[illegible] Daily Crescent.

[illegible] OF NEW ORLEANS.

WILLIAM H. ADAMS

BY HIXON & ADAMS.

[illegible], No. 19 CAMP STREET.

[illegible] $10.....By the Week, 20 cents.

[illegible] MORNING, APRIL 28, 1859.

[illegible] of advertising favors upon our [illegible] is great that we are compelled to [illegible] matter already in type. The [illegible] should be one-half, at least, larger [illegible] at present.

[illegible] "PLEASURE" PROPRIETY.—Messrs. A. Hutchins, C. Abbe and F. Straube, M. D., composing the "[illegible]" committee, have our acknowledgment [illegible] invitation to partake of the gaieties of [illegible] Course will be the scene on the first [illegible] days of May. Such jolly times will then [illegible], if sending notes of preparation be [illegible].

[illegible] every page of to-day's Crescent.

[illegible] PUBLIC WORKS.—We announce, in [illegible], Mr. Augustin Duplantier, of East Baton [illegible], as a candidate for Commissioner of the Board [illegible] Works, which Board was created by act of [illegible] Legislature for this, the First District. The election will take place on the first Monday of November [illegible] the day on which all State officers are to be [illegible].

[illegible] have known Mr. Duplantier long and well, and [illegible] knowledge leads us to express the earnest hope [illegible] he will be elected, not so much on his own account [illegible], as on account of the people whose [illegible] would be promoted by his election. Skillful, [illegible] and practical, capable, faithful and honest, [illegible] would do all that man could do to keep this [illegible] from overflow, while the large amounts of [illegible] Levee money, which would necessarily [illegible] his hands, would be accounted for to the [illegible], Russian, and not one fraction expended [illegible] experimenting. He is just [illegible] is eminently and particularly [illegible] respect—and we trust will receive [illegible] vote of the people.

[illegible] Wickliffe's notice on first page.

[illegible] CURRENCY.—We understand that His [illegible] Gov. Wickliffe, has appointed our cotemporary of the Courier, Col. John H. [illegible] Commissioner of the Board of Currency, to [illegible] vacancy occasioned by the death of the lamented Jonas McKnight.

[illegible] proceedings of Board of Assistant Aldermen on third page.

[illegible].—A great chance for a profitable investment will be offered this day by auction, through [illegible] Julius Neville & Co. The fine buildings and [illegible] known as the New Orleans Manufacturing Company, for rope, cordage and bagging, are [illegible] to be sold. This property is most eligibly situated in [illegible] flourishing city of Jefferson, with a front of 160 [illegible] on Levee street, or the river, running rearward [illegible] feet. The batture in front is also very valuable. [illegible] the buildings and ground there will be sold [illegible], engines and tools for carrying on the making of rope and cordage on the largest scale. It [illegible] hoped that this manufactory will fall into the [illegible] of some enterprising and capable citizens, devoted to Southern interests, and aware of the importance of relieving our great trade of the shackles [illegible] control of Northern monopolists. With proper [illegible] almost every kind of industrial, mechanical and manufacturing pursuits can be rendered profitable in our city. Materials of every kind [illegible] always accessible. Laborers and artisans can always be obtained at very reasonable rates—much [illegible] than is supposed. There are, at some seasons of [illegible] year, thousands of persons seeking employment [illegible] our city, induced to come here by our mild climate [illegible] the very moderate cost of living and sustenance. [illegible] therefore trust that the New Orleans Manufacturing Company will fall into the hands of persons devoted to the prosperity and welfare of the great South. Further information regarding this property [illegible] be obtained by applying at the office of the auctioneers, previous to the hour of sale.

Board of Aldermen to-morrow.

THE SALE OF McDONOGH PROPERTY.—The great sale of McDonogh property advertised by N. Vignie, Esq. Auctioneer, commenced yesterday and with very gratifying results. The Macarty Place portion of the estate was sold, the aggregate amount for which the various squares were knocked off reaching the very large sum of $80,053, and this, too, with the reservation by the city of two squares and several lots with buildings thereon. We are glad to see suburban properties in such favor, for it is a healthy sign of increase and prosperity when the public thus indicate confidence that the city's growth will ensure a quick and constant appreciation of such estate.

The sale will be continued to-day, when many valuable lots, squares and tracts will be put up, as to which we refer to advertisements in this paper, giving detailed information.

