THISTLES.

—Sally, what time do your folks dine? Soon as you go away—that's mission' orders.

—Kalakaua is doubtless home ere this, and getting mixed up under the cross questioning of Mrs. Kalakaua.

—All the axes and buck-saws found in the ruins of Pompeii are of light make, as if constructed for woman's use. Those old ancients knew their little business.

—It has been cold enough in Kansas to freeze whiskey, and some of the drunkards there have become solid men.

—Forty girls will run after a snob with a gold-headed cane, where one will shy up to a fellow with sound horse sense.

—Michigan men don't feel as though they had eloped if they don't leave a wife and four children in destitute circumstances.

—A Kentucky paper speaks of a man who had a narrow escape from a sun stroke, he having stood only two feet from a man who was struck.

—The song of the Washington youth—I want to be a lobby man and in the lobby stand, with brass upon my forehead and greenbacks in my hand.

—The Boston Post, in noting the fact that a fellow who committed suicide in the New York Tombs could speak six dead languages says, He ought to make a sociable corpse.

—An advertisement for a dry goods clerk reads: Wanted, a young man to be partly out door and partly behind the counter. It doesn't say what part of the young man is to be out door.

—A young lady who went to the city to see what was advertised as a Spectacular Drama, came home greatly disappointed. She says not one of the actors wore spectacles.

—A sad-eyed man applied to the relief association for aid. He said he had lost two dogs within a week, and was afraid his third and last would starve to death if he did not get assistance at once.

—It looks bad to see a dog preceding his master down the street, and calmly turn down the stairs to the first saloon he approaches. It shows there is something wrong, something lacking, a deplorable tendency on the part of the dog.

—A Detroit father purchased a tool chest for his son, a lad of eight, who seemed to have considerable mechanical genius. Up to latest accounts the boy has sawed off but two table legs, six knobs from the bureau, bored seven holes through the doors, and three through the piano case, and by the aid of the glue pot stuck the family supply of napkins firmly to the parlor carpet.

—Darwin still secretly believes in it, but he hates to have a man come up and say, Good morning, Mr. Darwin: how's your grandfather the baboon, and how's the ape, your grandmother.

—Hi! Samuel, has you moved yit? inquired one colored man of another whom he met at market yesterday.—No, I'se still in de old place, was the answer. But I war told dat you war gwine to git out ob de neig'borhood, continued the first. Wall, I did make up my mind to, but you see de family 'cross de street, have left dere wood piles out doors, and I doesn't desire to change.

—A party of men animatedly engaged in discussing politics before a country store attracted the attention of an aged agriculturist. There's is somethin' the matter here, he observed to his wife; and, drawing in his team, he lightly shouted to a consumptive individual on the out-skirts, What's afoot? Twelve inches, was the sardonic reply. The aged agriculturist swore some and drove away.

—A notorious New York prize fighter and disorderly character was on trial the other day for assault and battery. He was convicted; and just before the judge passed the sentence his counsel appealed for mercy, saying that his client, intended to leave New York at once. I know it, said the judge; he is going to leave it for six months, during which time he will reside in the penitentiary.

—A rural swain, visiting Dayton with his doxy, were observed at evening standing near the ticket office at the depot, waiting for their train. It was cold and dreary, and the temperature was touching up the girl's ears and nose with a blending of purple and red. Look here, Josh! she exclaimed, petulantly, I'm tired standing up here, I'm half froze. Let's go to that place (ladies' room); everybody else goes in there! No you don't! said Josh. No sir-ee! I've spent enough money now, and I ain't agoin' to pay to go in there!

—The bishop of Wurzburg asked a sprightly little shepherd boy, What are you doing here, my lad? Tending swine. How much do you get? One florin a week. I also am a shepherd, continued the bishop, but I get much more pay. Then I suppose you have more swine under your care, innocently replied the boy.

—Why is a corn-field not like an army of soldiers?—The first has many kernels to one ear, the other many ears to one colonel.

HAIR VINE.

NATURE'S REMEDY!

