FURNITURE.

A. WELCH would call attention to the large and select stock of superior

Cabinet Furniture, Chairs, Bedsteads, Mattrasses, &c. &c.

to be found at his Ware Rooms on the west side of Sandusky street, one door North of Chamberlain & Avery's Hardware Store. His stock comprises a general assortment of City Made Furniture as well as articles of his own manufacture—all which will be sold for prompt pay at the lowest possible rates.

He has also received a supply of the celebrated Dodge & Co's. *Patent Spring Bedstead*, an article that will repay a careful examination, as they are the very best spring-bottom bedsteads manufactured. Please call and see.

UNDERTAKING.

He is prepared to respond promptly to all calls in this line—will manufacture to order Coffins of any desired style—and constantly keeps on hand a supply of the best Metallic Burial Cases.

Patent Metallic Burial Cases.

This superior style of this description of casement for the remains of deceased friends is universally admired for its durability. They are being discarded for lead coffins, as in warm weather they will burst in a comparatively short time, on exposing it to the air, after interment. "True it is, the body so deposited is nothing but dust, and it is a wise and holy law of nature, that to dust it shall return; but still how much more consolatory to the surviving friends is the reflection, that this body shall be permitted to pass again into, and form a part of its native element by the aid of time and natural causes alone, instead of being immersed in water and exposed to the depredations of insects; by which the remains are consumed before their ordinary and natural decay; or how satisfactory it would be to feel assured, that it remained in the earth where it had been placed, without disturbance from the knife of the dissector, or any other human agency!!"

A HEARSE, accompanied by a careful driver, will at all times be procurable for funeral occasions.
