Miscellaneous.

CONVENT AND ACADEMY OF THE IMMACULATE CONCEPTION,
Opelousas, Louisiana.

THIS Institution will be opened by the Ladies of the "Holy Cross" in the beginning of October, in the Town of Opelousas, for the education of the young Ladies of the Parish and of the neighboring Parishes. The location is most delightful, and offers all the exterior advantages which parents may desire for their children. The system of education will embrace all the branches taught in the best institutions of America or Europe: Reading, Spelling, Grammar, Composition, Rhetoric, Elocution, applied to the French and English languages, to both of which the utmost attention will be paid, and both of which the pupils will most carefully be trained to speak and write with correctness, elegance and fluency,—Writing, Geography, sacred and profane, ancient and modern History, Mythology, Arithmetic, Book-Keeping, the elements of Algebra and Geometry, Natural Philosophy, Natural History, Domestic Economy, Sewing, Embroidery, Artificial flowers, Drawing, Painting, Vocal and Instrumental Music.—This last branch will be taught by a distinguished Artist just arrived from New-Orleans.

Nothing will be omitted to kindle in the pupils a vivid emulation for learning; the greatest attention will also be paid to develop their minds, form their hearts, and elevate their character. They will have nothing to fear from evil examples or evil associations, remaining at all times within the enclosure of the house, and under the eyes of kind teachers who will watch over their morals with maternal affection. They will receive no visits, except from their parents or relations, who will be admitted to see them in the parlor, on Thursdays after the morning classes and on Sundays after the high mass.

The utmost attention will be paid to the health of the pupils, the diet will be wholesome and abundant, the sick will be nursed with maternal vigilance and tenderness.

Religion is the ground work of education. The Institution is Catholic; however, young ladies who may belong to other denominations will be received, on the only condition of conforming to the public exercises of the house.

To enable parents to send their children at an earlier age to school,—a child may profit from the age of seven or eight, and even sooner,—to keep them longer, and send several of them at once, the most moderate prices have been adopted:—For Board and Tuition, $100 per scholastic year of ten months, payable quarterly in advance; Day-scholars will pay $20, $30 or $40, for the scholastic year, according to their age and the classes they will attend. Music on the Piano or the Guitar will be charged $6 per month, $1 per month for the use of the Piano;—$3, per month for vocal music.

Parents will have to supply their children with books and paper, and provide for the washing of their clothes; expenses incurred in sickness will also be charged to them.

Boarders will have to be supplied, at their entrance, with a musquito bar, a sufficient quantity of sheets, blankets, towels, and every day clothes; they must also bring the uniform, consisting for the whole year in a blue dress, with cape of the same color, trimmed with black velvet; two sun bonnets, 1 blue, 1 of brown linen; two veils, 1 blue, 2 yds, 1 white, 2 yds; a spoon, fork, tumbler and knife; also a small bucket, brushes, combs, a pitcher, bowl, and looking-glass;—these three last articles will be for sale in the house, to preserve uniformity in the dressing room.

For further particulars apply to

Sister MARY OF THE HOLY ANGELS,
Superior.

or to Rev. G. RAYMOND,
Rector of the Church of Opelousas.

Opelousas, August 16th, 1856.

I HAVE the honor of informing the public, and parents in particular, that, from the 1st of July next, my Institution will be removed to the property of the late Mr. Jacques Lastrapes; and, that, from that date, I shall be ready to receive the scholars, whom parents will confide to my care. That well-known position, at a short distance from Opelousas and Washington, being unquestionably situated in the most healthy part of the Parish, and not exposed to annual maladies, will assure to parents the health of their children, whose studies will never be interrupted.

So far as regards instruction and education, I shall neglect nothing to merit a continuance of the kind patronage, with which I have been honored here.

Bad weather, alone, will prevent the scholars being accompanied to Divine Service, every Sunday.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

Prof. J. M. LOCKE, Analytical Chemist, of Cincinnati, whose high professional character is endorsed by

JOHN MCLEAN, Judge of the Supreme Court of the United States.

THOS. CORWIN, Secretary of the Treasury.

Hon. J. M. WRIGHT, Governor of Indiana.

N. LONGWORTH, great wine grower of the West.

Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by

HON. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Prop'r of the Metropolitan Hotel, and many others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove, as they have proved, more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar-wrapped, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.