This popular Restorative is one of the best preparations in the market for the human scalp. Unlike all other hair preparations it contains no lead, sulphur, sugar lead, nitrate silver, or anything that will injure the health. It causes the hair to grow upon bald heads. Restores the hair to its normal color when caused from premature decay. Stops and prevents the hair from falling out, and stops that unpleasant itching that is the prelude of the hair's decay. Cures dandruff and all diseases of the scalp, and as a Hair Dressing it has no equal. Below we give a few press and individual certificates:

Northampton Courier, October, 1873.—The Hair Vine is the greatest thing in the market.

Gloversville Standard, N. Y., July, 1874.—It pleases all that have used it, and they are many.

Hudson Star, N. Y., 1873, says: The Hair Vine and the treatment of its manufacturer, have caused the hair to grow upon the head of our better half, where it has been off for years, and we are very thankful.

The Vermont Union of April 14, 1873, says:—The Hair Vine is a preparation of superior properties.

Hon. J. P. Buckland, Holyoke, Mass.—Head full of dandruff, tried everything for years.—Cured by the use of two bottles.

L. Blake, Holyoke, Mass.—Head on top bald—hair growing finely; used three bottles—now on the fourth.

D. F. McKenzie, Hair Dresser, Island Pond, writes January 8, 1874: Please send me one dozen bottles more Hair Vine. I sold what you sent me in two weeks, and did some good cures.

Joseph Williams, Hair Dresser, Littleton, N. H., writes in June, 1874: I am doing well with the Hair Vine. They all depend on me for it. I have put it on to one man whose head is entirely bald. It has started his hair—only used it a few times. Please send me more by express.

S. B. French, Glover, Vt., writes, February 17, 1874.—I have tried a number of Hair Restoratives to prevent my hair from falling out, but as yet, have found none that will do it. Please send me two bottles Hair Vine. In a very short time he again writes, that H. V. you sent me I like very much. I used one bottle myself, and let one of my friends have the older. It has nearly stopped the hair from coming out. I am in hopes to start new hair. Please send me two bottles more, as I have faith in it.

TRY IT, AND YOU WILL USE NO OTHER.

Ask your druggist and merchant for it, or send $1 to me for trial bottle; $1.50 two bottles.

Address C. W. RICHARDSON, Barre Vt.

George C. Goodwin, Boston, Mass., wholesale agent, for New England.

☞ Beware of imitation. The genuine is put up in light colored wrappers, printed with black and red inks, with cut of female on the wrapper. 236ly

VINEGAR BITTERS.

PURELY VEGETABLE.

FREE FROM ALCOHOL.

DR. J. WALKER'S CALIFORNIA VINEGAR BITTERS are purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as Tonic, relieving Congestion or Inflamation of the Liver and Visceral Organs, in Bilious Diseases.

DR. WALKER'S CALIFORNIA VINEGAR BITTERS act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflamation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

If men will enjoy good health,

let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

Grateful Thousands

proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters

according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers,

which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease

by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus forearmed.

Dyspepsia or Indigestion,

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula or King's Evil,

White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory Chronic Rheumatism,

Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.

Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases,

Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms,

lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints,

in young or old, married or single, at the dawn of womanhood, or the turn of life, the Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood

whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

APPLETON'S

AMERICAN CYCLOPÆDIA

NEW REVISED EDITION.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled

THE AMERICAN CYCLOPÆDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science and their fruitful application to the industrial and useful arts and the conveniences and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view multitudes of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing this present edition for the press it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture and art, as well as the various processes of mechanics and manufactures. Although intended for information rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

This work is sold to subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithograph Maps.

PRICE AND STYLE OF BINDING.

In extra cloth, per vol	$5 00
In library leather per vol	6 00
In half turkey morocco per vol	7 00
In half russia, extra gilt per vol	8 00
In full morocco, antique, gilt edges per vol	10 00
In full russia per vol	10 00

☞ Six volumes now ready. Succeeding volumes, until completion, will be issued once in two months.

*** Specimen pages of the American Cyclopædia, showing type, illustrations, &c., will be sent gratis, on application.

AYER'S HAIR VIGOR,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY and COLOR.

Advancing years, sickness, care disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed.

AYER'S HAIR VIGOR, by long and extensive use, have proven that it stops the falling of the hair immediately; often renews the growth, and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus briskly, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stanchéd; thin hair thickens; and faded or gray hair resumes their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for its soft lustre and "richness of tone it imparts.
