FLY AND MOSQUITO TRAPS—

GILBERT'S PATENT.

Notice is hereby given, that the undersigned have secured, by special agreement with the patentee, the Patent Right for the sale in Louisiana of the above article.

All orders and communications must be addressed to us at New Orleans.

Jobbers and Retailers, whose orders are solicited, will be supplied on very favorable terms.

For sale also at retail.

HENDERSON & GAINES, 99 Canal street.

The above ingenious invention has been in use but two seasons, and has attained a popularity rarely equaled in the history of new inventions. It needs only a trial to satisfy any one of its merits. When it is kept running from the commencement of the season, flies will not become sufficiently numerous to be troublesome. Keep one that night, they will catch mosquitoes, which will be attracted to the trap in preference to alighting on persons in the room. m5 tf

TO THE COMMON COUNCIL OF NEW Orleans:

NEW ORLEANS, January 16, 1858.

Gentlemen—We, the undersigned, owners of property situated on Franklin street, from Poydras to Carondelet street, respectfully represent to your honorable body that we are desirous to have said street paved with round stone pavement and the banquettes repaired where the same may be necessary. The almost impassable condition of our street renders it necessary. This work can be done at a moderate outlay, the city being in possession of materials requisite to perform said work. We therefore ask for a resolution, to be passed as per Sections 119, 120, 121 of the City Charter, and your petitioners will be ever grateful.

Yours respectfully,

DENTAL NOTICE.—DR. J. WEBT, President Dentist, No. 112 Camp Charles street.

J. W. would call Bartender attention to his method of constructing ARTIFICIAL TEETH. They are made perfectly natural in form and shape, set with false gums. The original form and expression of the mouth and face is restored, with a clear and distinct articulation of speech. This is effected by having the inside of the teeth made to fit the mouth, and by which the tongue is readily adapted. This proves that Bitter Roots or other stimulants are needless when wearing artificial teeth. The Doctor has been practicing in this city, for the last twelve years, and feels confident that he will give satisfaction to those who may honor him with their patronage. All persons desirous of obtaining his services, would do well to call and examine his specimens. m12 1y

THE BAGASSE KETTLE TRAIN AND FURNACE, now in operation, is now prepared to contract with full guarantee to take off crops with GILMAN'S PATENT BAGASSE FURNACE AND KETTLE TRAIN, with a consumption of Wood not to exceed one-half a cord per hundred for the entire boiling of the juice into Sugar, on one cord per hogshead for both grinding the Cane and Boiling the Juice into Sugar.

The management of the Bagasse Kettle Train is precisely the same as that required for the old kettles, employing an equal number of hands to clean the juice, the furnace needs the attendance of but one hand, as the Bagasse is never touched after it escapes the Rappers.
