"CAUGHT ON THE JURY."—The following is too good to be lost, and may be beneficial to some gentleman who has an unsuspecting wife. A certain man, who lived about ten miles from D——, was in the habit of going to town about once a month, and getting on a "spree," and would not return until he had time to "cool off," which took generally two or three days. His wife was ignorant of the cause of his staying out so long, and suffered greatly from anxiety about his welfare. When he would return, of course his confiding wife would inquire what had been the matter with him, and she invariably reply was, "that he was caught on the jury, and could'nt get off."

Having gathered his corn, and placed it in a large heap, he, according to custom, determined to call in his neighbors and have a real corn-shucking frolic. So he gave "Ned," a faithful servant, a jug, and an order to go to town and get a gallon of whiskey—a very necessary article on such occasions. Ned mounted a mule and was soon in town, and equipped with the whiskey, remounted to set out for home, all buoyant with of "fun" at "shucking."—When he had proceeded a few hundred yards from town, he concluded to try the "stuff," and, not satisfied with once, he kept trying until the world turned round so fast that he turned off the mule, and there he went to sleep and the mule to grazing. It was now nearly night, and when Ned awoke it was "just before the break o' day," and so dark that he was unable to make any start toward home until light. As soon as his bewilderment had subsided so that he could get the "points," he started home with an empty jug—the whiskey having run out—and afoot; for the mule had gone on home. Of course he was contemplating the application of a "two year old hickory," or a piece of twisted cowhide, as he went on at the rate of two-forty. Ned reached home about breakfast time, and "fetched up" at the back door with a decidedly guilty countenance.

"What have you been at, you black rascal?" said his master.

Ned, knowing his master's excuse to his wife, when he got on a spree, determined, to tell the truth if he died for it, and said:

"Well, massa, to tell the truth, *I was caught on the Jury, and couldn't get off!*"

A pedlar, calling on an old lady to dispose of some goods, enquired of her if she could tell him of any road on which no pedler had ever traveled. 'Yes,' replied she, 'I know of one, and only one, and that is the road to heaven!'

A Dutchman on being called upon to help pay for a lightning rod on the village church, toward the building of which he had liberally subscribed, exclaimed:

"I have helped to build a house for de Lort, and if he choses to *dunder* on it and knock it down, he mushn do it at his own risk."

A green Vermonter enlisted in the naval service, and upon his first visit to his ship, espying the marine in the gangway pacing backwards and forwards with his musket, he accosted him with—

"Hello, Copting, out-a-shooting *luner* this marning, hey?"

A railroad conductor, who wore a long roomy white linen sack coat, with a standing collar, and buttoned up to the chin, had a dispute with a female passenger. The lady won the victory gloriously by the following brilliant and destructive charge:

"You are a purty fellow, ain't you? You are the fust conductor I have seed agwine about among a passel of decent winmin folks *in his shuttail! Ain't you ashamed* ove yourself?"

He probably was, for he left that car quickly, and unbuttoned the shirt-tail coat.

THE MAMMOTH STEAMSHIP.—The English papers state that a deputation from the Great Eastern Steamship Company had visited Bristol with a view of ascertaining the capacity of that port for accommodating their mammoth vessel, it having been found that Liverpool and Southampton would be unsuited.

The Lewiston Journal gives an account of a sad accident on Thursday last, to a young man, a son of Hon. Theodore Wells Jr., Senator elect from the first district.—Young Wells with other students was swinging on the Seminary grounds, and by some carelessness was thrown a distance of twenty-seven feet to the ground. He struck on his face and stomach, and was picked up senseless. Up to Thursday forenoon his consciousness was not restored.—His recovery is very doubtful.

It has been said that a merchant who does not advertise is like a man who has a lantern, but is too nigardly to buy a candle for it.

The Governor of New Hampshire has appointed Thursday, Nov. 25th, as a day of Thanksgiving.

SLANDER.—Let no one suppose that by acting a good part through life, he will escape slander. There will be those even who hate them for the very qualities that ought to procure esteem. There are some folks in the world who are not willing that others should be better than themselves.

The more a man accomplishes, the more he may. An active tool never grows rusty. You always find those men the most forward to do good, or to improve the times and manners, always busy.

"Pat, are ye ashlape?" D——l the ashlape." "Thin be alther lifting me a quarther." "I'm ashlape, be jabers."

An incorrigible wag, who had lent a minister a horse, which ran away and threw his clerical rider, thought he should have some credit for his aid in 'spreading the gospel.'

EVERY Family now-a-days begins to feel the importance of these machines, but many are at a loss in deciding in the matter of selecting, while others have hastily purchased a cheap, single thread machine, which they find is but poorly suited to answer the end designed. Those who have had opportunities for a comparison of the merits of the different machines in use, readily discover which holds the superiority and value the pains where justice points it due.

