New Orleans Daily Crescent.

WEDNESDAY MORNING, FEBRUARY 23, 1859.

Arrival of the Steamship Quaker City.

The U. S. Mail Steamship Quaker City, Capt. R. W. Shufeldt, arrived at the bar at 6 o'clock, and reached town at 4 o'clock yesterday morning. She brings 200 passengers and the usual mails from California, which latter we refer to the 5th inst. Owing to the adverse opposition line of Mr. Vanderbilt, to leave on the 5th of North next, and the contemplated reduction in the price of passage, the present amount of travel is very limited. The J. L. Stephens took only 300 passengers to Panama, and $1,700,000 in treasure. The transit of the Isthmus continues to improve, and another can now run to La Fuerta, a distance of 35 miles from Suchil. The dry season has fairly set in, and the country is quiet and healthy. Extensive placers of gold have been discovered in the vicinity of Chivela, and considerable excitement exists in consequence. Several old California miners who have visited these washings speak of them in the highest terms of encouragement. The gold is found in fine particles mixed with ferruginous sand, and is very plentiful in the dry carriage; but until the rainy season sets in, the amount which may be extracted will be very small. Other metals have been discovered in the same locality, as iron, lead and silver.

The political intelligence brought by this arrival is of special importance, since the sailing of the Tweedsmuir from Vera Cruz, Gen. Ampudia had pronounced in favor of the constitution of 1857 at Tulamingo. He has 500 men under his command. On the other hand, the liberal troops, under Degollado, have taken possession of San Luis Potosi, and are endeavoring to concentrate the forces, with the view to an attack on the city of Mexico.

Gen. Miramon had assumed the Presidency, although opposed by the Ministry of Zuloaga, and had collected a force, it is said, of 6000 men at Orizaba, to attack Vera Cruz. Great apprehensions are felt for the result, as Juarez, with his ill disciplined and badly armed troops, are not in a condition to contend against such a force. If Vera Cruz should fall, in all probability Oaxaca, Tehuantepec, and even Acapulco, together with other strongholds of the liberal party, would succumb; as our accounts from that portion of the Republic (15th February) give us reason to believe that much dissatisfaction exists. The hopes of the Church party are brightening, and great faith is placed in Miramon, who seems, from his recent success, to become the soldier of Mexico, and to share the military fame of Santa Anna. In the meantime, such is the desire of Juarez to strengthen the defenses of Vera Cruz, that the troops from all the adjacent sea ports have been withdrawn, leaving them entirely unprotected. And it is announced that Gen. Cobos, at the head of 1000 men, was marching in the direction of the eastern provinces, with the view of exacting forced loans from the defenseless towns; as Minatitlan already contains many American residents, and there is much property belonging to the Transit Company concentrated there, it seems an imperative duty of the United States Government to dispatch a vessel of war to the Coatzacoalcos, in order to protect the large interests and preserve intact the integrity and safeness of the transit between the two points.

The following is a list of the passengers by the U. S. M. steamship Quaker City:

J. McLeod Murphy, J. Y. Hargrave, J. Redman Coxe, Major A. R. Rogers and son, U. S. A., Capt. James Simpkins, Capt. Jas. Imbrie, J. Mottheisman, E. Hebert, Mr. Fernandez, Mr. Lessner, Mr. Chandler, Mr. E. Lawrence, F. Mather, A. Edwards, R. L. Carroll, G. W. Chase.

Second Cabin—Mrs. J. J. Newman, S. A. Reid, J. H. Alexander, J. T. Peachey, J. H. Bell, J. T. Jones, Mrs. J. T. Jones and three children, S. Wagenhaim, L. E. Martin, and a large number in the steerage.

Anniversary Events—Feb. 23.

1831—Death of the Scottish poetess, Joanna Baillie, aged 89. She lived in seclusion with her maiden sister.

1848—Death of John Quincy Adams, ex-President of the United States, who died in his seat in the Capitol at Washington.

1847—Great Battle of Buena Vista in Mexico, in which the Americans under Taylor defeated four times their number of Mexicans under Santa Anna.

1836—The Mexicans, several thousand strong, attacked the fortress of Alamo, at San Antonio, garrisoned by a force of only 150 Texans. They were repulsed, but kept up the siege till the 6th of March, when they succeeded in taking the fort. The few survivors of the valorous Texans, including Travis, Crockett and Bowie, were at once massacred, and their bodies burnt within the fort; only a woman and a negro, of the whole garrison, escaping with life. So desperate did the Texans fight, that during the siege the Mexicans lost between 3000 and 4000. It was an affair unequalled in history, as well for the determined bravery shown on one side, as for the merciless barbarity shown on the other.

