READY FOR CROWDS

All Chicago Prepared to Entertain the Visitors to Land Exposition.

Never Such an Interest in Land and Irrigation Before—All Parts of the Country Responding to the Call to the Great Land Rally.

When the Chicago Tribune first proposed the Land and Irrigation Exposition the public little realized the furor it would create throughout the country. The emissaries of the exposition management have gone into every western state and aroused an interest that will have its climax on the opening day of the coming show.

Other representatives were sent throughout the east and south, calling to this great convocation everyone who is interested in land development

The work has gone on and on with such energy and united effort that the coming event will be one of the greatest in Chicago since the Columbian exposition in 1893.

Approximately half a million dollars will be expended on this magnificent display of western and southern products and the marvelous possibilities in the states of the west and south.

Never has an exposition been undertaken in Chicago where the entire scheme of installation has been planned on such a harmonious scale. The great Coliseum will be a thing of beauty throughout its vast interior. The decorations will be true to the spirit of the whole enterprise. Coming as this exposition does at the time of the International Live Stock Show, Nov. 20 to Dec. 4, Chicago will offer, as theatrical people express it, a "double bill" to the people of the country. It is the greatest "combined show" of the period.

All the railroads centering in Chicago, and all of their connections at distant points have prepared for a large traffic in view of the widespread interest which this exposition has created.

Chicago is unquestionably the greatest land center in America. All of the large companies which are developing the country have their headquarters here, and it is entirely fitting that Chicago should take the lead in planning and carrying out an exposition on the grand scale which is now reaching a stage of completion. There will be no disappointment for the coming visitor. The vastness of our land interests will amaze those who consider themselves familiar with this nation's development.

The orchards of the northwest and the central mountain districts; the great stock ranches of Montana and other states; the orange groves and peach orchards of California; the rich valley lands of Arizona where all subtropical fruits grow in such wonderful abundance; the great coastal plains of Texas and Louisiana with their vast sugar and rice plantations, will all be represented in the exhibits, and the homeseeker may have a choice of countless opportunities which these various regions offer.

The United States government is lending its aid to this enterprise and will have numerous exhibits. The great work of drainage and irrigation and the equally important work of soil survey and crop production will all be in charge of experts who will give first-hand information to every inquirer. It will be a splendid school for everyone who is at all interested in the great land movement of the present day.

The invitation to attend this exposition is extended to everyone by Chicago, and by the Tribune management, to whose energies and financial support the country is indebted for this magnificent enterprise.

CHICAGO'S BIG LAND BANQUET

Distinguished Men from Many States Will Attend the Land and Irrigation Exposition, and Be Royally Entertained.

A feature of the Land and Irrigation Exposition, to be held in Chicago, Nov. 20 to Dec. 4, will be a banquet to distinguished men who have shown a marked interest in irrigation and other forms of land development. Among those invited to this affair are President Taft and cabinet; governors of many states, particularly those of the west and southwest; Hon. James J. Hill, and other distinguished railroad men; Arthur Stillwell, of Kansas City, Mo.; E. B. Ripley, of the Santa Fe railroad; Edwin Hawley B. F. Yoakum, George Gould, William K. Vanderbilt, C. K. G. Billings, Gage E. Tarbell, J. Pierpont Morgan, John D. Rockefeller F. H. Newell of the reclamation service, Gifford Pinchot, of the forestry service, Dr. W. J. McGee and many others.

Not in many years has there been such a feeling of enthusiasm over the development of our country's resources as at the present time. Scientists, financiers and men of all walks of life are turning to the land as the source of all our supplies and as affording a means of outdoor life and health. The great exposition in Chicago, under the auspices of the Chicago Tribune, will afford the opportunity for a great gathering of the forces that are doing so much for the irrigation and reclamation of what formerly were considered our waste lands.

A Methodist Minister Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years for diarrhoea. I consider it the best remedy I have ever tried for that trouble. I bought a bottle of it a few days ago from our druggist, Mr. R. R. Brooks. I shall ever be glad to speak a word in its praise when I have the opportunity."—Rev. J. D. Fraps, pastor M. All Who Would Enjoy

good health, with its blessings, must understand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of Figs and Elixir of Senna gives general satisfaction. To get its beneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

Waste Material.

In process of time it was observed that the multi-millionaire philanthropist had ceased giving costly library buildings to towns and cities.

"Why is this, Mr. Canaggy?" the reporters asked him.

"Young men," he said, "what is the use of building great houses for libraries when all a man needs for an education is five feet of books?"

Whereat they marveled, but they could not answer him.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Louisville, Ky.—"Lydia E. Pinkham's Vegetable Compound has certainly done me a world of good and I cannot praise it enough. I suffered from irregularities, dizziness, nervousness, and a severe female trouble. Lydia E. Pinkham's Vegetable Compound has restored me to perfect health and kept me from the operating table. Another Operation Avoided.

Adrian, Ga.—"I suffered untold misery from female troubles, and my doctor said an operation was my only chance, and I dreaded it almost as much as death. Lydia E. Pinkham's Vegetable Compound completely cured me without an operation."—Lena V. Henry, R. F. D. 3.

Ford's Hair Pomade

Fifty years of success have proved the merits of this preparation.

What is more attractive than a beautiful head of hair? It has been the ambition of women in all ages. The use of Ford's Hair Pomade makes stubborn, harsh, kinky or curly hair softer, more pliable and glossy, easy to comb and arrange in any style desired consistent with its length, as long as the Pomade remains in the hair. This result may be obtained by one thorough application according to directions. Two to four applications a month will keep the hair in satisfactory condition, and two to four bottles, regular size, are usually sufficient for a year. Directions with every bottle.

Ford's Hair Pomade

When we first began our wonderful work of growing all kinds, all qualities, all lengths, and all conditions of hair, even to the growing of hair on bald places of the head, many persons scorned the idea that such a thing was possible; but we have grown the hair for hundreds; rapidly achieving success. The proof of the value of our work is that we are being imitated and largely by persons whose own hair we have actually grown and the further fact that they have very frequently mentioned us when trying to sell their goods (saying that theirs is the same or "just as good") or referred to PORO. We advise you to use only PORO Hair Grower, (the oldest and best of its kind.) See that the name PORO is on every box, not genuine without it. Prepared only by Mrs. A. M. POPE.
