DEATH OF AN OLD RESIDENT.—Another of our old and respected citizens has been called hence. Mr. Louis Le Sassier departed this life yesterday morning, after an illness of some duration, aged 64 years. Mr. Le Sassier was born in New Jersey, and arrived in this city in the year 1809. He was closely identified and connected with the commercial history of our city as far back as the year 1817, when he entered the extensive house of McNeill, Fisk & Rutherford, which was succeeded in 1821 by the late Alverez and Stephen Fisk, and Mr. Le Sassier, who was the managing partner under the firm of A. & S. Fisk & Co. The house of Fisk & Co. was known throughout the Mississippi valley. Meeting with reverses, it was involved, liquidating honorably every demand. Mr. Le Sassier afterwards became connected with the influential house of Currell, Le Sassier & Co., followed by Currell, Kilshaw & Co. After many years of active commercial pursuits, he withdrew from business, locating in the parish of St. Tammany, connecting by marriage with one of the old and ancient families of our State.

For several years past he has been engaged with the Merchants' Insurance Company as Secretary, in which capacity he was when he died—actually dying in harness after nearly half a century's devotion to commercial pursuits. He was a gentleman of fine business talents, social and intelligent, a hard working, self-denying citizen. A family of five sons and four daughters mourn his demise, and a large number of our old residents respect and hold him in remembrance. His remains were taken to Madison, Wis. for interment in the family resting place.

TRIBUTE TO MR. WM. H. BRIGGS.—It will be seen that Mr. Briggs, of the Placide's Varieties, announces his benefit and offers a very attractive bill to entertain the people who may recognize his claims on Friday night. He is deservedly a favorite with the habitues of the Varieties, for he is uniformly agreeable and polished in his personations. In the distribution of characters among the strong company of the establishment, he has scarcely had a chance of showing what he could do in an important part, but in such parts as he has been cast he has not failed in doing them full and acceptable justice. The bill includes the interesting play of "Dombey & Son," dramatized by John Brougham, the comedietta "Faint Heart Never Won Fair Lady," and the farce entitled "Trying it On," with a dance by the Misses Gale and Jackson. All the favorites of the company will appear.

RACE.—A double team race will come off over the Creole Course this afternoon for a silver pitcher and goblet, at mile heats, best three in five, to road wagons. There are three teams entered, two horses each, and the novel character of the race will make the sport unusually lively. The various animals are well known for their good points.

M'LLE BOURGEOIS' FAREWELL BENEFIT occurs tonight, and she should have a crowded house, for during the two seasons past her services have been in constant and very successful requisition as first contralto of grand opera. All allow that she is one of the best artists of the Orleans Company. Maillard's three act opera "Les Dragons de Villars" will be sung by M'lle Bourgeois, M'me Vade and Messieurs Beauce, Bourgeois and Carrier, and the fourth and fifth acts of Halevy's grand opera "Charles VI" by M'lle Bourgeois, M'lle Paola and Messrs. Beauce and Meisler. The bill will afford ample opportunity for the display of the beneficiary's brilliant abilities and the entertainment will be first chop.

BARGAINS IN SHOE LEATHER AND DRY GOODS.—Mr. S. S. Churchill, of the uptown shipping depot, corner of Apollo and Erato streets, advertises great bargains in ladies' shoes—gaiters, slippers and brogans, and in children's shoes—all of which he is selling at remarkably low prices, as may be seen in advertisement. He is also offering a large quantity of colored muslin, of fashionable styles, embroideries and ribbons, at greatly reduced prices. We refer our lady readers to Mr. Churchill's advertisement.

BOOTS, SHOES, BROGANS, HATS AND CLOTHING.—The particular attention of buyers is called to the large sale of boots, shoes, brogans, hats and clothing, to take place this day at 10 o'clock, at the auction room of Messrs. E. Roger & Co., No. 85 Old Levee street. Terms at sale.

SALESMAN WANTED.—A competent salesman in the wholesale and retail fancy goods business is wanted at Guion's establishment, 20 St. Charles street. This is a good chance for somebody.

TO RIVER TRAVELERS.—Publication is made that the steamer Vicksburg will come high as Greenville and Bolivar Landing this trip.

