commercial Lodging House on Commercial street, under circumstances which lead to the belief that he had taken strychnine. On the *post mortem* examination, it was found that a large clot of blood was lodged in the back part of his brain, probably caused by a blow or fall. An analysis of the stomach was also made, and a large quantity of strychnine discovered.

A German named Otto Frank, a native of Altona, near Hamburg, aged 26 years, committed suicide on the 24 instant, by taking prussic acid. He had attempted suicide once before, by opening a vein in his wrist. Deceased was out of business and suffered from a depression of spirits.

A young man named Charles O'Connell, a native of Ireland, aged 30 years, committed suicide on Monday night, the 27th ult., at his boarding house on Bush street, by taking strychnine. No cause can be assigned for the rash act. Deceased was well known and respected. He had engaged a passage on the Vaquero for Australia, and was to have sailed on the next day.

A woman named Mrs. Harris, residing on Dupont street, between Green and Filbert, quarreled with her husband on the 27th ult., and attempted to kill herself by taking a spoonful of arsenic. It was discovered, however, and physicians called in time to save her life.

John Harrison, a native of Maryland, aged 26 years, a resident of California since 1843, and a man highly respected by all classes of citizens, committed suicide on the 28th ult., by shooting himself in the mouth with a pistol, the ball lodging in the back part of the brain, and producing instant death.

A Spaniard named Tomaso Guillermo, aged 29 years, committed suicide on the 2d inst, at Richardson's ranch, Sanscilito, by taking hyoscyamus. He labored three days after taking the poison.

The yearly report of the Chief of Police for the year ending February 1st, gives the whole number of arrests made as 5,153—males, 4,911; females, 218; children under twelve years of age, 26. Value of property reported as stolen or lost, $80,401; amount of property recovered and returned to owners, $77,315.

Gen. Clarke has sent two companies of artillery to San Bernardino, to remain there as protection against any possible inroads by the Mormons, until instructions are received from Washington.

FROM THE NORTHERN COAST.—We have dates from Portland to the 21st ult., but there was no news.

From Olympia we have dates to the 22d ult. Leshi, the Indian chief, sentenced to be hanged on the 22d ult., was not executed, because the Sheriff could obtain no guard to assist on the occasion.

Governor Douglass has issued a proclamation notifying all the world that persons mining for gold on Fraser's river, must pay the regular miners' tax. The mines there are said to be rich.

We are indebted to the Panama Star and Herald for the following Central American Intelligence:

GUATEMALA.—We have files of the *Gaceta de Guatemala*, to January 21st. They contain very little news.

President Carrera had been on a tour in Los Altos, and returned to the Capitol on the 18th of January.

The cholera had ceased in the capital and in most of the other cities. A few cases are reported as having broken out among the people who attended the fair of Esquipulas.

The French frigate Perseverante arrived at San Jose de Guatemala on the 19th, and after landing an officer with dispatches for the French legation, sailed again for Acajutla.

A court-martial was held on the 14th, on Colonel William Knaub, charged with having executed Don Juan Santi Aldrete, Captain of the sloop-of-war "Ascension," in March, 1857. The Captain, it appears, was a Frenchman by birth, though holding a commission in the Guatemala Navy. The French Minister had taken the matter up, and the government of Guatemala had pensioned the widow and son of the murdered man. Perhaps the time will come when President Carrera will call Knoth to account for the cold-blooded murder of Cris Lilly, and other American citizens at La Union in 1856.

The sentence of the court-martial was not made public in the official papers. It had been referred to the court of justice for its opinion on certain legal points.

The intelligence from San Salvador is not important. The country was in a prosperous condition.

Costa Rica.

The *Crónica de Costa Rica* says: "The Republic of Costa Rica is following its steady course of progress. Justly judging that want of proper roads and the bad state of those already in use; is a great drawback for a country where agriculture is the principal source of commerce, the attention of the government and private capitalists has been directed to this subject, and the advantages are beginning to be felt."

Referring to the last debates in the Congress of Washington, relative to Commodore Paulding's interference, the *Albion Semanal* says:

"In 1855 Mr. Ramon Rivas headed a pirate party against Walker, ascended the river in small bongos, and soon after his party was pursued and dispersed by riflemen sent for that purpose from a North American sloop-of-war then lying at San Juan. When the Nicaraguanese are in the act of defending their country, there is no violation of international laws—nobody talks. But when it is all the contrary—when they chase away a parcel of pirates who have invaded the territory of a friendly nation, without regard to the laws of God or men—then they talk!"