1831—Gertrude Elizabeth Maria, a famous German singer, celebrated her 83d birthday, on which occasion Goethe complimented her with a poem.

1837—At a dinner of the Edinburg Theatrical Fund, Walter Scott in the chair, that author made himself known for the first time, as the author of the Waverley Novels—the unknown writer, up to that time, having gone by the name of the "Great Unknown."

1825—Execution of Benavides, an outlaw and pirate, who for years had been the scourge and terror of Southern Chili.

1814—The blacks under Cristophe took Fort Saboarin, in St. Domingo.

1806—British frigate Leander fell in with and took the French frigate Ville de Milan and her British prize the Cleopatra, taken a few days before.

1796—Nicholas Stofflet, the celebrated Vendean chief, was shot at Angers. Of 150 actions, 10 of them pitched battles, with the French revolutionists, he was victorious 100 times. He met his death with great bravery.

1792—Death of Joshua Reynolds, the celebrated painter, in London, aged 69.

1780—British ship Resolution, 74 guns, took the French ship La Protbee, 64 guns.

1763—Death of Stanislaus I, King of Poland and Elector of Saxony.

1750—A brilliant aurora borealis and an extraordinarily high tide at the same time astonished the people of Cork.

1747—Death of Magnus Steinbock, an illustrious Swede, who held the reigns of government during the absences of Charles XII.

1719—Death of Bartholomew Ziegenbalg, a celebrated German missionary to India. He published a dictionary of the Malabar language.

1545—Francis de Bourbon, Count Enghien, killed by accident.

1417—Death of Gabriel Condolmers, Pope Eugenius IV.

303—The soldiers of Diocletian destroyed the principal Church of Nicomedia, and consigned the sacred volumes to the flames.

FATAL AFFRAY IN ALABAMA.—We have been informed, says the Talladega Reporter, that a man by the name of Richard Abercrombie, was killed on Saturday last, the 5th inst., at Easterwood's grocery, near the Cane Creek Iron Works, by James M. Meadows. Meadows and others, it seems, had been disputing about some stolen articles, in which dispute Abercrombie took part. Meadows was advised to leave the crowd, and started to do so, but was intercepted by Abercrombie, who drew a rock upon him. Meadows gave back some distance, warning him not to strike. Abercrombie threw down the rock and took from Meadows a stick, with which he struck him once or twice. Almost instantly Meadows threw open his coat, drew a large knife and stabbed him in the breast. He then started to run, followed by Abercrombie some fifty yards; but, the latter being called after by the crowd, attempted to return, staggering from the effects of the wound. He fell and was carried to the nearest house, where he expired in about two hours. The knife entered the right breast, between the nipple and corner of the breast-bone.

THE NEW PRESIDENT OF HAYTI.—Geffrard, the new President of the Republic of Hayti, is a man somewhat advanced in years. His hairs are grey, and he has the appearance of having seen a good deal of life. He is at least 50 years old. He is nearly black but still has some white blood in his veins.

A married lady out West nearly broke her neck a few days since while learning to skate. Since that period there has been an extraordinary demand for skates by married men.

THE FIRST DISTRICT SCHOOL EXHIBITION.

Lyceum Hall yesterday presented the crowded and beautiful aspect which it never fails to present on WASHINGTON'S Birthday—the day so happily selected for the annual exhibition of the schools, and the award of honors to those pupils who may have made themselves masters of all the schools have to impart. The boys and girls, in holiday dress, and wearing the happiest smiles, crowded the main part of the hall, leaving the sides, rear and galleries to be wedged up with the ladies and gentlemen who came to see. It is a large hall, but has never yet seemed half large enough on the 22d of February.

The hall was very handsomely decorated for the occasion. Back of the stage was a large portrait of WASHINGTON; and over this, the heavier drapery of flags and evergreens. The flags reached entirely around the hall, while the evergreens covered one end of it. These, and other ornaments disposed about the hall, we recognized as the decorations used by the Washington Artillery, at their recent ball at Odd Fellows' Hall. They had been loaned to the School Directory for this occasion, in the handsomest manner, by the Artillerists.