WATCHES, JEWELRY, PLATE, FIRE ARMS, ETC.—We take pleasure in commending to the attention of the reader the various advertisements of Mr. E. A. Tyler, the proprietor of the richly stocked and elegantly appointed jewelry store which is the observed of all observers who pass 110 Canal street. There everything that is rare, costly and beautiful in gems and workmanship may be found, and time-keepers from the best manufacturers in the world, bought on warranties of excellence. Sets of jewelry in every approved style, or made to order, may be secured there, and services or single pieces of plate in any pattern and of pure metal. Portfeuils to the season may be bought at Mr. Tyler's, an improved article of water cooler, which translates to its interior, in the heated time of summer, the hyperborean temperature of the poles. Here may be bought the best improvements in the way of fire arms, among the styles the celebrated volcanic repeating rifles. In brief, at Mr. Tyler's store everything in the way of jewelry and silverware, articles of virtu, and excellent fire arms may be confidently inquired for at Mr. Tyler's, 110 Canal street.

WATCHES, JEWELRY AND FANCY GOODS AT LOW PRICES.—Mr. W. A. Wilson, at the elegantly appointed jewelry store, 88 Canal street, being desirous of retiring down his stock to a manageable standard, is selling off his beautiful and costly goods at a discount, thus affording an excellent and unusual opportunity of investment, to all who would indulge their fancy or supply their needs. Mr. W.'s goods, as everybody knows, are of pure material and thorough workmanship. We refer to advertisement.

HARDWARE, AGRICULTURAL IMPLEMENTS, TOOLS, ETC.—We direct the attention of interior merchants, planters, blacksmiths, mechanics and readers generally, to the advertisements of Messrs. Priestley & Bein, 89 and 91 Camp street. It will be observed that they have for sale everything in the heavy hardware, iron, copper, tin, steel, agricultural implement, pipe, belting and carriage furnishings lines. They afford inducements to purchasers which are not surpassed.

CIGARS AND TOBACCO.—The retail trade who wish to procure the very best brands of Havana cigars, chewing and smoking tobacco, snuff, pipes, and other things in that line, will do well call upon Mr. P. Prats, at the Venus, corner of St. Charles street and Commercial Place. Mr. Prats is now largely engaged in the importing business, and guarantees to sell the best articles imported at the lowest prices. The cigars which Mr. Prats has been out to retail are fair samples of the articles he sells at wholesale, and more than this we need not say. We refer to his advertisements in another part of our paper.

MANIFEST DESTINY SPECULATIONS.

A manifest destiny friend, who fixes his prophetic vision on the star of Anglo-American empire that he fancies he can see gleaming over the Northern chain of Mexican border States—Chihuahua, Coahuila, Nuevo Leon, Tamaulipas, Sonora and Lower California—asserts in the most positive and exuberantly patriotic terms, that within four years they will form a part of this confederation. We will not argue the question pro or con, but will allow that it is very probable that our boundary line stakes will be pulled up and pitched a few degrees farther South within four or fourteen years. We should not like to be more definite in indicating the time. We might be mistaken, and it is disagreeable to be mistaken. When this Government does nip off this slice of debatable territory, we shall become "seized and possessed" of something worth having—aye, worth stealing to have; though, doubtless, we shall come by it in an honest enough way, as the moral laws of nations prescribe: by surrender territory voluntarily and of their own free will—when they can't hold on to it any longer. But we will not digress into the discussion of the abstract question so suggested.

We only design to consider, to count over in advance, what the new slice of Mexico would be worth to us. The average area of each of the States named above, exceeds that of Louisiana—so in getting them we should get a vast amount of land. Several of them dip down within the tropic which marks the border of the torrid zone—so we should get a tropical plantation. They contain exceedingly rich mines of the precious metals—so we should get money for the digging. And last, but most important, they stretch from the Gulf of Mexico to the Pacific ocean—so we should secure the very best route for a Pacific railroad, for though the line would be shorter by a more southerly location, its value would be decreased in a greater ratio than the gain from such circumstance. The route of the Southern Pacific Railroad lays through these States, but it further meditates a passage through Sinaloa, if not Durango, and we must confess that we like the idea of adding these two to the other six which are to be ours—for we must have, within four or fourteen years, the country that the Pacific Railroad of the South runs through. We are guaranteed the privilege of occupying it for that purpose, but there is no tenant right half so strong as that of possession, and Comanches and other red, white and brown outlaws, have a habit of treating Mexican edicts, laws and statutes with small respect. Therefore we must have the privilege of taking care of our railroad in our own way.

