TRUEHEART & WOODSON,

Manufacturers of Southern Star Cotton Gin,

GERMANTOWN, TENN.,

RESPECTFULLY call the attention of the public, particularly the Cotton Planter, to their GIN MANUFACTORY, now in successful operation in this place. We deem it unnecessary to publish any testimonials of the good performance of our Gins, which many could be procured of gentlemen who are now using them—men of high reputation as planters, and would not be satisfied with any but a good gin; and we will only add that we are determined to spare no pains or means to make a Cotton Gin that will please the Planter.

In addition to the Gin we formerly advertised and sold for $30 per saw, we are now fitting up an improved style, at considerable additional expense, which we will sell at $3 50 per saw.

A sample of our Gins can always be seen at Morry, Graham & Hill's, who are our agents for Memphis.

Gentlemen Planters, send in your orders with specifications, and they shall be promptly attended to. A sufficient quantity given in every sale.

E. J. HOLMES'

IMPROVED

SEAMLESS WHALEBONE SKIRTS.

WE take pleasure in again introducing our Improved Seamless Skirt, as being the most acceptable and reliable article in market; we are aware that many new styles called improvements are before the public, such as India Rubber, Metallic Skirts, Hoop Skirts, &c., all of which we have if called for—but cannot recommend them, as we have experimented with and tested them all—(most of them two years since,) submitting them to the judgment of the Ladies to decide upon their merits, and have found them from actual use, to be in all important respects, decidedly inferior to our properly prepared Whalebone Skirts, which have now been in use for years, and for which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from our large retail trade, amounting to many thousands per day. Therefore we confidently recommended our Skirts to be the least objectionable of anything in use; possessing many advantages *found in no other Skirt*, the most important of which is our novelty of *elastic Cords* at the bottom, made from the only material that can be used, that will recover its place when pressed out of shape, will not roll nor curl, is not affected by heat or cold and can be washed without injury. These cords at the bottom, instead of bones, which are exceeding awkward and inconvenient, with our own prepared bones above and a fabric manufactured by ourselves expressly for our goods, in our estimation and the estimation of thousands who have used them, produce a Skirt, and the only Skirt equally adapted to the parlor, the street, and the crowd, giving a proper, graceful and elegant form in a Ladies' Dress; light, pliable, easily adjusted and in every respect a complete article. The public are cautioned against all imitations or other goods in lieu of Seamless Skirts. Every genuine article is stamped, E. S. & J. Holmes' Improved Seamless Whalebone Skirt, and are for sale at 99 Market street, Philadelphia, and to the principal Jobbing Houses in New York and Boston.

THE SPHEREOTYPE.

THE latest and by far the most important improvement in Photographics the recently patented picture known as the SPHEREOTYPE, which is not only new and unlike any of its predecessors, but infinitely superior to all. The Spherotype is proof against TIME, AIR and WATER, and for richness of tone, warmth of expression and distinctness has no equal—in fact the illusion is such that the picture, or image, seems suspended in air, entirely independent of the back ground.

For this picture we have the exclusive right for Memphis. Specimens can be seen in our Gallery, where pictures are also taken in the various styles by our Artist,

PROF. REMINGTON,
who combines the Chemist with the Artist, which enables him at all times to produce superior Pictures.
