EARL W. JOHNSON & CO.,

EVER grateful to their old friends and customers, for their former very liberal patronage and favors, would inform them, and the public generally, that they have just completed the EXTENSIVE REPAIRS they have been making during the past Summer, having

Entirely Remodeled

AND REFITTED THEIR ESTABLISHMENT, they are now prepared to show their customers any Garment manufactured in a gentleman's wardrobe. We have now on hand one of the LARGEST and BEST SELECTED STOCKS of

CLOTHS!
Vestings & Pantaloon Goods

to be found in the city, which we are ready to manufacture to order, by the most skillful artists in their profession. The high reputation our

CUSTOM WORK

has always sustained, renders it only necessary for us to say that we shall endeavor to continue to merit the same praise which has been bestowed upon this department of our Establishment. Our stock of

READY-MADE CLOTHING,

is the most desirable of any in the city from which to make a selection, having all been manufactured within a few weeks. We offer a fresh stock of Goods, made in the style to suit the present season, rather than the accumulations of by gone years.

We particularly invite wholesale purchasers to examine our Stock, before making their purchases. We warrant our Garments to fit, and our prices as well.

FURNISHING GOODS

of every description, of which we have a very heavy Stock all of which were manufactured and imported expressly for this Establishment. For sale at wholesale and retail. 30 3m

are received, and in readiness for inspection. Their Stock includes a large assortment of fashionable Goods, both for Ladies' and Gentlemen's wear. Also Bonnets, Shawls, Hats, Caps, Boots, Shoes, Victorines and Fur Robes. And a choice assortment of

GROCERIES,

at extremely low prices.

AND ALSO:

—A complete Stock of—

READY MADE CLOTHING,

Together with Fish, Salt, Nails, Window Glass Paints and Oils, Zinc, Grain Bags, and Farm Implements, all of which will be sold at prices that cannot fail to suit the spirit of the times.

N. B.—The lovers of good Teas may rely upon finding with us a large stock of richly flavored

FRESH TEAS,

warranted to give entire satisfaction or no charge. Sheetings and Tickings cheaper than ever. In strictest truth we can say that we were in market at the right time to avail ourselves of great bargains, caused by many heavy failures of manufacturers and wholesale dealers, who have been forced to throw their Stocks in large quantities upon the market, which were seized and bought up at ruinous prices.

We call the attention of buyers to this fact, and solicit an early and thorough examination of goods and prices, for we are confident that both will please.

DR. STEPHEN JEWETT'S

JUSTLY AND HIGHLY CELEBRATED

FAMILY MEDICINES.

Prepared by Stephen Jewett, son of the late Dr. Stephen Jewett, of Rodge, N. H.,

each DESIGNED for and PERMANENTLY in the PERMANENT RELIEF and CURE of all diseases for which they are recommended.

ORIGINALLY PREPARED BY ONE OF THE MOST SUCCESSFUL AND EMINENT PHYSICIANS THAT EVER LIVED.

Used and Recommended by Eminent Physicians of the present day.

During a long and continued series of years they have continued to do their good work in a quiet and sure manner, and probably no medicines have done or are going to do more to RELIEVE and CURE those pronounced BEYOND HOPE, OR BEYOND AID FROM ANY PHYSICIAN, IN THE GOOD ESTIMATION OF THE PUBLIC. They are recommended by DISTINGUISHED and EMINENT CITIZENS, who have PERSONALLY in their families and among their friends seen their GREAT BENEFICIAL EFFECTS.

No Family should be without them,

FOR UPON THEM FIRM AND TRUE RELIANCE CAN BE PLACED.

To the afflicted we say, "FAIL NOT TO TRY AND RECEIVE RELIEF" in the thorough trial of these

GREAT AND CELEBRATED
TRUE RESTORATIVES.

The Celebrated TRUE

Health Restoring Bitters,

A MEDICINE FOR EVERY SEASON IN THE YEAR,

Remove all morbid secretions, purify the blood, give great tone and vigor to the Digestive Organs, cure diseases that already exist, fortify themselves against future disease, at no time debilitating the patient. Being grateful to the most delicate stomach, they CHEERING, INVIGORATING, STRENGTHENING, and RESTORATIVE PROPERTIES make them an invaluable and SURE REMEDY in

Liver Complaints, Jaundice, Dyspepsia, Incipient Consumption,

AND ALL OTHER DISEASES CAUSED BY AN IMPURE STATE OF THE STOMACH, BOWELS, BLOOD, LIVER, etc., which tend to debilitate or weaken the system.

