# New Orleans Daily Crescent.

FRIDAY MORNING, JUNE 11, 1858.

## Thirty-Fifth Congress—First Session.

WASHINGTON, June 3.—*Senate.*—Mr. Green presented the petition of the Chamber of Commerce of the city of Kansas, in the State of Missouri, on the subject of a railroad to the Pacific ocean, by the valley of the Kansas river, or the route of the 39th parallel; which was referred to the select committee on the Pacific Railroad.

Mr. Johnson, of Arkansas, from the Committee on Printing, reported in favor of printing thirty thousand extra copies of the report of the Commissioner of Patents on Agriculture, for the year 1857, five thousand copies to be for distribution by the Interior Department and the Patent Office; and the report was agreed to.

Mr. Douglas, from the Committee on Territories, to whom was referred the bill making an appropriation for the completion of connected sections of a road from Albuquerque, in New Mexico, to the Colorado river, reported it back without amendment and recommended its passage.

Mr. D., from the same committee, to whom were referred numerous memorials, praying the organization of the Territory of Dacotah, praying protection for the overland mail-route to California through the Nebraska Territory, in favor of the appointment of a commission to ascertain the boundary line between Washington and Utah, in favor of an appropriation to [illegible] penitentiary in Kansas, and in favor of a re-[illegible] of money expended upon the Capitol [illegible] in Nebraska, asked to be discharged from the further consideration of the same, which was agreed to.

Mr. [illegible] asked and obtained leave to introduce a bill to establish a line of mail steamships between [illegible] of the United States and Great Britain, which was read twice and referred to the Committee on the Post-Office and Post-Roads.

[illegible] asked and obtained leave to introduce a bill to revive and put in force the provisions of the act giving to the President of the United States additional power for the defence of the United States [illegible] invasion, and for other purposes, approved March 3, 1839, with modifications, which was read twice and ordered to be printed. The bill puts at the disposal of the President, to be used when necessary to resist the unjust claims of Great Britain, the naval and military forces and militia of the United States, authorizes him to call into service fifty thousand volunteers, or so much thereof as may be necessary; also appropriates and puts at his disposal $10,000,000, with the right to pay the same. It also authorizes the President, if he thinks it necessary, to send a special ambassador to Great Britain. The act to continue in force for sixty days after the next meeting of Congress.

On motion, by Mr. Mallory, a resolution was adopted directing the Committee on Military Affairs to inquire into the condition of Forts Jefferson and Taylor, at Key West and Tortugas, and the expediency and expense of putting them in a defensible condition.

Mr. Seward moved that the Senate proceed to the consideration of the joint resolution submitted by [illegible] days since providing for an extension of the present session until the 21st inst. The motion was agreed to—yeas 32, nays 21.

Mr. [illegible] moved to amend the resolution by striking out the 21st and inserting the 14th as the day of adjournment; which was agreed to.

The joint resolution as amended was then passed—yeas 35, nays 21.

The Senate resumed the consideration of the bill from the House of Representatives, making appropriations for sundry civil expenses of the Government for the year ending the 30th June, 1859. The bill was read a third time and passed, and the Senate then adjourned.

*House.*—Mr. Davis, of Mississippi, asked consent to introduce the following resolution for reference to the Committee on Foreign Affairs:

Whereas, the visitation of American merchantmen, now being exercised in the waters of the Gulf of Mexico and in the ports of Cuba by British war steamers, is in direct violation of international law;

[And whereas, information has been received that an American vessel has been fired into and an American citizen has been killed:] Therefore, be it

*Resolved*, That the President be, and he is hereby requested to give instructions to our navy to arrest all offending vessels until an ample and full reparation is made by the British Government for the outrages committed, and guarantees are given for future exemption from visitation.

Mr. Clay of Kentucky stated that the Committee on Foreign Affairs were engaged in the consideration of that subject, and would shortly be ready to report.

Mr. Harris hoped the gentleman would modify his resolution by striking out that portion of the preamble within brackets, as the intelligence came from an inferior source.

Mr. Davis accepted the modification.

Mr. Keitt of South Carolina said he should object to the resolution if it was put upon its passage.

Mr. Crawford of Georgia, and a number of others, said they should vote for it if it was put upon its passage.

