TELEPHONE ORDER DEPARTMENT OF PARK & TILFORD'S NEW FIFTH AVENUE STORE

"So Much of Our Business is Done Over the Telephone,"

says Mr. Frank Tilford, President of Park & Tilford, "that we gave special attention to the telephone equipment in our new Fifth Avenue store. To meet our requirements we installed a three-position telephone switchboard, connected by 30 lines to the Central Office of the Telephone Company. To this switchboard are connected 45 extension telephones, located at various points throughout our store and offices. 15 telephone tie lines to our 7 branch stores and to our stables and warehouses, make this switchboard the center of our telephone business. In order to facilitate delivery of goods, orders taken over the telephone are transmitted over the private tie lines to the store nearest the customer. The New York Telephone Company handled this entire installation to our complete satisfaction."

Progressive merchants realize the importance of catering to telephone trade. No concern is too small to pay special attention to its telephone trade—no concern is too large to be benefited by proper telephone facilities.