As an off-set to the sundry advantages, briefly alluded to above, of such acquisition, Uncle Sam would add to the number of his representative subjects a couple of millions or so of as arrant yellow, brown and copper-colored rascals as can be found on this or any other planet, but who could, in the course of time, be made somewhat useful as a laboring body to be directed by the whites who would pour into this extension of the territory of the South, which would not have much trouble in extending her influence and institution across the Rio Grande. If the South can once get over that rubicon and commence her onward march toward the Isthmus of Darien, the North would be welcome to devour the British Possessions and stretch her outposts to the north pole; she would not reach her goal before we should ours, for if one of the more populous Mexican States could for a few months experience the benefits of American rule it is reasonable to conclude that the sentiment of its neighbors would soon be to seek refuge from their fearful troubles in the same remedy; and would it be proper and becoming—emphatically, would it be "doing the clean thing" by our distressed fellow creatures to stand in the door of the Union and beat them back to their misery when striving to gain the city of refuge? Certainly not, and when they tapped at the portal we should have to admit them one by one until our protecting arms embraced the whole nation of the "greasers." After getting possession of them we might make them somewhat better than no population at all, and certainly could manage them so that they would not be much in the way of their betters. With their country open to the decent people of the world they would soon find their level, and it would be that which would not interfere with the more elevated strata of American and European settlers. Colonization would quickly follow occupation—and should not precede it, as has been illustrated by the disastrous histories of the attempts of our citizens to settle in that country. Robbery and murder are the burden of the chronicle and will continue to be until "manifest destiny" introduces a fairer page.

STILL ANOTHER!—The historical genius of Yankee land is again in labor, and another "History of New England" is announced as partially completed and soon to add one more to the innumerous laudatory treatises and high-strung glorifications entitled "histories," which have gone before, and in which that interesting region and the interesting peoples thereof, from their Plymouth Rock landing down to their latest operation in wooden nutmegs, have been performed and embalmed, drenched and enveloped in all the adjectives of flattery which the language furnishes.

The work in question is one of exceedingly modest dimensions, being only about three times as large as a full history of the whole United States, including the small north-eastern corner to which this alone is devoted. One volume is issued and the work is to be complete in something over two thousand pages only—so that it will be an easier task to travel over the whole country treated than through the vast volume devoted to the treatment. Messrs. Coolidge and Mansfield are the editors who are thus briefly doing up New England, and their production will be something novel in the way of a history, if we may judge from the specimens of "fine writing" that we see quoted, and which would do tolerably well for a stump speaker to spout if not for the grave pages of a historical work—so they are worth something. Here is a "burst of eloquence" inspired by the harmless Connecticut river, which doubtless had no thought of the ideas which it was putting into the heads of the historians, as it rolled calmly along minding its own business:

"The Indian that walked along the margin of this noble river, admiring his stately form reflected on its glassy bosom, has left his hieroglyphics upon the rocks, commemorating the time when the antlered herds were the occupants of the soil, and the eagle, soaring high in the heavens, winged his way over the forest."

The book is extensively advertised and tremendously bepraised.

☞ Map of Pointe Coupee, Iberville and West Baton Rouge.—Messrs. BRADFORD & POWELL have just received a map of the above-named parishes, which they have compiled with the greatest care. It is one of the most complete works of its kind that we ever got up; it embraces also parts of Ascension and St. Martins. Plantations, townships and every sub-division is accurately represented, giving the name of each proprietor, and the quantity of land in each tract; the number of each section and township and the topography is given with great care and truthfulness.

The publishers have spared neither pains or expense to make their map a useful reference and at the same time a handsome ornament. It is compiled from the most reliable sources of information. Copies can be procured at the office of A. J. POWELL, No. 14 Conti street. my18 2pi6t

HALL OF MECHANICS' FIRE CO. No. 6, New Orleans, May 12, 1859.

