TUESDAY MORNING, FEBRUARY 22, 1859.

☞ Wines intended for the managers of the ball to be given by the Benevolent Sons of Louisiana at Odd Fellows' Hall, on Tuesday, 1st March—to-night week—by cards of invitation.

We are requested to give notice that catalogues containing full descriptions of the second sale of the McDonogh estate, which is to take place on Wednesday next, 23d inst., are now ready for delivery, at the office of the auctioneer, Mr. N. Vignie.

THE SCHOOL EXHIBITION TO-DAY.—The great feature of to-day will be the annual exhibition of the First District Schools, and presentation of diplomas to the graduates of the High Schools, to take place at Lyceum Hall, and to begin at 10 o'clock. The display will be a great one, and will draw a great multitude of spectators.

PACIFIC RAILROAD NOTICE.—A proposition of some interest, and one requiring immediate action, is made to the stockholders of this Company. It is desired to know whether they want their money back—in which event they can get it—or would prefer letting it remain, for Mr. Fowlkes to use for their benefit, in his efforts to obtain the road at the forthcoming sale in Marshall, Texas. An immediate decision is requested of all. See the advertised notice in another column.

AMUSEMENTS LAST EVENING.

THE VARIETIES.—A full house assembled to see the first of "Rochester," the long-heralded play, and we looked in to make, for a time, one of the auditory, and with it to be entertained by the abundant humors, and oddities of the drama—which is of the sort, so far as we had an opportunity for remarking its merits and demerits, that will "take" and be sure of a "run." We observed some very excellent acting, but it would be invidious to refer specially to any and neglect what might be equally worthy of notice. With the remark that we never saw a house kept in a state of more continual and hearty merriment, we will leave the Varieties and drop in at

THE ST. CHARLES, as we did last night, and found it about as full as the Varieties, and everybody immeasurably amused by the comedy bill which re-introduced the drama proper to its late neglected boards, under the auspices of star Burton, the inimitable.

AT THE AMPHITHEATRE a very considerable crowd collected to enjoy the grand romantic horse drama "Rookwood, or the Adventures of the daring Highwayman, Dick Turpin," which, we expect, was very thrilling, but which we could not stay to enjoy.

AMUSEMENTS THIS EVENING.

ST. CHARLES THEATRE.—Burton and DeBar in "The Two Drovers," the farce of "The Filibuster," and the farce of "In and out of Place."

PALMYRA'S VARIETIES.—The new comedy of "Rochester," a dance by the Misses Gale, and the farce of "Ladies Beware."

AMPHITHEATRE.—The equestrian drama of "Rookwood," which, owing to its length, will be the only performance.

ORLEANS THEATRE.—Rossini's grand opera of "William Tell."

ORLEANS THEATRE MASKED SOCIETY BALL.—We acknowledge the receipt of tickets to the first of the series of masked society balls to be given at the Orleans theater, and which will be much against our inclination if sought arises to prevent our attendance at what everybody knows will be a delightful affair.

GEORGE HOLLAND'S BENEFIT.—This event is fixed for Friday next. A great bill is in preparation. We bespeak for old George a rouser. The box-book will be open to-morrow.

THE BALL OF THE CONTINENTALS.—The military, mask and fancy dress anniversary ball of the Continental Guards will come off to-night at Odd Fellows' Hall, and it is fair to presume that the festivity, under the direction of a management so competent, will not be a whit behind anything of the kind which ever took place in New Orleans, during this or previous seasons. The uniform of the "stern old Continentals" will have a peculiarly graceful propriety with its wearers, bearing part in a gala occasion commemorative of this illustrious anniversary.

PERSEVERANCE FIRE COMPANY NO. 13.—The monthly meeting of this company is to be held this evening. See the Secretary's call.

I. O. S. M.—Brahmah Lodge No. 1, I. O. S. M., meets this evening at 7 o'clock. See advertised call.

FAIRBANKS' SCALES AND LILLIE'S SAFES.—It is not necessary that we should enlarge upon the excellencies of Fairbanks' famous scales or of Lillie's unrivalled chilled and wrought iron safes, for they are recognised and allowed by the public at large. We merely put pen to paper in such connection to direct attention to the fact that they can now be bought in New Orleans as readily as at the factories, a warehouse having been established by the proprietors at 93 Camp street. We ask attention to advertisements.

RICH JEWELRY AND FANCY GOODS.—Any one wanting to be dazzled can easily be gratified by taking a look over the gems at Mr. E. A. Tyler's, No. 110 Canal street. It is seldom the privilege of any one to see a more brilliant and tempting display of goods in the jewelry, silverware and fancy goods line. The jewelry set with diamonds and other precious stones; the magnificent shell bracelets and neck laces; the exquisite watches and chains for gentlemen, and watches and chronometers for ladies; and the silverware and other fancy goods, are alike the perfection of beauty, many of the articles being of new designs. Everything is offered at the most reasonable rate for its quality, and purchasers will treat themselves by going to Tyler's. See advertisement.

