CONSTITUTIONAL CONVENTION.

The people of Tennessee will be called upon to vote on the first Thursday in September next upon the question of calling a Convention "to revise, alter, or amend the Constitution of the State of Tennessee." For the purpose of bringing the subject early before the public, in order that it may be deliberately considered, we publish the following Act of Assembly authorizing the people to vote:

AN ACT to authorize the people to call a Convention to revise, alter, or amend, the Constitution of the State of Tennessee.

SECTION. 1. *Be it enacted by the General Assembly of the State of Tennessee*, That the citizens of this State, entitled to vote for members of the General Assembly, are hereby authorized to assemble at the several places of holding elections in their respective counties, and vote for or against calling a Convention to amend, revise, or form and make a new Constitution for the State.

SEC. 2. The election provided for in the first section, shall be held on the first Thursday in September next.

SEC. 3. The sheriffs of the several counties in the State shall, after giving sixty days' notice in writing in each civil district in their respective counties, and in some newspaper printed in the county, (if there be one) and if none, in some newspaper printed in Knoxville, Nashville, Jackson, and Memphis, open and hold an election, at the several places of holding elections in their counties, on the first Thursday in September next, as prescribed in this act.

SEC. 4. The elections authorized by this act shall be held and conducted under the same rules and regulations that elections are for members of the General Assembly, and the returns of such elections shall be made in the same manner, that returns are made of election for members of the General Assembly.

SEC. 5. Each voter shall write on his ticket "Convention, or no Convention," and the returns of such election having been made, the Governor and Secretary of State shall compare all the votes cast for, or against the Convention, and if it shall appear that the votes in favor of a Convention amount to a majority of the whole number of votes polled for Governor at the election next preceding the day of election for or against said constitution, *Provided*, that a majority of the entire vote so polled shall be in favor of the Convention, then, the Governor shall issue his proclamation, declaring that a majority of the votes polled, are in favor of a Convention. He shall also issue writs of election, directed to the Sheriffs in every county in this State authorizing and requiring the Sheriffs thereof, to open and hold election for delegates to the Convention, at the several places of holding election in their respective counties, on the first Thursday in November next.

SEC. 6. Each county electing one representative to the General Assembly, shall elect one delegate to the Convention, and each representative district composed of more than one county, shall elect one delegate to the Convention. Counties that elect more than one representative, shall elect the the same number of delegates, as they are entitled to elect representatives.

SEC. 7. Elections of delegates to the Convention shall be held under the same rules and regulations, as members of the General Assembly, and returns of such elections shall be made in the same manner, as returns are made for members of the General Assembly. The persons having the highest number of votes shall be declared elected delegate to said Convention.

SEC. 8. The delegates elect shall assemble at the capitol in the city of Nashville, on the first Monday in December thereafter, and proceed to the discharge of their duty. They shall receive the same compensation for their travel and services, as members of the General Assembly are entitled to receive under the existing laws of the State.

Passed March 19, 1858.

Speaker of the House of Representatives.

THE UNION Patent Circular Mill!

Cuts from 10,000 to 12,000 feet of Lumber per Day of Twelve Hours!

WE are at length enabled to inform our numerous customers that we have in perfected order the important improvement for the Union Circular Saw Mill, that we have no hesitation to pronounce it superior to anything yet offered to the public. Strong and well set, having about double the stock of wood and iron work in the same class of mill. Our long experience has taught us that if we want a first class mill, it is only to be had by a liberal outlay of labor and material. The guides for carriage are plane, and the rolls turned into one piece that the log is made to move by the mill and without play. The shaft is set up in the best style, size 3¼ inches with long bearings that we have rather strengthen the mill than weaken it.

The improved Head Blocks we have introduced commend the highest praise of practical sawyers. A large saving of time will be effected, efficiency and strength are combined in this superior Saw Mill. We will not for fear of appearing extravagant, say how many feet we have cut per hour. If the necessary help to handle a large amount of lumber is present, 1200 feet per hour of poplar, pine, walnut, &c., can be cut without taking the full capacity of the mill.

In offering these improved circular mills! the trade we do not expect to compete in price with other parties who build circular mills without regard to convenience, style or durability. But we do claim that our mills cannot be afforded, considering the amount of labor and material used in them.

The following are our lowest cash prices, which include 24 feet *carriage and train bell*, with engines and boilers of 18 and 22 horse power; and all other fixtures complete:
