

THE OREGON MIST.

SUBSCRIPTION, \$1.50 PER YEAR.

St. Helens, September 11, 1891.

THE MERCHANTS MAKE A MISTAKE.

The country newspaper is the correct place to advertise. Better results are obtained through the country press by far than through the great city dailies.

RIVER AND RAIL TRANSPORTATION.

It is now claimed by the United States engineers that there is twenty nine feet of water on the bar at the mouth of the Columbia at low tide, and that by the time the jetty is completed there will be thirty feet at low water.

HON. BINGER HERMANN, says the Roseburg Plaindealer, has received an invitation from the Ohio state central committee to speak in that state during the campaign now in progress.

The great trotting horse, Axtell, which was purchased some time ago for the sum of \$105,000, and which no one doubts as being worth that sum, in fact he could not be bought for that amount today, is assessed at his home in Indiana for the trivial sum of \$500.

AN IMPORTANT BILL.

The Royal Baking Powder Condemned by the New York Legislature.

[New York Press.] Last Monday Mr. Kelly introduced the following bill in the assembly. A careful reading of it will show that it is a very important one.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, D. C., Sept. 4, 1891. The president keeps in constant touch with the business of all branches of the government by having the members of the cabinet take turns in visiting him at Cape May Point.

CLATSkanie NEWS.

Mr. Hughes was unlucky enough to cut his hand and accommodate it by carrying it in a sling.

E. S. Bryant spent a portion of last week in Portland on lumber business.

A very gentle shower on Monday laid the dust for a short time and was appreciated.

Two families, those of W. H. Mills and W. B. Gillis have taken themselves out of Clatskanie for other fields of labor.

The lumbering business seemed rather new and not altogether attractive to them.

The city treasury received a small addition on Monday.

S. Lingren is down from Portland this week. Almost a stranger in town.

The Himpel mill is finishing up work this week preparatory to being taken down and moved to a more densely timbered section near the summit.

It has in four years at its present location saved from 2 to 3 million feet each season and the removal of the mill can be done much easier than logs can be got out and hauled to its present site.

Mr. Himpel was to have the machinery moved before the wet weather and will begin work to that end at once.

A. J. Laws came in from Milwauke on Saturday evening, spent a day or two in packing his household goods and started early this week with his wife and children and Mrs. Lowe his wife's mother for Astoria, there to embark on the Nehalem river and float down to where he has secured a claim near his mouth.

His many friends here, while sorry to see him go, wish him success at his new home and hope that if he resumes begging there he may live to keep at it and not "peg out."

A new office is going up this week in the business portion of the city and W. H. Conyers expects to reside in it in a few days.

Big game has not all left the country yet and our hunting-gentry have been exercised recently on seeing cougar and bear tracks

tion came into power every energy has been strained to get these markets back again, and now that success is in sight the members of the administration very naturally feel pleased and proud.

Special Agent H. S. Travis was to the city a portion of this week on official business. Miss Nellie Edgerton is doing duty as assistant postmaster this week.

A party of four gentlemen led by Charles Conyze took a couple of days this week to explore the best water of the Clatskanie besides the water of the Clatskanie. Besides the water of the Clatskanie, the latter having brought his camera, he bear on the falls some twelve to fifteen miles above town, brought back with him some negatives and will supply any existing gentleman for pictures of the falls.

There is no one at present in Washington who can authoritatively deny or affirm the rumor that Civil Service Commissioner Roosevelt has resigned, as he is away, and if he has resigned the resignation would be sent directly to the president who is at Cape May Point.

Secretary Foster has written a letter to the governor of Vermont accepting the appointment tendered him to serve the unexpired term of Senator Edmunds in the United States senate. His appointment as secretary will take effect November 1, the date of Mr. Edmunds' resignation, and it is presumed that he will on the last day of October retire from the cabinet, although there is a possibility that he may do so sooner.

Mr. Hughes was unlucky enough to cut his hand and accommodate it by carrying it in a sling.

Big game has not all left the country yet and our hunting-gentry have been exercised recently on seeing cougar and bear tracks

in this vicinity, looking quite fresh. One bear, in the love for something sweet, or his nose into a bee tree not far from Tich nor mill when he was discovered and killed by one of the men at Tichener's camp. Others have been seen recently but farther away from town.

Miss Nellie Edgerton is doing duty as assistant postmaster this week.