DENTISTRY.—Dr. J. West's many years of professional publicity have established for him an enviable reputation as a practical dentist, and his work in artificial grinders has stood the test of lifetimes almost without injury from use. However, never the less to which they may have been exposed in the months of large extent. His office is still at 112 St. Charles street, and all will be satisfied who unfortunately have occasion for his artistic services. We ask attention to his advertisement.

WINES AND SEGARS.—Fresh invoices of Chateau Margaux Claret, other brands of red wine, Burgundy and Sherry, cordials, prunes, demijohns, etc., have just been received by Messrs. S. D. Grailes & Co., No. 20 Customhouse street; also a large lot of the famous Gessner blankets. See advertisement.

LOVELY BOY FOUND.—Mr. Henry Rooney, of No. 100 Magazine street, [illegible] for his little son Henry, 2½ years old, who [illegible] from home on Sunday. Read the advertisement.

WANTED.—[illegible] See advertisement in another column. [illegible] a man home.

NOTICE.—[illegible] Mr. Thomas Foster, No. 157 Common [illegible] first class Southern negroes, including [illegible] and mechanics of different kinds. See advertisement.

EXTENSIVE SALE.—The particular attention of buyers is called to the sale of [illegible], Parlor clothing, bonnets, hats, [illegible] and shoes, to take place this day at 10 o'clock, at E. Roger & Co.'s auction room, No. 28 Old Levee street. Terms at sale.

THE TWENTY-SECOND OF FEBRUARY.

This twenty-second day of February, one hundred and twenty-seven years ago, a third son was born to Augustus Washington, of Bridges Creek, in the Colony of Virginia. He was christened George; his surname was his inheritance from a noble ancestry, and his title, "The Father of his Country," was gained from its grateful children when he baptized it to liberty in the blood of its tyrants.

He grew to manhood, in his person as nobly illustrating the divine attributes of the human form as in his mental part he did the godlike intellect which is the talent given to humanity to use or abuse, and became the great apostle of the young age of freedom which was just then girding itself for the war on tyranny over all the world. With consummate skill he led on to battle and to victory the armies of the young republic, and, when the glorious consummation of the struggle was attained, he laid down the authority of the military chieftain to grasp and wield, with equal genius and address, the executive powers conferred by the people to whom he had given political existence, whose nation he had reared up to tower on the shores of time the proudest monument of human progress.

He climbed, without endeavor to the end, the loftiest pinnacle of fame; was crowned, without his seeking, with every laurel that gratitude, love and admiration could weave for his brows; and died when there was no higher earthly aim for ambition, which he never felt, to point its aspirations. He approached as nearly to Heaven as the journey of life could bring him, and calmly exchanged this world of his labors for that of his rewards.

This is the anniversary of that man's birth—the natal day of GEORGE WASHINGTON, and, unfashionable as the sentiment is become, we feel patriotic—feel the inspiration of that vigorous old-fashioned "star-spangled banner," "hail Columbia," 76 patriotism, which admitted no argument of qualification, no adulteration of any consideration, but, omnipotent and all-pervading in American hearts, swelled them to proud boasts of their country and of their fellow nativity with its "Father." Americans all should be proud to-day, for their pride is but the incense of honor to the memory of the great departed whose birth is celebrated.

We feel patriotic and raise the old, almost forgotten cry, the battle-shout of conquering freedom, "Hurrah for WASHINGTON!"

A Significant Sign.

The following is copied from the Chicago Press and Tribune—the leading as well as the able freesoil journal of Illinois—of a recent date;

The free State men of St. Joseph, Missouri, held a public meeting lately at Smith's Hall, for the purpose of organizing and taking steps to contest the municipal election with the proslavery men, at the coming city election. They resolved to start a paper, as soon as navigation opens, to advocate their cause, and pledged themselves to give it a hearty and substantial support.

The completion of the Hannibal and St. Joseph Railroad will give the free State men large reinforcements, as a great stream of travel from the Free States will flow over that road to the Territories west of the Missouri river. In a few years St. Joseph will be a Republican city. It is questionable whether a majority of the inhabitants are not at present in favor of making Missouri a free State.

We only submit the above as another indication that the out-posts of the institution of slavery are giving gradually away, and that as soon as they do give away, the citadel itself will be in danger, but not with much hope, as we sorrowfully confess, of arousing those most interested to a proper sense of their real condition.

