THE DAILY CRESCENT

Has a circulation which renders it a desirable medium for advertisers. As a Family Paper it circulates largely, reaching many hundreds of homes at an early hour, and being read before the approach of business hours, consequently articles for family use may be advantageously published in its columns.

THE NEW-WEEKLY CRESCENT

is published every Monday morning at $3 per annum, invariably in advance. Numerous copies are taken in this city, and throughout Louisiana, Mississippi, Arkansas, Alabama, Texas, and other States, it has a circulation, and is an advertiser of making Crescent Newspaper Series. Advertisements inserted for $1 per square.

WEDNESDAY MORNING, APRIL 27, 1859.

Terrible Crevasse Disaster.—*Le Meschacebe*, published in St. Jean Baptiste Parish, deplores lamentably the calamitous spectacle presented by the country in the vicinity of the Bonnet-Carre crevasse, which, it says, has laid waste the plantations of Messrs. Pitot, Duverge and Gonsoulin, thirty-five miles above the city, and is still pouring through in immense volume. The same paper speaks of the danger which menaces the Jackson Railroad, the track of which is but five miles from the river, and the probability which existed at the date of its publication, 23d instant, that the company would have to suspend running operations above Manchac. It estimates the damage done by the crevasse at more than $2,000,000, but says that the floods are working their way over the country, which will probably be overflowed until their course is arrested by the Metairie Ridge near the city. It remonstrates of the inaction of planters who are wholly unmoved but who idly contemplate the approach of a village which is to devastate their properties. It says that only those who have seen the falls of Niagara can form an idea of the force and volume of the watery tornado which bursts through the breach on its errand of destruction—an interesting spectacle notwithstanding the melancholy feelings which it suggests. It expresses the hope that some plan of stopping or confining the sweep of the waters may result from the visit to the scene of Mr. Laf. Caldwell, Engineer of the Second Swamp Land District, who had arrived at the spot.

Great Sale of McDonogh Property.—Mr. N. Vignie, City Auctioneer, will commence the sale today, in the rotunda of the St. Louis Hotel, of those portions of the share of New Orleans in the McDonogh estate described as properties of the Macarty Place, lots on the Bayou road, tracts, squares and lots in the suburbs Marigny, Franklin and Washington, on the Gentilly road and in Milneburg. The sale will commence with the Macarty plantation property and will last three days. The land of the plantation is very high and suitable for residences, and the unimbraced strip within four squares of the plantation, one square of which, adorned with a fine growth of live oak trees, the city has reserved for a public square, thus adding to the eligibility of the remainder. The terms of sale of this portion of the estate, as of all others, are made very easy, and the opportunity of investment is exceedingly advantageous. Advertisements in this paper contain all information as to the property and sale.

Mlle. Charlotte Boyce's Benefit.—On Friday evening Mrs. Charles Boyce, the leading lady of the excellent company of Placide's Varieties, is to have her first and only benefit. She offers a very attractive bill, and one that possesses the quality of novelty, for it includes a two-act comic drama which has never been performed in New Orleans, entitled "Flying Colors; or Crossing the Frontier;" also, that rarely announced comedy by Morton, "A Roland for an Oliver," and the irresistible farce, "Betsy Baker." The Misses A. and H. Gale and Jackson will enliven the interludes with some of the gems of their performance, and thus an uninterrupted feast of entertainment will be kept up the evening through. Bill and beneficiary are either worthy a good house, and the combination must pack it to its extent.

Ten Martyrs Musicales.—Arthur Napoleon performs for the last time but one in this city at his matinee musicale this afternoon, the entertainment commencing at quarter past twelve o'clock. The programme, as may be seen, is choice and voluminous, the great pianist executing various difficult and beautiful pieces of music, and Miss Heywood and Signorina Catrell singing several times each, while Herr Doehler's eloquent violin will not be idle. A delicious feast of music may be enjoyed at Odd Fellows' Hall this afternoon.

On Friday evening, the 29th, Napoleon and his company will give their farewell concert in New Orleans—of which, hereafter.

Operatic Benefit Extraordinary.—To-morrow night M'lle Angele Cordier, the charming and gifted prima donna of comic opera, is to have a grand benefit, when she will sing, for the first time in this city, in her favorite role in the three act opera entitled "Le Pre aux Clercs," supported by M'me Vade and Messrs. Bourgeois, Debrinay and Vila. The third act of Rossini's opera "The Barber of Seville," will also be given, in which M'lle Cordier will introduce the variations of "Carnival of Venice" from the opera, "La Reine Topaze." The universal popularity of the youthful and brilliant beneficiary will be demonstrated by the gathering of to-morrow night.

Orleans Theatre.—Arrangements for the next season at this theater are already made. L. Placide Canonge, Esq., is to be manager. Besides the usual routine of grand and comic opera, drama, and vaudeville, there will be an extra corps for grand and comic ballets. Notice will soon be given of the opening of the subscription list for boxes, stalls, etc. Further particulars are advertised in another column.