THE HIGHLY CELEBRATED

Pulmonary Elixir,

PROVED THE BEST COUGH MEDICINE EVER KNOWN.

This Elixir contains many of the most highly approved remedies, in severe hoarseness, bronchitis, pleurisy and fatal pulmonary consumption, and is truly manifested in its good results. Many testimonials have been received of its efficacy, every prudent will be inclined to try any other preparation for the similar purpose. PARTICULARLY ADDRESS THIS MEDICINE TO MOTHERS WHOSE TENDER AND CHILDREN, as the delay in procuring a physician has often proved fatal before some TRUSTY ASSISTANCE WHICH MAY EASILY AVERT.

CONSUMPTION OF THE LUNGS,

Sore Throat, Asthma, Bronchitis, Croup, and other Diseases of the Respiratory Organs.

THE JUSTLY CELEBRATED

STRENGTHENING PLASTER,

is universally acknowledged to be the best plaster ever known.

This Plaster is composed of quite a number of vegetable substances, medicinally compounded. There never has been, such a test of the properties of a plaster made, for the various purposes for which plasters are used. It has no superior for removing

PAIN, INTERNAL INFLAMMATIONS, RHEUMATISM, WEAKNESS IN THE SIDE, BACK, BREAST, STOMACH, &c.,

and when used in

LIVER AND PULMONARY DISEASES

will prove very beneficial to those suffering with such complaints.

For further information regarding these valuable Medicines, see Pamphlet, to be had of the agents, where testimony from the highest quarters will be found, among which are letters from

Middlebury, April 12, 1851.

ONLY $25 FOR A HOMESTAD.

50 FARMS, worth over $10000 and 5,000 Lots, to be distributed among 800 Subscribers.

To supply the demand for the lots and farms, I have laid out another tract, adjoining the Long Island Railroad and the land already sold at Hempstead, to be of the same size, and disposed of and divided among the purchasers in the same manner as those recently sold there, with 25 lots instead of 22.

I have been induced to do this from the great number of persons wishing to purchase these Lots and Farms, as the improvements in that part of the Island are constantly increasing, and large numbers of persons have now become interested in those lands. This additional tract is in every respect equal to the other, and at the rate they are now being taken they will all be sold in a few weeks. About 600 shares are now subscribed.

Each subscriber is entitled to 8 Lots, 25 by 100 feet, lying together, or a FARM of from 4 to 20 acres. The shares are limited at $25—payable, $5 when subscribed for, $5 on or before the day of distribution, and the balance in monthly instalments of $3.

The lots are situated in the Village of LAKELAND, on the Long Island Railroad, County of Suffolk, and 18 miles from the city of New York, where handsome buildings are erected, and the Railroad Company contemplate making a large depot for the termination of the early and late trains between that place and Brooklyn. It is one of the healthiest places in the United States and within one mile of Ronkonkoma Lake, a beautiful sheet of water, about three miles in circumference, of singular transparency, and of great depth with an abundance of fish. The village is but 1 mile distant from the great South Bay, which is 5 miles wide and 40 miles long, abundantly supplied with oysters, clams, and fish of various kinds.

These lands will produce as much per acre, with the same cultivation, as any land within fifty miles of the city of New York.

Several gentlemen of the first respectability who have lately visited Lakeland and examined the crops now growing there, declare that the wheat, rye, potatoes and garden vegetables are equal to any they have seen in any part of the country, proving conclusively that the soil is capable of producing, and that to the highest perfection, all that the agriculturist can wish or desire.

Wheat of the same quality, which grows luxuriantly, was raised by Mr. Samuel Thompson of Setauket, last season (about 8 miles from this place,) who received for the product of a little more than two acres, $400

Lakeland Station is located on the borders of the Long Island Railroad, where cars run several times a day to Brooklyn and New York. The surface of the land is smooth and level, and surrounding country is perfectly healthy, and within a few miles of this place, highly cultivated and valuable having been settled for more than a hundred and fifty years, and where similar lands sell at from $50 to $200 per acre.

The lands are as good as represented, and good as any new lands on the Island, and when cultivated, will produce in the highest degree.