Missouri will become a free State, in all human probability, within half a decade. The exorbitant and unnatural prices which negroes are now commanding in the more southern States are rapidly draining her, as well as the rest of the border States, of their slave population. It is not likely Maryland will remain a slave State ten years longer; and as for Delaware, she has about as much pecuniary interest in the institution as Vermont.

In the meantime the North has been strengthened by the admission of Minnesota and Oregon, and Kansas and Nebraska will unquestionably come in as freesoil States prior to the Presidential election of 1860. At the same time, owing to the high prices of negroes, the number of slaveholders is continually diminishing, and the institution becoming weaker in the lower slave States—yet let any one propose to interest the whole people in the institution, and thus render it impregnable, and he is at once met with the combined opposition of those who have all to lose and little or nothing to gain! Alas, for the short-sighted selfishness of poor human nature!

List of the numbers of the tickets which drew the principal prizes at the drawing of the Havana Lottery, Feb. 15, 1859:

No. 23,138, the $100,000 prize; 16,567, $50,000; 14,078, $30,000; 20,373, $15,000; 23,423, $10,000; 3,746, 11,328, 18,294, 20,500, 23,091, each $2,000; 10,230, 11,278, 12,562, 11,677, 12,078, 13,672, 16,024, 19,098, 19,262, 20,368, each $1,000.

A DOG FEAT—*Fast Traveling.*—A young gentleman connected with the express office in this city, says the Stillwater (Minn.) Messenger, had occasion to go to Arcola, a few days ago, on business requiring speed, whereupon he harnessed a fine New Foundland dog to a light hand-sled, and made the journey on the ice in twenty-seven minutes. The distance is, seven miles—being an average of one mile in a little less than four minutes. The dog is about four years old, but large and powerful. We would like to see the dog that can excel this feat.

CURIOUS ADVERTISEMENT.—In the "Personal" column of the Philadelphia Ledger appears the following card, signed by George W. Mott:

The advertisement in the Ledger of Saturday, the 12th inst., requesting George W. Mott to call on his wife, as she wished to see him, has evidently been published for the purpose of annoying and libelling me, as I have never been married, and have no wife.

Wonder if George really thinks it libellous to accuse one of having a wife?

HEALTH OF GEN. CASS.—Gen. Cass is said to grow more and more feeble. His family are greatly distressed by his present condition. Happily, he is surrounded by those dearest to him—his daughter, his son-in-law, Mr. Ledyard, and others.

TRAGIC AFFAIR.—One Martin O'Hearn, keeper of a sailor's boarding house, No. 11 Peck Slip, New York, went home drunk on Saturday night the 12th, and attempted to kill his wife Margaret, who with her three children was in bed at the time. The woman jumped out of bed with an infant in her arms and fled to the roof of the house. The would be murderer still following with an unsheathed knife, the mother clasping the babe to her bosom, leaped down to the sidewalk, breaking her leg and otherwise severely wounding herself. Strange to say, the infant was but little hurt. The brute of a husband was arrested, but the woman refusing to make any complaint against him he was discharged.

THE ULLMAN CONCERTS.—The first of these concerts occurs to-morrow night, and the evidences are that the rush will be immense. The programme, which is of a most attractive character, is published this morning, and it will be seen that it affords abundant scope for the display of the powers of the stars. The ticket offices have been changed, and seats may be secured to-day and to-morrow by applications at the music stores of Mr. F. Hartel, 56 Camp, and of Mr. Werlein, 5 Camp street.

OPERATIC.—On Thursday next M. Debrinay, a most deserving member of the operatic corps of the Orleans will have his benefit, when Donizetti's grand opera "La Fille du Regiment" will be performed.

IT IS NOT SINGULAR that Judson's crockery distribution establishment at 97 Camp street should maintain its position as one of the most popular institutions of the city, for at no other does profit form so large a constituent of the pleasure derived. The person who goes in $2 50 at Judson's has first the assurance of an elegant cup and saucer, then the excitement of anticipating a "big lot" from among the many which somebody is bound to win, and lastly, in many cases, the pleasure of drawing out an envelope which encloses the card entitling him to one of aforesaid "big lots"—such as a $100 tea or dinner set. In every event he will get something and the probability is that it will be something valuable. It is certain to be something handsome, for everything to be disposed of at Judson's is handsome, whatever the article be. There are yet a few days more during which this popular distribution will continue "a word to the wise," etc.

☞ The artificial lightning that flashes through the Atlantic Cable, bears less resemblance to the lightning of heaven, than CRISTADORO'S HAIR DYE bears to the natural coloring matter of black and brown hair. Quick as a flash it darkens the grey, red or sandy locks of the head, the lips and the chin to an ebony hue, while it lends a healthy luster to them. It contains no caustic, and ten minutes once in six or eight weeks is all the time required for its application.

Sold everywhere, and applied by all Hair Dressers.

