**SHEEP INDUSTRY ON INCREASE**

Sheep increased 12.6 per cent in the United States from July 1, 1917, to July 1, 1918, according to reports of the bureau of crop estimates of the United States department of agriculture. The estimates of January 1, 1918, show 27 per cent more sheep than for the previous year. In 1917 there was a net increase of 2 per cent over 1916. The production of wool also shows that the sheep industry has gathered impetus during recent years. Estimates for 1918 show 257,921,000 pounds of wool were produced as against 245,573,000 pounds in 1917. This does not include approximately 48,000,000 pounds of pulled wool for each year.

**FEEDING RACKS FOR SHEEP**

Combination hay and grain racks are probably the most convenient for feeding small lots of sheep. The open rack is suitable for use in barns where feeding can be done by passing directly from the feed alley to the rack, thus obviating the difficulties which follow from entering pens filled with sheep. Some shepherds prefer a rack with closed sides instead of slats; such a rack requires that the hay be eaten through an opening at the bottom.

**POULTRY MAXIMS**

It is urged that all farmers and poultrymen adhere strictly to the following principal rules in handling their poultry and eggs:

1. Keep the nests clean; provide one nest for every four hens.
2. Gather the eggs twice daily.
3. Keep the eggs in a cool, dry room or cellar.
4. Market the eggs at least twice a week.
5. Sell, kill or confine all male birds as soon as the hatching season is over, so as to produce infertile eggs. The male bird has no effect on the number of eggs produced.

Parke—Yes, sir. The war will be won in the kitchen. Lane—Good! I've had several wars in my kitchen and never won one yet.—Judge.

Haste not only makes waste, but makes worry and gray hairs.

**RAINIER**

The Review has just received a letter from Private Lawrence Clark who writes from France that he is getting along fine. He also states that his brother, Harold Clark, has received an extra stripe for bravery.

Several citizens met last Tuesday and formed a committee for the community Christmas tree here. Plans are again being worked out to make the event the regular big success that it always has been.

Rainier schools will be closed this evening until after New Year's. Many of the teachers leave for their homes to celebrate the holidays with their people, among whom are the following: Miss Edna Schuff will leave for Stayton; Miss Edna Boughman will go to Hillsboro; Miss Myrtle Groschong to Creswell; Mrs. C. M. Pratt to Stayton; Miss Belle Lythe to Portland; Miss Lillie Leith to Portland and Miss Fay Schoeder to Hillsboro.

The state railroad commission has ordered an investigation of the railroad property here as to its condition where passengers have to get off in the mud and water. It goes without saying that the commission will find plenty of room for the "kick" that has been coming from Rainier. The only thing that Rainier people are in hopes of is that they do not take too long a time in investigation, for to get some good wholesome action in getting conditions bettered here at once.

Rainier Lodge No. 24 A. F. & A. M. held their regular election and installation last Tuesday evening. About forty members and visitors were present and in addition to the election of officers work was put on in the second degree. Following the business of the evening a fine banquet was served in the lodge's splendid banquet hall. The following officers were elected and installed: R. H. Bailey, master; C. R. Halberg, S. W.; Paul Pootsch, J. W.; Robert Tozier, S. D.; Henry Frick, J. D.; F. H. Sherwood, secretary; William McMillan, S. S.; C. A. McNutt, J. S.; Wm. Reid, treasurer and Chas. Darby, tyler.

Coal is \$60 a ton in France. The heating season is cut to three months and hotels are allowed to furnish hot water only two days in the week.