The multitude of young people being settled in their places, the audience disposed of as comfortably as possible, and the President and members of the School Board having taken their seats on the stage, the exercises commenced with a song, sweetly given by the High School girls. The order of exercises afterward was as follows—all of the readers and speakers being members of the graduating class:

Address by Master T. R. Duval, on "National and Sectional Prejudices." A good thing, full of strong, sensible ideas, and delivered with fine orational effect.

Composition by Miss Louisa A. Ellis, on the "Discovery of the New World." Very good and prettily read.

Song, "Columbia, the Gem of the Ocean," by the girls.

Composition by Miss H. J. Crowell, on "Chivalry." A pleasant comparison of the old chivalric days to the present matter-of-fact days, and a defence of chivalry as having called forth men's noblest qualities, and afforded material to later poets and novelists for their best efforts.

Composition by Miss Octavia C. Campbell, entitled "Place and Means for all" read for her by Master Rodgers. This was an able production, remarkable for its sense and maturity of thought. It was finely read by master Rodgers.

Song, "Pilgrim Fathers."

Address by Master J. D. Hill, on "Athens." This was capital, both in conception and in oratorical delivery. The ability with which the fall of ancient Athens was pictured, and applied as a warning to modern America, was remarkable for a school-boy, and drew forth much well merited applause from the audience.

Composition by Miss Eliza J. Quirk, on "Heroic Women." An entertaining skimming of history, with a most admirable application. It was read in the most charming manner, and was heartily applauded.

Song, "E Pluribus Unum."

Composition by Miss S. E. Collier, on "Foot Prints of the Creator;" read for her, by Master Binion. This was a well-studied and finely-written effusion, full of excellent expression; and was read with vigor and correctness by the gallant little proxy, Master Binion.

Song, "Come Again."

Address by Master W. A Clark, on the "Birthday of WASHINGTON." This was another masterpiece for a school-boy—perfect in its rhetoric, clear and connected in its ideas, and warm in its feeling, from first to last. As to the oratory, we never had the pleasure of seeing any school-boy better up in that art, and but very few as good. Master Clark acquitted himself capitally, and was applauded as he deserved.

Song, "Sweet Hope."

Delivery of diplomas to the graduates, by Dr. Wm. B. Lindsay, President of the Board of Directors. The Doctor addressed the graduates at some length, complimenting them feelingly upon their arrival at the summit of their school labors, and giving them some good fatherly advice as to their behavior in after life. He then called up the young lady graduates, and presented them with their nobly earned rolls of parchment. The young ladies were the following:

Miss Hester J. Crowell,	Miss Mary E. Stringer,
Miss Louisa A. Ellis,	Miss Bridget S. Gallagher.
Miss Eliza J. Quirk,	Miss Lucy Campbell,
Miss Octavia C. Campbell,	Miss Mina Levy,
Miss Sarah E. Collier,	Miss Helen R. O'Grady,
Miss Sigismundo A. Massie,	Miss Lucy W. Brotheed,
Miss Charlotte J. Sullendick,	Miss Jane I. Wallace,
Miss Caroline M. Lord,	Miss Julia A. Blakesley,
Miss Augusta A. Roelofsmet,	Miss Christina A. Hetton,
Miss Frances S. Herby,	Miss Elizabeth A. Rogers,
Miss Annie E. Taylor,	Miss Jane D. Nortonnil,
Miss Mary McGloin,	Miss Maria A. Gutman.

The young gentlemen graduates were next called up and presented with their diplomas, as follows:

Frank J. Duval,	J. Walker Hopkins,
James D. Hill,	Wm. A. Clark,
Thomas R. Duval,	Alex. H. Clark,
Walter C. Cook.	

Mr. Lusher accounted for the small number of the boy graduates by stating that a number of the graduating class had been taken away from school and put out at business.

The delivery of the diplomas, to both girls and boys, was an interesting scene; each presentation drawing forth a round of applause from the spectators and the boys who staid behind.

A valedictory address to the Girls' High School was afterward read, by Miss S. A. Massie, of the graduates. It was elegant and full of feeling, and was feelingly read.

The valedictory of the Boys' High School was recited by Master J. W. Hopkins; and nobly did he acquit himself. A finer valedictory, we are quite sure, has never been composed in our Public Schools, or one more handsomely delivered.

A parting song by the girls concluded the celebration, and then a dismissal took place. The ladies and gentlemen present appeared to be more than compensated by their attendance; whilst pupils, teachers, directors, all, went away with faces bearing evidence of the full gratification they had enjoyed on the happy occasion.