☞ Weed's Patent Sewing Machine.—We have been often asked which is the best Sewing Machine in use, and to satisfy ourselves have spent some time in examining them all, and now give our opinion to our readers for their benefit.

We purchased one of the above named Machines, and have tried it on every kind of work required in a family, and it gives the best satisfaction, doing its work very rapidly, neatly, and stronger than the usual hand work. It is much harder to rip work done on this Machine than that done in the ordinary way. It is neat and tasty, being very nicely finished, and to all appearance simple, beyond the possibility of getting out of repair by ordinary use. It is very strong and durable, and we are well assured one of them will net wear out in years of constant use. It has already saved tailors' and dressmakers' bills enough in our family to pay its cost, and we think it a very profitable investment, to say nothing of its convenience and the hours of needle work that it saves a mother. We most emphatically pronounce this the best Sewing Machine in use, and the greatest labor-saving invention of the day.

Messrs. WHITNEY & LYON, who are the proprietors of these Machines, have a sales-room at 548 Broadway, New York.

☞ If you are sick, the probability is that the root of your suffering is in the stomach. From a weak stomach proceeds Dyspepsia, Ague, Lassitude, Nausea, and a legion of other tormenting diseases. Indigestion produces thin blood, and therefore destroys the strength and vigor of the entire system. To restore the tone of the stomach, and enable it to throw off and dismiss forever all these troublesome and dangerous complaints, nothing is necessary but a persevering use of Dr. J. HOSTETTER'S CELEBRATED STOMACH BITTERS. A trial of their power cannot fail to prove that there is no failure in their sedative effects. We cheerfully recommend them to the public, knowing, as we do, their many excellent qualities.

For sale by Druggists and dealers generally, everywhere.

☞ A new Sewing Machine, superior to all others, has been invented, and is now ready to be introduced to the public by the Grover & Baker Sewing Machine Company. It has been examined by competent judges, and is pronounced to be superior to anything ever invented; in fact, it is the wonder and admiration of every one. Nothing can be more simple, and a child eight years of age can work it with ease. It sews faster than any other machine, and is bound to supersede all others. There is none of the trouble of keeping it in working order that there is in machines of other makers. It does not require the operator to have several pages of printed instructions in order to work it, as is the case with the Wheeler & Wilson machine. There is no leather pad, which is so very troublesome, as in the Wheeler & Wilson machine. It does not require the thread all to be rewound into a complicated little spoolet, as is required by the Singer and Wheeler & Wilson machines, as it sews from the original spools just as they are purchased from the stores. The reputation of the machines formerly made by the Grover & Baker Company, is well-known all over the world. Hundreds of the first families in New Orleans, and throughout the South, bear testimony to the superior qualities of the Grover & Baker machines.

In order to place these useful machines into every family, the manufacturers have introduced a perfect machine, suitable for family sewing, at the low price of Fifty Dollars.

All of the leading patterns of the Grover & Baker machines can be purchased at the Southern depot of the Company, No. 11 Camp street, where purchasers will receive all required information. fe2 2p3m&W

Teeth for Mastication.

COMFORT AND UTILITY vs. GOLD PLATES.

To be tortured for years with gold plates, or to be easy and comfortable with the Vulcanized Base Mastications, is a question easily solved by a trial. They are worn with comparative comfort from the first, because they are hardened on the Plaster Cast; and secondly, the material is more agreeable in the mouth. The only question yet to be settled is as to their durability. Having been used three years without change, it is fair to presume that it will be as durable, all things considered, as gold plate. But when the fact is taken into account that we make a new Base for $50, we submit that, were it necessary, it would be wise to pay that sum annually to secure a really comfortable and useful set of Mastications. Price of full sets $150. Single Mastication for Jaw Teeth $50.

To Parents and Guardians.

It would indeed be well were all parents and guardians fully alive to the responsibility they undertake in the rearing of youth. How many have gone to premature graves for want of early training? As you value your lives look to the young. A Word to Mothers.

The most common disease to which children are subject is worms. In fact it is almost universal. Thousands of promising children die of it without the cause being suspected. The symptoms are so various that a diagnosis is almost impossible. Mothers who would be on the safe side should administer WINER'S CANADIAN VERMIFUGE whenever the slightest indication of the complaint appears. If there are no worms in the system it can do no harm, and if there are it will infallibly annihilate them and effect a radical and permanent cure.

The Follies of Youth.

The unreflecting and the inexperienced have, in more mature years, to regret their indiscretion, and then the wise have to come to the rescue. These reflections lead on to notice one of the best remedies, where Imbecility or Nervous Diseases exist, and one that carries with it the approval of the whole Faculty, viz:

Risley's Buchu.

We can safely recommend this as the surest method of reanimating the debilitated system, and to suffers generally, in order to become restored to health.
