TO PHYSICIANS.

NEW YORK August 13th, 1868.

Allow me to call your attention to my Preparation of Compound Extract Buchu. The component parts are, Buchu, Long Leaf, Cubeba, Juniper Berries.

MODE OF PREPARATION.—Buchu, in vacuo, Juniper Berries, by distillation, to form a fine gin. Cubebe extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by Druggists, is of a dark color.—It is a plant that emits its fragrance; the action of a flame destroys this (its active principle) leaving a dark and glutinous decoction. Mine is the color of ingredients. The buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmecopeas, nor is it a Syrup—and therefore can be used in cases where fever or inflamation exists. In this, you have the mode of preparation.

Hoping you will favor it with a trial, and that upon inspection it will meet your approbation,

With a feeling of profound confidence,

I am, very respectfully,

H. T. HELMBOLD,

Druggist and Chemist of 19 years experience.

From the largest Manufacturing Chemist in the World)

November 4th, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

CLEVELAND, OHIO,

BEGS leave to say to his old acquaintances & patrons that having become now permanently located in this city with a large & growing trade in Pianos, &c., the reward of a quarter of a century of patient unremitting industry, supported by a strict adherence to an undeviating system of fair dealing, and having the ability now, by having constantly in store an assortment it once acknowledged the largest held by any dealer in the Union, to do the best that can be done in the trade.

We would suggest to the wise and considerate, to write us, or see us before purchasing, we can save them an amount worth looking after, and furnish them a good instrument with a valid guarantee.

Many seem to be unfortunate in auffering impositions to be practiced on them by wordy, and frequently untruthful and irresponsible traveling parties, who have no eye to their reputation or future standing, but offer at their doors a class of *CHEAP* instruments, most easily procured, and on which the greatest present profits can be realized.

Having frequent, repeated, and unpualified assurances from our former patrons of the genuineness of the instruments purchased of us in former years, we can most earnestly assure them that there first interests will be cared for in the future by offering the best the market affords, with a valid guarantee of the same, and at the most reasonable prices, whether for CASH, or in time payments. Whether bought from us or our authorized agents.

MONTHLY PAYMENT SYSTEM.

Having instituted a system of monthly or quarterly instalments for the benefit of the honest, industrious laboring classes of occupation, many can have a Piano or Melodeon at once, and enjoy its pleasures and advantages at home.

Please write us for full particulars.

THE NEW LIGHT!

J. C. CULVER'S

REFINED PETROLEUM!

SUPPLIES a Necessity, as well as a household luxury and convenience. It has been in use more than two years, and is growing in favor where ever used. It makes the neatest, and in every respect, the best light. No offensive odor, no smoke, no grease to soil garments, no danger from explosion in lamps, does not injure weak eyes, gives a softer light than Kerosene, can be used with or without chimneys, can be burned in any lamp with the trifling expense of changing burners. It is cheaper than any light, except daylight.

There never was a portable light that required so little work to keep it in order. All who use it will endorse what we say.

To Whom it may Concern:

This is to certify that after using in my house the Petroleum Fluid and putting the same to the most rigid and thorough test. I have no hesitation in saying that I consider the same, safer and cheaper, than any Fluid, or Gas, that I have used for lighting rooms, and further say that the light produced by it for brilliancy and beauty unsurpassed, and therefore cheerfully commend the same to all desiring a light in which there is safety and beauty combined.

E. G. GLEASON, Ashtabula, Ohio.

We the undersigned fully concur in the above statements by our own experience in using the Petroleum Fluid.
