Improved and Brilliant Scheme!

SPARTA ACADEMY LOTTERY!

Capital Prize, $50,000—Tickets only $10!

NOTICE TO THE PUBLIC.

As the members of our firm have, by way of purchase, become the owners of the grants chartered by the States of Delaware, Kentucky, Missouri, and part of those in Georgia, under the management of Messrs. Gregory & Maury, of Wilmington, Delaware, we have deemed it expedient to change the name of our firm, on and after January 1st, 1859, to that of WOOD, EDDY & CO., who will hereafter have the management of the Sparta Academy Lottery, and the others, as above named.

In all transactions we have endeavored to conduct our business with integrity and promptness, and we can assure the public that the patronage heretofore bestowed on us is well deserving of being transferred to our successors.

Very respectfully, S. SWAN & CO.

Augusta, Georgia, December 15, 1858.

Wood, Eddy & Co., Managers,
Successors to S. SWAN & CO.

The following Scheme will be drawn by WOOD, EDDY & CO., Managers of the Sparta Academy Lottery, in each of their Single Number Lotteries for January, 1859, as AUGUSTA, Georgia, in public, under the superintendence of Commissioners:

CELEBRATED

WORCESTERSHIRE SAUCE

Pronounced by Connoisseurs

—To be—

THE ONLY GOOD SAUCE,

AND APPLICABLE TO EVERY VARIETY OF DISH.

Extract of a letter from a Medical gentleman at Madras, to his brother at Worcester, under date of May, 1851:

"Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made."

Extensive Frauds

The only Model awarded by the Jury of the New York Exhibition of Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE. The world-wide fame of which having led to numerous FORGERIES, purchasers are requested to see that the names of LEA & PERRINS are upon the WRAPPER, LABEL, STOPPER and BOTTLE.

LEA & PERRINS will proceed against any one infringing, either by manufacturing or vending spurious Sauce, and have instructed their correspondents in various parts of the world to advise them of any infringements. Sole Wholesale Agents for the United States.

More Testimony

IN FAVOR OF LILLIE'S SAFES.

WILLIAMSBURG, Dec. 2, 1858.

MR. LILLIE—Dear Sir: Last night my office, situated on Kent Avenue, between Rush and Morton streets, was broken open, and a desperate attempt made to open my Safe, which fortunately for me was one of your burglar and fire-proof ones. From the appearance of the office, I judge they were not disturbed in their operations, but worked all night, and gave up the undertaking simply because they were unable to get it open. The only real injury they did the Safe was the breaking off the hinges, which prevented swinging the door. They broke off the knob and tried to drive the spindle through, in which they did not succeed. The lock was not materially injured. A piece was broken from the end of the bolt by the punch in trying to drive it through, but not so as to prevent it being unlocked.

I send you a list of the tools found in the office the next morning. They had been stolen from a blacksmith's shop, near by and would seem to be the best that could have been procured for the purpose:

One sledge hammer, weight 18½ lbs., handle 2½ feet long.
One cast-steel hammer, weight 20 lbs.
One cast-steel hammer, weight 30 lbs.
One cast-steel cold chisel, 1¼ inches wide, weight 2 lbs., handle 1½ feet long.
One cast-steel cold chisel, 1¼ inches wide, weight 2 lbs., handle 1½ feet long.
One cast-steel cold chisel, 9 inches long and 1 inch wide.
One cast-steel punch, 1½ inch.
One cast steel punch, 2-3 inch.
One bar of iron, 2 feet long, ½ inch square.

The blacksmith assured me that he had just put the chisels in the best possible order for use. They now show conclusively that they were well tried, as they are perfectly unfit for use until refitted and sharpened.

You will please send me another Safe of the same size, as I am perfectly well satisfied that your Safes will effectually resist any attempt burglars may be able to make to open them

Yours respectfully, E. S. STERLING,
26 Morton street, Williamsburg.

Bonnabel's

BI-SULPHITE OF LIME.

The proprietor of the NEW ORLEANS SOUTHERN CHEMICAL WORKS, anxious to disappoint none of the regular customers of the establishment, is compelled, in view of the difficulty anticipated of filling the unprecedentedly large orders that are being daily received, to inform all the old patrons of the BI-SULPHITE OF LIME manufactured at the great Southern Works, that unless they send in their orders early, so as to secure them an eligible place on the order books, some disappointment may be experienced in their receiving it, which would be vexatious to both parties. Already preparations have been completed at the Works to make sure of having at least FORTY THOUSAND BARRELS OF THE BI-SULPHITE prepared; but even this large quantity would seem to be insufficient, so unusually heavy are the orders received from old customers, and many new ones, who heretofore have either set employed this most valuable defecator, or have procured it from other manufactories.

The strength of the BI-SULPHITE now being manufactured at the Southern Chemical Works of H. BONNABEL, will be found uniform and of greater strength than at any other period, no pains or expense having been spared to bring this invaluable chemical product as near perfection as possible, and to make it worthy of the high character the Southern Works have already secured with the Sugar Planters of the State.

