

**INDUSTRIAL REVIEW**

Portland—Fire insurance companies lower rates ten per cent due to low fire loss past 8 years.

Vancouver, Wash.—Oregon district launched 27 ships for July when Handlifer Construction Corporation sent their eighth ship for government account down the ways July 29.

Springfield—Local contractor has ten silos to erect.

Gold Hill—Stamp mill going in north of ore—quartz \$30 00 per ton.

Salem—Black locust trees bringing \$10.00 apiece for ship trunnels. The Dailies asking for bids to pave many streets.

Marshfield—With the boats lately ordered built here there are now 10 big vessels under initial construction or about to be started—size is to be enlarged.

Eugene—Emergency power plants installed. Factories in manufacturing district to use electricity until mill race is repaired.

Toledo—Now that an oil rig is actively drilling or oil at Waldport vegetation is on to try it here as good surface indications have been shown here and at Elk City.

Solo condensery again in operation.

Powers—Chrome ore being brought here by pack horses from surrounding mountains for shipment on railroad.

Gold Beach—Rogue river salmon pack will come up to average this year according to estimate of R. L. Macleay.

Marshfield—Armory here to be built soon, according to advice from Attorney General Brown.

Randon—New York concern will work on a large scale in its effort to get out chrome believed to exist near Randon—preliminary survey completed.

Gresham—Four acres yield over 10000 in seed crop.

St. John—New flour mill to rise here. Ground leased for construction of eight story, concrete building, which will have capacity of 1000 bushels daily.

Astoria will open new elevators to public on August 17. Magnificent modern grain elevators, built at cost of \$393,900, are largest on coast. Holds 1,200,000 bushels. With one of the best fresh water ports in the world Astoria is reaching for share of trade.

Silverton to have hospital.

Enterprise will have new theatre.

Toledo to have another big sawmill.

U. S. Packers Succeed in Brazil  
American packers are establishing branches in the state of Rio Grande do Sul, Brazil. One firm now preparing canned and jerked beef, plans to enlarge its plant, which will then include equipment for chilled and frozen meat, soap, lard and leather.

Stomach and Liver Troubles  
No end of misery and actual suffering is caused by disorders of the stomach and liver, and may be avoided by the use of Chamberlain's Tablets. Give them a trial. They only cost a quarter.

**GIVES HER LIFE IN NOBLE CAUSE**

People Speak Reverently of Miss Betty Stevenson in England

In England they speak reverently of Miss Betty Stevenson, known as "The Happy Warrior." She drove a motor car in France and served in a Y. M. C. A. canteen. She cared for the relatives of the dangerously wounded. On the day she met her death she had been looking after French refugees.

She is buried in the hallowed soil of France. The British general ordered a military funeral and she was paid all the honors accorded an officer in the British army. From France has come the details of her death. It appears that Miss Stevenson with Miss Ruth Rouse and Norman Phillips, after enduring a terrific bombardment concealed in a cellar, were held up on the road by a shell hole. They left the car and when the bombardment started again sought what shelter they could in the ditches by the side of the road. Then a bomb, evidently dropped from an airplane, killed Miss Stevenson and wounded Miss Rouse and Mr. Phillips.

Up to the moment of her death Miss Stevenson behaved with rare courage maintaining a splendid cheerfulness during the successive bombardments. Miss Rouse was severely wounded but will recover. A fragment of the shell passed through Phillip's foot.

**SWAT THAT CANADA THISTLE RIGHT NOW**

Immediate Action Will Pay Farmers Well in Dollars and Cents

O. A. C., Corvallis—Do not allow the Canada thistle to mature seed. The plants have started to bloom in most sections of the state and should be cut. Immediate action will save thousands of dollars to Oregon and will prevent the infestation of thistle free fields.

"Fields overrun with thistles should be lopped—deep enough to turn over the root mat," says H. F. Sheehan, assistant professor of farm crops in the Oregon Agricultural college. After the roots are exposed to the killing action of the sun, the land should be harrowed, preferably with a spring-tooth harrow, care being taken not to infest other places in the field by dragging the roots over unfested places.

"Small areas should be either grubbed out or cut off close to the ground. A concentrated solution of salt applied to the cut portion when the thistle appears in these small patches has been used successfully."

**HEROISM BRINGS STRIKING REWARD**

What would you think and how would you feel if you were invited to dine with the general commanding an important sector on the western front and when you entered all the officers stood at salute until you were seated at the general's right?

Then how would you feel if a French army captain, at the command of the general, took his Croix de Guerre from his own breast and pinned it on your coat?

You'd feel pretty good, eh?

Well, that is what happened to Edwin W. Ely, of New York City, a Y. M. C. A. war work secretary in charge of a Foyer du Soldat, which corresponds to a "Y" hut.

Ely had stuck by his post during the recent drive until the last French soldier left. He carried supplies in a pack and helped to supply regiments with food during the retirement. He aided in rescuing refugees and showed exceptional bravery under fire.

**CHILDREN LEARN AMERICAN SLANG**

French children are picking up English rapidly since American soldiers reached France but they are acquiring slang phrases first, according to Y. M. C. A. War Work secretaries. One day an American major was walking through a village street, when a little girl, not more than four, stepped in front of him, saluted and said in the sweetest childish voice: "Hello, kid!" Everywhere the children wave and say goodbye when they see an American. To them it means, "How do you do?" But the climax was reached when a five-year-old boy that is the pet of the American troops was stopped by the General of the division. The boy listened to the kindly words of the general and said: "Good bye; go chase yourself."

**APPLY POISON SPRAY**

O. A. C., Corvallis—The new generation of the codling moth is due soon and the poison spray application to apples and pears for the control of the worm should be applied throughout western Oregon immediately for best results. The worms are unusually abundant this year and great care should be taken to make this application thorough, points out A. L. Lovett, entomologist in the Oregon Agricultural College.