The land was once heavily timbered; some portions are now covered with a thrifty growth of young wood, oak and pine. Wood is plenty and generally cheap in that part of Island. The wood is cheap: that which is suitable to be cut into cord-wood, for the New York market, is of uniform price, and has for a great many years been always considered a cash article on the Island. There is a brick-kiln within two miles of Lakeland—cost of brick $2,50 to $3,00 per 1000.

There is material on the land for common fencing—good chestnut rails can be had within few miles of these lands in abundance. All building materials can be had at the depots of Brooklyn and Greenpoint, and at many intermediate places, at the usual market prices. There are numerous streams of water rising in those new lands, and running into the great South Bay, which are remarkable for their purity and power. The sudden and very weather makes very little change in them, they are unfailing: land wells are of various depths—probably over these new lands, in the middle region of the Island, the average depth will be about 25 feet at Lakeland, as the ground is higher they are deeper. Subscribers are not compelled to build.

There are now churches and schools within two or three miles of the village; and within four miles mills, factories, stores, and villages, with the privileges of an old settled country are to be had there; and the people of Suffolk County pride themselves on being a highly moral, orderly and religious people. All of my subscribers are persons of respectability.

In consequence of the great number of letters from all parts of the country, desiring information of these lands it has been found necessary to answer them in this form.

☞ Apply to CHARLES WOOD, Stationer, 117 John street near Pearl, N. Y., who will receive remittances and forward receipts therefor by return of mail. He will also gratuitously furnish new maps and pamphlets of the property, and cheerfully give such other information as may be desired.

I also desire to say that I have good FARMING LANDS west of my Village Lands, which I will sell in 5 acre lots or upwards, at $20 per acre, on reasonable terms. These lands are well situated, fertile, & adapted for tillage purposes, in every respect; & having the advantage and privilege of Railroad, when cleared and cultivated, they will be equal to any land on the Island, and equal to that which, in the vicinity of all the villages and settlements of Long Island, sells for $50 to $200 per acre.

PLOUGHS!

The subscribers would respectfully invite the attention of the Agricultural Public to the above Plough, which has been in use in Western Vermont three years past, during which time it has obtained a popularity beyond that of any other now in use. The Contractors claim for its lightness of draft, ease of guiding, and beauty of workmanship, that it could not be excelled has been thoroughly tried, and we feel confident that the plough is found to be a general favorite with the Tillers of the Soil. It has taken the first premium in Addison County, and wherever it has been seen, has been thought to be a superior article.

The shape of the Board is all choking. The shortness of the [illegible] brings the team nearer the work, which is a great advantage in the draft, [illegible] team. The Plough [illegible] from any thing of the [illegible] contributes to the ease [illegible]. Various testimonials can be [illegible] in favor of the above Ploughs from the best Farmers in the State. The article needs but to be seen to convince any one of its popularity.

GREAT CURE 1 DYSPEPSIA!

ANOTHER SCIENTIFIC WONDER!

DR. J. S. HOUGHTON'S

PEPSIN;

THE TRUE

DIGESTIVE FLUID,

OR GASTRIC JUICE!

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishes a COMPLETE and PERFECT SUBSTITUTE for it. By the aid of this preparation, the pains and evils of INDIGESTION and DYSPEPSIA are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be at the verge of the grave. The marvellous evidence upon which it is based is in the highest degree CURIOUS and REMARKABLE.

SCIENTIFIC EVIDENCE!

BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. PEREIRA, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. COMBE, in his valuable writings on the "Physiology of Digestion," observes that "a solution of the equivalent of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia" and he states that "a distinguished professor of medicine in London who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. GRAHAM, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals macerated in water, imparts to the dull the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in a manner different from the natural digestive process."

Professor DUNGLISON, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than forty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from living human stomachs and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestion."

Dr. JOHN W. DRAPER, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 3[illegible] says: "It has been a question whether artificial digestion could be promoted—but this now is generally admitted that it may be."

Dr. CARPENTER'S standard work on Physiology, which is in the library of every Physician, and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily extracted from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the stomach, and deficient secretion of Gastric Juice.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and elsewhere. These were mostly all desperate cases, and the cures were marvellous, rapid and wonderful, and permanent.

It is a GREAT NERVOUS ANTIDOTE, and particularly useful for students, or
