IT IS NOT TOO MUCH TO SAY, SINCE
OLD AND YOUNG,
Affirm its Truth,
—Viz: That—

PROFESSOR WOOD'S HAIR RESTORATIVE

Will preserve infallibly the growth and color of the hair. It used two or three times a week, to any imaginable age. Perfectly, restores the gray, cover the bald with nature's own ornament, the hair; make it more soft and beautiful than silk; and at the same time keeps free from all disease to the greatest age. Statesmen, Judges, Advocates, Doctors, Clergymen, Professional men and gentlemen and ladies of all classes, answer the above testimony that we do not say too much in its favor. Read the following and judge:

Hickory Grove, St. Charles Co., Mo., Nov. 19, 1857.
C. O. J. Wood—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report.

Our little girl's head for some time had been perfectly covered with sores, and scurf called in scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative; we did so with little hopes of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our hair is as healthy on the scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby, recommend your Restorative, as the best remedy for all diseases of the scalp and hair. We are yours, respectfully,
GEO. W. HIGGINBOTHAM.
SARAH A. HIGGINBOTHAM.

Prof. Wood—Dear Sir: My hair had, for several years, been becoming prematurely gray, accompanied by a baldness which rendered the constant application of oil necessary to dressing it. When I commenced using your Hair Restorative about two months ago it was in that condition; and having continued its use till within the last three weeks, I can truly say that my hair is more glossy and much more easily dressed than it was previous to those produced by the application of oils or any other preparation I have ever used. I can, therefore, recommend this article for every lady's toilet, whether to be used as a Hair Restorative or for the simple purpose of dressing or beautifying the hair. You have permission to use this letter in any manner you deem of its merits, if it shall be found to be of any benefit to the public.
Mrs. C. SYMONDS,
Corner of Chartres and Third street.

WELLINGTON, Mo., Dec. 5, 1857.
Prof. Wood—Dear Sir: By the advice of a friend or relative, I was induced to use your Hair Restorative, and I can say that it has done very, some time last May, and nearly every hair on my head came out. Now my hair has come in a great deal thicker than it ever was. Nothing but truth and sympathy for my fellow-sufferers induces me to make this statement to others who are afflicted as I have been, would induce me to give this public acknowledgement of the benefit I have received from Prof. Wood's Hair Restorative.
A. R. JACOBS.

The Restorative is put up in bottles of three sizes, viz: large, medium and small; the small holds one-half a pint and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, and retails more in proportion, twenty-five per cent. more than the medium, retails for $3 a bottle.

CHEROKEE REMEDY.
ROOTS, BARKS AND LEAVES,
—VERSUS—
NAUSEOUS DRUGS AND POISONOUS MINERALS.

We ask the afflicted of either sex, which do you prefer? A pleasant and delicious syrup, compounded from Nature's own Remedies—the which will speedily and effectually root out and drive from the vile compounds heretofore used, with all their nauseous and debilitating effect, together with the tenfoldness disease must inflict by forcing the use of Mineral Poisons.

The "Cherokee Remedy" is nature's own specific for Gonorrhea, Gleet, Gravel, Stricture, Fluor Albus, Whites, in Females, and all diseases of the Urinary Organs; curing these diseases by natural law, after all other preparations have failed; and is one of Heaven's best mercies of offending man—Science would be prodigal of its effects, which would stanger credulity. The numerous preparations heretofore used have failed, but this has never in one instance been known to fail. Happily for mankind, the provoyance of the world is a Father who afflicts, not to kill, but to cure.

In mercy he has appointed Medicines for these dreadful diseases, which when taken, quickly flies to all parts of the system, attacks the disease at every post, and with a fidelity and courage truly admirable, never gives up the contest until it has completely expelled it from the body, and restores the unfortunate patient to former health and vigor.

This "Remedy" attacks at the very root of the disease; its tendency is not simply to suspend the poison, but to remove the cause on which it depends.

And when enhances its value is the entire absence of all nauseous taste or smell. It can lay in the counting room, or on the toilet table, without ever being suspected as a "Remedy" for secret diseases.

A treatise on Venereal disease, with full directions for their permanent cure accompany each bottle.

Sold by J. WRIGHT & CO., Nos. 211 and 151 Chartres street, New Orleans, and by all respectable Druggists and dealers in medicines.

KATHMAN'S TROPICAL ROOFING—
Cheaper and superior to any other ever used in a Southern climate.
Its tested and recognized qualities are—
1st. DURABILITY—Proved to be best slate roofs.
2d. IMPERMEABILITY—Superior to any other; no cracks or leaks being possible.
3d. BEAUTY—It presents a smooth and granite-like surface.
4th. CHEAPNESS—It costs much less than, though it is as good, any slate or wood roof, and even less than the superior composition roofing heretofore offered to the public, saves the cost of gutters and valleys.
5th. INCOMBUSTIBILITY—It will resist fire better than a slate-roof.
6th. CONVENIENCE—It will not settle under the heat of this climate; and protects the interior of buildings from the intense heat of summer.
7th. SOLIDITY—It becomes harder and smoother from exposure; can be put upon roofs of any slope; and being of light weight, does not require heavy rafters to support it; while it is not liable to corrosion and breaking, nor does it require repairs.
The "TROPICAL ROOFING" is a chemical compound of substances, several of which are peculiar to it alone, combined in proportions discovered by actual experiment and experience in this city.
Testimonials of the correctness of the above are in the hands of the agent, and may be verified by any person wishing it before contracting.
