RED BLOODED WORKERS ARE WITH THE SOLDIERS

With the American soldiers in France, with the British, French and Italian armies, with the Allied forces wherever they are fighting, the Red Triangle of the Y. M. C. A. is there.

Dr. George Louis Meylan, profes-sor of physical education of Colum-bia university, who spent seven months at the French front organiz-ing athletics and physical recreation among the poilus for the Y. M. C. A. tells of an abash game "called on account of shells."

Just as the game was about to start a Hun shell dropped between the teams. Then the players moved to another field and continued the game.

"Early in April the Germans made night raids and their airplanes were active in bombing," says Dr. Meylan. "Two of my organizers were visiting camps eight or ten miles back from the front line trenches. The Germans kept up the bombardment for three days during which time those 'Y' men were dodging shells constantly."

"On the second day they were in a Poyer de Soldat—one of the soldiers' recreational huts provided by the French with 'Y' men in charge—when, within five minutes two shells struck, one a few yards away, the other hitting the hut. The 'Y' men were thrown down by the concus-sion. It seemed a miracle they were not hit, for soldiers were killed and wounded all around them."

"Some 'Y' workers are having hair's breadth escape every day. Eight of our men with the Canadians have been killed. We cannot expect to escape unscathed. The men work from 6 o'clock in the morning until 11 o'clock at night. I know of one occasion where the workers were up at 3 o'clock in the morning serving hot coffee to French soldiers coming in after a three mile wade through mud and rain."

"Many of our workers slept on the ground in zero weather this last winter, with nothing but a blanket be-tween them and the frozen earth, with no shelter but a hut made of green lumber, which warped, let-ting in icy balata. It is a test for real men."

NEW BANK WILL BE OPENED SOON

The First National Bank will open its doors for business within the next ten days or two weeks accord-ing to J. S. Mann, who was here on Thursday. Temporary quarters have been secured in the Dillard building on the Plaza, and as soon as author-ization comes from Washington, the bank will begin business. C. G. Wil-son of the Clark-Wilson Lumber Co., will be president, J. S. Mann, vice-president and A. S. Harrison of St. Helens, cashier.

Recently J. E. Ramsey received a request from the Food Administra-tion in Portland, to make 50-50 bread in other words to use 50 per cent substitutes. He was also requested not to solicit bread business, but to save as much wheat flour as possible. He and the Houlton bakery started out to comply with the government's requests and two days later, several bread wagons from Portland were down soliciting business and selling 25 per cent bread. Mr. Ramsey im-mediately took the matter up with the proper authorities and found out that no order had been made as to the 50 per cent, but it was simply a request, and was given permission to make 25 per cent bread, which he is now doing. For some unknown rea-sons the Portland bread wagons stop-ped coming and soliciting business the day after the food administration was notified of their tactics.
