Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

Subscribe for The Bystander.

Geo. Robinson and family have moved to a home on Maple avenue, which he has recently purchased.

Things are pretty quiet in Clinton just now, so we have nothing much to say to our friends.

In the class of 116 which graduated from the eighth grade at the Grammar school last week were two girls of our race, Misses Genevieve Bush and Anna Culberson. Their friends congratulate them on the progress made in their school life.

Rev. G. E. Sanders was in Buxton last week in attendance at the annual Baptist convention.

Mrs. C. V. Bush came out from Chicago last week to be present at the graduation of her granddaughter. She will visit in Clinton indefinitely.

We once more call the attention of our subscribers who are in arrears that their promises are still unkept. We have been patient, you have had the goods; now do the square thing and settle.

Protective Device.

When a telephone line is electrostatically charged the telephone acts as a condenser. The winding serves as one plate of the condenser, the frame of the receiver as the dielectric and the person who is holding the receiver to his ear as the other plate of the condenser. In order to prevent this condenser from discharging through the person, a German inventor provides a grounded metallic cover for the receiver, the capacity of which is somewhat greater than that of the body.