Letter List to-morrow morning.

ARTHUR NAPOLEON'S FAREWELL CONCERT.—This [illegible] is announced for to-morrow night, and is rendered more attractive than it otherwise would [illegible] appearance in New Orleans of two [illegible] of note, Signorina Armeta Garopali [illegible] Bellini, a basso. As this is Na[illegible] farewell, those who have not heard [illegible] must hear him to-night or not [illegible]. He is certainly worth hearing, for he is really an astonishing performer. The advertised programme, it will be observed, is voluminous, and comprises the selections from the masters.

Amusements on fifth page.

SOUTHERN PACIFIC RAILROAD COMPANY.—A meeting of the stockholders of this Company, and of citizens generally, is invited; the meeting to take place at Armory Hall to-morrow evening at half past seven o'clock. The President of the Company, Mr. Fowlkes, [illegible] to state all that transpired during his recent visit to Boston; and the Hon. Josiah Marshall, [illegible] gentleman from Texas, are to address the meeting. Mr. Fowlkes' advertised call is in another column.

Local Intelligence on eighth page.

THE GERMAN "VOLKSFEST"!—We refer the whole public to the advertised programme of the outside proceedings of the Volksfest revelries; as to what is going inside the scene of jollity, why they must go and see, partake and aid. The expense of preparation has been immense and the display to be made will throw every previous event of the kind so far into the shade that they will cease to be remembered after the overpowering exhibition with which this will annihilate them.

[illegible] STOCK OF ST. LOUIS.—Notice is given that books of subscription for one thousand shares of the capital stock of the Southern Bank of St. Louis will be opened at the office of the Citizens' Bank of [illegible], in this city, on Monday next, May 2d, and [illegible] open for thirty days thereafter, unless the [illegible] shall have been sooner subscribed. We [illegible] public attention to the advertisement issued by the commissioners, Messrs. James D. Denegre, John Pemberton, W. S. Pike, Joseph Menard, John L. Martin and Edward J. Gay.

CRESCENT CITY YACHT CLUB.—Notice is given that a called meeting of the Crescent City Yacht Club will be held at their club room, 98 St. Charles street, over the Phœnix House, at half-past seven o'clock to-morrow evening.

COTTON.—The attention of speculators and cotton [illegible] is called to the sale at auction this day, at 12 o'clock, [illegible] Exchange Warehouse, Algiers, of the cargo of ice-ship [illegible] Sir Robert Peel, now at Bienville wharf. This cargo was purchased [illegible] all fine cotton and superior staple.

[illegible] Beauty Restorative, if whitened by time or sickness, becomes instantly dark as night under the operation of CRISTADORO'S HAIR DYE. A few delicate touches to mahogany-hued locks of half-bloom [illegible] eye by its hue into a crown of beauty. WOLFRAM'S RINGLETS, if prematurely frosted by care or sickness, or natural [illegible] to unbecoming color, are changed to a rich, warm brown, or beautiful and life-like black in ten minutes, by this wonderful [illegible].

TALK ON 'CHANGE.

Yesterday opened with talk of crevasses and breaks in the levees. There was one heavy crevasse between midnight of Tuesday and yesterday morning, but it was from the skies, or overhead, overflowing, as usual, in heavy storms of rain, the upper part of the First and the lower part of the Fourth District, preventing many of our commercial and financial citizens from reaching their several places of business as usual. There was nothing lost by the delay, as the Crescent was before them at their domicils, giving the accounts brought by the Galway steamer Circassian, which were of date the 18th inst., from Liverpool. This announcement took the public by surprise, and the intelligence formed a topic of talk during the day. It was early discovered there was a misquotation in Middling Orleans, the figures 7 3-16 being intended for 7 5-16. The stock of cotton in Liverpool on the 16th inst. was 407,000 bales, of which 341,000 bales were American. The stock on the corresponding day last year was 422,000 bales, of which 320,000 bales were American. It will be observed there is an excess of American. The latest political intelligence will be found under our telegraphic head.

