MEDICAL AID.

AMONG the many mighty improvements of the age there are none of more importance to mankind, and perhaps none so little appreciated, as improvements and inventions in the practice of medicine; yet we are constrained to admit that we have never met with more convincing proofs of approval than is exhibited by Dr. Gregory, of No. 34 Mott street. He has recently made some valuable discoveries in the treatment of disease which is not only being appreciated, but he is winning golden opinions from his patients. It is argued by some that all discoveries in the healing art should be made known to the public for the benefit of mankind; but we would ask why should a physician more than any one else, bestow the result of his labors upon a community or a public, from whom he has never received a corresponding benefit; nevertheless, we are informed the Doctor has published a little book detailing his improved mode of practice, and placed it within the reach of all who choose to ask for it—the price is 50 cents. It may be had of the Doctor, at his private residence, (not a drug store) 34 Mott street, at all hours of day or night, and also at the following drug stores:—Sands' two stores in Fulton street and corner Broadway and Chambers street; also in the Bowery at No. 83, corner of Walker street, and 188 corner of Spring street; 146 Delaney, corner Suffolk st; and 131 Chatham opposite Orange street. COUNTERFEIT. FEMALE MONTHLY PILLS.

OWING to the celebrity, efficacy and invariable success of Madame Restell's Female Monthly Pills in all cases of irregularity, suppression, or stoppage of those functions of nature upon which the health of every female depends, since their introduction into the United States, now about four years, counterfeits and imitations are continually attempted to be palmed off for the genuine. Cheap common pills are purchased at twelve cents a box, put up in different boxes, and called "Female Monthly Pills," with the object of selling, if possible, at one dollar. Females are therefore cautioned against these attempts to impose upon them. It is confident here to state that all Female Monthly Pills are counterfeits, except those sold at Madame Restell's Principal Office, 148 Greenwich st. New York, and No. 7 Essex street, Boston. "THE GREATEST GOOD FOR THE GREATEST NUMBER."

WHOEVER was the author of the above glorious sentiment recorded on a monument of adamant. Yet there are many every day who in their particular calling endeavor to carry out its maxim. A remedy or cure for any distressing complaint is an agent in performing "the greatest good for the greatest number."

PEASE'S COMPOUND EXTRACT OF HOREHOUND CANDY,

is now considered one of the best medicines in the world for eradicating in their preliminary stages all those complaints of the lungs, which silently eating their way, end in

CONSUMPTION!

This terrible disease commences from a small beginning, and like the worm in the tree, is at first too trifling to be felt, but "constant dropping wears away a rock;" time does its work: the worm destroys the tree, and the slight cold, pursuing its fatal and painful way, closes in

DEATH!

Every body should recollect that to be well, is to be cautious about our health. We go out of a cold or raw day and get chilled or wet; we take no precaution at the moment, the very moment, perhaps on which life may turn, but go for a day or two with a bad

COLD.

Even this we neglect, and we think it will pass away; "we have had colds before, and they left us themselves—why not this?" By and by, the cold, instead of leaving, has increased to a

COUGH.

We rest at night most uncomfortably; we wake up with damp cold sweat all over the body and limbs; we begin to feel a little alarmed, and think it is time to take medicine. Yes! it is time; but all this while disease has done its work; it has gone into the

LUNGS!

Neither modern physic nor modern surgery is then of any avail. Life, delicate even in health, so slight is the tenure of existence, depends entirely upon respiration. The lungs, if ulcerated or affected, operate at once upon respiration. The disease increases day by day; we see the patent expiring by inches, and know that he or she is past hope. It may be a parent, a brother, a sister, a beloved wife, or a cherished child!

Life weaves its web; all hope is gone;
We watch life's slow decay;
The fatal moment soon draws on,
To bear the soul away!

Reflect for a moment—at the first symptom of the cold a remedy could have been found. At a trifling expense life would have been saved. A package of

HOREHOUND CANDY,

used in time, would have saved, within the last two years, the lives of THOUSANDS!

The best way to be prepared against colds, is to have constantly by you a package of Candy. When wet or chilled use it; it acts upon the system thoroughly, but gently. While it aids the lungs, it is a mild purgative; the bowels are kept open—this prevents

RHEUMATISM.

Some people have constitutions so strong that a cold does not affect the chest but clogs the stomach and bowels, acting violently upon the system, and closing in

BILIOUS FEVER.

Now, the Candy has as much effect upon the system here as if it operated upon the lungs, perhaps more so; for you may linger with consumption, but a bilious fever is of short duration, either for life or death. Men with broad chests and full habits should therefore be as careful of colds as those with the weakest constitutions.

ASTHMA, WHOOPING COUGH, CRAMP.

In all these complaints, at the outset, be prepared at once to meet them with a remedy. Let that remedy be

RHEUMATISM EFFECTUALLY CURED.—The extraordinary efficacy of THE CHINESE MIXTURE, in effectually curing the most severe cases of this excruciating disease, is unparalleled. It is truly deserving the serious notice of the afflicted, for its application has universally been attended by the most signal success. In testimony of its efficacy, the following is annexed. Others, equally satisfactory, can be examined at the store of MARTIN I. FURST, the proprietor, 179 Bowery, New York, the only place in the city where it can be obtained:—

Having been called upon by Mr. Martin I. Furst to express my opinion in relation to the efficiency of his remedy for Rheumatism, I cheerfully comply, by stating that having used it, I do not hesitate to declare that it is the very best external application for that painful and mysterious disease that has ever come under my notice. I would also state that Mr. Furst's remedy has been used with complete success by persons of my acquaintance, and indeed, in no instance have I known it to fail. JUDGE JAMES B. SHEYS.

