DENTAL NOTICE.—Dr. J. WEST Practical Dentist, No. 112 St. Charles street near Poydras street.

He would call particular attention to his method of constructing ARTIFICIAL TEETH. They are made perfectly natural in form and shape, set with false gums. The natural form and expression of the mouth and face is retained, with a clear and distinct articulation of speech. This is effected by having the inside of the teeth and gum of a natural form, to which the tongue is readily adapted. He would previous that his fitting and so often observed in persons wearing artificial teeth. The Doctor has been practising in this city fifteen years, and the unmeritedness of his success is a satisfaction to those who may honor him with their patronage. All persons desirous of obtaining his services, would do well to call and examine in the evening.

AYER'S AGUE CURE, FOR THE SPEEDY Cure of Fever and Intermittent Fever, or Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole column of diseases originating in biliary derangement, caused by the miasma of miasmatic countries.

No one remedy is longer called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that you may run and read the cure to the ague-stricken.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, and a safe and unadulterated Antidote to the malaria which is the cause of all the baleful disease. This "Ocean" expels the malaria which causes the poisons of Fever and Ague from the system and prevents the development of the disease, if taken in the first approach of its premonitory symptoms. It is not only the most perfect Preventive yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in districts infested with the Fever and Ague, every man, woman and child should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority is claimed for it over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no salivation, or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colics, Paralysis, and derangement in the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is as invaluable for protection in districts where the miasma is not in any quantity.

LEE & LEAVITT'S PATENT CIRCULAR SAW MILL, with Parsons' Rocker Boxes, and Sisson's Patent Eccentric Head Block.

This Mill is fully one third stronger both in iron and wood work, and is much simpler than any other, and has given better satisfaction, than any Circular Mill heretofore in use.

Parsons' Patent consists in suspending the saw so that it can have a lateral vibration, and when thrown out of line will recover itself by the action of the driving belt and the arrangement of the parts by which it is operated; while at the same time the arbour has no lateral play in its bearings, and is made to fit close with the shoulders, to prevent the oil from getting out while in operation—a matter of great importance when the motion is rapid, as in Circular Saw Mills.

Sisson's Patent consists in enabling one man to move the log on the ways with ease and rapidity and accuracy, thereby saving one man's wages, and making better work than Mills with the usual screw head blocks.

Twenty-five of these Mills now in store ready for delivery, with saws from 48 to 72 inches in diameter; also, several Double Mills, with Top Saws, and a full assortment of the "Young America" iron frame Mills. For sale by

IMPORTANT TO PLANTERS.

Messrs. B. S. Fehnestock & Co.:

Gentlemen: Mr. G. W. Tilley, who is a gentleman well known as one of the best planters in this or Western county, and celebrated for the careful management of negroes, highly recommends B. A. Fahnestock's Vermifuge. He called on me a few days since and purchased two dozen, and says that he administered the Vermifuge bought of me last year to an adult negro specimen of a lazy worm, and succeeded in expelling from her several dozen worms some inches in length, and that her health is now good.

Use of these home testimonies is worth a thousand where the parties are not known; and this can be regarded as a reliable evidence with regard to the adaptation of your valuable Vermifuge to our plantations.

I am, truly yours, S. W. FISHER.

Purchasers should look well to the initials on the wrapper, and see that they are buying B. A. Fahnestock's Vermifuge, and no other. jel3 1m&w

STATE OF LOUISIANA,
Parish of Orleans, City of New Orleans.

Be it remembered, that on the 5th December, 1858, before me, the subscriber, a Justice of the Peace in and for the city aforesaid, personally appeared Chas. Briggs, President, and H. P. Janvier, Secretary of the Louisiana Mutual Insurance Company of New Orleans, who being duly sworn, according to law, do depose and say that the above accounts are just, true, and a correct transcript from the books of said Company.

CHARLES BRIGGS, President.
H. P. JANVIER, Secretary.

Sworn to and subscribed before me, this 15th day of March, A. D. 1858.

C. E. BRADFORD,
Second Justice of the Peace for the Parish of Orleans.

The Board of Trustees have resolved to pay an interest of six per cent. on the outstanding certificates of profits, on and after the second Monday in May next, and to redeem, on and after that date, the scrip issued of the year 1854, represented under the provisions of their charter, a cash capital of five hundred thousand dollars; and they have further declared a scrip dividend of FORTY-TWO PER CENT. on the net earned premiums of the year ending February 28, 1858, for which certificates will be issued on and after the first day of June, 1859.

A. CARRIERE, Vice President.