PRENTICIANA.—Some of the smaller organs of the Democracy are fond of calling us "the half-witty editor." That's better than to be like them—half-witted. When they call us "half-witty," they forget to add that we are t'other half-wise.

An old Dutch proverb says, "stealing never makes a man rich." The simple old Dutchman who got up that proverb knew little of the exploits of office-holders in the United States.

An organ of Mr. Buchanan says that a statue of him is about to be made in Italy of marble. It will not be half so much like him as if made of brass.

The editor of the Pennsylvania Democrat complains of the material of the sausages made in his town. They are no doubt good enough for him. "Dog eat dog."

The fact that the name of Franklin Pierce is suggested as a probable nominee of the Charleston convention is the most severe comment on Buchanan's Administration that could be imagined.

The New York Express seems to think Bill English the most uniformed man in Congress. He certainly is not a well-posted Bill.

A Kentucky editor, being charged with having "appeared in a certain capacity," denies it. He certainly might, with at least equal truth, deny that any certain capacity ever appeared in him.

PROFANE PHILANTHROPY.—A solicitor of funds in aid of one of our benevolent societies called upon a well-known merchant prince of our city, and presenting a copy of his report, requested a donation. The merchant, turning to his cashier, remarked, "Mr. ——, this appears to be a d—d good thing; draw a check for fifty dollars for the gentleman." The recipient of the charity thanked the donor, but suggested that he "would prefer the money without the d—n!" [N. Y. Post.

A HORSE ANECDOTE.—A Canadian friend of ours was telling us, the other day, how he managed to break a favorite horse of his of one trick, that of breaking his halter whenever he was fastened in the stable. Our friend placed the animal in question in a stable that stood exactly on the edge of a high bluff some thirty feet above the St. Lawrence. As usual, as soon as he was left alone, our pony broke his halter, backed out of the stable door, and, as a necessary consequence, tumbled heels over head into the river, disappearing below the surface with the impetus and gravitation of his fall. He was next seen swimming for dear life, and heading in shore. He landed in a dripping condition, and was easily secured. Doubtless he pondered gravely over the lesson, for ever afterward he never made the slightest attempt to break his halter. The philosophy of dealing with horses, and perhaps with nobler animals, is to fight them with their own weapons, to let them be punished by their own vices.

"We won't indulge in such horrid anticipations," as the hen-pecked husband said, when the parson told him he would be joined to his wife in another world, never more to be separated from her. "Parson, I hope you will not mention the unpleasant circumstance again," said he.

J. WRIGHT & CO.

DR. WRIGHT'S CELEBRATED REJUVENATING ELIXIR,

Prepared on the strictest Pharmaceutical Principles, by one of the Ablest Chemists of the Age.

NO MINERALS.

Dr. Wright thinks it well to stake his professional character on the fact that no minerals whatever from the least component part of the ingredients in his REJUVENATING ELIXIR—well knowing what ruin has been entailed on the community by opium and mercury.

Generally, to the debilitated, Dr. Wright would say, never despair. No matter how worn down you may be—no matter how weak you are—no matter what the cause may have been—forsake at once whatever has led you to depart from Hygienic principles; take his

REJUVENATING ELIXIR,

and you will soon find yourself a new man, a pride instead of the reverse, to your friends, and a healthy, sound and worthy member of the whole human family.

For sale by the Proprietors,

J. WRIGHT & CO.,
21 and 151 Chartres street, New Orleans, La.,
Sole Proprietors,
And by Druggists generally throughout the United States.

HELMBOLD'S EXTRACT BUCHU.

JOY TO THE AFFLICTED.

It cures Nervous and Debilitated Sufferers, and removes all the symptoms, among which will be found—

Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite, with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruption on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility; Restlessness, with Horror of Society. Nothing is more desirable to such Patients than Solitude, and nothing they more Dread for fear of themselves, no Repose of Manner, no Earnestness, no Speculation, but a Hurried Transition from one question to another.

These symptoms, if allowed to go on—which this medicine invariably removes—soon follows LOSS OF POWER, PATUITY and EPILEPTIC FITS—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—INSANITY AND CONSUMPTION? The records of the INSANE ASYLUMS, and the melancholy deaths by CONSUMPTION, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither mirth nor grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan despair
Low sullen sounds his grief beguiled."

Debility is most terrible, and has brought thousands upon thousands to untimely graves, thus blasting the ambition of many noble youths. It can be cured by the use of this

INFALLIBLE REMEDY.

