On the Senators.

The wit of Bishop Seth Ward amuses Nashville frequently.

Bishop Ward, in company with two senators, came forth from a Nashville reception the other day and entered a motor car.

"Ah, bishop," said one of his companions, "you are not like your master. He was content to ride an ass."

"Yes, and so should I be," Bishop Ward answered, "but there's no such animal to be got nowadays. They make them all senators."

You Can Rely on Resinol to Do Its Work Quickly and Perfectly.

Have been troubled with dry Eczema for several months, and have tried many different remedies, but I have gotten more relief and better results with two applications of Ungt. Resinol than all other remedies. Will gladly recommend it whenever and wherever I can.

A. E. Hatch, D.D.S., Cleveland, Ohio.

PUT 'EM TO SLEEP.

Novelist—When I'm writing a novel, I lose considerable sleep over it.

Critic—Oh! well, what's your loss is your readers' gain.

STOMACH MISERY VANISHES

Indigestion, Gas, Sourness and Dyspepsia Go and Your Stomach Feels Fine in Five Minutes.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn or a sick, sour, upset or gassy stomach, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapepsin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store here in town.

These large 50-cent cases of Pape's Diapepsin contain more than sufficient to thoroughly cure any case of Dyspepsia, Indigestion, Gastritis or any other stomach disturbance.

HUMOR IN THESE VERDICTS

Quaint Ideas and Expressions Recorded as Having Been Rendered by Coroner's Juries.

Referring to a verdict recently given by a coroner's jury that death was "caused by the medical evidence," the British Medical Journal says: "This verdict may be added to those cited in the report of the select committee on death certification, where Dr. Ogle is quoted as saying: 'One verdict came before me a little time ago which was this: "A man died from stone in the kidney, which stone he swallowed when laying on a gravel path in a state of drunkenness." That was given as a verdict. I thought some joke had been played, and I wrote down about it, and found it was an absolute fact. Another one is like this: "Child three months old, found dead, but no evidence whether born alive."'" These novel judgments recall that an up-state newspaper not long ago spoke of taking a murdered man's "post-mortem" statement.

Youthful Wisdom.

Father—Why did my little boy send his papa a letter with only a capital T written on the page while he was away?

Little Son—Because I thought you'd go around among your friends with it and say: "My boy is only four years old, and just see the capital letter he writes!"—Judge.

HEALTH AND INCOME

Both Kept Up on Scientific Food.

Good sturdy health helps one a lot to make money.

With the loss of health one's income is liable to shrink, if not entirely dwindle away.

When a young lady has to make her own living, good health is her best asset.

"I am alone in the world," writes a Chicago girl, "dependent on my own efforts for my living. I am a clerk, and about two years ago through close application to work and a boarding-house diet, I became a nervous invalid, and got so bad off it was almost impossible for me to stay in the office a half day at a time.

"A friend suggested to me the idea of trying Grape-Nuts food which I did, making it a large part of at least two meals a day.

"Today, I am free from brain-tire, dyspepsia, and all the ills of an overworked and improperly nourished brain and body. To Grape-Nuts I owe the recovery of my health, and the ability to retain my position and income.

Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Electric Lighting Plant For Farm.

Mason City.—An innovation in the shape of a complete electric lighting plant for his farm premises has been inaugurated by Gus Lane, a farmer who lives east of Nora Springs. From a dynamo which he has placed in his cellar and which is to be run by a storage battery he is able to light his house, barn, sheds and other small buildings and as well furnish power for churning, running a washing machine, sawing wood and other light jobs.

Mistook Acid for Whisky.

Nevada.—Taking from his pocket a bottle of what he supposed to be whiskey and drinking of its contents only to learn that it was carbolic acid, was the unfortunate mistake of Martin Nelson, 23 years old, son of Tobias Nelson, a well known retired farmer of Roland. The young man died from the effects of the poison within a few minutes, despite the efforts of the attending physician.

State Institute Research.

Glenwood.—A department of psychephysiological research has been established at the Iowa state institution for feeble minded, in charge of Dr. P. F. Lange. Iowa is the fourth state to take up this line of investigation. European institutions are in constant correspondence with Dr. Lange concerning his work.

Finds a Human Skull.

Monticello.—James Murray, a young farmer residing between this city and Hopkinton, unearthed a human skull in a cornfield while husking corn. He discovered the grewsome headpiece not far from the road. It was in a well preserved condition except for the absence of the lower jaw, and from appearances it is thought that the skull could not have been lying there for any length of time. It was found in a field which has been under cultivation for many years and it would have certainly been discovered had it been there for a very long time.

M. G. Green not very long ago found a lantern and a man's shirt and pair of trousers in a cornfield, which is just adjacent to the field where the skull was found. During the past summer he has often had cause to complain of a nauseous stench in the locality whenever he passed along the road, but it was not until recently that he thought to look into the matter at all. When he did he found the articles mentioned, but did not look further for the source of the smell which had annoyed him during the summer.

Ministers' Trust Latest in Iowa.

Hampton.—There are meat trusts and doctors' trusts, and steel trusts, but the newest trust is that of the ministers. This trust is formed not so much for making money or saving souls, but to protect the people from impostors that infest the country. The ministers of this city have decided that they would not permit speakers other than of their own denomination to occupy their pulpits, nor permit outside collections to be taken up in their respective churches, nor give recommendations to book agents, except by vote of the Ministers' association.

Boise Carries Off Prize.

Council Bluffs.—Boise, Idaho, carried off the big prize, the Council Bluffs Commercial club cup, valued at $500, at the national horticultural congress. Payette valley, Idaho, was second and Nampa, Idaho, tied in this contest, which was on five varieties of apples with five boxes each. In carload exhibits Payette valley took first, Nampa second and the Manville Fruit company of Boise, third. J. A. Carr of Council, Idaho, captured the copper trophy, an urn valued at $100.

Farmer Has His Own Elevator.

Scranton.—Martin Christian, who lives north of town, has just completed a corn crib and grainery on his farm that is something of a novelty around here, as he has built therein a good grain dump and elevator, as well as a first class set of scales. The floor is all cement.

Dolliver Subscriptions Pour In.

Fort Dodge.—Subscriptions for the Dolliver memorial monument already are pouring into Col. W. T. Chantland, secretary of the Dolliver Memorial association. From present indications Fort Dodge and Webster county will furnish most of the subscriptions.

Laborer Fatally Stabbed.

Mason City.—In a fight on Main street here in which a knife wielded by Virgil Crow played a prominent part, Patrick Leonard, aged 20, was stabbed, and will die of his wounds. Leonard has eight wounds on his body, two penetrating the abdomen and lacerating the stomach.

The Winning Candidate.

Two candidates for the same office came into a certain town one day. The one called at a house where a little girl came to the door. Said he: "Sissie, will you please bring me a glass of water?" Having brought the water, he gave her some candy and asked: "Did the man ahead of me give you candy?" "Yes, sir." Then he gave her a nickel and said: "Did he give you money?" "Yes, sir; he gave me ten cents." Then, picking her up, he kissed her and said: "Did he kiss you?" "Yes, sir, and he kissed mamma, too!"

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