Objection being made,

Mr. Davis moved that the rules be suspended, which motion was agreed to—yeas 154, nays 43.

The resolution was then referred to the Committee on Foreign Affairs.

On motion of Mr. Kelsey of New York, the bill to declare titles to land warrants in certain cases, the bill to authorize the President of the United States, in conjunction with the State of Texas, to run and mark the boundary lines between the territory of the United States and the State of Texas, and the joint resolution authorizing the arrangement and disposal of the public buildings in the city of Philadelphia, were severally taken from the Speaker's table, and the amendments of the Senate thereto agreed to. So the bills are passed.

On motion of Mr. Davidson, of Louisiana, Senate bill to extend an act entitled "An act to continue half pay to certain widows and orphans," approved February 3, 1853, was taken from the Speaker's table and passed.

On motion of Mr. Burnett, of Kentucky, under a suspension of the rules, the following Senate resolution was taken from the Speaker's table:

*Resolved*, (The House of Representatives concurring,) That in the resolution directing the President of the Senate and Speaker of the House of Representatives to declare their respective houses adjourned *sine die* on the first Monday in June next, at 12 o'clock, M., be and the same is hereby rescinded, and the President of the Senate and Speaker of the House of Representatives declare their respective houses adjourned *sine die* on Monday, the 14th of June next, at meridian.

Mr. Burnett moved to amend the resolution, so that the session will be extended to Thursday next, at 12 o'clock, M., which was agreed to, and the resolution as amended was passed.

Mr. J. Glancy Jones, from the Committee of Ways and Means, reported a bill to modify an act providing for the better organization of the treasury, and for the collection, safe-keeping and transfer and disbursement of the public revenue.

Mr. Jones explained that, under the act now in force, the public officers were compelled to deposit all the money in their hands, and could not draw out more than twenty dollars to check their balances. The inconvenience occasioned by this provision was so great that it was impossible for the Government to carry it out. This modification was recommended by the Secretary of the Treasury, and proposed simply in cases where it is absolutely necessary that, in the discretion of the department, the disbursing officers may be allowed to draw more than twenty dollars. He asked the House to put it upon its passage.

After a brief discussion,

On motion of Mr. Underwood, of Kentucky, the bill was referred to the Committee of the Whole on the state of the Union, and the House soon after adjourned.

ABUSE OF THE FRANKING PRIVILEGE.—The Louisville Journal has the following upon this subject:

The laws of the United States provide that "if any person shall frank any letter or letters, other than those written by himself or by his order, on the business of his office, he shall on conviction thereof pay a fine of ten dollars." Yet our own State is flooded with circulars of the Washington Union, the acknowledged and avowed organ of the Administration at Washington. These circulars are sent, in defiance of our postal laws, under the franks of Democratic members of Congress. The circular sets forth that:

"In view of the threatening condition of public affairs, in order to strengthen and consolidate the Democratic party, and produce unity of action throughout the country, it has been determined that the Washington Union shall be amply endowed and put in a condition of complete efficiency, as a great central newspaper organ. It is well known that the Union is in a position to understand the views of the Administration, and of its Democratic friends in Congress. Your active aid to extend the circulation of the Union is solicited and expected. It is due to the great party, whose cause is yours and ours, and whose triumph is the preservation of the Government, that this enterprise, which is undertaken solely with a view of maintaining and strengthening the Democracy of the country, should be cordially supported."

A copy of the circular from which this is extracted was sent to a Kentuckian under the frank of Hon. J. H. Jewett, a Democratic member of Congress from Kentucky. These circulars are signed by C. Wendell, publisher of the Union. This man, Cornelius Wendell, is a notorious Black Republican, and yet we find Democratic Congressmen franking his circulars, soliciting subscriptions for his paper upon the assurance that it is well known that his paper "is in a position to understand the views of the Administration and of its Democratic friends in Congress."

FROM MOREHOUSE PARISH.—The Morehouse Advocate of the 1st inst. has the following paragraphs:

We wish to correct the misstatement which we see current in the papers concerning the high water in Morehouse. It affords us great pleasure to inform those interested in the purchase of rich and choice farming lands, that during the highest water this season there has not been in the whole parish over 300 acres affected by the overflow. There is not anywhere in the State to be found such large quantities of fertile lands entirely above overflow as we have in Morehouse, and the recent floods everywhere else prove the truth of our assertions. There has not been an acre within a plantation enclosure in the least affected by high water.