☞ At a meeting of the above Company, held this day, the following preamble and resolutions were unanimously adopted:

Whereas, It has pleased Divine Providence, in His supreme wisdom and mercy, to remove from our midst our late worthy and esteemed President, BERNARD WHEELEHAN; and, whereas, in losing our President we have sustained a loss, and a vacancy occurs in our Company which few can fill and none surpass in competency and faithfulness. His sole aim was the advancement of this his favorite Company, being nearly the oldest member among us. When first organized, Mr. Wheelehan was a member, shortly afterwards he became foreman, and since that period under his instructions and control, the Company has attained to be one of the first-class companies of our honorable and praiseworthy Department. Be it therefore

Resolved, That we condole with the bereaved widow and orphans for the melancholy loss they have sustained in the departure from them of their protector, but they have the consolation of believing that he has been transferred to a happier and better world. We, his brother firemen, assure his worthy family and personal friends that our loss is only secondary to theirs in consequence of the demise of our worthy and lamented brother. May he rest in peace. Be it further

Resolved, That the Secretary be and he is hereby instructed to publish the foregoing preamble and resolutions in the Crescent, Picayune, Delta and True Delta newspapers for the space of one week, and that a copy of the same be transmitted to the family of the deceased.

A true copy from the minutes.

☞ Fever and Ague is a terrible disease. Of all the ills that flesh is heir to," it is the fatalest in its first manifestations, the most unrelenting in its progress, and the most defiant of medical skill. Fever and ague is more destructive of life than consumption, because it is more easily induced, and therefore more prevalent. It marks its victims for the grave, like an executioner's bond. Day by day the sufferer grows weaker and weaker, and each hour does he fear a strong consciousness of approaching the tomb. We have said that the disease is one of those which has nearly always defied medical science—a few cases once in a while having been cured and reported. We are happy to announce that Dr. J. Hostetter, of Pittsburg, has prepared a compound that has never been known to fail in curing the worst cases of this terrible disease. We recommend Dr. J. Hostetter's Celebrated Bitters to suffering humanity generally, as a sure and speedy specific.

☞ No Family should be without them—We speak of M'Lane's Liver Pills, prepared by Fleming Bros., Pittsburg, Pa., which have become an indispensable family medicine. The frightful symptoms which arise from a diseased liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepatic derangement—and for these Dr. M'Lane's Pills are a sovereign remedy. They have never been known to fail, and they should be kept at all times by families.

DIRECTION—Take two or three going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more. A slight breakfast should invariably follow their use.

The Liver Pills may also be used where purging is simply necessary. As an anti-bilious purgative, they are inferior to none. And in doses of two or three, they give astonishing relief to sick headache; also in slight derangements of the stomach.

Purchasers will be careful to ask for Dr. M'LANE'S CELEBRATED LIVER PILLS, manufactured by FLEMING BROS., of Pittsburg, Pa. All other Vermifuges in comparison are worthless. Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of FLEMING BROS. Sold by SCOVIL & MEAD, 111 and 113 Chartres street, New Orleans, Wholesale Agents for the South.

☞ Impossible—The mild, incorrosive chemical ingredients of which CHISTADORO'S HAIR DYE is composed, render it harmless to the tenderest skin and the weakest and finest hair. The change from the dull, heavy tint of age, to the brilliant dark brown or glossy black of comely youth, is INSTANTANEOUS. No failures, no delay, no imperfect colors, no unpleasant odor; in all cases the result is uniform, immediate and entirely successful.

Sold everywhere, and applied by all Hair Dressers.

Fatal Medical Practice.

A few years ago the regular treatment of Fevers commenced with bleeding, emetics and drenches of Calomel and Jalap. This formula has been somewhat modified of late. But do the doctors admit they were formerly wrong? Not at all. Dr. Potter tells us in the "Transactions of the Medical Society of the State of New York for 1858," that the human constitution has changed, and hence the change of treatment. He predicts, however, that it will change again, and that the profession will return to the "free use of the lancet as in days of yore." Is not this monstrous! The faculty, sooner than admit that they were ever wrong, insist that the laws of nature CHANGE LIKE THE MOON! Meanwhile Radway's Remedies are everywhere controlling Fevers with a degree of promptness that strikes the M. D.'s with amazement. From Fever and Ague up to Yellow Fever, all these scourges are subdued by RADWAY'S RELIEF AND REGULATING PILLS. Not a failure is heard of. The "Incurables" of the faculty get well and smile at the doom pronounced upon them by their medical advisers. Consumption, too, and Scrofula have at length encountered a real specific. RADWAY'S RESOLVENT is startling the whole community with its beneficial effects in these terrible diseases. So with Rheumatism, Neuralgia, Dyspepsia, Gout, Phrenesis; these terrible ailments quickly yield to the potent influence of RADWAY'S READY RELIEF AND REGULATING PILLS.

Extract of a letter from a Medical gentleman at Madras, to his brother at Worcester, under date of May, 1851:

"Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made."