WINER'S CANADIAN VERMIFUGE.

IMPORTANT MEDICAL INFORMATION.

The late Dr. Chapman of Philadelphia has laid it down as a rule, that "worms may be suspected in a child where there is emaciation, and especially weakness of the bowels, accompanied by a discharge of slime and mucus," and all medical authorities agree that to work a thorough cure, the stomach and bowels must be invigorated as well as the worms themselves discharged." *Winer's Canadian Vermifuge* fulfils both these conditions. It not only extirpates the vermiculus, but strengthens the digestion, increases the solvent power of the gastric juice, and imparts a healthy action to the bowels. Hence its cures are complete and permanent.

THE IDEA OF THE LIVING BODY

Being the receptacle of greedy worms, is sickening; and yet six out of every ten children are more or less afflicted with them. Why should this be the case when there are volumes of testimony to prove that a few doses of Winer's Canadian Vermifuge will eradicate the disease? Parents make a note of this established fact, and remember that the medicine is free from all deleterious substances.

PAINLESS IN ITS OPERATION.

Certain in its results; free from all mineral substances, and invigorating to the system; these are the merits of WINER'S CANADIAN VERMIFUGE, a preparation which eradicates every class of internal worms, with a degree of dispatch that is as agreeable as it is astonishing.

For sale in New Orleans wholesale and retail by

DALLEY'S MAGICAL PAIN EXTRACTOR.

THERE IS NOTHING LIKE IT.

How much pain and suffering—nay, even life itself—may be saved, by having a supply of "Dalley's Magical Pain Extractor" on hand, in case of sudden accidents. In cuts, wounds, burns, scalds, sprains and bruises—casualties to which children are constantly subject—the action of the Pain Extractor is ever the same. Families should never be without it. Full directions accompany each box. The genuine is always signed HENRY DALLEY, manufacturer, upon a steel engraved label.

DALLEY'S MAGICAL PAIN EXTRACTOR

Has now been in use over thirty years; there is hardly a person but what has heard of it, and not a family that has used once, that could be induced to be without a box on hand in case of sudden accident. Where once used it is sure to become a standard remedy, because it has no equal in curing burns, scalds, cuts, wounds and bruises, fever sores, piles, and all other inflammatory and cutaneous diseases, where the parts affected can be reached.

A WORD TO FAMILIES.

When you look around your houses, and you think there is nothing wanting, your children all playful and smiling, and everything foretokens comfort and happiness, sudden's one of the dear young ones falls, and a deep cut is the result of the accident. You now look everywhere for relief and you can't find it—why? Because you have neglected to have on hand a box of "Dalley's Magical Pain Extractor"—this is the whole trouble. Remember and always have it on hand. Instant relief will be at hand.

DALLEY'S MAGICAL PAIN EXTRACTOR

Will subdue the pain and inflammation from the severest burns or scalds, in from one to twenty minutes, heal the wounds without scar, and effectually cure fever sores, piles, salt rheum, inflammatory rheumatism, sore and inflamed eyes, cuts, wounds, bruises, old sores, scald head, corns and bunions, sprains, swellings, felons, chilblains, bites of insects, sore nipples or swelled or broken breasts, and all other inflammatory and cutaneous diseases, where the parts affected can be reached.

FEVER AND AGUE.

OSGOOD'S CHOLAGOGUE.

This is the only sure and certain remedy for this hateful disease. No one need ever again complain of having it, unless they have never taken this celebrated remedy. If once they take

OSGOOD'S CHOLAGOGUE,

then farewell to Chills and Fever forever.

For sale in New Orleans, wholesale and retail, by

J. WRIGHT & CO.,
21 and 151 Chartres street.

Sole Agents for the South, and to whom all orders should be addressed.

GREAT DISCOVERY.

Ample tests, both by able practitioners and chemical analysis, have demonstrated the great value of Prof. De Grath's beautiful combination, called

ELECTRIC OIL,

for the relief and cure of pain. But the people themselves are rendering their verdict in a manner both unmistakable and satisfactory. More than twenty thousand bottles have been sold in a very short time—a great proportion to those who heard others recommend it, who had tried it. That it's a splendid discovery is everywhere acknowledged, and nothing like it was ever before prepared.

The only genuine ELECTRIC OIL is Prof. DeGrath's, which is to be had at all the respectable Drug sts in this city, and at wholesale and retail, at the proprietor's prices, of the Agent,