In our talk yesterday the types made use of some highly extravagant words, saying in regard to tunnage five hundred thousand tuns instead of two hundred thousand, and making twenty per cent for twenty-five per cent. These figures were intended—that is, 200,000 were calculated for Saturday last and crowded out. Since then there has been many clearances and departures of large vessels, so that the actual quantity of tunnage now in port and due is reduced to one hundred and seventy-five thousand tuns, (175,000) against one hundred and fifty-three thousand tuns (153,000) same time last year. While talking of tunnage and shipping it is not out of place to say there are many fine and first-class ships now in port, with fine cabins fitted up with great care, and many at great cost, which offer to the traveling community every comfort and all convenience that can be realized on the ocean. We should suppose that parties going to Europe would find much more pleasure in taking passage on board of some of these fine vessels than going to New York or Boston and thence embark on the ocean steamers, crowded and herded together like so many immigrants or migrators. We learn of several citizens intending to avail themselves of the direct facilities. We have only to add that they will find among the commanders of vessels now in port some of the most intelligent, worthy and gentlemanly commanders that ever walked a vessel's deck. Again we say encourage direct trade, and that is the general talk.

Well, of course we cannot pass on Carondelet street and environs without having some talk on cotton. The stock is rapidly declining, and sales likewise. The price is well maintained. War or no war it will rule the same—the only influence to be felt will be figures. In the meantime some parties are figuring away up to 3,861,000 bales. We do not subscribe to these figures. A correspondent sends us the following estimates, but they are too strong for us to countenance. In alluding to the quantity to be received at the ports between this and the 31st August next—eighteen weeks—he says:

Let New Orleans receive	300	bales	per week	.....	51,600
" Texas	400	"	"	.....	72,000
" Mobile	150	"	"	.....	27,000
" Florida	100	"	"	.....	18,000
" Atlantic ports	260	"	"	.....	43,200
For week, bales	11,910			Total	214,200

And these receipts will give a crop for 1858 of 3,850,000. If it should turn out so, so much the better for the country. The Mobile receipts since Saturday are, so far, 6000 bales to figure on Wednesday next—so that a few weeks will enable her to furnish her quota of the estimates we made in October last.

The further talk was of the assurances of letter writers from New York to Liverpool—that the full extent of crop would not exceed 3,500,000 to 3,550,000 bales, which fostered and encouraged speculation in Liverpool. Some allusions are made to the same authorities that, in 1851, with estimates of two millions of bales, caused the wide-spread disaster of that memorable year in the cotton trade. We shall indulge ourselves after a while with some little concert, perhaps, and remind the traders and operators how they smiled and almost derided our talk when, in October last, we estimated the crop at 3,700,000 bales and in December at 3,750,000. Possibly our talk will be heeded hereafter.

The Northern mail via Mobile failed yesterday, from some point. The mail via Jackson came through with dates as late as due.

There was a report of a break in the levee at Mr. Holliday's estate, 16 miles above the city, same side, but it only turned out a slight rippling through some outlet.

What the New York City folks say of Dr. M'Lane's celebrated Vermifuge, manufactured by Fleming Bros., Pittsburg, Pa:

NEW YORK, August 20, 1852.

This is to certify that I am well acquainted with a man fifty years of age, for many years a resident of this city, who has been at times extremely ill, but could not tell from what cause, unless it was worms. He told his attending physician his suspicions, but the physician at once ridiculed the idea, and refused to attend him any longer. His son then mentioned Dr. M'Lane's Vermifuge, and asked him if he would take it; his reply was—"I must take something to get relief, or die."

They at once procured a bottle of Dr. M'Lane's celebrated Vermifuge, and he took one-half at one dose. The result was, he passed upwards of three quarts of worms, cut up in every form. He got well immediately, and is now enjoying most excellent health; and, like the good Samaritan of old, is endeavoring to relieve his unfortunate neighbors. He makes it his business to hunt up and select all cases similar to his own, that may be given over by regular physicians, and induces them to try Dr. M'Lane's Vermifuge. So far he has induced more than twenty persons to take the Vermifuge, and in every case with the most happy results. He is well satisfied that Dr. M'Lane's Vermifuge, prepared by Fleming Bros., of Pittsburg, is far superior to any other known remedy, and that if more generally known, would not fail to save many valuable lives. For further particulars, inquire of Mrs. Hardie, 124½ Cannon street, New York city.

Purchasers will be careful to ask for Dr. M'LANE'S CELEBRATED VERMIFUGE, manufactured by FLEMING BROS., of Pittsburgh, Pa. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS. Sold by SCOVIL & MEAD, 111 and 113 Chartres street, New Orleans, Wholesale Agents for the South.