Wheeler & Wilson's Machine

every intelligent observer will admit, stands without a rival

Its advantages are

1 Its simplicity and beauty of construction.
2 The excellence and neatness of its stitch—alike on both sides, and its freedom from anything like raveling or cumbrous cord on the underside.
3 Speed—accuracy, and reliability at any rate of speed.
4 Economy of thread.
5 Portability—ease of operation and management.
6 Quietness of movement.
7 Ready adaptation to every species of family sewing, gathering, &c.

This is a pure and simple narration of its qualities, which will appear to every one on acquaintance with the machine. Its design and mechanism is such, as to make its presence an acquisition in any one's parlor.

One of these machines may be seen in operation at the residence of the subscriber, who is authorized to supply any demand for them in this vicinity. JAMES REED.

There is but one Sewing Machine, and that is Wheeler & Wilson's. Accept NONE of the Counterfeits offered in this latitude.

1858. FRESH ARRIVAL. 1858.

PIANO FORTES.

MELODEONS, &c., &c.

GEO. HALL, at Ashtabula, Ohio, invites the attention of those desiring to purchase Instruments during the spring or summer—to the fact of his receiving a large stock of superior Styles and quality of Pianos and Melodeons for the Spring and Summer trade, on terms to suit the "hard times." We feel not a little pleasure at the frequent praise bestowed upon the superior quality of our instruments already sold and beg leave to say, that our present stock is superior to anything yet received. Remember that we buy nothing cheap for inferior, and every thing is warranted perfect. We will not have a *poor miserable thing* about us if we can help it. We want a *little* down on instruments if possible—a credit will be given of 3 and 6 months for the balance.

Old Pianos and Melodeons taken in Exchange for New!

STOOLS, COVERS, INSTRUCTION BOOKS,

&c., on hand. Young Ladies who are teaching, can have Instruments by paying a portion at the close of each term.—Those who wish to order, will be just as well served as though they were here to select. Do not fail to call and look, though you may not wish to purchase at present.

Ambrotypes,

Photographs, Melainotypes, & Daguerreotyps.

W. C. NORTH, of Cleveland, Ohio, would respectfully inform the citizens of Ashtabula, that he is prepared at all time to take, to the best style, the finest and most durable life-like pictures that may be called for. Having been engaged in this Art for a number of years and having a perfect knowledge of chemicals used in producing beautiful results, and keeping up with the times in any new or valuable improvement in his line, he is fully able to give the best of satisfaction. We are daily taking the richest Ambrotypes that can be found in the States. All are warranted durable, and will suit any who may favor us with a call. The Melainotype picture is getting to be very popular, are very suitable for locket pictures, as they can be fitted in any shaped locket or case, they make a very brilliant picture, similar to the Ambrotype. Photographs magnified to any size desired, and colored true to nature by one of the best Artists to be found. Photographs made from small pictures of living or deceased persons, and colored in oil. Numerous specimens on exhibition at my rooms, and should be happy to wait on any of the citizens of Ashtabula, that may be visiting Cleveland, whether wishing likenesses or not. All are invited to call.

Rooms open from 8 A. M., till 5 P. M., at Melodeon Hall, 77 Superior street. W. C. NORTH.

HOWARD ASSOCIATION,

PHILADELPHIA

A Benevolent Institution, established by special Endowment for the Relief of the Sick and Distressed, afflicted with Private and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual Diseases and the deceptions practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, for the year ending January 1st, 1858, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the cure of Spermatorrhoea, Seminal Weakness, Impotence, Gonorrhoea, Gleet, Syphilis, the vice of Onanism or self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhoea or Seminal Weakness, the Vice of Onanism, Gonorrhoea or Self Abuse, and other diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail (in a sealed Envelope,) FREE OF CHARGE, on the receipt of two stamps for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, diet, &c., are constantly being published gratuitous distribution, and will be sent to the afflicted.—Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, Dr. GEO. R. CALDHUN, Consulting Surgeon Howard Association, No. 2 South NINTH Street, Philadelphia, Pa. By order of the Directors.

DOCTOR MORSES INDIAN ROOT PILLS

CAUTION.

Merchants and Traders will be on their guard and not be imposed upon by a counterfeit of Morse's Indian Root Pills, signed *A. B. Moore.* All genuine Indian Root Pills have the managed signature of *A. J. White & Co.*, on each box.

DR. MORSE the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in travelling, having visited Europe, Asia and Africa, as well as North America—he spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depends upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important than that we should keep the various passages of the body free and open. And how pleasant to do that we have it in our power to put a medicine in your reach, namely Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots, from which these Pills are made is a Purgative, which opens pores of the skin, and assists Nature in throwing out the fine parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage of the lungs and thus, in a mechanical manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the Kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out beautifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only cleanse the stomach, but become united with the blood, for they find way to every part, and completely purify and cleanse the system from all impurity, and the life of this body, which is the blood, becomes perfectly healthy: consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine, which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass: thus undergoing disagreable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein, and the whole system is poisoned, and ready for disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood.—Therefore, it will be shown, especially by those who use these Pills, that they will as clearly and positively, that disease—the deadly curse—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.