Memphis Packet Line.—Publication is made of the Summer arrangement of the regular and reliable line of the New Orleans and Memphis Packet Company, whose boats constitute the first stage of the Southern mail route, North and East, by which travelers are ticketed through to all points in those directions. Mr. J. H. Freligh, under the St. Charles Hotel, is the agent.

Insurance Notice.—Notice is elsewhere published that the Crescent, Louisiana, Merchants', New Orleans, Hope, Home, Sun, Citizens', Union and Star Insurance Companies will close their offices at 4 o'clock each day, from the 1st of May to the 1st of October.

Is there any one so far behind the season that he or she has not tested the profitable character of an investment at Judson's, 97 Camp street? If so, there is no time to be lost, for in a few days he will pack up and depart with his stock of magnificent prizes.

Preserve Jars, Cream Freezers, Water Coolers, Fly Traps, etc.—All of these excellent patent wares, especially desirable in the summer season, are for sale by Messrs. Bowles & Judson, 17 Camp street. To their new stock of glass and tin preserve jars we would direct attention, for they are as good as they are novel, being self-sealing and in every way adapted to their purposes. We refer the housekeeping public to the advertisements of Messrs. Bowles & Judson.

Fine Jewelry at a Discount and at Auction. Mr. Louis Muh, 41 Chartres street, being about to retire from business, will close out his stock peremptorily, selling at a discount until the 30th inst., and thereafter at auction. This sale will afford an unusual opportunity for the acquisition of fine jewelry and choice fancy goods for a comparatively small outlay, and it will doubtless be improved by the many who wish to add to their stock of such elegant property. We refer to Mr. Muh's advertisement.

We would call the attention of purchasers to the large credit sale of boots, shoes and brogans, to be made to day by E. D. Hyde, auctioneer, No. 87 Magazine street; sale commencing at 10 o'clock A. M. We are assured that every sample will be sold without any reserve; and, as they are fresh goods, direct from Boston, buyers can bid with confidence.

Dry Goods at Auction.—We call the attention of the trade to the sale of dry goods, bareges and mantillas, to take place this day at 10 o'clock A. M., at Blache & Lesumont's auction rooms, No. 77 Chartres street. Terms at sale.

DIED:

On Tuesday, the 26th inst., at 10½ o'clock A. M., after ten days' illness, of disease of the heart, RUFUS A. UPTON, Esq., a native of Massachusetts, aged about 38 years, and for the last twenty years a resident of Louisiana.

The friends and acquaintances of the family and the members of the Bar are respectfully invited to attend his funeral at 11 o'clock A. M., from his late residence, corner of Jackson and Chevantannette, Fourth District.

☞ What the New York City folks say of Dr. M'Lane's celebrated Vermifuge, manufactured by Fleming Bros., Pittsburg, Pa: New York, August 25, 1862.

This is to certify that I am well acquainted with a man fifty years of age, for many years a resident of this city, who has been at times extremely ill, but could not tell from what cause, unless it was worms. He told his attending physician his suspicions, but the physician at once ridiculed the idea, and refused to attend him any longer. His son then mentioned Dr. M'Lane's Vermifuge, and asked him if he would take it; his reply was—"I must take something to get relief, or die." They at once procured a bottle of Dr. M'Lane's celebrated Vermifuge, and he took one-half at one dose. The result was, he passed upwards of three quarts of worms, cut up in every form. He got well immediately, and is now enjoying most excellent health; and, like the good Samaritan of old, is endeavoring to relieve his unfortunate neighbors. He makes it his business to hunt up and select all cases similar to his own, that may be given over by regular physicians, and induce them to try Dr. M'Lane's Vermifuge. So far he has induced more than twenty persons to take the Vermifuge, and in every case with the most happy results. He is well satisfied that Dr. M'Lane's Vermifuge, prepared by Fleming Bros., of Pittsburg, is far superior to any other known remedy, and that if more generally known, would not fail to save many valuable lives. For further particulars, inquire of Mr. Hurdle, 124½ Cannon street, New York city.

Purchasers will be careful to ask for Dr. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS., of Pittsburg, Pa. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS. Sold by SCOVIL & MEAD, 111 and 113 Chartres street, New Orleans, Wholesale Agents for the South.

