SCIENTIFIC AMERICAN—PROSPECTUS, VOLUME FOURTEEN
Begins Sept. 11, 1858.

Mechanics, Inventors, Manufacturers and Farmers.

The SCIENTIFIC AMERICAN is now reached its Fourteenth Year, and will enter upon a New Volume on the First of September. It is the only weekly publication of the kind now issued in the United States, and has been pronounced by the Press of the Union, and by the Public, to be, in some sight, superior to the talent, ability, and work of no individual periodical in the country. It is the best, most, and cheapest publication of the entire American world, and, indeed, in all other lands, as its pleasant and instructive pages are read by thousands, as its plans and inventions are put in practice, and its advice followed by those who prefer to be guided by experience rather than by the blind guidance of the theorists, who seem to make it their business to lead people with the blind, and to employ the time and talent which should be devoted to the benefit of mankind, in trying to lead them astray from the path of rectitude and truth.
Persons who are unacquainted with our publication, and who are in the habit of reading the trash which is published in the shape of cheap publications, and which, from their low price, they think must be good, should remember that the cheapest publication is the dearest, because it is the most worthless, and, consequently, the most expensive, as it does not last a lifetime, and is not worth binding, while the SCIENTIFIC AMERICAN, and other valuable works, are bought and kept for future reference, and are, subject to the common accident of binding, valued in the highest branches of mechanical art.
TERMS—One copy, one year, $2; one copy six months, $1; five copies, six months, $4; ten copies, six months, $8; twenty copies, six months, $15; twenty copies, twelve months, $25; twenty copies, twelve months, $28 in advance.
Specimen copies will be sent gratuitously for insertion. South American and Western money, or Foreign Stamps, taken for subscription.
Letters should be directed to
MUNN & CO., 128 Fulton street, N. Y.
☞ Messrs. MUNN & CO. are extensively engaged in procuring patents for new inventions. They have had a long, and without change, to name, to the novelty of each inquiries.

THE EFFICACY OF A. A. PEYCHAUD'S TONI-AROMATIC BITTERS.
A CERTIFICATE.
Having been efficacious for numerous of my acquaintances, I can conscientiously recommend the method of the inventor of the Toni-Aromatic Bitters, and have no hesitation in saying that I have found it the most efficacious of all the bitters I have taken since the commencement of my illness. Notwithstanding the greatest care, my health was so low and feeble, great difficulty was experienced in digesting food, and I was reduced to the most miserable state of emaciation. I was induced to take the Toni-Aromatic Bitters, and before I had finished the first bottle I felt a sensible change in my health, and now, after using a dozen bottles, I am in the enjoyment of health and strength, and feel no longer any of the disagreeable sensations of dyspepsia.