Col. Don Francisco Alvarado, who abandoned Castillo Viejo to the filibusters, without making any resistance whatever, has been sentenced to degradation and four years confinement in the port of Moin. The sentence has not been confirmed by the Superior Court.

The new coffee crop was just coming in. It is reported to be below an average in quantity. There is none for sale in the market, and as much of the crop is already engaged, the prices still continue very high. Some of last year's crop has been sold at $9 50 to $9 75.

Nicaragua.

From Nicaragua we have no recent papers, and the news does not appear to be of importance. Mr. W. Carey Jones was at last dates at Realejo awaiting the arrival of Gen. Lamar. We find nothing about the progress of the Webster-Allen transit negotiation.

Col. Canty publishes the following letter in the *Centro America*. We trust for his sake that he may not have occasion to alter his opinions.

GRANADA, Dec. 26th, 1857.

To the Editors of the Panama Star and Herald:

Gentlemen—In your issue of the 8th of December you reflect some doubt unjustly on the integrity and gratitude of the Government of Costa Rica to the foreigners who have served her in the filibuster war, in which my name is included.

It is not by province to qualify the acts, or the policy of the Government I serve, but I wish to express through your columns that I have no reason to believe momentary financial embarrassment will preclude their doing justice to all who have served them in the same cause.

In the case of Spencer, his subsequent conduct and proved machinations in other interests, besides holding no direct commission from Costa Rica, are sufficient to exclude any claim he may have; and the services he actually rendered alone prevented his being prosecuted according to martial law for his subsequent misdeeds.

You will much oblige me by not confounding my name or service, with that of any outside speculators or complainants; and believe me yours, respectfully,

GEORGE J. CANTY.

THE SECRET OF SUCCESS.—I was much interested the other day listening to an account given by A. T. Stewart, of the marble palace, of his early trials, and the foundation of his business success. He commenced business directly opposite where his present store stands, on Broadway. It was a little affair, twelve feet front only, and, separated from his neighbor by a thin partition, through which the conversation on either side could be heard. It was difficult to obtain credit in those days—there were but few banks, and but little accommodation. Men had to rely upon themselves. He was his own bookkeeper, salesman, dustman and errand-boy. He bought cautiously, but well. He attended to his business from fourteen to eighteen hours a day. He adopted two or three simple rules, from which he has never deviated. He resolved that the purchaser should have the exact thing he bought. If he purchased an inferior article, he would find it so on getting home. If he bought a first rate article, he would find it a first rate article. That simple principle has underlaid all his success. [Boston Journal.

DRUGS AND MEDICINES.

HOWARD ASSOCIATION, PHILADELPHIA—A benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic Diseases.

To all nervous afflicted with SEXUAL DISEASES, such as Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or Self-Abuse, etc., etc.

The Howard Association, in view of the fearful destruction of human life, caused by Sexual Diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, one of the CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of Diseases of this nature, in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, age, occupation, habits of life, etc., and, in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been productive of great good to the afflicted, especially to the young, and they have resolved to devote themselves with renewed zeal to this very numerous but much neglected cause.

Just published by the Association, a Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail, (in a sealed letter envelope,) FREE OF CHARGE, on the receipt of TWO STAMPS for postage.

Address, for Report or treatment, Dr. GEORGE R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa.

By order of the Directors:

EZRA D. HEARTWELL, President.
GEO. FAIRCHILD, Secretary. d9 eteAW

The proprietor in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony is in its favor given by the most prominent and well known physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of any of his Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

B. A. FAHNESTOCK'S VERMIFUGE IN TENNESSEE.

BROWNSVILLE, Tennessee, January, 1851.

Messrs. B. A. Fahnestock & Co:

Gentlemen—By common consent, B. A. Fahnestock's Vermifuge is acknowledged to be a standard article in this section of country, and if our opinion can serve any good purpose, we freely say that we consider it much the best Vermifuge in use; we prescribe it regularly in our practice, and have never met with one case of it that of any or all other similar preparations put together. Truly yours,

HOWELL & TURNER,
Physicians and Druggists.