The weather has been extremely warm and dry within the last fortnight. The health of Bastrop was never better than it is at the present writing.

**Dr. Osgood's India Cholagogue**

CURES

Fever and Ague, Chills and Fever, Dumb Ague, Intermittent and Remittent Fevers, Liver Complaint, Jaundice, Enlargement of the Liver, Enlargement of the Spleen, and all the various forms of

BILIOUS DISEASES.

This invaluable medicine was prepared from an extensive practice of several years in a bilious climate, and is never known to fail curing Fever and Ague, or any of the diseases above named.

Those who are suffering from affections of this kind, as also those who have become invalids from their effects upon the constitution, will find the "India Cholagogue" a most invaluable remedy for purifying the blood, and thoroughly cleansing from the system the morbid effects of a bilious climate.

The wonderful effects of Cholagogue in eradicating Bile from the human system, can only explain its extraordinary agency in the speedy, thorough and permanent cure of Fever and Ague, and the various grades of intermittent and remittent fevers.

It has been tested in thousands of cases, and is pronounced by all who have used it one of the greatest Fever and Ague remedies extant.

☞ Be sure and ask for Dr. Osgood's India Cholagogue, as there are many counterfeits offered for sale.

**Winer's Canadian Vermifuge.**

A CERTAIN REMEDY FOR WORMS—WARRANTED PURELY VEGETABLE—A Speedy Cure and Effectual Remedy for Worms.

It is a fact established beyond the shadow of a doubt by the experience and testimony of the most eminent physicians, that more than three-fourths of the diseases with which children are afflicted, are caused by worms, and thousands of children die annually from those diseases when the cause is either not known or attributed to something else. Various are the preparations which are recommended as remedies for worms, but experience has proved them all more or less ineffectual; the end, however, has at length been attained, and a remedy found which has never failed to destroy worms, wherever they have existed. This assertion is supported by the testimony of the most eminent physicians and respectable individuals in the country. The remedy is

WINER'S CANADIAN VERMIFUGE.

It is safe in its operation and more easily administered than any other. Some of the symptoms which indicate the existence of worms in the bowels are as follows: The countenance is pale, of a leaden color, and suffused with occasional flushes; the eyes are heavy and dull, the breath fetid, the upper lips swollen, itchings in the nostrils, which causes the patient to pick his nose; the sleep is disturbed, the patient often awakening in great fright and is liable to starting and grinding his teeth; the appetite exceedingly irregular, being sometimes voracious and at others feeble, and in some it is depraved.

To the following certificates numerous others might be added, but it is believed that these are sufficient to establish the fact that Winer's Canadian Vermifuge is a superior remedy for worms.

MEDICAL EVIDENCE.

We, the undersigned, having frequently administered a medicine prepared by Mr. John Winer, of this town, designated "J. Winer's Canadian Vermifuge," and being fully satisfied with its efficacy, confidently recommend it as a safe and efficient remedy for the expulsion of worms from the intestine canal.

G. O'REILLY,
Licentiate of the R. C. of Surgeons in Ireland, etc.
G. W. DICKENSON,
Member of the R. C. Surgeons in London, etc.

[From the Rev. J. Flanagan, of Binbrook, C. W.]

J. WINER—Sir: I have made the trial of your Canadian Vermifuge, and with the most happy results. In my own family, and in every case which has come to my knowledge, the expulsion of worms has followed the administering of your Vermifuge, and every one have prefers it to the other as its effects are certain and children take it more readily, which is a great point gained in giving medicine to children.

July 16, 1845. JOHN FLANAGAN.

☞ The physicians now generally use "Winer's Canadian Vermifuge." This medicine is a simple vegetable preparation, and can always be administered with proper safety and confidence as to the rest it, as it will always destroy worms and restore the patient to health.

☞ Over one thousand certificates have been sent to the agents, from planters, merchants and physicians, bearing testimony to the efficacy of the invaluable remedy.

☞ Warranted in all cases.

Prepared only by JOHN WINER, Manufacturing Chemist and wholesale Druggist, Hamilton, Canada West.

Sold, wholesale and retail, by J. WRIGHT & CO.,
