CHAIRS AND CABINET WARE!

THE undersigned respectfully announce to the Citizens of Delaware and surrounding country, that they have established the business under the Firm of

J. J. REICHARTS & CO.

for the purpose of manufacturing

Chairs and Cabinet Ware.

The subscriber having purchased and refitted the building situated on Sandusky street, near Delaware Run, known as the "CLENTANGY IRON WORKS," will be happy to see and wait upon his old customers and all persons wishing articles in his line. He has on hand a larger and finer assortment of

CARRIAGES AND BUGGIES

than ever before offered for sale in Delaware. The undersigned would inform his friends and customers, to whom he is so much indebted for their liberal patronage, that he is sparing no pains or expense, in order that he may furnish work in his line, of a style and quality equal to any made in the Western country, (or Eastern either). He has made arrangements by which he receives the drafts of all new styles of Carriages and Buggies, as fast as they are produced in Philadelphia and Cincinnati, and keeps experienced workmen at all the different branches of his business. He can with confidence say, that he has not a job on hand, neither will he have, which is not of

THE LATEST STYLE.

Finally he would say to his friends in times this look to *a man any where*. Having the disposition, means and ability, he will please you if you but give him a call.

All work manufactured at his establishment warranted.

M. D. COVELL.

FURNITURE.

A. WELCH would call attention to the large and select stock of superior

Cabinet Furniture, Chairs, Bedsteds, Mattrasses, &c. &c.

to be found at his Ware Rooms on the west side of Sandusky street, one door North of Chamberlain & Avery's Hardware Store. His stock comprises a general assortment of City Made Furniture as well as articles of his own manufacture—all which will be sold for prompt pay at the lowest possible rates.

He has also received a supply of the celebrated Dodge & Co's. *Patent Spring Bedstd*, an article that will repay a careful examination, as they are the very best spring-bottom bedstds manufactured. Please call and see.

UNDERTAKING.

He is prepared to respond promptly to all calls in this line—will manufacture to order Coffins of any desired style—and constantly keeps on hand a supply of the justly celebrated

Patent Metallic Burial Cases,

The superiority of this description of casket for the remains of deceased friends is universally acknowledged wherever they have been used, being air-tight, they are especially well designed for keeping a corpse in warm weather or for an unusual length of time, as well as to prevent it from the encroachments of water &c. after interment. "True it is, the body so deposited is nothing but dust, and it is a wise and holy law of nature, that to dust it shall return; but still how much more consolatory to the surviving friends is the reflection, that this body shall be permitted to pass again into, and form a part of its native element by the aid of time and natural causes alone, instead of being immersed in water and exposed to the depredations of insects, by which the remains are reduced to their ordinary and natural decay; or how satisfactory it would be to feel assured, that it remained in the earth where it had been placed, without disturbance from the knife of the dissector, or any other human agency!!"

A HEARSE, accompanied by a careful driver, will at all times be procurable for funeral occasions.

Aug. 5, 1855.—*tf.
