## ASTROLOGY.

A. B. MAURICE, THE GREAT AND REAL SCIENtific Astrologer of America.—What is astrology? It is the practical part of astronomy. It teaches the nature of the various planets, the influence they exert upon our earth in their passage through the successive signs of the zodiac, and the effects upon the characters and fortunes of mankind, according to their positions. And the Professor has a knowledge of the longitudinal places of the planets for particular times and seasons, a table for the latitudes where certain circumstances occur, &c. The advice of this great astrologer, A. B. MAURICE, is based wholly on scientific principles, and it was never known to fail. The hand of fate has marked out the path of each individual, and the planets are hourly pointing out the destiny of mankind. Professor Maurice has a profound knowledge of the rules of the science of the stars, and can beat the world in the above science in regard to telling all that relates to the happiness or misery of one's whole life, and with several secrets that no living mortal ever knew before, he will bring success out of almost any undertaking. In causing speedy marriages he never fails. He describes the intended husband or wife, tells the very day you will marry and shows a likeness representing the true complexion of the intended. He describes your friends, points out your enemies, and warns you of all future danger; good luck in obtaining situations or in travelling by sea or land, and the best of health long life and prosperity to all who consult him. Those at a distance may send their age and $1, and address A. B. Maurice, box 5,503 New York Post office, and get in return the outlines of your whole life. All hours until 7 in the evening.
