Miscellaneous.

A WORD in season is scarcely ever spoken by a man in a peppery frame of mind.

"WILL the action lie?" inquired the anxious client. "Yes," replied the facetious attorney, "the action will lie if the witnesses will."

"SILENCE is golden." Aunt—"Has any one been at those preserves?" (A dead silence.) "Have you touched them, Jimmy?" "Pa never allows me to talk at dinner."

A LITTLE five-year-old was being instructed in morals by his grandmother. The old lady told him that all such terms as "by golly," "by jingo," "by thunder," etc., were only little oaths, and but little less than other profanities. In fact, she said, he could tell a profane oath by the prefix "by." All such were oaths. "Well, then, grandmother," said little hopeful, "is 'by telegraph,' which I see in the newspapers, swearing too?" "No," replied the old lady, "that's only lying."

Best material, good workmanship, handsome styles, strong and durable vehicles in every respect.
70,000 CARRIAGES
Manufactured by Emerson, Fisher & Co., are now in use in every part of the American Continent.

They give unfailing satisfaction. All their work is warranted. They have received testimonials from all parts of the country of purport similar to the following, hundreds of which are on file subject to inspection:

Messrs. Emerson, Fisher & Co.: Galva, Ills., July 16, 1879.
I have used one of your Top Buggies three years, the care of them two years in my livery stable, and they have given me perfect satisfaction and are in constant use. OSCAR SMALLEY.

Messrs. Coppock & Johnson: Newberry, S. C., July 17, 1879.
Dear Sirs:—I have been using the Emerson & Fisher Buggy I bought from you as roughly I suppose as any one could. I had a fast horse, drove him at full speed, sometimes with two grown ladies and myself in the buggy, and it is to-day worth all the money I paid for it. I say the Emerson & Fisher Buggies will do. A. M. TEAGUE, Farmer.

The favorable reputation the Carriages have made in localities where they have been used for several years by liverymen, physicians, farmers and others requiring hard and constant use, has led to an increased demand from those localities, to meet which the manufacturing facilities of their mammoth establishment have been extended, enabling them now to turn out in good style.