THE BRANDRETH PILLS are sold at 241 Broadway, 232 Bowery, 185 Hudson street, and 175 Second street, at 75 cents per box, with directions.

☞ CANKER OF THE MOUTH ☜

Sore mouth from canker, ulcerated or sore throat, pain in the breast bone, are speedily cured by a few doses of BRANDRETH'S PILLS. These unpleasant and painful complaints are all caused by impurities in the blood.

Seven years have nearly elapsed since the Brandreth Pills were first introduced by Dr. Benjamin Brandreth, into the United States, and he is happy to say that they are still in favor with the American public, and that their reputation is still on the increase.

It is scarcely necessary for Dr. Brandreth to assure his friends that he continues his unremitting care and personal attention in the manufacturing department of the Brandreth Pills; or that they are entirely free from Chemical or Mineral preparations, these facts being well known and understood to be so. While Mercury and bleeding and other deleterious remedies are becoming more and more unpopular, the Brandreth Pills are exercising the sphere of their usefulness by the appreciation of a generous public.

BRANDRETH PILLS.
Security to the Patrons of Brandreth's Pills.

NEW LABELS.

☞ The New Labels on a single box of the Genuine Brandreth's Pills, contain 3063 LETTERS!!!

In consequence of the great variety of counterfeit labels of pretended Brandreth's Pills, and which, in many instances, so nearly resembles, in outward appearance, the genuine of the old style as often to deceive even unwary Doctor Brandreth, acting under a sense of duty to the public, has employed these celebrated artists, Messrs. Perkins and Bacon, who have succeeded in producing, at great cost, three new labels, from steel, of extreme difficulty of execution, and of so complicated nature, as to amount to an impossibility of imitation, being considered by judges a master piece in the art of engraving.

The border of the top, and also of the under label, is composed of the most elaborate and choice patterns of lace work. Foreseen the circus of these beautiful labels, the words on which they are printed is previously printed with Red Ink, after a design so exquisite and so minute as to defy competition; the top and the under label each contain the words "BENJAMIN BRANDRETH'S PILLS," written in red ink nearly two hundred times—the top and under label contains, therefore, upwards of five thousand letters.

It is also upon the top, the under, and the side label, two signatures of Dr. Brandreth; one being his regular signature, thus—B. Brandreth; and the other his full signature, thus—Benjamin Brandreth; both being fac-similes of the writing of Dr. Brandreth, to imitate which is forgery!

The Brandreth Pills having these labels upon them, can be relied upon as the true and genuine.

SANDS' REMEDY FOR SALT RHEUM—Salt Rheum, Ringworm, Tetter, Scald Head, Barber's or Jackson Itch, Eczema, Psoriasis Palmaris, and other diseases of the skin, are safely, certainly, and effectually cured by the use of Sand's Remedy, which has now been tested in more than twelve thousand different cases of the above disease without having failed in any where the directions are strictly followed. The unparalleled success of this remedy in curing the diseases of the skin is without equal in the history of medicine. The Compound Syrup of Sarsaparilla is recommended to be used with the remedy, as it tends to throw out from the blood and system generally all the unhealthy humor connected with the disease, and the application of the remedy externally at the same time, entirely eradicates it from the system. The remedy is perfectly harmless in its operations, and may be applied with perfect safety even to the skin of the tenderest infant. Testimonials of its efficacy are daily received, and the following are selected for publication, which, it is thought, will satisfy the mind of every candid person of its extraordinary virtues:—

COVERT'S BALM OF LIFE.—We invite the particular attention of our readers to this most excellent medicine, advertised in this paper. If we may rely on the united testimony of large numbers of the first physicians in this country, then we must admit this mixture to be one of the most valuable articles for the cure of chronic bronchitis ever discovered. And observe, in this respect, how much it differs from the numerous nostrums so much puffed in the papers. Not one of those medicines, whether pills, powders, or syrups, has received the approval of any considerable number of the medical profession. But it is not so with Covert's Balm of Life. It is a remarkable fact that this medicine has been approved by a large number of regular physicians, to whom the receipt has been submitted—a fact that cannot be affirmed of any of the quack medicines which abound at the present day.—[N. DR TAYLOR'S BALSAM OF LIVERWORT.—At the old establishment, 375 Bowery.—The person advertising in Spring street, first under anonymous initials, then as W. W. Taylor, and again as W. W. Thayer, has not now, nor never has had any connection with the establishment at No. 375 Bowery. The late proprietor, R. A. Thayer, had but one brother, named William W. Thayer—he has not been in the houses of his deceased brother for several years. About four years ago he opened a store at 241 Spring street, and advertised Rogers' Balsam of Liverwort, and near two years ago came before the public in support of Burritt & Co in imitating Dr Taylor's Balsam of Liverwort—and again comes forward claiming the proprietorship of said medicine, when it was well known that at the time the proprietor the late R A Thayer first introduced this celebrated medicine, W W Thayer was about fourteen years of age.

GLORIOUS WIG VICTORY.

PHALON, late of Chatham Square, now of 214 Broadway, has again taken the first Premium for the best specimen of

WIGS AND SCALPS.

A CONVINCING proof, if any were wanting, that native ingenuity is appreciated before foreign boasting and humbug, as the opinion of three of the first judges in the profession in New York can testify. The public can now judge from the premiums, viz. the silver medal last year, and the first premium this, awarded by the American Institute, who is or is not the best Wig maker. E. Phalon respectfully invites all judges and wearers to examine his premium improved Gossamer Wig, which, for surpassing elegance, closer resemblance to nature and beauty of mechanical structure, may be regarded as one of the greatest master pieces of art ever produced in the world.

N. B.—This splendid wig weighs little over half an ounce, the lightest ever known.

Manufacturer and proprietor of Phalon's celebrated