☞ A new Sewing Machine, superior to all others, has been invented, and is now ready to be introduced to the public by the Grover & Baker Sewing Machine Company. It has been examined by competent judges, and is pronounced to be superior to anything ever invented; in fact, it is the wonder and admiration of every one. Nothing can be more simple, and a child eight years of age can work it with ease. It sews faster than any other machine, and is bound to supersede all others. There is none of the trouble of keeping it in working order that there is in machines of other makers. It does not require the operator to have several pages of printed instructions in order to work it, as is the case with the Wheeler & Wilson machine. There is no leather pad, which is so very troublesome, as in the Wheeler & Wilson machine. It does not require the thread all to be rewound into a complicated little spooler, as is required by the Singer and Wheeler & Wilson machines, as it sews from the original spools just as they are purchased from the stores. The reputation of the machines formerly made by the Grover & Baker Company, is well known all over the world. Hundreds of the first families in New Orleans, and throughout the South, bear testimony to the superior qualities of the Grover & Baker machines.

In order to place these useful machines into every family, the manufacturers have introduced a perfect machine, suitable for family sewing, at the low price of Fifty Dollars.

All of the leading patterns of the Grover & Baker machines can be purchased at the Southern depot of the Company, No. 11 Camp street, where purchasers will receive all required information. fe2 2p3m&W

None can know its true value until they have tested it. When all others have failed, these Bitters have restored the sufferers to pristine health. Their popularity is all the Western and Southern parts, should introduce them to all families.

A Card.

On Thursday, the 21st inst., I was sitting forward on the hurricane deck of the steamer Telegram, whereof I am master. I was at the time about sixty feet from the after part of the "Texas," when suddenly my attention was directed to a noise on the after part of the deck. Hastening aft, I saw the steward and one of the cabin boys apparently engaged in a quarrel. As I approached them the boy threw a piece of a barrel head at the the steward. The steward then jumped behind the "Texas," followed by the boy. I followed, and when I next caught sight of them they were both standing, each with a piece of board in their hands, on the steps behind the "Texas." The boy then started off, and as he reached the edge of the skylight turned and threw the piece of board at the steward, who immediately started forward, and overtaking the boy, struck him two or three blows. All this occurred before I was able to reach them. As soon as I came up I ordered them to desist, without the most remote idea that any serious injury had been sustained by either party in the affray. The boy then ran up to me for protection, remarking that the steward ought not to beat him in that manner. I questioned the steward in relation to the cause of the difficulty, and he informed me that the boy had refused either to work or to be paid off when up the river; that he had twice requested him to attend to his work or go to the office and settle. Hearing that the boy was on the upper deck, he had come up to compel him to go below and attend to his duties, when he got possession of the barrel head and endeavored to hold him at bay. After hearing the steward's statement I turned to the boy and told him to get a bucket of water and wash off the blood, not, however, supposing him to be dangerously hurt. The steward then returned to his work below. The boy was shot below and kept the country. Soon after, my attention was directed to some persons carrying him up stairs. I immediately went to the chambermaid and asked her what she had done for the boy. She answered that she had bathed his head and given him some whiskey to drink, and in answer to my query told me that the did not think him seriously hurt. The affray took place about two o'clock in the afternoon, and at one o'clock same night the boy died. About seven o'clock in the evening several passengers came to me and requested that I should confine the steward. Fla ing that the boy was hurt in a more serious manner than I had supposed, I ordered him to go into the social hall and had him watched until we arrived in port, when I sent the mate for an officer and delivered him over to the authorities.

The above is a plain and simple narrative of the facts in the case, so far as I am connected therewith, and I submit them to the public for the purpose of correcting any erroneous impressions which may have been engendered in the public mind from the perusal of the garbled reports of the affair as published in one or two of the city papers.

A man came, sick and weak, one day,
And said no time he could delay;
Misery had stared him in the face,
And death was crowing on space.

That weak, dejected imbecile!
He could not travel half a mile!
Relief is near, we instant said!

You yet will live three many years.

Empoisoned Air.

EPIDEMICS ARE CAUSED BY MORBIFIC POISONS IN THE AIR. In no other way can we account for the population of whole districts being struck down by fevers, bowel complaints, lung and throat complaints, etc., at particular seasons of the year. The effects of the atmospheric poison, whatever disease it may engender, are immediately arrested by RADWAY'S READY RELIEF, which appears to be the specific and natural antidote to every variety of the malarious principle that the system can absorb. For this reason it is imperative on all who wish to be forearmed against fever and ague, bilious, typhoid, yellow and scarlet fevers, cholera morbus, diarrhea, etc., to keep the article constantly on hand, as a single dose at the outset often saves all farther medication.

Radway's Ready Relief has successfully proved its wonderful neutralizing powers, in the most violent and aggravating forms of malarious fevers. It is the only remedy that has successfully cured the black tongue.

And if the medical faculty would consent for once to lay aside a little of its false dignity, and boldly come forward and use Radway's Ready Relief in yellow fever, typhoid, remittent and other malarious fevers, there would be a wonderful saving of human life. Since, then, the regular doctors prefer to let their patients die, rather than to save them by the use of Radway's Remedies, it is the duty of every one to look to their own safety and provide a supply of these Remedies, which will never fail in securing you perpetual health.