A new Sewing Machine, superior to all others, has been invented, and is now ready to be introduced to the public by the Grover & Baker Sewing Machine Company. It has been examined by competent judges, and is pronounced to be superior to anything ever invented; in fact, it is the wonder and admiration of every one. Nothing can be more simple, and a child eight years of age can work it with ease. It sews faster than any other machine, and is bound to supersede all others. There is none of the trouble of keeping it in working order that there is in machines of other makers. It does not require the operator to have several pages of printed instructions in order to work it, as is the case with the Wheeler & Wilson machine. There is no leather pad, which is so very troublesome, as in the Wheeler & Wilson machine. It does not require the thread all to be rewound into a complicated little spooler, as is required by the Singer and Wheeler & Wilson machines, as it sews from the original spools just as they are purchased from the stores. The reputation of the machines formerly made by the Grover & Baker Company, is well-known all over the world. Hundreds of the first families in New Orleans, and throughout the South, bear testimony to the superior qualities of the Grover & Baker machines.

In order to place these useful machines into every family, the manufacturers have introduced a perfect machine, suitable for family sewing, at the low price of Fifty Dollars.

All of the leading patterns of the Grover & Baker machines can be purchased at the Southern depot of the Company, No. 11 Camp street, where purchasers will receive all required information.

Persons afflicted with the Fever and Ague, should not spare either time, trouble or expense, to procure Dr. Hostetter's Celebrated Bitters, whose beneficent effects upon the human system has been clearly proved to those who have been stricken down in a short space of time by this dreadful curse, whose cheeks are wan and meager, and whose eyes are dim and sunken, with death staring them in the face, this compound must prove a blessing; snatching them, as it were, from the very mouth of the grave. None can know its true value until they have tested it. When all others have failed, these Bitters have restored the sufferers to pristine health. Their popularity in all the Western and Southern parts, should introduce them to all families.

Sold in New Orleans, wholesale and retail, by J. WRIGHT & CO., 21 and 151 Chartres street, sole agents for the Southern States, and to whom all orders should be addressed, and by druggists everywhere. a25 2p6tAW

Empoisoned Air.

EPIDEMICS ARE CAUSED BY MORBIFIC POISONS IN THE AIR. In no other way can we account for the population of whole districts being struck down by fevers, bowel complaints, lung and throat complaints, etc., at particular seasons of the year. The effects of the atmospheric poison, whatever disease it may engender, are immediately arrested by RADWAY'S READY RELIEF, which appears to be the specific and natural antidote to every variety of the malarious principle that the system can absorb. For this reason it is imperative on all who wish to be forewarned against fever and ague, bilious, typhoid, yellow and scarlet fevers, cholera, cholera morbus, diarrhea, etc., to keep the article constantly on hand, as a single dose at the outset often saves all further medication.

Radway's Ready Relief has successfully proved its wonderful neutralizing powers, in the most violent and aggravating forms of malarious fevers. It is the only remedy that has successfully cured the black tongue.

And if the medical faculty would consent for once to lay aside a little of its false dignity, and boldly come forward and use Radway's Ready Relief in yellow fever, typhoid, remittent and other malarious fevers, there would be a wonderful saving of human life. Since, then, the regular doctors prefer to let their patients die, rather than to save them by the use of Radway's Remedies, it is the duty of every one to look to their own safety and provide a supply of these Remedies, which will never fail in securing you perpetual health.

A Card.

We would call the attention of the public to the fact, as per card below of the Hon. James Beggs, Foreman of Fire Company No. 20, that the "Wood House," covered with our Roofing, remained uninjured by the flames in the fire of the 29th ult., while the adjoining roof and the awning of the Wood House itself both took fire from excessive heat.

SOUTHERN FIRE-PROOF ROOFING COMPANY,
57 St. Charles street, N. O.

The undersigned, Foreman of Fire Company No. 20, being called upon, takes pleasure in stating that on the occasion of the fire at the corner of Gravier and Tchoupitoulas streets, on the morning of the 29th ult., the roof of the Wood House withstood the flames, and that the adjoining premises, similarly situated, took fire and required the utmost exertions of the firemen to save the property. He gives this as his humble testimony in favor of the Southern Fire-Proof Roofing Company, knowing that the roof which took fire was not fit to stand the test of what is claimed for it.
