FOR SALE.

$300,000.—TO CAPITALISTS.—FOR SALE OR exchange for other good and paying property, or for Tennessee or Virginia State bonds, the most desirable cotton factory in the United States. It is located in a Southwestern State, (immediately on a line of railroad communicating with the most important Southern cities,) where good labor is abundant, and 33⅓ per cent cheaper than in the Northern States. The raw material is also cheaper, and orders for the manufactured articles, on four months, are always ahead of the supply, at 20 to 25 per cent above New York prices. There are 700 acres of land, a good dwelling, and forty two story frame houses, besides the cotton mill and other necessary buildings on the premises. The factory building is of brick, 185 feet long, four stories high, with wing three stories high. There are in operation 3,200 spindles and 128 looms, all as good as new, and room for more than twice the number of each. The water power is pronounced by judges the best—all things considered—in the Union; always enough in dry, and never too much in rainy seasons.