Planters desirous to have the GENUINE BI-SULPHITE OF LIME, manufactured at the Southern Works, should specify it particularly in their orders through their merchants, or address themselves directly to

EMERY'S

PATENT CORN HUSKING MACHINE,

Now on Exhibition at No. 90 CAMP STREET.

This machine, for simplicity, utility and durability, surpasses anything for that purpose ever brought before the public. It is worked by a treddle, with the foot, and fed with the hands, thus husking from 500 to 600 bushels per day, against the old fashioned way by hand, of which 40 bushels is a large day's work.

Another advantage, besides the saving of time in the husking, is that this machine prepares the husk in the most perfect manner for mattresses, which are worth from $80 to $100 per ton as they fall from the machine.

Planters, and the public generally, are invited to call and test the merits of these machines.

Diseases of the Throat and Lungs

DR. C. P. CRANE,

Whose successful treatment in Diseases of the Throat and Lungs by the inhalation of Electro-Chemical and Medical Vapor, is now well known to be the only reliable and philosophical process of affecting a cure, even in those extreme and desperate cases which bid defiance to the ordinary rules of practice, has established a PERMANENT OFFICE and INSTITUTE for the thorough cure of all Chronic and Functional Diseases by means of Vergnes' Electro Chemical Baths, Galvanism and Electro-Magnetism.

For the convenience of those afflicted with Diseases of the Throat and Lungs, and unable to visit the city, who desire consultation, a list of Questions has been prepared, and will be forwarded on application to Dr. C.,

No. 148 ST. JOSEPH STREET, NEW ORLEANS.

New Orleans Daily Crescent.

Let Justice be Done.

We copy the following remarks from the Vernon (Jackson Parish) Times, of the 24th inst., with pleasure. That we should do so is due alike to ourselves, as well as to a highly esteemed cotemporary:

THE N. O. CRESCENT AND "NORTH LOUISIANA'S MAN."—We observe in the Crescent of the 19th inst. a lengthy running comment upon a recent article in this paper, headed "North Louisiana's Man," which article it characterizes as a "bold and able one." The Crescent asks a question which we propose to answer, as our article above alluded to we used the following language:

As great as the difference is between the relative proportion and interests of the two commodities, cotton and sugar, yet that difference does not overreach the disinterity between the peoples of the two divisions of country where the said commodities are prepared for market; and as we would not select cotton growers to represent the sugar interests, so we should not center upon sugar planters to represent the cotton interests.

This was said in connection with the material differences between North and South Louisiana, and was intended as a reason for selecting one of the U. S. Senators from this portion of the State. But see how ingeniously our cotemporary draws a different conclusion. Quoth the Crescent—one would think facetiously:

"Are we to infer from the above that the Senator proposed to be chosen on account of his identity in residence and interest with the cotton planters would not vote to sustain the sugar duties? The professions being dissimilar, and the peoples being distinctly, according to the Times, what scarcity have we of the South as! See h. West than our material interests will be cared for or regarded?"

Surely the Crescent was hard-up to find fault with a plain and just proposition. If its premises be correct, what, scarcity have we for the North and North-West that our material interests are at present cared or regarded? Both the Senators are from the sugar-growing districts, and by a parity of reasoning are inimical to the cotton regions. Does the Crescent comprehend the fallacy of its argument?

Again: we did not in the language above, contemplate leaving the sugar interests unprotected, even in the most improbable event that a North Louisiana Senator would not help to protect such interests. We wished only to divide equally the representation in the Federal Senate—one Senator from South and one from North Louisiana, a division we can but regard as eminently just and deserving. Besides this, we are not aware but that North Louisiana will sanction and help to secure every protection the sugar planters will ask for through their representatives. We are not prepared to deny them the first single boon they wish, and do not know of any contingency likely to arise, which would place us in a different situation. On this point we hope the Crescent will yield us the merit of that candor it admired in our former article and will show that fairness in correcting its hasty conclusions an unqualified disavowal of our reputed sentiments demands.

Very well. We give our cotemporary full credit for candor, ability and manliness; but North Louisiana won't get the Senator next session. The ruling oligarchy, which has its head quarters in New Orleans, has determined otherwise. North Louisiana must break down the Chief Engineer, before anything disagreeable to his wishes or interests can be accomplished. Have the North Louisianians the tact or the nerve to do this? We fear not, although they have the power.

Metairie Jockey Club Races.

WINTER MEETING.

The sport of the winter meeting at the Metairie opened charmingly on Saturday. Being New Year's, and a deliciously bright and pleasant day, everybody had a genuine holiday appetite, and the different resorts of sport and gaiety were crowded to with a gusto. Of course there was a large attendance at the time-honored Metairie. The bad weather of the previous week had left the track in wretched condition, however, and there was little expectation of brilliant racing in the sweepstakes announced for the day.

In the first race a sweepstakes for two year olds, at mile heats, the contestants were Gen. Wells' *Dentley* and Mr. Wood's *Alf Morgan*. The latter came out victor in two heats; time 1:58½ and 2:00½. In the second race, a sweepstakes for three year olds, two mile heats, the competitors were Gen. Wells' *Starke* and Mr. Kenner's *La Variste*. The latter won in two heats, the time of each heat being 3:59¼.
